SEED AND
PLANT CO.,

Flaming Fire Bells

FIRE BELLS (Heuchera Firelight) Did you ever look into the glowing embers of a fire and notice that bright red glow? If you have you need no further color description of this flower. The foliage forms a low mound from which grow many sprays of flowers on 18 inch stems. The flower head consists of 100 to 200 flaming red bells that appear in a seemingly endless succession. A group of three or more plants will produce flowers nearly all summer. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

For other colors see page 42

Dahlia FLOWERED "MUMS"

A new race of Chrysanthemum developed from the 'Azaleumum' or 'Cushion Mum.' It inherited its habit of growth from the parent but the shape and color of the flowers is entirely different and belongs only to itself. The flower resembles a Cactus Dahlia in form which, combined with its wine-red color, makes it the most unique development in years. Coming into bloom very early in the season and continuing until frost, it guarantees you many weeks of pleasure. Plants that will bloom this season, 40c each; 3 for \$1.00; 12 for \$3.25, postpaid.

Colorful Hardy Primroses

These colorful low-growing perennials that bloom so cheerfully at the call of spring, constantly increase in demand as their many uses become better known. Ideal for edging your perennial borders, to scatter through the rockery or tuck beneath your shrubbery. They do especially well in shaded locations where most other flowers are difficult to handle. They are perfectly hardy, even in our northern location where they require no winter protection.

The first flowers appear before the snows are gone and continue in bloom for several weeks. The color photo above speaks for itself as to its manner of growth, and at the right we have shown you only a few of the many shades and colors found in this beautiful plant. In fact you can find almost any shade or color imaginable, except blue. This fine assortment is sure to give you many weeks of pleasure in your garden. Field grown plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

4 Grand ROSES

\$1.00
Post-paid

The following described four Everblooming Hybrid-Tea Roses, which are here shown in colors, will be delivered prepaid, anywhere in the United States, for only \$1.00.

DAME EDITH HELEN. One of the finest of the older roses. The color is bright pink. The most highly perfumed rose of this color.

E. G. HILL. One of the finest roses ever introduced. Immense lasting flowers of dazzling scarlet that never fade. Long stems. Deliciously fragrant.

GOLDEN DAWN. The oval buds are sunflower yellow; suffused cerise. The large double flowers are lemon yellow when open. Richly scented.

TALISMAN. A rose of sensational appearance, combining tones of scarlet and orange-yellow with intermediate harmonious shades. One of the most popular roses ever offered.

These four thrifty, field-grown, two-year-old plants will be delivered prepaid, anywhere in the United States, for only \$1.00.

Giant Crested HOWARD ZINNIA

A marvelous strain of Zinnias, the result of crosses between the Scabiosa-Flowered class and those of the Giant Dahlia-Flowered. The blossoms average 4 to 5 inches in diameter, with full rounded cushiony center surrounded by broad guard petals. The colors are charmingly bright and fresh—almost all known colors and shades to be found in Zinnias. Magnificent shades of orange, orange-scarlet, yellow, rose, maize, and crimson predominate. As a cut flower, or for flower beds, they are without peer. A bouquet of this gorgeous new strain catches the eye at once. Pkt., 25c; 3 pkts., 50c.

Pink Flowering Dogwood

A handsome 18 ft. tree for specimen planting or grouping. Beautiful pink flowers, 3 to 3½ inches in diameter, in early spring before leaves appear. Pretty gray-green, glossy foliage turns to deep red in autumn, presenting a gorgeous spectacle. 1 to 1½ ft., \$1.00; 3 for \$2.50. 2 to 3 ft., \$2.00; 3 for \$5.00. POSTPAID.

The BURGESS GUARANTEE

WE positively guarantee all seeds and plants sold by us to be exactly as described in this catalog, and free from disease and insect pests. We also guarantee them to be true to name, and will replace free of charge any that may prove otherwise through a possible error.

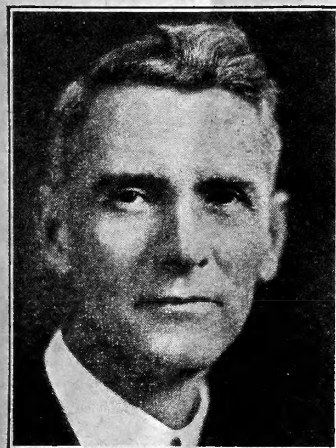

We guarantee all seeds and plants to reach you in good growing condition, so it is hereby agreed that if any shipment made to you becomes damaged through delay or other causes in transit, you will be protected against loss, provided we are notified within ten days. The life of a

plant after it reaches the planter in good condition depends entirely upon conditions over which we have no control, so we cannot be held responsible if later the plant fails. A tree, shrub or other plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds, and is subject to attacks of disease and insects. Even with Burgess' superior quality seeds and plants, success depends largely upon cultivation, soil and weather conditions. It is agreed that in no case shall the Burgess Seed & Plant Co. be liable for more than the original purchase price.

Burgess Seed & Plant Co., Galesburg, Michigan.

Use Burgess' Treated Seeds for Vigorous, Healthy Plants

For the prevention of seed-carried diseases, "damping-off," etc., plant Burgess' Disease-Treated seeds. They cost no more and often less.

CASH PRIZES FOR PHOTOGRAPHS

**of Fruits, Flowers, Vegetables and
Plants Grown from Burgess' Seed
and Nursery Stock**

For the past two seasons we have given prizes for the best photographs of our Burgess' Climbing Trip-L-Crop Tomato, and this contest has been such a grand success, we have decided to enlarge the offer this year to include the photographs of all varieties of flowers, vegetables, fruits and plants listed in this catalog.

We are always anxious to receive new and interesting photographs which could be used in our catalog. Should you or your neighbors grow some exceptionally attractive flowers or ornamental plants or fine specimens of fruits or vegetables, take a picture of them—snapshots or small kodak or candid camera pictures will do—and send the photos to us on or before October 25th, 1941. The following cash prizes will be given for the best nine photographs:

1st Prize	\$25.00
2nd Prize	15.00
3rd Prize	10.00
4th Prize	5.00
5th Prize	1.00
6th Prize	1.00
7th Prize	1.00
8th Prize	1.00
9th Prize	1.00

In addition to the above prizes we will pay \$1.00 for each photograph we use which does not win a prize.

You can grow just as good flowers, fruits, vegetables, shrubs or trees as anyone, and it costs you nothing to enter the contest. You can send as many photographs as you wish, the only conditions being that all photographs sent to us become our property to use as we see fit; that the subjects photographed be grown from seeds, bulbs, plants or nursery stock originally secured from us; and that the name and address of the contestant and the name of the variety of vegetable, fruit, flower or plant be written on the back of each photograph. The judges will be officers of the Burgess Seed & Plant Co. and the decision of the judges will be final. In case of ties, duplicate prizes will be awarded. Contest closes October 25th, 1941. The names of the winners will be published in our 1942 catalog.

More than One Million Satisfied Customers

**Thousands of Acres Required to Grow the
Seeds, Bulbs and Plants Sold by Us Each Year**

Twenty-seven years of plant breeding, research and improvement enable us to produce superior, pedigreed strains of vegetable and flower seeds that yield larger crops of better quality. And, by our scientific chemical treatment of the many varieties, more than one-half of all plant diseases are prevented.

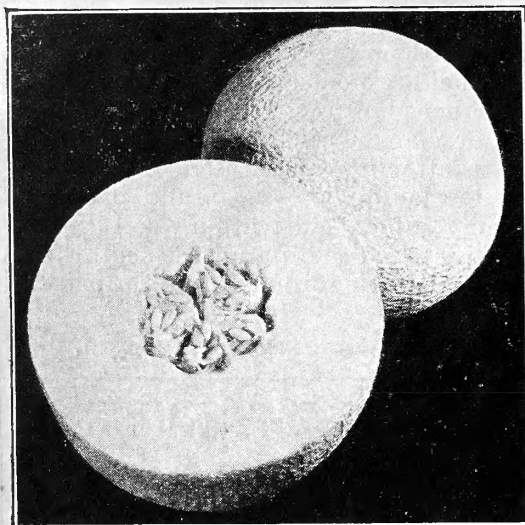

Thousands of discriminating planters in all parts of the world attribute their success to Burgess' Seeds and Plants. Time, labor, fertilizer, etc., are the greatest expenses of gardening and the cost of the seed the smallest. It costs just as much to sow poor seed or ordinary quality as it does to sow the best. Dependable service and a superior product at fair and reasonable prices account for the phenomenal growth of the Burgess Seed & Plant Co.

Burgess' seeds and plants are sold direct to the planter and not through local dealers. To insure that our customers plant only the best obtainable, you can readily see the necessity of our dealing direct with the gardener.

Main Plant of the Burgess Seed & Plant Co.

Seed Novelties and Highlights for 1941

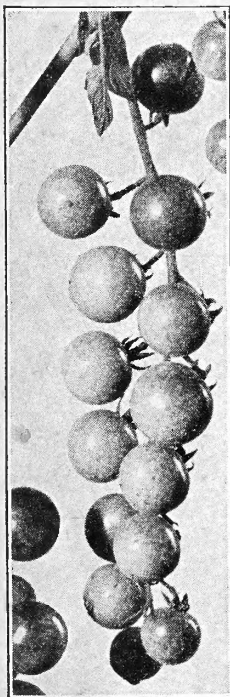

Mel-O-Dew Muskmelon

Mel-O-Dew Muskmelon

This melon was developed by the originator of Honey Rock, and was introduced by us last year. It made a big hit wherever it was offered. It is a cross between Hale's Best and Honey Dew, is early and disease resistant, especially blight resistant in hot weather. The melons are remarkably uniform in size, shape and appearance, averaging, under normal conditions, 4 to 5 lbs. in weight, 7 inches long and 6 inches across. It is nearly as early as Honey Rock—only about 5 days later—and a great yielder with strong, sturdy vines.

In appearance, Mel-O-Dew is strikingly beautiful and so distinctive it stands out from all other varieties. It is smooth but overlaid with a faint, firm, silvery netting. The flesh is golden orange, extremely deep and good clear to the rind. The flavor is mild, similar to Honey Dew, sweet and delicious—never strong or musky. The melons are so solid they keep in perfect condition for a long time and are unsurpassed for shipping. We can recommend Mel-O-Dew for both the home gardener and market grower. Pkt., 15c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00, postpaid.

Sugar Tomato

SUGAR TOMATO

12% to 14% Sugar Content

The introducer of this tomato claims that it is the sweetest of all tomatoes, containing more than 12% sugar. Nothing like it ever before. Note the beauty and symmetry of the long racemes of fruit, often two feet in length. Smaller than regular tomatoes, but their superb sweetness and appearance make the Sugar Tomato one of the finest vegetable introductions in years. Bears enormously and is in a distinct class for dainty dishes, salads, sauces, juice, etc. Be first to have it in your locality. New, extremely rare and unusual. Pkt., 20c; 3 pkts., 50c.

Rock O'Honey Muskmelon

This new melon, seed of which we offer for the first time, is an improved type of Honey Rock, and is distinctly superior in several important respects. The most valuable characteristic of Rock O'Honey is its freedom from blight, causing the vines to remain green until frost. This allows most of the melons to mature normally, so that they are well netted, of good size and of splendid quality. Because practically all the fruits mature, it is an extremely heavy yielding variety. The fruits are slightly elongated or oval in shape and all are well covered with a medium coarse netting. The flesh is much deeper than found in Honey Rock and the fruits are heavy and very solid, making it an ideal shipping sort. Its season of ripening is the same. Rock O'Honey was developed by the originator of Honey Rock, who considers it so much better that he now grows it exclusively. Other large growers and shippers who have tried Rock O'Honey are also thoroughly "sold" on it. Everyone who has tried it is very enthusiastic over this fine new variety and we believe it is destined to be the leading variety of this class. Pkt., 15c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00, postpaid.

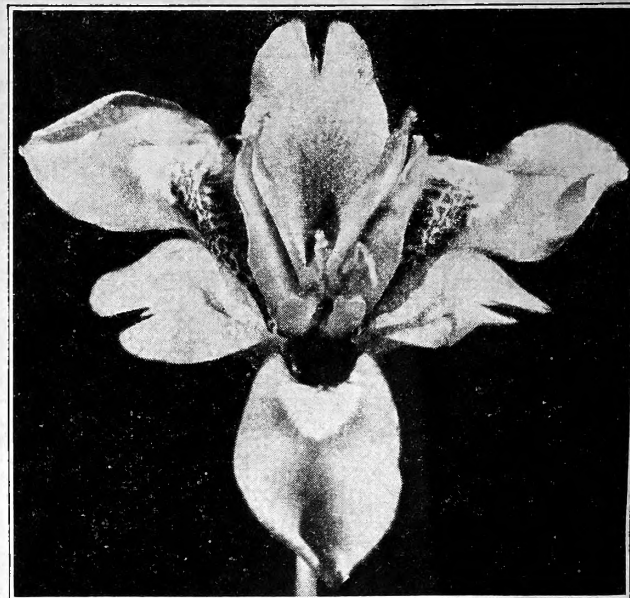

CHINESE SALAD BEAN

Chinese Bean Sprouts Are an All-the-Year-Around Salad

A delicious bean that is used for bean-sprouts and served in chop suey and salads in the finest Oriental Cafes. Chinese Bean Sprouts are an all-the-year-around salad. Enough for a good sized family can be grown in a small dish or pan in the kitchen in only 5 days. You can have these fresh sprouts in the winter as well as in the summer. This bean also is unexcelled for soups. Pkt., 10c; ½ pt., 25c; pt., 45c; qt., 80c; 2 qts., \$1.50, postpaid. By express, not prepaid, 5 lbs., \$1.30; 10 lbs., \$2.50.

CHESTNUT BEAN

This wonderful chestnut-flavored bean is one of the most delicious grown. Grows in the form of a tall bush, and completely covered with pods. For soup and turkey stuffing it cannot be surpassed. Popular in Spain, where it is known as the "Garbanzo." Pkt., 10c; ½ pt., 35c; pt., 60c; qt., \$1.00; 2 qts., \$1.80, postpaid. By express, not prepaid, 5 lbs., \$1.75; 10 lbs., \$3.40.

Vesper Iris

6,450 BLOOMS

on 2 Vesper Iris Plants

The beautiful filigree of graceful branches of the Vesper Iris is studded with from one to two hundred jewel-like flowers, truly a mammoth bouquet. The delicately colored blossoms, which at a little distance resemble somewhat a multitude of gorgeous butterflies at rest, with motionless outstretched wings, vary in color, including such hues as cool translucent lavender, with markings of mahogany, copper, lemon, orange, brown or tyrian.

The Vesper Iris, which often attains over four feet in height, has a graceful ethereal beauty really impossible to describe. It is perfectly hardy and will endure both severe cold and intense heat with impunity. This little known but most desirable iris will enhance the beauty of your garden with its delicate blossoms in the latter part of July and during August, sometimes continuing to flower even until September, filling the gap between the late Tall Bearded varieties and the Fall Bloomers.

Mrs. T. W. Barnes (Oklahoma) reports 6,450 blooms on 2 Vesper Iris plants one year after planting—60 to 225 blooms per day from July 17 to August 29.

Don't fail to include some Vesper Iris plants in your next order. You will be delighted with them. Blooming size plants, 25c each; 3 for 50c; 12 for \$1.85, postpaid.

VELVET BEANS FOR THE NORTH

Velvet Beans make an enormous growth, and as a soil-improver they are considered superior to cowpeas. In addition to adding a wealth of nitrogen to the soil, they are very valuable as a green-manure crop. The wonderful growth of vines assures an abundance of pasture which outyields either cowpeas or soy beans. As a cow feed, it is claimed that two pounds of Velvet Beans in the pod will be found equal for milk production to one pound of cotton-seed meal.

Velvet Bean seed should not be planted until the ground has become warm. Plant 15 to 30 lbs. of seed per acre, in rows 5 feet apart and 2½ to 3 feet apart in the row.

Velvet Beans can also be grown with corn. The corn should be planted in 5-foot rows and 3 feet apart in the row. The beans are planted between the hills, and when given the last cultivation are also planted between the rows. Frequently stock is turned into the field and no attempt made to harvest the corn, and sometimes the ears are pulled from the stalks before the animals are turned in to graze.

For best results Velvet Bean seed should be inoculated. We, therefore, send with each order for Velvet Bean seed sufficient bacteria for a thorough inoculation of the seed.

BURGESS' EARLY VELVET BEAN SEED—Trial packet, together with inoculation, 15c; pint, 30c; qt., 50c; 2 qts., 90c, postpaid. By express, not prepaid, 5 lbs., 75c; 10 lbs., \$1.25; 25 lbs., \$2.00; 100 lbs., \$7.00. Remember, we supply fresh Inoculation Bacteria with each order for seed.

**Burgess' Early
Velvet Bean
the Great
Soil-Builder**

KUDZU

the great Forage Crop and SOIL BUILDER

Plant Kudzu on your non-productive, rough, hilly ground and transform it into one of the most profitable portions of your farm.

Kudzu is proving to be a Godsend to owners of poor land. It is a perennial legume, contains more protein than alfalfa or wheat bran, and succeeds on land too poor for alfalfa. It is perfectly hardy in the Northern States, and can be grown almost anywhere, but the South is where it thrives to perfection. It is adapted to all kinds of well-drained soils, and will succeed in practically any land not water-soaked and not a desert. It is our honest opinion that Kudzu enriches non-productive, barren hillsides more rapidly and more permanently than they can be improved in any other way.

As an indication of the popularity of this fast-growing legume for erosion control, grazing and hay production, farmers cooperating with the Soil Conservation Service in its erosion control program, have planted Kudzu on thousands of acres of eroded land not suitable for row-crop production. The manner of growth prevents the soil from washing, and the roots penetrate so deeply as to make it proof against dry weather. Kudzu rapidly improves the soil by drawing nitrogen from the air. Poor, worn-out land soon regains its fertility and becomes richer every year.

Kudzu makes a good permanent pasture. It has never been troubled with disease or insects. As a hay crop, one or more cuttings can be made each year in the North, and from two to four in the South. Instances are known where four cuttings of hay, averaging 2½ tons per cutting, have been made, making a total yield of ten tons per acre in a single season.

Kudzu does not have to be cut at any certain time to save it, and may await the convenience of the farmer. It cures quickly, retains its bright green color, and the leaves do not drop off. A shower of rain does not ruin the hay. It can be harvested when weather conditions are unfavorable for other hays and will yield a fine quality of hay, often when continued showers and dampness would ruin any other legume hay.

KUDZU FOR COWS Growers report that when fed to cows, Kudzu produces more milk than from any other one feed.

KUDZU FOR HORSES It is not injurious to horses and is perfectly safe for all stock, when fed either green or dry. Does not cause sickness of animals even when overfed.

KUDZU FOR POULTRY When moistened, Kudzu hay becomes almost like fresh foliage again and makes an excellent green ration for poultry, rabbits, etc., in the winter.

Kudzu should be given cultivation the first season. A full crop of corn, a good crop of potatoes or any other similar crop may be raised on the same land the first year, so the farmer does not lose the use of the land. After the first year no cultivation is needed, as the plants will cover the ground and take root at the joints

A Field of Kudzu

after the manner of strawberries, growing so rapidly as to choke out weeds and other plants. In spite of this manner of growth, it is an easy matter to get rid of Kudzu if desired, for it has a peculiar habit of neither blooming nor bearing seed under field culture, and the plants will sprout only from the crowns and can be killed by cutting off these crowns with a disk plow in hot, dry weather. When the crowns of Kudzu roots are cut off and exposed to sunshine for half a day or so they are killed, and the roots decay. Another method of eradicating Kudzu in case one desires to put a field back into intertilled crops, is to plow late in the fall, and plant the following spring to corn, beans, potatoes or any other crop that can be given careful cultivation. While Kudzu will stand more abuse than almost any other plant, it is much more easily eradicated than alfalfa if one wants to get rid of it. Kudzu absolutely cannot become a weed pest.

Growers are now propagating it almost entirely by transplanting young plants from old Kudzu fields. They prepare the ground the same as for a crop of corn and set plants 5 to 10 feet apart each way. While it is a common, everyday matter for a man to set out a number of acres of cabbage, tomatoes, tobacco or sweet potatoes, setting each plant by hand, it is rather a shock at first to consider putting out a hay or pasture field in this manner. When we come to scrutinize this objection, however, it seems to vanish into thin air, for the common practice of setting the plants ten feet apart calls for only about 450 plants to the acre. This is a job not nearly so expensive as seeding an acre of alfalfa; especially is this so when we take into consideration the fact that Kudzu does not have to be fertilized or limed.

Prices of Kudzu Seed

Don't make the mistake of buying anything but the best Kudzu seed obtainable, and be sure that seed is inoculated. Our seed is put up in sealed packages only and guaranteed to be the best that can be produced. With each order we will send complete cultural directions and sufficient bacteria for a thorough inoculation of the seed. Package, 50c; 3 packages, \$1.00; 8 packages, \$2.00; 12 packages (enough for one acre), \$3.00; 25 packages, \$5.00, postpaid.

Kudzu Plants

The Kudzu plants we have to offer are strong, self-inoculated field grown roots and are sure to give satisfaction. The setting of such plants insures getting a good start without delay.

Plants should be set out in the early spring. Our supply of plants is limited, and as there is going to be an enormous demand for them this season, we recommend that our customers place their orders as soon as possible. If you will send your order early we can keep the plants for you until planting time.

PRICES—12 for \$1.50; 25 for \$2.50; 50 for \$4.00; 100 for \$7.00; 250 for \$15.00; 500 for \$27.50; 1,000 for \$50.00. Plants delivered prepaid to any part of the United States at these prices, and guaranteed to be healthy, hardy, field-grown roots.

ENORMOUS
YIELDS

Drought-Proof Proso

The Dryland
Wonder Grain

GROWS
ANYWHERE

The Most Profitable Catch Crop. Matures in 60 Days.
Can Be Planted Later and Will Stand More Dry Weather Than Any Other Grain.

Drought-Proof Proso was introduced from Siberia several years ago and after many tests has proven to be one of the most dependable and profitable farm crops. It will grow anywhere, North, South, East or West, in wet or dry weather, and on all kinds of soil. In 1933, when thousands of acres of grain were burned up by the extreme drought, this strain of Proso saved the day. Many farmers would have grown no winter feed at all had it not been for this wonderful grain. Though it does best when sown in June, it may be sown as late as July 15th and still mature a good crop. It produces as high as 70 bushels to the acre, of grain weighing 60 to 65 pounds per bushel.

The Ideal Feed for Poultry, Hogs, Cattle and Sheep. May Be Fed Without Threshing

Proso makes a splendid feed when fed whole or ground, for all kinds of live stock and poultry. Farmers claim it will fatten hogs or cattle better than corn and that chickens lay better when fed Proso, and prefer it to other grains or mash. Proso makes a splendid mash when ground alone. When fed to poultry with corn or oats the ratio should be four parts Proso to one part other grain. It may be fed without threshing as the kernels are readily removed by chickens and eaten with the hay by other stock, or it may be fed as clean grain from the thresher. Its forage in any stage of growth, or as hay, is not at any time injurious to live stock. Proso straw, which usually remains somewhat green, even though the grain is ripe, makes a good hay for winter feeding.

The seed of Drought-Proof Proso is round and several times the size of millet, growing in a sprangly head resembling oats. The inner color of the grain is pure white and should not be confused with the colored Prosos or so-called hog-milletts. Drought-Proof Proso has been selected for its white color, larger kernels and greater productive-

Drought-Proof Proso is unlike any other grain because of its extreme drought resistance, together with the fact that it takes only 60 days to mature a crop, and needs only one good rain to produce a crop. It may be planted on high, dry soil that is not suitable for other grains. It is especially valuable as a summer catch crop, something that may be planted on land which has had an early crop removed, or ground that has been drowned out and not in shape to work until late in the season. In the South it will produce two good crops in one year.

Sow from 20 to 30 pounds of seed to the acre for best results.

PRICES Sample packet, 10c; ¼ lb., 20c; lb., 50c; 2 lbs., 80c; 5 lbs., \$1.50; 10 lbs., \$2.40, postpaid. By express, not prepaid, 25 lbs., \$2.50; 50 lbs., \$4.00; 100 lbs., \$7.00.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

A Bundle of Proso

BURGESS' DISEASE-RESISTANT TOMATO SEED

One ounce of Tomato seed will produce about 2,000 plants.

Tomato seed growing is one of our specialties. Climatic conditions here in Michigan are conducive to freedom from disease, to the production of fruit instead of vine, and to early maturity. Our strains keep these tendencies to a marked degree when planted elsewhere. Our seed is also chemically treated against disease. A trial will convince you of the superiority of Burgess' Tomato seed.

BISON Earliest Tomato

Bison is an extra early tomato, developed at the North Dakota Experiment Station. It is self-pruning or determinate in growth. In place of wasting its vitality in continuous branching, as do most other tomatoes, Bison grows a compact plant and puts all its energies into producing and ripening a heavy and extra early crop of smooth, solid, meaty, medium sized red tomatoes. Do not prune

Bison plants. We consider this variety to be the earliest of all tomatoes. Its earliness, productiveness and superb quality make it one of the most profitable market varieties, and an excellent home garden sort. It is the most dependable dry weather variety for it always will pollinize despite high summer temperature. Due to its dwarf, non-branching habit, the plants may be set in the field as close as 3 feet apart. Plants may be started early inside and transplanted to the field in full bloom without retarding their growth or yield.

COLOSSAL the Largest Tomato

This is the largest of all Tomatoes, being even larger than the famous Ponderosa. Many planters, in different parts of the country have grown Colossal Tomatoes weighing over 3 lbs., and some more than 4 lbs. Not only does the Colossal produce giant fruits, but it produces them in abundance. The very thick, meaty flesh, few seeds, and mild flavor combine to give the Colossal a quality on a par with its immense size. Unsurpassed for slicing or canning.

YELLOW COLOSSAL

The largest yellow Tomato; just like Colossal except in color, which is a beautiful golden yellow.

BEEFSTEAK

Largest of all bright red tomatoes; nearly as large as Ponderosa; solid, meaty fruits

which will cut into thick ruby slices of unsurpassed flavor and quality. Many of our customers who have tried it report it to be the most delicious Tomato they have ever eaten.

Burgess' Earliest and Best

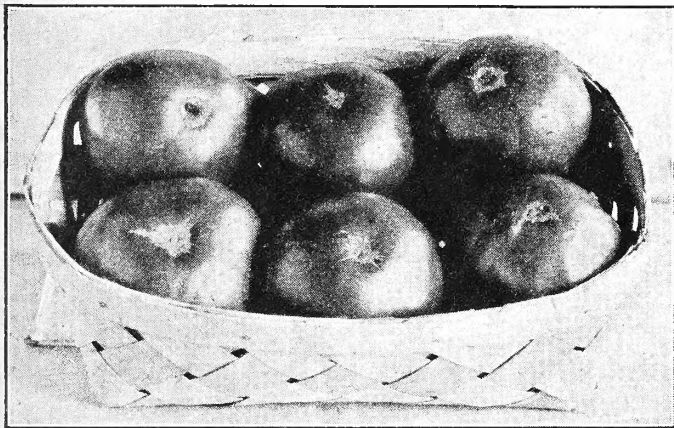

We believe Burgess' Earliest and Best has more good points than any other tomato. It is of the John Baer type, and might be termed an extra-early improved strain of that variety. Large, solid, meaty, beautiful, bright red, perfect, high crown tomatoes, entirely free from core. Tremendous yield; continues to bear over a long season. Planters everywhere tell us it is the nearest perfect of any tomato grown, with no cripples, no blight, and no wrinkled or one-sided, uneven, scarred fruits.

PONDEROSA

With the exception of Colossal, this variety is the largest Tomato grown; pink; very few seeds; excellent quality.

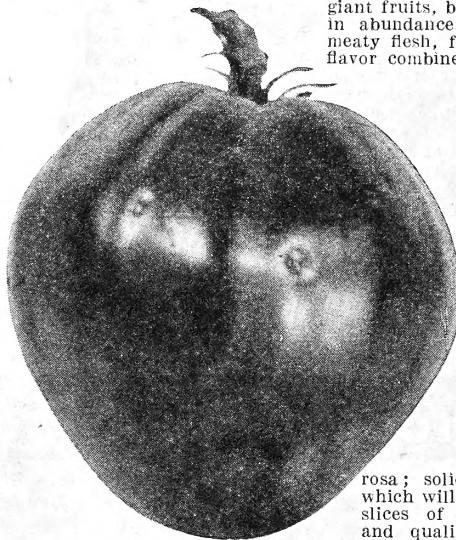

Bison

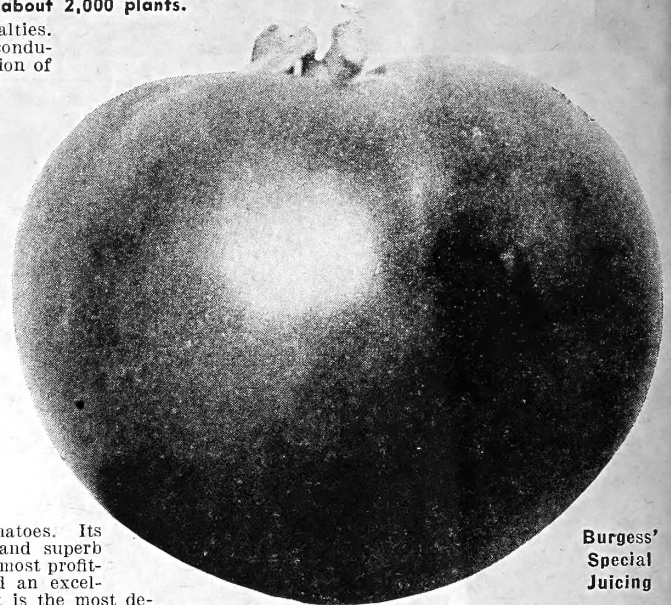

Colossal

Giant Oxheart Tomato

Oxheart is truly a giant among tomatoes. It is smooth, thick, tender and almost seedless; frequently showing two inches thick without a seed cavity. Three pound specimens are quite common. A pink tomato with a delicious mild flavor that every lover of this fruit likes. For quality it is unexcelled, and, as it becomes better known, it is sure to be one of the most popular tomatoes yet introduced.

Giant Oxheart

Burgess' Special Juicing

Burgess' Special Juicing

Nothing finer for juicing. Its remarkable feature of ripening from the inside out causes the fruit to be ripe clear through when scarlet on the outside. The fruits are large, averaging 8 ounces. Starts ripening a few days earlier than Bonny Best and continues to bear throughout the season. Its small seed cavity and solid, juicy meat make Special Juicing unsurpassed for slicing, and is suitable for shipping long distances if picked when not too ripe. This heavy yielding variety is free from stem-end cracks and is dependable under the most adverse conditions.

BREAK O'DAY (Early Wilt-Resistant)

The earliest disease resistant, globe shaped, scarlet fruited tomato. It ripens about two weeks earlier than Marglobe, fruits are of the Marglobe type, and possess all the wilt and disease resistance of that variety. Fruits are solid and meaty, with but few seeds, very little acid, and deliciously sweet. It not only starts bearing early, but is an abundant yielder throughout the entire season.

Burgess' Special Earliana

Our select Market Growers' Strain is without question the choicest stock of Earliana on the market. It is earlier, more productive and more uniform than other strains of Earliana. Market and home gardeners will find nothing better for an early, medium-sized, bright-red Tomato. Fruits average 5 ounces.

Burgess' Special Marglobe

Our Market Growers' Strain of Marglobe is the aristocrat of all Tomatoes. It is undoubtedly grown more than any other variety. A tremendous yielding main-crop sort, a few days earlier than our Standard Marglobe, slightly smaller and more uniform. Ideal for the Green-Wrap Trade and unsurpassed for canning. Fruits average 6 ounces.

MARGLOBE

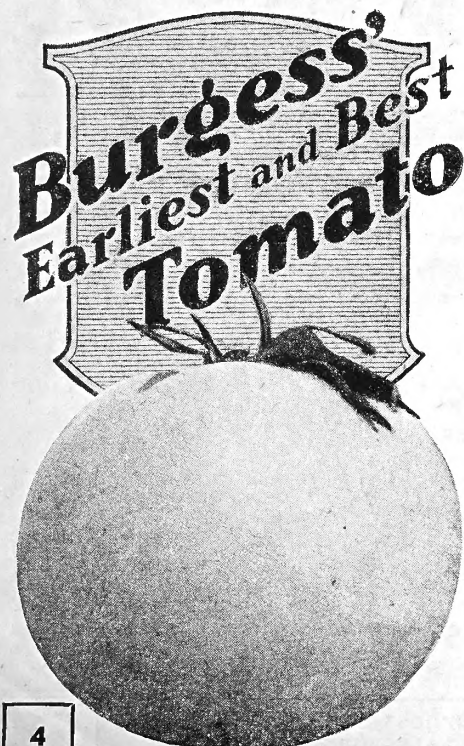

A wonderful variety which is resistant to nail-head rust and fusarium wilt. Ripens about 2 weeks later than Earliana; large, perfect globe-shaped fruits of a beautiful scarlet color. Its spreading habit of growth enables it to bear in great abundance.

JUNE PINK

The earliest pink variety. Only 2 or 3 days later than Earliana, but larger, and of better quality.

MICHIGAN GROWN TOMATO SEED IS THE BEST

We Don't Buy Our Seed from Other Growers and "Just Hope" It Will Be Good. We Grow Our Own Tomato Seed and Know It Is Good

Burgess' Climbing Trip-L-Crop Tomato

Often Produces 2 to 3 Bushels from One Vine

Burgess' Climbing Trip-L-Crop Tomato Grown by J. T. McKean

In spite of the poor growing season, Burgess' Climbing Trip-L-Crop Tomato broke all records last year, and amazed growers everywhere.

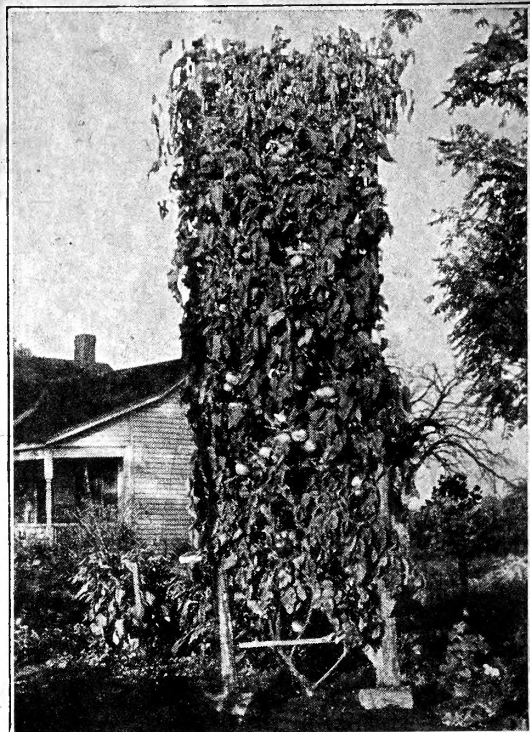

Burgess' Climbing TRIP-L-CROP Tomato is a variety with many superior qualities. Vines grow rapidly to a height of 10 to 18 feet (sometimes more than 20 feet), and the beautiful, large crimson fruits average $3\frac{1}{4}$ inches across and $2\frac{3}{4}$ inches deep, with some as deep as $3\frac{1}{2}$ inches and as wide as 5 inches across. The fruits are solid, with the meaty center surrounded by small seed cells which are separated by solid divisions, which makes the tomato unexcelled for both shipping and eating qualities. It is free from blight and disease and drought resistant. It is the most productive of all tomatoes. Two or three vines will produce enough fruit for an average family. It is not uncommon to pick more than two bushels of ripe tomatoes from one vine. Pkt., 15c; $\frac{1}{2}$ oz., 50c; oz., 85c; $\frac{1}{4}$ lb., \$2.75; lb., \$10.00, postpaid.

Last year we offered prizes for the best photographs of Burgess' Climbing Trip-L-Crop Tomato. The following were the prize winners:

- 1st Prize (\$25.00). J. T. McKean; 2344 State St., Granite City, Ill.
 2nd Prize (\$15.00). Anton L. Gomes, R.F.D. 1, Gustine, Calif.
 3rd Prize (\$10.00). Edward Evans, R.F.D. 2, Winchester, Ky. (See photograph. Picked 1 bu. ripe tomatoes and left 2 bu. of green ones on this vine; some weighed almost $2\frac{1}{2}$ lbs. each.)
 4th Prize (\$5.00). J. M. Griffin, Chandler, Tex.
 5th Prize (\$1.00). S. V. King, R. 2, Cullman, Ala.
 6th Prize (\$1.00). C. S. Lumkin, Gray, Ky.
 7th Prize (\$1.00). Eli Deane, R.F.D., Jasper, Mo.
 8th Prize (\$1.00). Mrs. Julia B. Kern, R.F.D. 2, Ewing, Ill.

There were five ties for 9th Prize (\$1.00), so we sent \$1.00 to each of the following: Louis H. Werwille, R.F.D. 1, Huntingburg, Ind.; Mrs. F. Branch, 1613 E. Main St., Mankato, Minn.; Green F. Golden, R.F.D. 1, Hope, Ark.; C. Peyronet, Box 163, Shelburn, Ind.; J. R. Tourangeau, 308 E. Washington St., Hoopston, Ill.

Prize winners' vines measured 12 to 22 feet in height—averaged about 18 feet high—with reports of 2, 3 and 4 bushels of fruit from one vine. This contest created so much interest among gardeners, we decided to offer a bigger and better contest for 1941. See page one for full particulars.

Photograph of Burgess' Climbing Trip-L-Crop Tomato Grown by Edward Evans, Winchester, Ky.

BONNY BEST SELECT MARKET STRAIN

Our select Market Strain of Bonny Best is the finest on the market, being earlier, larger and more productive than Standard Strains. The smooth, scarlet fruit is practically free from cracks and of fine flavor. Fruits average 5 ounces and are about a week later than our Special Earliana.

Rutger's Wilt Resistant

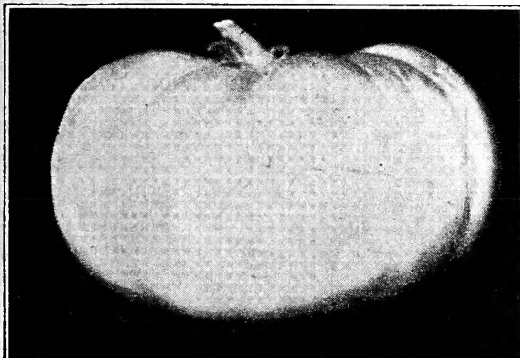

A main crop Tomato developed at the New Jersey Agricultural Experiment Station. Produces a large plant with an abundance of foliage to protect the fruit from sunscald. The fruits are medium to large, similar in shape to Marglobe, but more flattened at the stem end; bright red, smooth, with thick walls and small seed cells. Ability to ripen from the inside out, leaving the interior free from fiber, and its low acidity, makes Rutger's an outstanding variety for canning.

WILT-RESISTANT STONE

If you are bothered with wilt in your locality, you will be interested in this wilt-resistant strain of the old reliable Stone. Large, bright red, very firm, solid, perfectly smooth, main crop tomato. Very fine flavor; excellent for canning.

MATCHLESS One of the best large-fruited main-crop Tomatoes for home use, nearby markets and canning. Vines vigorous, extremely productive and continue to bear until frost. Fruits of rich scarlet-red color, half flat, ovoid, smooth, very meaty and solid, free from cracks or other irregularities, and noted for their excellent long-keeping qualities.

GOLDEN QUEEN Leading yellow Tomato. Less acid than red varieties.

White Beauty Tomato

The White Beauty Tomato is ivory-white in color and the flesh is almost paper white. It is of large size and of excellent quality for slicing, canning and juice. It contains absolutely no acid, so can be eaten by thousands of people who have heretofore avoided Tomatoes on account of the acidity. Pkt., 10c; 3 pkts., 25c; $\frac{1}{2}$ oz., 60c; oz., \$1.00, postpaid.

Pride of the Market

Very early, only a day or two later than Earliana, but considerably larger and of much superior quality. An extra-solid, beautiful scarlet tomato. Especially recommended for the Northern States and for growing on heavy soils. As a market and shipping variety it has no superior.

Michigan State Forcing

Developed at Michigan State College. In addition to being an ideal main-crop garden variety, it is an ideal variety for greenhouse and soilless agriculture. Its self-fertilizing characteristics insures a heavy setting of perfect globular-shaped fruits averaging $4\frac{1}{4}$ ounces each. The bright red fruit is firm, meaty and practically free from blemishes. The thick outer wall of the fruit makes this variety unsurpassed for long-distance shipping, and it has wonderful keeping qualities. It may be allowed to ripen on the vines without loss to the grower. The grower who wants the best will make no mistake in planting Michigan State Forcing.

Scarlet Topper (Pritchard)

The last variety introduced by the late Dr. Pritchard, originator of Break O'Day and Marglobe, and considered his best. Plants are sturdy, compact and leafy due to close-jointed stems, and are wilt resistant. Fruits are globe shaped, absolutely smooth, brilliant red, and of uniform size and quality. Flesh is thick and seed cavities small, making for heavy, solid fruits. Seldom cracks, and yields of 15 tons and over per acre are common. Often produces 10 or more fruits in one cluster, all of the same size and ripening together.

A profitable market and canning variety, due to earliness, uniformity, and quality, and an ideal home variety because of its self-pruning habit of growth, requiring less space per plant. Ripens only a few days after the first early varieties.

JOHN BAER Popular early variety. Usually ripens in about 90 days on our Michigan farms. Fruits nearly round, uniform in shape, smooth, and without core. An excellent shipper and one of the most productive.

Small Preserving Tomatoes

The following miniature Tomatoes are named for their resemblance to the various fruits and are very ornamental, as well as delicious in salads, preserves and pickles: Red Cherry, Red Pear, Red Plum, Yellow Cherry, Yellow Pear, Yellow Plum. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c; 6 pkts., one of each, for 30c.

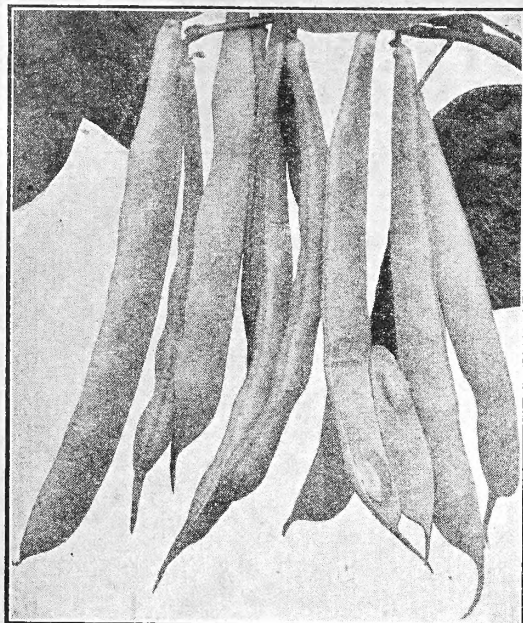

SMALL FRUITED IN MIXTURE. A mixture of the above six small fruited varieties. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c, postpaid.

GROUND CHERRY Also called Winter Cherry and Husk Tomato. While it is not a true tomato, it belongs to the same family and is grown in the same manner as tomatoes. The small yellow fruits are borne in husks. They are delicious either raw or cooked, and when dried in sugar, are as good as raisins for cakes and puddings. For preserves and pies they are excellent. Easily grown on almost any soil, and are prolific bearers. Fruits will keep nearly all winter if stored in a cool place. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c, postpaid.

The best Tomatoes come only from the best seed and the maximum profit comes only from the best Tomatoes. Seed of poor quality produces plants of similar value. A small difference in the seed may cost you many dollars in profits. Burgess' Tomato Seed is your best assurance of a bountiful crop of highest quality fruits.

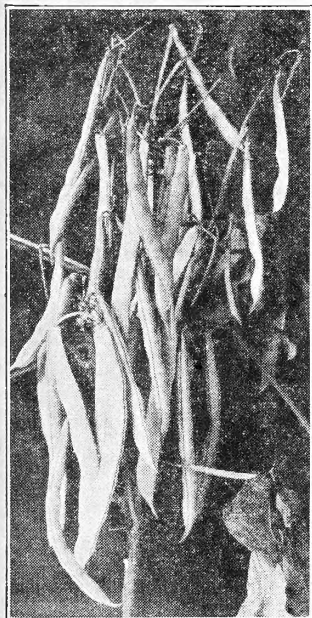

Bountiful

Earliest Wax Bean

Early Wonder Wax

RUST PROOF—STRINGLESS

Early Wonder Wax is the earliest bean. Ready to pick in 40 days. A bountiful yielder which continues bearing for a long season. Plants 18 inches high and 2 feet across. Pods 5 to 7 inches long, flat, plump, handsome and meaty, of a clear, waxy-yellow color, tender, brittle and of fine texture. Practically rust-proof. An ideal bean for the home garden and a real money maker for the market gardener.

Early Wonder Wax

INOCULATE BEANS

for Best Results

Inoculating bean seed hastens maturity, increases the yield and enriches the soil. Inoculation for Beans only, half bushel size, 25c; bushel size, 35c; 5 bushel, \$1.50, postpaid.

Garden Culture. Good for Beans, Peas and Sweet Peas. Sufficient for 6 lbs. of seed, 10c, postpaid.

Northern Grown Beans

Our Northern Grown Beans are the best that can be produced. Our stock of seed is selected with extreme care, and the growing crops carefully rogued several times each season. The following list comprises the best of their respective types.

DWARF GREEN-PODDED BEANS

ONE PINT OF SEED FOR 75 FEET OF ROW

Burgess' Special Stringless (Rust-Resistant Green Pod)

53 days. Burgess' Special Stringless is an improved strain of Burpee's Stringless Green Pod. It is a much better yielder with darker, straighter and more slender pods, fully seven inches long. This fine quality variety is entirely without strings or fiber and holds snap bean stage longer than the Burpee type.

BOUNTIFUL 48 days. Bears continuously for several weeks, being the first to give pods fit to pick in the spring. Under favorable conditions of soil and season this variety has been known to bear one bushel of pods per 15 feet of row. The pods are long, flat, slightly curved, tender, of delicious flavor and practically stringless.

PLENTIFUL (Black Seeded Bountiful). 51 days. A very attractive bean of fine quality. Long, medium deep green, straight, flat, meaty pods which are strictly stringless at all stages. The dwarf, upright plants are strong and robust, even under conditions not favorable for best results, producing large yields.

"Full Measure" Stringless

One of the very best round podded, stringless, dwarf green beans in existence, and on account of its superior quality, it is especially desirable for the home garden. It begins to bear in 52 days, and the heavy pods continue producing throughout a long season. Very productive; pods average 6 inches long, fleshy and absolutely stringless.

TENDERGREEN 52 days. Delicious, fine-flavored snap bean. Very popular with market growers because it yields a heavy crop of early beans. Its ability to continue to bear throughout the season makes it an ideal home garden variety. The pods are light green, of handsome appearance, grow 7 inches in length, and are round, extremely meaty and tender. Even when fully grown they are absolutely stringless. The plants make a strong and vigorous growth and are remarkable for their large yields of long straight pods.

BURPEE'S STRINGLESS GREEN POD. 53 days. Round-podded, prolific sort, stringless, pods 5½ inches long, and of excellent quality; rust resistant.

Dwarf Wax-Podded Beans

ONE PINT OF SEED FOR 75 FEET OF ROW

Burgess' Special Golden Wax 48 days. Rust resistant. A selection from Rust-proof Golden Wax. A few days earlier and more productive. The pods are 6½ to 7 inches long and entirely stringless. Its long bearing period makes it ideal for home gardens and market growers.

RUSTPROOF GOLDEN WAX. 50 days. Heavy cropper; pods of good length, flat and quite thick; clear, waxy, golden yellow color; stringless, and of fine buttery flavor.

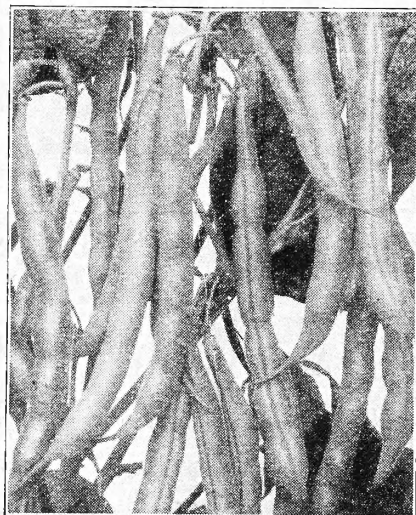

DAVIS STRINGLESS WHITE WAX. 52 days. Pods about 6½ inches long, very straight, waxy-yellow. Owing to fine appearance, will bring the highest price on the market. Popular for canning, as beans are pure white. Used both as a snap bean and as a dry shell bean; fine for baking. Very productive.

BRITTLE WAX or ROUND POD KIDNEY WAX. 52 days. Handsome, round, extremely fleshy pods of waxy yellow. Brittle; always stringless and tender; prolific.

PENCIL POD BLACK WAX. 52 days. The finest strain of Black Wax yet introduced and of the very best quality. Round pods 6 to 7 inches long and of uniform rich yellow color; entirely stringless, brittle, tender, meaty, exceedingly fine grained and without fibre. Bears profusely and throughout a long season. Rust resistant.

SURE CROP STRINGLESS or Bountiful Wax

53 days. Attractive, rich yellow pods of finest quality, 6 to 7 inches in length, slightly curved, and very meaty and sweet. Perfectly stringless at all stages. The seeds are black when ripe. Valuable for its earliness, productiveness and disease-resisting qualities.

Full Measure Stringless

BUSH LIMA BEANS

One pint of Lima Beans plants 100 feet of row

BURPEE'S IMPROVED BUSH. The largest of all Bush Limas, bearing pods almost equal in size to those of the large Pole Limas. Pods 5 to 6 inches long by 1¼ inches wide and the full size beans are of luscious flavor.

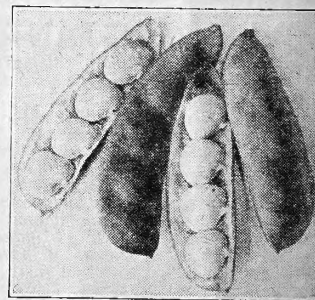

Fordhook Nearly as large as Burpee's Improved and about a week earlier. Extremely prolific, with large, thick, meaty Beans of delicious quality. Shell easily and remain green a long time.

HENDERSON'S BUSH. The earliest Lima grown and continues to produce until killed by frost. Will produce an abundant crop under a wider range of weather and soil conditions than any other Lima. Beans not large, but quality is excellent. Our Michigan grown seed is a week earlier than Western or Southern seed.

McCrea's Bush or Baby Fordhook

Baby Lima but Bean large, thick, Potato type. Will stand cold and wet weather in the spring and extreme heat in summer much better than other large-seeded Limas. Green-seeded, retaining a green tint when cooked. Very prolific—pods in a crown setting with three to five Beans in a pod. An ideal home-garden Lima. Dry Beans, when cooked, swell to same size as the green Beans, retaining the sweet flavor, thus being an exceptionally fine dry Lima for winter use.

Strong, stocky bush with big root system. Small pod like a

Frost-Proof Bean or Lima Pea

Yard Long

This bean is highly esteemed in Europe, and is known there as the Broad Bean. It differs from American types of beans in that it should be planted early. We plant them here in Michigan as soon in the spring as the ground becomes workable, sometimes in March. Plants are hardy and not sensitive to cold.

The beans are as large as the largest Lima Bean, and nearly the same shape. Botanically, it belongs to the bean family, but the flavor is more like that of the pea, which accounts for it sometimes being called the Lima Pea.

The plant is a bush of upright growth, about 2½ feet high, with strong, sturdy stalks. Pods 5½ inches long and 1¼ inches wide, flat and straight. Each holds 3 to 4 mammoth size beans. It is wonderfully productive.

The Frost Proof Bean, or Lima Pea, is used like the Lima Bean, and is delicious either cooked fresh or as a winter shell bean. Pkt., 10c; ½ pt., 30c; pt., 50c; qt., 85c; 2 qts., \$1.60, postpaid. By express, not prepaid, 5 lbs., \$1.50; 10 lbs., \$2.90.

Burgess' Everbearing Kentucky Wonder

Plant a few hills in your corn. The corn stalks will act as a support for the vines.

POLE OR CLIMBING BEANS

One pint of seed for 100 poles

GOLDEN CLUSTER WAX. The most useful of all wax pole beans, as it is suitable for snap beans, green shell beans, and dry beans for winter use. Plants are large, vigorous and immensely productive. The pods are 6½ to 7½ inches long, perfectly straight and flat, light waxy yellow, tender, stringless, fiberless, brittle, sweet, tasty and of fine quality. Seeds white.

YARD LONG BEAN

An excellent variety, as well as an interesting curiosity. Vines are rampant growers and produce an enormous crop of long, slender, round pods which are of excellent quality for snap beans. The round pods have the thickness of a lead pencil and sometimes grow to a length of 3½ ft. Very productive, tender and of fine flavor.

Scarlet Runner

A fine ornamental vine, bearing large sprays of bright scarlet pea-like flowers and an abundance of edible beans. Used both for shell and snap beans.

BURGESS' EVERBEARING (Everbearing Kentucky Wonder). The finest flavored snap bean grown. The green pods, seven to ten inches long, are so fleshy they are often greater in thickness than width. They are solid, meaty and very crisp. They commence bearing exceedingly early for a pole or climbing sort, and if pods are gathered as they mature the vines will continue to bear until killed by the fall frosts.

WHITE-SEED KENTUCKY WONDER (Burgess' Stringless). One of the most desirable of the pole beans. It combines attractive appearance with productiveness, and for quality it is unsurpassed. Straight, round, silvery-green pods, 6 to 8 inches long, fleshy, entirely stringless, fiberless, and tender. The beans, being white, are also fine for winter use.

KENTUCKY WONDER WAX. An ideal pole wax bean for all localities. Similar in habit of growth to the green podded Kentucky Wonder, and bears as early, or when about as high as the average bush bean. The pods are so fleshy that often the thickness surpasses the width. Of most delicious quality, a heavy yielder and bears a long season.

POLE LIMA BEANS

One pint of seed for 50 poles

EARLY LEVIATHAN. Fully a week earlier than any other Pole Lima; a sure cropper and extremely productive, both early and throughout the season. Pods straight, long and well filled with large thick beans of delicate pale green color and delicious buttery flavor.

KING OF THE GARDEN. A vigorous grower, requiring but two vines to each pole. Begins flowering early, at the bottom of the pole, producing a continuous bloom and fruitage throughout the season. Pods are large and beans are of excellent quality, well-formed and mammoth in size.

SIEVA OR CAROLINA ("Butter Bean"). A climbing variety similar to Henderson's Bush Lima. Begins bearing very early and continues to produce until frost; very productive; excellent quality. Should be extensively grown because of its hardiness, earliness and long bearing season. One pint of this variety will plant about 125 poles.

FIELD BEANS

40 pounds will plant an acre.

NEW MICHELITE PEA BEAN. The most valuable of all field beans. Developed at the Michigan State College Experiment Station, and is rapidly gaining in favor. Resists disease, yields heavier, and quality is better. Ripens early and evenly and beans are uniform in size and the whitest of all.

EDIBLE SOY BEAN

Bansei

Since the introduction of the vegetable type of soy beans, we have been trying the different varieties, and can recommend Bansei as the best variety. The beans are delicious when eaten green or dry, and are superior to navy beans for baking. The food value is very high because of the fat and protein content, and they are also an excellent source of Vitamins A, B, and G. Bansei is one of the earliest (matures in 96 days), highly drought-resistant, and is very productive in nearly all sections of the country. Seed is bright green while young and yellow when mature. Plants grow 24 inches in height and require no support. Pkt., 10c; ½ pt., 30c; pt., 50c; qt., 90c; 2 qts., \$1.70, postpaid. By express, not prepaid, 5 lbs., \$1.60; 10 lbs., \$3.00; 25 lbs., \$7.25.

Green Globe Artichoke

An ounce of seed will produce about 500 plants.

A delicious vegetable which is cultivated for its large flower-heads, which are cooked like Asparagus. It is considered a delicacy and demands a high price in all better city markets. The plant is a perennial and set in good soil and given slight winter protection of leaves or straw, will remain in bearing several years, but for best results it should be renewed every two or three years. Pkt., 15c; oz., 60c; ¼ lb., \$2.00, postpaid.

ASPARAGUS

An ounce of seed will produce about 250 plants; 2 lbs. will produce enough roots to set an acre.

MARY WASHINGTON (Giant Rust-Proof). This is the finest strain of Asparagus for either the home garden or commercial planting. A rapid growing sort, yielding stalks two inches in diameter, and even when twelve inches long are perfectly tender. Practically immune to "rust" and other Asparagus diseases. Pkt., 10c; oz., 14c; ¼ lb., 30c; lb., 85c; 2 lbs., \$1.50; 5 lbs., \$3.60; 10 lbs., \$6.80, postpaid.

ASPARAGUS PLANTS—We supply choice one-year-old plants, which is the age we recommend, for in addition to costing less than two-year-old plants, they come into bearing just as soon and are a more satisfactory size for transplanting. Asparagus plants should be set 18 inches apart.

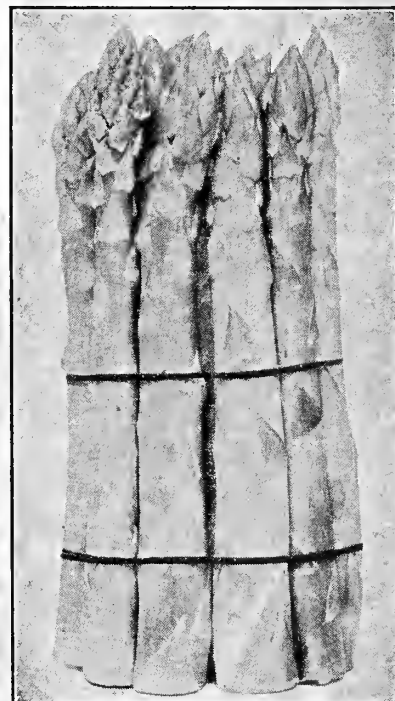

CHOICE MARY WASHINGTON PLANTS—12 for 35c; 25 for 50c; 50 for 80c; 100 for \$1.50; 250 for \$3.50, by parcel post, postpaid. By express, not prepaid, 250 for \$2.50; 500 for \$4.00; 1,000 for \$7.00; 5,000 for \$30.00.

A FINE TABLE VEGETABLE and the Best Hog Food Known

FOR THE TABLE—Soak a fair sized JERUSALEM ARTICHOKE bulb in cold water, then slice it as you would cucumber, flavor with salt and pepper and pour vinegar over it, and you will have about as tempting and delicious a dish as you could wish for. Fine for salads, and very appetizing when baked like potatoes or creamed like asparagus. Valuable food for diabetics and those not permitted to eat starchy foods.

FOR HOG FEED—An acre of JERUSALEM ARTICHOKEs will keep 20 to 30 hogs from October to April. Tubers stand freezing and can be left in the ground all winter. Hogs root them out of the ground and save work of harvesting. The tops make good silage. Easily grown. Plant 3 feet apart each way. Cut tubers like potatoes. 300 lbs. plant an acre.

PRICES OF JERUSALEM ARTICHOKE TUBERS—Lb., 30c; 3 lbs., 75c; 10 lbs., \$2.00, postpaid. By express, not prepaid, 25 lbs., \$2.25; 50 lbs., \$4.00; 100 lbs., \$7.50; 300 lbs., \$21.00.

Mary Washington (Giant Rust-Proof)

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

THE BEST BEET GROWN

BURGESS' SPECIAL DETROIT is an improved strain of Detroit Dark Red Beet which is fully as early as Crosby's Egyptian. Extra deep dark red throughout; more uniform in shape and color than Detroit Dark Red; and of the very best quality. Unequaled for either home garden or market, and without doubt the most valuable variety of beet ever offered.

Burgess' Special Detroit

BEETS—Table Varieties

One ounce of seed to 50 feet of row

CROSBY'S EGYPTIAN

(Selected Strain.) An extra early variety for home and market use. The skin is very smooth and bright red; flesh vermilion, very sweet and tender.

DETROIT DARK RED

The leading main-crop variety. The color is deep blood-red with indistinct lighter red zones. The roots are globe shaped, smooth and uniform, with small tap root. Free from woodiness until the beets attain their full size.

EARLY BLOOD TURNIP

An exceedingly popular, early, round, deep-red beet of excellent quality.

BABY BALL

This all-purpose Beet is only a few days later than our Special Detroit. A splendid sort both for early spring and main crop and is ideal for fall planting. It is unsurpassed for canning and pickling whole. The small roots are smooth, even in size and shape, and nearly round. Tops and tap roots small. Color, deep crimson.

Spinach Beet

SPINACH BEET or Swiss Chard

GIANT LUCULLUS. Grown for its large, tender leaves and leaf stalks. Leaves grow to a length of 2 to 2½ feet; stalks are nearly as thick and broad as Rhubarb and never get tough. By picking off the large outside leaves, as wanted, more continue to grow and keep right on growing until killed by severe frost in the fall. The whole leaf can be used for greens, or the leaf stalks can be cooked like asparagus. Also extensively used as a green feed for poultry.

EARLY WONDER BEET

Our select market gardeners' strain of this variety is valuable to market growers as a first early variety. It is so uniform in growth that the entire crop can be lifted at one time. Tops small, roots flattened, globe-shaped with small tap root. Flesh deep purplish-red with little zoning.

Sugar Beets and Mangel Wurzel

Yields of 25 to 35 tons per acre are common, and as high as 75 to 80 tons have been reported. A very healthful and nutritious food that is greatly relished by all kinds of livestock. Will keep cattle in perfect physical condition and increase the flow of milk. As a substitute for green feed for poultry, during the winter months, they are very valuable and always increase egg production.

The seed should be sown thinly in rows 2 to 3 feet apart, and when plants are about 3 inches high thin out to stand 8 to 10 inches apart in the row. Harvest before frost and store in pits outdoors or in a dry, frost-proof cellar.

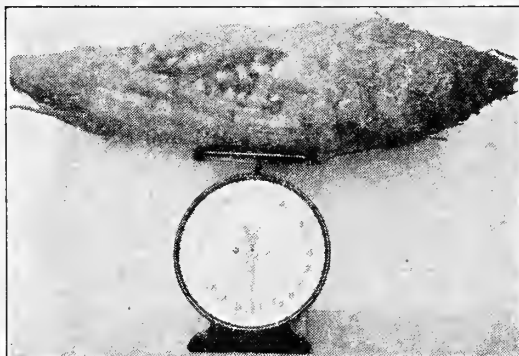

GIANT HALF SUGAR. A favorite with many dairymen. Flesh white, sugary and of high nutritive value. Yields a tremendous crop. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.60; 10 lbs., \$6.75, postpaid.

KLEIN WANZLEBEN. Practically all the leading authorities on Sugar Beets have united in recommending this variety as possessing the highest sugar-producing qualities, as much as 18 tons of sugar having been made from 100 tons of roots. Also highly recommended for stock feeding. An enormous yielder. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.60; 10 lbs., \$6.75, postpaid.

GOLDEN TANKARD. A rapidly maturing Mangel, adapted to shallow lands, although doing well on every soil. An immense yielder. Rich, golden skin; flesh yellow. Easily harvested; excellent keeper. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.60; 10 lbs., \$6.75, postpaid.

Greatest Cattle and Poultry Food Cuts Your Feed Bill in Half

One ounce of seed to 100 feet of row; 5 or 6 lbs. per acre

Mammoth Long Red Mangel Wurzel

MAMMOTH LONG RED. The largest and the heaviest cropper of all Mangels. The roots are frequently 2 feet or more in length, one-half to two-thirds above the surface and easily harvested. Skin bright red; flesh white, veined pink. Keeping qualities not excelled. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.60; 10 lbs., \$6.75, postpaid.

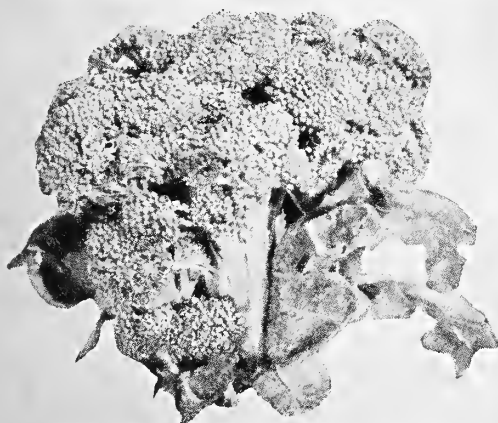

BROCCOLI

One ounce will produce about 2,000 plants

There are two distinct types of Broccoli. One similar to cauliflower. Mammoth White is the most popular of this type. The other type is called Sprouting Broccoli; the stems and flower buds are eaten and it is cooked and served much as Asparagus.

MAMMOTH WHITE. Hardier and more easily grown than Cauliflower, but cultivated and used in the same way. Heads of large size, creamy-white; delicate flavor. Pkt., 15c; oz., 70c; ¼ lb., \$2.25, postpaid.

ITALIAN EARLY SPROUTING CALABRESE. A delicious variety, having the combined flavor of Cauliflower and Asparagus. Simply sow the seed in the open ground in the spring and transplant the plants when large enough. The heads or sprouts when ready to use are deep green. After the central head is removed, the plant produces numerous branch heads which are fully as desirable as the first head produced. A continuous supply may be had for a long time from a few plants. Pkt., 10c; oz., 60c; ¼ lb., \$1.85, postpaid.

Italian Early Sprouting Calabrese Broccoli

CRESS

EXTRA CURLED (Pepper Grass). Grows rapidly, being ready for use in 30 to 40 days after seed is planted. Fine for salads, garnishing and as a green in sandwiches. Has an agreeable pungent taste. Pkt., 8c; oz., 20c; ¼ lb., 50c; lb., \$1.60, postpaid.

TRUE WATER CRESS. 50 days. A hardy plant which will thrive well only when the roots are submerged in water. Can be easily grown in springs or along the edges of shallow running streams. One of the most delicious of all small salad plants. Pkt., 15c; oz., 75c, postpaid.

UPLAND. 60 days. Same flavor as Water Cress. Grows on high, dry land. As easily grown as spinach or lettuce. Hardy perennial that can be grown for several years without replanting. Pkt., 15c, postpaid.

BRUSSELS SPROUTS

One ounce of seed will produce 2,500 plants

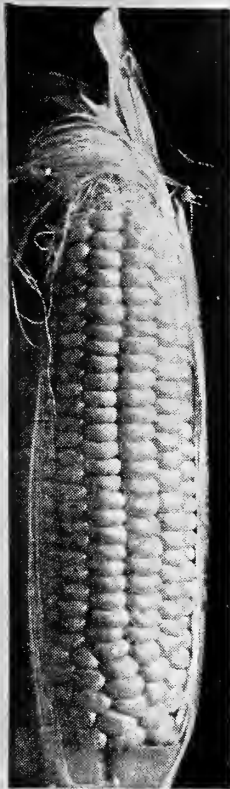

A variety of the Cabbage family, possessing the peculiarity of bearing upon its stem or stalk from 50 to 100 small, compact round heads. These heads are cut off when well formed and are usually marketed in quart berry boxes. The plants are very hardy, are not injured but improved by hard frosts, and are left in the garden or field during the early winter until wanted. May be had in fine condition until about Christmas time in the North, and in the South may be had from November to March. These miniature Cabbages may be boiled like Cabbage or cooked in cream like Cauliflower. They are the most delicious and delicately flavored of the Cabbage family.

LONG ISLAND IMPROVED. A choice variety grown extensively by market gardeners. Plants are 20 inches tall, and are well filled, nearly the entire length of the stalk, with solid sprouts measuring 1¼ to 1½ inches in diameter. Pkt., 15c; oz., 60c; ¼ lb., \$1.85, postpaid.

IMPROVED HALF DWARF. The best standard variety for the home garden. Heavily set with sprouts 1½ to 2 inches in diameter. Very productive. Pkt., 15c; oz., 50c; ¼ lb., \$1.65, postpaid.

Brussels Sprouts

Gill's Early Golden Market
Matures a week ahead of Golden Bantam. Especially desirable for its extreme earliness, sweetness and richness of flavor. Popular with market growers and at roadside stands. Ears 6½ to 7 inches long, with 12 rows of large, sweet, creamy yellow kernels.

Golden Sunshine
A few days earlier than Golden Bantam, with ears the same length, but 10 to 12-rowed instead of 8 and of equally good color and quality.

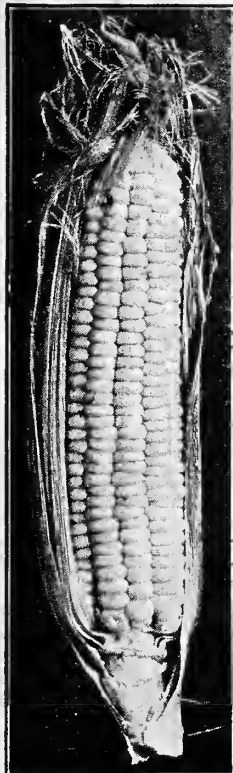

GOLDEN BANTAM. Popular early Sweet Corn; sweet, rich and delicious. Ears 6 to 7 inches in length and compactly filled with kernels which, when ready for the table, are of a creamy-yellow color. It is suited for extra early and later plantings.

Pop Corn for Popping We can supply good popping corn of the following varieties: Australian Hulless, Golden Australian Hulless, Black Beauty, Dynamite. This corn is just right for popping, but is not fit for seed purposes. Quart, 38c; 2 qts., 70c; postpaid. By express, not prepaid, 10 lbs., 90c; 25 lbs., \$2.00; 100 lbs., \$7.00. **SPECIAL**—4 qts. (one qt. of each variety) for only \$1.37, postpaid.

BURGESS' NORTHERN GROWN SWEET CORN

5 to 10 Days Earlier Than Western or Southern Corn
Also Much Sweeter Than Western Corn

One pound for 150 hills; 8 to 10 lbs. per acre

Burgess' Earliest Golden

Only a day or two later than our Early Saskatchewan, very hardy and can stand early planting. A wonderful yielder when planted on good soils. Market gardeners will find no equal among the yellow corns for extremely early planting. Plan on planting some of this variety and be the first to have yellow corn in your locality. Ears 6 to 7 inches long, with 10 to 12 rows of tender golden kernels.

Barden's Wonder Bantam

This matchless Sweet Corn is a cross between Golden Bantam and Early Wonder, the result of which is a Bantam Sweet Corn with all the qualities and sweetness of the old reliable Golden Bantam, but with larger ears set up higher on the stalk. Ears 8 to 10 inches long, filled with 8 rows of broad, rich, golden yellow kernels. Stalk 5 to 6 feet high. One of the big canning companies reports that Barden's Wonder Bantam produces one-third more tonnage per acre than any other Bantam Corn they have ever grown, and will consider using no other in the future. Tests each year have proved it to be as early as Golden Bantam and much more vigorous and productive.

Golden Evergreen The result of a cross between Stowell's Evergreen and Golden Bantam, possessing all the splendid qualities of both of these popular varieties and better than either. The ears are as large as Stowell's Evergreen and is of true Evergreen habit, remaining equally as long a time in good cooking condition. It is of the same color as Golden Bantam, and has all the delicious qualities of that variety, with an added sweetness and superior flavor. In season half way between Golden Bantam and Stowell's Evergreen. For the home garden and fancy market trade this corn has no equal.

Early Saskatchewan

THE EARLIEST WHITE SWEET CORN

The earliest white Sweet Corn, maturing 8 to 10 days ahead of Golden Bantam. Quality superior to that of most varieties of extra early Corn; extremely hardy; can be planted early, withstanding cold, wet weather to a wonderful degree. Ears 6 to 7 inches long; 8 rowed; kernels pure white, sweet and tender. Very productive for an extra early sort, usually producing two ears to the stalk. We highly recommend this variety for home use, and as a market sort it is a money maker.

Black Mexican One of the richest flavored, sweetest, and tenderest. Ears 7 to 8 inches in length; ready for the table in 85 to 90 days. The ripe seed is bluish-black, but when in table condition the kernels are pearly white. A most desirable second early variety for the home garden.

Stowell's Evergreen Michigan grown Stowell's Evergreen is recognized everywhere as the best type of its class. Our strain is large eared, hardy, productive, sweet and tender, and remains a long time in cooking condition.

Country Gentleman The sweetest of all white varieties. Due to the irregular arrangement of the kernels on the cob, it is an excellent sort to grow where worms bother the ears, for instead of working a row into the center of the ear, the worms have no row to follow and work around the end of the cob. Very prolific, rarely producing less than three ears to the stalk. Ears average 8 to 9 inches in length and grain is very deep. Has delicious flavor all its own. A few days later than Stowell's Evergreen.

Disease-Resisting Sweet Corn

The following three Disease-Resisting Hybrids are immune from bacterial diseases and resistant to wilt. Tests all over the country show that these Hybrids are more robust, healthier, and will give a much higher yield than ordinary varieties of corn.

Burgess' Drought-Tolerant Hybrid 86 days to maturity. Corn growers who have tested this new hybrid pronounce it a leader from the standpoint of yield, as well as for drought-resisting and eating qualities. Ears uniformly 12 to 14 rowed, small cobbled, 7 to 8 inches in length.

Golden Cross Bantam 86 days to maturity. Under favorable conditions two to three ears are usually produced on each stalk. The ears are about 8 inches long, nearly cylindrical, and have 10 to 14 rows of kernels. At the eating stage the kernels are a light golden yellow and harden somewhat less rapidly than Golden Bantam. The uniformity of the ears is remarkable, and all ears are well filled to the tips. Under drought conditions this hybrid variety produced well filled ears where commercial strains of Golden Bantam were totally unproductive.

Tendergold 76 days to maturity. It is a cross of Purdue Bantam and Golden Sunshine, 10-14 rowed and yields more than either Purdue or Sunshine, about the same as Golden Bantam. It is very resistant to Stewart's Disease, and it is good for about 10 days during the picking stage. Ears are 8 to 10 inches long.

Tendergold

Burgess' Drought-Tolerant

POP CORN 5 to 6 lbs. of seed per acre

AUSTRALIAN HULLESS. Also known in some sections as Japanese Rice, Tom Thumb, or Bumble Bee. A heavy yielder of little short ears, nearly as thick as long. Its crowning merit is its popping quality, fine flavor and absence of hull or shell.

GOLDEN AUSTRALIAN HULLESS. Same as Australian Hulless except that kernels are of a beautiful golden yellow color instead of white.

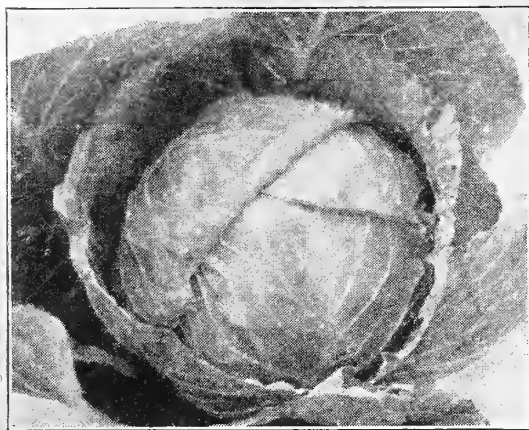

BLACK BEAUTY. Ripens earlier than any other variety, yet the ears are large in size and the yield is as heavy as that of any of the later sorts. Pops large and is the finest flavored variety of Pop Corn. Although the kernels are black, they show up nice and white when popped.

South American Giant (Dynamite, or T.N.T.)

SUNBURST STRAIN. The kernels are deep orange in color, extra large and smooth. When popped, they are larger than any other variety and are of a rich creamy yellow color. The flavor is truly delicious. The stalks grow 6 to 8 feet tall and produce two and often three large ears which are 9 inches or more in length.

Burgess Seed & Plant Co.
Galesburg, Michigan

Copenhagen Market

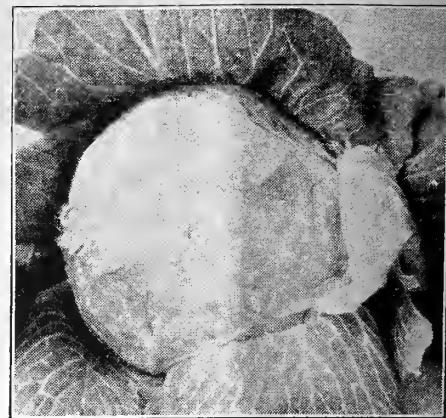

Free - From - Disease Cabbage Seed

In growing a profitable crop of Cabbage, much depends upon the seed planted. Our seed is carefully grown from selected heads and under the supervision of expert Cabbage seed growers. Our seed is also treated for the control of seed-borne fungus and bacterial diseases, such as damping-off, brown or black-rot, club-root, Fusarium wilt, known also as "yellows," and black-leg, known also as wilt. Burgess' Correctly-Grown, Disease-Treated Seeds COST NO MORE than ordinary seeds.

One ounce of seed for 3,000 plants; 1/4 lb. per acre.

Early Jersey Wakefield SPECIAL STOCK

The standard early cabbage. About ten days later than Lightning Express, but larger heads and more productive. Heads conical or pointed, solid and of the very best quality. Pkt., 10c; oz., 30c; 1/4 lb., 80c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.60, postpaid. For plants, see page 20.

Golden Acre Cabbage

Lightning Express

Lightning Express

EARLIEST CABBAGE IN CULTIVATION

70 days from sowing—ten days earlier than Jersey Wakefield. Good trials of varieties offered by other seed houses as "the earliest grown" have proved that they are from 4 to 10 days later than our Lightning Express. Heads pointed, a little smaller than Jersey Wakefield, sure to head, solid and firm and bring high prices on account of their extreme earliness. There are but few outer leaves, so plants may be set closely together. 14,000 heads can be grown on one acre. Pkt., 10c; oz., 40c; 1/4 lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00, postpaid. For prices of plants, see page 20.

GLORY OF ENKHUIZEN. Ten days later than Jersey Wakefield; heads twice as heavy. Solid, round heads with few outer leaves, and such compact growth as to permit close planting. When trimmed, heads weigh from 6 to 8 pounds and are similar in appearance to a small Danish Ballhead. Best quality; excellent keeper. Pkt., 10c; oz., 25c; 1/4 lb., 70c; lb., \$2.25; 2 lbs., \$4.05; 5 lbs., \$9.55, postpaid.

YELLOW RESISTANT ENKHUIZEN. A few days later than Glory of Enkhuizen, slightly larger and average more than a pound heavier. Pkt., 15c; oz., 45c; 1/4 lb., \$1.50; lb., \$5.00; 2 lbs., \$9.00; 5 lbs., \$21.25, postpaid.

Copenhagen Market

One of the most valuable varieties for the home garden and one of the most profitable for market gardeners. With the exception of Golden Acre, it is the earliest round-headed Cabbage. Only a few days later than our Early Jersey Wakefield, which it will outyield two to one. When ready for cutting, Copenhagen Market is the heaviest of the extra-early varieties and is as good, in its class, as the old favorite Danish Ballhead. The stem is short; the head is round and solid, averaging 6 to 7 pounds each, and uniform in shape and size. A vigorous grower and an excellent keeper. The heads all mature at one time, and will stand well without bursting. Pkt., 10c; oz., 30c; 1/4 lb., 80c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.60, postpaid. For prices of plants, see page 20.

Marion Market (Wisconsin Copenhagen)

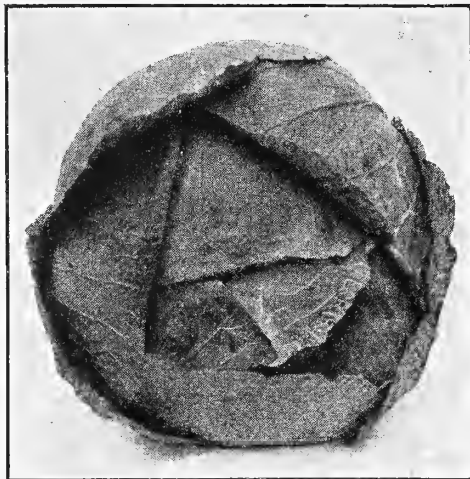

This Yellows-Resistant strain of Copenhagen Market is larger and a few days later than our ordinary strain. Pkt., 10c; oz., 35c; 1/4 lb., \$1.00; lb., \$3.50; 2 lbs., \$6.30; 5 lbs., \$14.85, postpaid.

Jersey Queen (Yellows Resistant Early Jersey Wakefield)

The earliest yellows-resistant variety. In type it is the same as Early Jersey Wakefield except that it is slightly smaller. Pkt., 10c; oz., 35c; 1/4 lb., \$1.00; lb., \$3.50; 2 lbs., \$6.30; 5 lbs., \$14.85, postpaid.

Penn State Ballhead

Developed by the Pennsylvania State College of Agriculture for the purpose of increasing the tonnage per acre without sacrificing any of the splendid qualities of the True Danish Ballhead. One grower reports 26 tons per acre. Large, solid, round heads, uniform in shape, size and color; highest quality; excellent keeper. Pkt., 10c; oz., 40c; 1/4 lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00, postpaid.

Jumbo

JUMBO CABBAGE

A strain of Large Late Drumhead, and the largest cabbage grown. On good soil very few heads will weigh less than 10 lbs., and some have been produced which weigh more than 20 lbs. Heads flat, rounded at top; very solid; sure to head; excellent keeper. The quality, for slicing, for kraut and for general table use is unsurpassed. Pkt., 10c; oz., 45c; 1/4 lb., \$1.50; lb., \$5.00, postpaid.

SUREHEAD

One of the best late cabbages, of the Flat Dutch type, weighing ordinarily from 10 to 12 lbs. each. Of very fine quality, solid, and of fine texture. Drought resisting, about 10 days earlier than Danish Ballhead and certain to head. Grown extensively for winter use and one of the best keepers. Pkt., 10c; oz., 30c; 1/4 lb., 80c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.60, postpaid.

PREMIUM LATE FLAT DUTCH. A most popular large flat, late variety; quality unsurpassed. Pkt., 10c; oz., 25c; 1/4 lb., 70c; lb., \$2.25; 2 lbs., \$4.05; 5 lbs., \$9.55, postpaid. For prices of plants, see page 20.

Kraut Champion "The King of Kraut." This mid-season variety matures ten days earlier than Danish Roundhead. The round, solid heads are 9 inches in diameter and average 10 pounds. Kraut Champion is not only superior for quality kraut, but it is ideal for the home garden and market. Pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., \$3.00; 2 lbs., \$5.40; 5 lbs., \$12.75, postpaid.

Wisconsin Hollander Disease-proof variety of the Danish Ballhead type. In addition to its ability to resist yellows, has all the good qualities of the old Danish Ballhead, and will weigh 1 1/2 lbs. more. Pkt., 15c; oz., 45c; 1/4 lb., \$1.50; lb., \$5.00; 2 lbs., \$9.00; 5 lbs., \$21.25, postpaid.

Yellows Resistant Cabbage

These varieties will grow crops on land so diseased with yellows that ordinary cabbage cannot be grown at all. All our cabbage seed is treated against yellows and other seed-borne diseases, which will not prevent the cabbage plants from later contracting diseases that may be in the soil. If your soil is free from the cabbage disease known as "yellows," our regular treated seed will be just as good as the Yellows-Resistant varieties. If your soil is even slightly infected, it will be safer to plant the Yellows-Resistant strains. We have the best strains available, and can offer the following varieties:

YELLOW RESISTANT GOLDEN ACRE

YELLOW RESISTANT GLORY OF ENKHUIZEN

JERSEY QUEEN (Yellows-Resistant Early Jersey Wakefield)

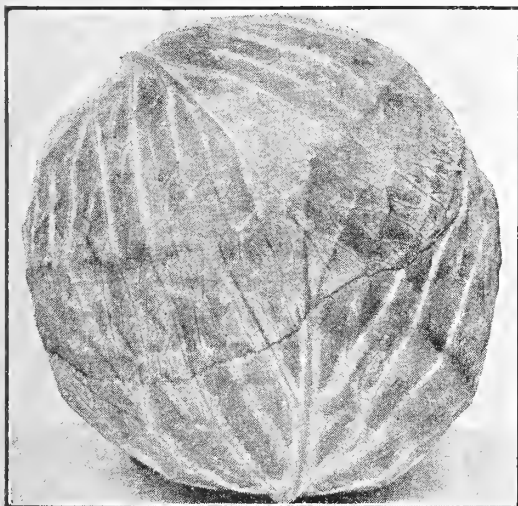

MARION MARKET (Yellows-Resistant Copenhagen Market)

WISCONSIN HOLLANDER (Yellows-Resistant Danish Ballhead)

YELLOW RESISTANT ALL SEASONS

You will find on this page the descriptions and prices of all these varieties.

If You Want Seeds Sent by Express, Not Prepaid, Deduct 10c per lb. from Postpaid Prices.

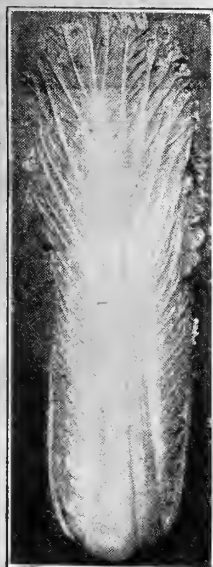

Danish Ballhead

DANISH BALLHEAD

The most popular cabbage for winter; very fine grain, tender and crisp. The heads are medium sized, round, and so hard and solid that they will weigh one-fourth more than other varieties of equal size, and will stand shipping better than other sorts. It is not necessary to dispose of the crop in the fall if market prices are not satisfactory. The crop can be stored just as safely as potatoes and they will be just as solid in the spring as when put away in the fall. Pkt., 10c; oz., 35c; 1/4 lb., \$1.00; lb., \$3.50; 2 lbs., \$6.30; 5 lbs., \$14.85, postpaid.

Danish Roundhead A short stemmed type of the much prized Danish Ballhead. Heads of the same size, as round as balls and as solid as bullets. Fully 10 days earlier and will keep and ship as well as Danish Ballhead. Pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., \$3.00; 2 lbs., \$5.40; 5 lbs., \$12.75, postpaid.

Celery Cabbage
Pe-Tsai

Chinese Celery Cabbage

A most delicious vegetable which combines the rich celery flavor with that of the cabbage. Can be cooked or eaten raw like celery. Makes a good salad as the finest head lettuce. The mid-ribs can be cooked like asparagus, and for cole slaw no cabbage compares with it. We are offering seed of the three following varieties.

CHIH LI (Improved Peking). This is the earliest, the surest header, and withstands heat better than other strains of Chinese Cabbage. Heads are 18 to 20 inches in length and 3½ to 4 inches thick; solid, white, very crisp and tender, and of best quality. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$1.85, postpaid.

PE-TSAL. Long narrow heads; large, light green leaves; thick, pure white, tender stalks are sweet and delicious. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75, postpaid.

WONG BOK. Short, broad heads; tightly folded leaves; agreeably pungent, juicy ribs. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75, postpaid.

SPECIAL OFFER

Three packets of Chinese Celery Cabbage— one each of Chihli, Pe-Tsai and Wong Bok— for 25c.

MAMMOTH RED ROCK CABBAGE

Largest and best red cabbage. Pkt., 10c; oz., 40c; ¼ lb., \$1.15; lb., \$3.75; 2 lbs., \$6.75; 5 lbs., \$15.95, postpaid.

SAVOY CABBAGE

AMERICAN DRUMHEAD SAVOY. The Savoy excels all other cabbages in flavor. No garden is complete without our improved strain of American Drumhead Savoy. Crimped leaves; more tender, milder and sweeter than the smooth-leaved varieties. Pkt., 10c; oz., 40c; ¼ lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00, postpaid.

American Drumhead
Savoy

Poultry Cabbage

POULTRY CABBAGE

3 Tons in a Space 40x60 Feet

Poultry Cabbage is a wonderful green feed for poultry and has been known to yield 3 tons in a space 40x60 feet. One-half pound of seed will grow enough greens to feed about 1,000 hens for 4 months; 3 pounds to an acre for 6,000 hens for 4 months. In the Northern States the seed can be sown any time from early spring until the middle of July. In some parts of the South the seed may be sown throughout the entire year, or from July to September for main crop. Sow in rows 24 inches apart, allowing about 2 inches between the seed. Commence feeding when plants are about 4 inches high, pulling out and feeding alternate plants. Continue thinning until plants are about one foot apart. These should make heads of 5 to 7 pounds in 60 days and may be fed immediately or allowed to stay in ground until cold weather. These heads may be fed whole as they are very tender and 100 per cent edible. Chopping is not required even for young chickens. Poultry Cabbage will not discolor the yolks of eggs when fed to laying hens. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00, postpaid.

Georgia Collard

COLLARDS

One ounce of seed will produce 3,000 plants

GEORGIA. A form of loose-headed cabbage that succeeds in locations where other cabbages cannot be grown to perfection. In the South it continues to grow all winter. Pkt., 8c; oz., 12c; ¼ lb., 22c; lb., 60c, postpaid.

Disease Treated Seeds

Burgess' Treated Seeds COST NO MORE, and by planting them, you are reasonably assured of a good crop.

Cauliflower

One ounce of seed for 2,000 plants

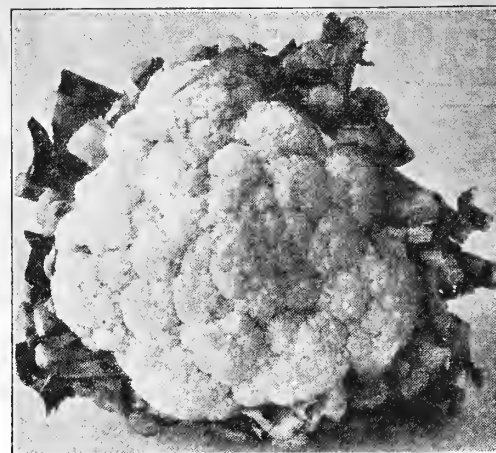

EARLY SNOWBALL. Our select strain of Early Snowball is far superior to the seed ordinarily sold of this variety and is the earliest Cauliflower grown. A very reliable heading variety with rich, snow-white, close, compact head of the very best quality. Pkt., 25c; ½ oz., 85c; ¼ oz., \$1.50; ½ oz., \$2.50; oz., \$4.50; ¼ lb., \$15.00, postpaid.

DRY WEATHER, or DANISH GIANT. Our strain of this variety is especially selected to produce self-protecting leaves which protect the heads from the sun and makes tying unnecessary. Our strain will stand more adverse weather conditions than any other variety and it may be grown in hot, dry districts where others fail. Large creamy-white heads as large as Super-Snowball and about 10 days later. Pkt., 25c; ½ oz., 85c; ¼ oz., \$1.50; ½ oz., \$2.50; oz., \$4.50; ¼ lb., \$15.00, postpaid.

VEITCH'S AUTUMN GIANT. Large, late variety producing compact white heads. Not so dependable as the early sorts except in cool sections. Pkt., 15c; ¼ oz., 50c; ½ oz., 80c; oz., \$1.35; ¼ lb., \$4.50, postpaid.

SUPER-SNOWBALL. Select market strain. Used extensively for main-crop and second-early plantings. Only a few days later than Early Snowball, with heads averaging 1½ inches larger. The best variety for growers and shippers. Pkt., 25c; ½ oz., 75c; ¼ oz., \$1.25; ½ oz., \$2.00; oz., \$3.75; ¼ lb., \$12.50, postpaid.

EARLY DWARF ERFURT. An excellent early variety. A week later than Early Snowball, but larger. Pkt., 25c; ½ oz., 85c; ¼ oz., \$1.50; ½ oz., \$2.50; oz., \$4.50; ¼ lb., \$15.00, postpaid.

Super-Snowball Cauliflower

CELERY

One ounce of seed will produce about 5,000 plants.

GIANT PASCAL. Best of all for late fall and winter use, but too brittle to stand shipping any distance. A tall sort with large, thick and solid green stalks, which blanch to golden yellow; crisp, of fine nutty flavor, and an excellent keeper. Pkt., 10c; oz., 30c; ¼ lb., 95c; lb., \$3.25; 2 lbs., \$5.85; 5 lbs., \$13.80, postpaid.

Golden Plume. A semi-dwarf early variety, producing thick and heavy stalks with a well-blanching solid heart; crisp and of the highest table quality. More vigorous than Golden Self-Blanching and quite resistant to blight and rot. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00; 2 lbs., \$9.00; 5 lbs., \$21.25, postpaid.

GOLDEN SELF-BLANCHING, Dwarf Strain. A very desirable shipping sort; plants are of medium size, compact and stocky, and grow about 20 to 24 inches tall; leaf stalks are thick and solid; blanches readily and is crisp, tender and of a sweet nutty flavor. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00; 2 lbs., \$9.00; 5 lbs., \$21.25, postpaid.

GOLDEN SELF-BLANCHING, Tall Strain. Early and particularly desirable for home and market garden. Plants are fairly tall with firm thick stalks that blanch readily and are tender and crisp; sweet and nutty flavor. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00; 2 lbs., \$9.00; 5 lbs., \$21.25, postpaid.

UTAH, or GOLDEN CRISP. An excellent late green variety for fall use or winter storing. Matures a week to ten days earlier than Giant Pascal. Sturdy, compact, solid, of fine quality and of rich nutty flavor. Pkt., 10c; oz., 30c; ¼ lb., 85c; lb., \$2.75; 2 lbs., \$4.95; 5 lbs., \$11.70, postpaid.

WHITE PLUME. The earliest celery in cultivation. Stalks pure white, crisp and delicious. Pkt., 10c; oz., 30c; ¼ lb., 95c; lb., \$3.75; 2 lbs., \$5.85; 5 lbs., \$13.80, postpaid.

Turnip Rooted Celery (Celeriac)

GIANT PRAGUE. A popular vegetable in Europe. Instead of producing long leaf stalks like ordinary celery, it has a globe shaped, turnip-like root with true celery flavor, and is greatly liked by nearly all who have tried it. Excellent for salads and flavoring, or cooked like parsnips, turnips or oyster plant. Roots are fit to use when about 2 inches in diameter. Will keep all winter like beets and carrots if packed in moist earth or sand. Pkt., 10c; oz., 25c; ¼ lb., 80c; lb., \$2.50, postpaid.

CHERVIL

Extra Fine Curled. Resembles parsley, but more beautiful and by many considered superior to it in flavor. The young leaves are used in soups and salads and for garnishing meats and vegetables. One ounce will sow 100 feet of row. Pkt., 10c.

Golden Self-Blanching

Celeriac

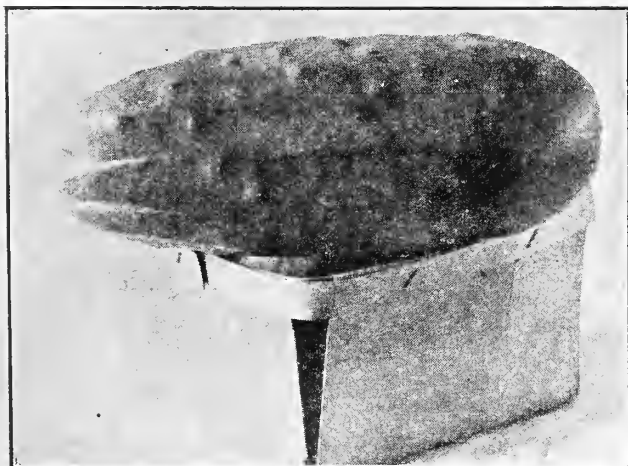

CHIVES or Schnittlauch

A hardy perennial onion-like plant. Highly esteemed for use as a salad, and for their small leaves which are produced very early in the spring and are used for giving a mild onion flavor to various dishes. Frequent cuttings may be made throughout the season, a new growth of leaves appearing soon after each cutting. Pkt., 15c, postpaid.

PLANTS (small clumps), 25c each; 3 for 50c; 12 for \$1.50, postpaid.

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

BURGESS' DISEASE-RESISTING CUCUMBER

Burgess' Earlibest

One ounce of seed for 100 hills; 1 to 3 lbs. to the acre.

We grow our own Cucumber seed and know it to be strictly high grade. All our Cucumber seed is treated before shipping. This treatment controls damping-off, also several serious leaf diseases carried on the seed, such as anthracnose, angular leaf spot and macrosporium leaf spot. Treating the seed is one more added service to our already high-bred superior stocks and will make your crops more dependable. Don't run the risk of planting untreated cucumber seed when our Michigan grown treated seed costs no more.

BURGESS' EARLIBEST With the exception of Early Michigan, this is the earliest slicing cucumber. The quality is equal or better than that of most of the later sorts. It is a great yielder, a good shipper and a most profitable cucumber for the early market. It is a type of white spine that grows very even in size, usually about 7 inches in length and 2½ inches thick. Color, rich dark green from stem to blossom end; smooth, tender and crisp. Very hardy and productive. Ready for market in 55 to 58 days. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

DAVIS' PERFECT One of the finest cucumbers for slicing. 9 to 10 inches; rich, dark green; very few seeds. 66 days. Pkt., 8c; oz., 15c; ¼ lb., 40c; lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.70; 10 lbs., \$8.80, postpaid.

Straight-8

China Long

STRAIGHT-8

The fruits of this medium-early cucumber are symmetrical, almost cylindrical, about 8 inches in length and 1½ inches in diameter, and well rounded at both ends. When in condition for use the color is rich, deep green, without objectionable striping or tipping. An ideal market and shipping variety, and its many qualities make it an ideal slicing variety for the home garden. It is also unsurpassed for pickling when small. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75; 2 lbs., \$3.15; 5 lbs., \$7.45; 10 lbs., \$14.00, postpaid.

CUCUMBERS IN 41 DAYS

Mrs. S. M. Healy, Canton, Miss., wrote to us on June 6th, as follows: "I think you would like to know of my success with Early Michigan Cucumber seed from your company. I planted them April 26th and picked my first slices this morning—six weeks from sowing. Vines are fruiting heavily."

EARLY MICHIGAN The Earliest Cucumber. Originated by Mr. William E. Vail, of New York, and introduced by us in 1938. In fine slicing condition in 54 days or less. It is of the Early Fortune type, the dark green fruits being slim with well-rounded ends, and averaging 7 inches long. Good for pickles, as well as slicing, as a great many fruits set at one time. Its ability to continue bearing over a long period makes this variety ideal for the home garden, as well as for the early market. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 2 lbs., \$3.60; 5 lbs., \$8.50; 10 lbs., \$16.00, postpaid.

EARLY FORTUNE 64 days. Standard early variety. A good slicer, medium-deep green in color, slightly tapering and will average 8 inches long. Pkt., 8c; oz., 12c; ¼ lb., 30c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.25; 10 lbs., \$7.60, postpaid.

Special Early Fortune

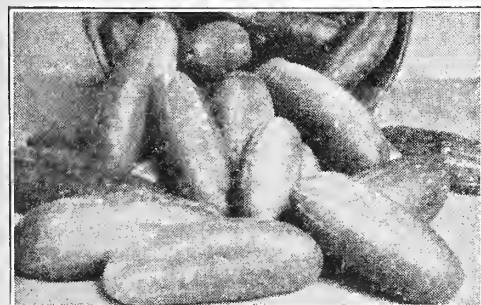

The finest and most uniform stock of Early Fortune on the market. Will average 5 days earlier and an inch longer than Standard Early Fortune, a better yielder, and its very dark glossy-green color does not fade when shipping over long distances. It is disease resistant and the flesh of the slender fruits is white, firm and crisp. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

BLACK DIAMOND (It Stays Green.) One of the greenest White Spine varieties. 7 to 8 inches long; excellent shape and quality. Begins bearing early. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

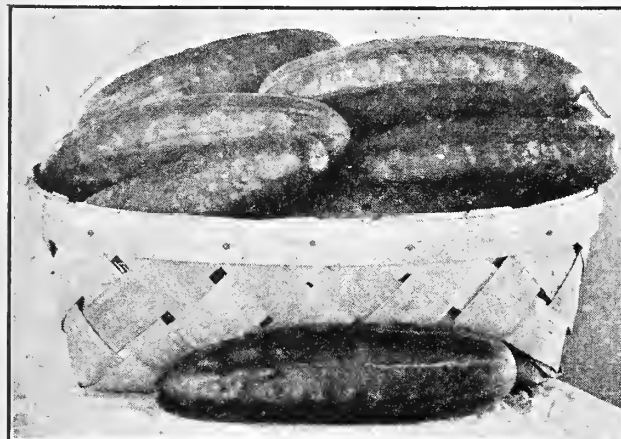

CHINA LONG 2 Feet Long

This remarkable cucumber from the Orient is of finer quality than any other variety. Fruits 20 inches to 2 feet in length and only 2 inches through. Skin deep green, nearly smooth, the spines being few and small. Flesh white, firm, extremely crisp; the nearest seedless of any variety. Vines vigorous and have shown great ability to produce under adverse conditions. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50, postpaid.

LONGFELLOW A remarkable outdoor variety, producing long, slender, dark green fruits which command the same high market price as fine-quality hothouse Cucumbers. An ideal type for local sales or for packing in fancy flats for shipping to market. The fruits are best when 10 inches long and 2 inches in diameter, but when matured measure 12 to 15 inches long by 2½ inches diameter. Small seed cavity; suitable for greenhouse growing. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.60; 2 lbs., \$2.90; 5 lbs., \$6.80; 10 lbs., \$12.80, postpaid.

Early Fortune

English Hybrid White Spine

English Hybrid White Spine The Aristocrat of the Cucumber Family

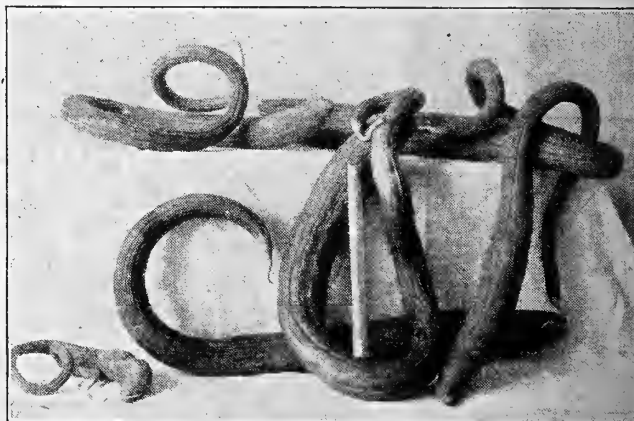

ENGLISH HYBRID WHITE SPINE is the result of a cross between English Telegraph and Evergreen White Spine, and combines the valuable characteristics of both. It inherits the fine appearance and shape of the English sort and the hardiness and yielding qualities of the White Spine. Besides its length, which is longer than Evergreen White Spine, it is much darker in color. The seed cavity is very small, a factor distinctly in its favor as a slicing variety; finest quality, firm and crisp. English Hybrid White Spine is the ideal variety to plant for general crop and will prove to be a real money maker for the grower who caters to the better class of trade, bringing a better price than the shorter and less attractive sorts. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.60; 2 lbs., \$2.90; 5 lbs., \$6.80; 10 lbs., \$12.80, postpaid.

A & C, or ACE The darkest green of all slicing cucumbers. Has practically no white stripe or tipping. Particularly valuable for the market gardener and shipping, as it holds its extremely dark green color. Size 2¼x11 inches; nearly as long as Longfellow, but a much heavier yielder. A most beautiful variety, and for quality it is unsurpassed. Medium early. Pkt., 10c; oz., 20c; ¼ lb., 60c; 1 lb., \$2.00; 2 lbs., \$3.60; 5 lbs., \$8.50; 10 lbs., \$16.00, postpaid.

IMPROVED LONG GREEN. 12 to 13 inches in length; excellent quality. Young fruits used for pickling. Larger ones excellent for slicing. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35; 10 lbs., \$12.00, postpaid.

Japanese Climbing Wilt Resistant A Good Variety to Plant to Save Garden Space

The vigorous and healthy vines throw out strong tendrils, enabling them to climb trellis, wire netting or any other suitable support. The most wilt resistant of all. Fruits long and thick, crisp, tender and of good quality. If kept picked, the vines will bear freely all season. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25, postpaid.

Serpent or Snake Cucumber

This curious Cucumber resembles a green snake. The long, slim fruits coil into most realistic serpent-like shapes. They are usually 2 to 4 feet in length, sometimes attaining a length of 6 feet. See the above photograph, showing six of the cucumbers and a one-foot rule, to show the comparative size. Pkt., 10c; oz., 35c, postpaid.

PURE WHITE PICKLES

WHITE WONDER is pure white with a smooth, clear surface. The fruits are uniform in shape and, when about 3 inches long, make very attractive pickles when packed in glass containers. The quality is also all that could be desired. If allowed to mature, the fruits are about 7 inches long by 2½ inches thick, and are excellent for slicing. Bear in great abundance, beginning early and continuing until fall. Especially recommended for the home garden. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.40, postpaid.

West India Gherkin

WEST INDIA GHERKIN. Small, oval-shaped, prickly fruit; used exclusively for pickling; very prolific. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.65; 2 lbs., \$2.95; 5 lbs., \$7.00; 10 lbs., \$13.20, postpaid.

Grow Your Own DILL

Used in making "Dill Pickles." Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.50, postpaid.

Lemon Cucumber

Sweetest—Finest Flavor

LEMON. A real Cucumber, similar in size, shape and color to a lemon. Sweeter than other cucumbers, and by many it is considered to be the **finest flavored variety**. Highly esteemed for pickling, either green or ripe, and for slicing just as the fruits are turning yellow. Rust and drought resistant. Produces a big crop almost regardless of weather and soil conditions. Pkt., 10c; oz., 20c; ¼ lb., 45c; lb., \$1.50, postpaid.

CHOICE PICKLING CUCUMBERS

The Cucumbers listed on this page are the most select varieties for pickling. We take pride in the uniformity in shape and size, and the trueness to type of our strains of these varieties. You will be pleased with our high-grade Michigan seed.

Burgess' Pickle Blend

This special blend is composed of the outstanding pickling varieties in correct proportion to produce maximum yields of uniform, symmetrically shaped, dark colored pickles. Each variety in this mixture is a pure strain grown separately, after which the seed is mixed to secure proper cross-pollination, resulting in first generation hybrid pickles. Their vigor, productiveness and uniform quality follows by the same principle used in hybrid seed corn and other hybrids.

A very similar blend has been used for many years by most commercial pickle concerns, who have found it most profitable. Tests at Michigan State College Experiment Station have thoroughly proved the value of such a blend. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.20; 2 lbs., \$2.15; 5 lbs., \$5.10; 10 lbs., \$9.60, postpaid.

Heinz Special 56 days. An improved type of pickling cucumber. Highly prized for fancy pickles. Shorter and earlier than Westerfield's, and more uniform in size, shape and color. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

National Pickling

55 days. Rich dark green, straight, rather blunt at each end. Can be used when quite small. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Snow's Fancy Pickling

56 days. Yields immense crop of very fine, smooth, symmetrical, blunted fruits. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Everbearing 52 days. Extremely prolific. If fruits are kept picked, it will continue to bear almost indefinitely. Fruits dark green; average 4 to 5 inches in length. Excellent for small pickles. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.70; 10 lbs., \$8.80, postpaid.

WESTERFIELD'S CHICAGO PICKLING. 58 days. The standard pickling variety. Very prolific. Pkt., 5c; oz., 12c; ¼ lb., 30c; lb., 90c; 2 lbs., \$1.65; 5 lbs., \$3.85; 10 lbs., \$7.20, postpaid.

All-Purpose Mixture

Just right for those who want some of all the different cucumbers. A fine mixture of the many varieties we catalog—early, late, slicers, pickles, large and small, etc. Pkt., 10c; oz., 20c, postpaid.

CORN SALAD or Hardy Winter Salad

Leaves served like lettuce during the cool fall and early winter months. It is used also for garnishing meat dishes in the same manner as parsley, and can be **cooked like spinach**. The seed should be sown thinly in drills during August or September, to supply fresh leaves during the cool fall and winter months. It is quite hardy, but in the Northern States, after cool weather sets in, it should be protected by a thin mulch of straw or leaves. One ounce will plant 40 feet of row. Pkt., 10c; oz., 30c; ¼ lb., 90c, postpaid.

CHICORY

One ounce to 200 feet of row.

WITLOOF, or FRENCH ENDIVE. A delicious winter salad served like lettuce. Plant seed in May or June and in the fall dig roots, cut off the leaves, and store in soil in a cool place until wanted for forcing. About a month before wanted the roots should be planted in boxes of earth, in a cool, dark place in the cellar. If not grown in a dark place it should be banked up like celery. Pkt., 10c; oz., 45c; ¼ lb., \$1.50, postpaid.

ASPARAGUS CHICORY

A healthful and tasty Asparagus-flavored vegetable. The sprouts of this plant when cut fresh and boiled in salt water are served either hot or cold. It can also be blanched and eaten raw the same as celery. The tender sprouts are produced in abundance and may be cut several times in a season, as new shoots appear after each cutting. Pkt., 10c; oz., 50c; ¼ lb., \$1.75, postpaid.

Large Rooted or Coffee Chicory

This variety is grown primarily for its root crop, although the young leaves are fine for salad. The large roots, when roasted and ground, make a delicious nourishing drink, and have been extensively used as an adulterant and substitute for coffee. The roots are also very valuable as **RABBIT FEED** for which purpose we sell annually a large quantity of seed. Pkt., 10c; oz., 45c; ¼ lb., \$1.50, postpaid.

Witloof Chicory

CARROTS

One ounce for 100 feet of row; 3 pounds per acre.

CHANTENAY. A popular early bunching carrot; also suitable for winter storage. Roots are 5½ to 6 inches long and 2¼ inches in diameter at the shoulders. Very smooth, deep orange in color, tapered and stump-rooted. Matures in about 70 days. Pkt., 8c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 2 lbs., \$3.60; 5 lbs., \$8.00, postpaid.

BURGESS' SPECIAL CHANTENAY

A selected strain of Chantenay for the market gardener. More suitable for bunching and shipping than the standard sort. Carrots are smooth, cylindrical, stump-rooted, with small tap root; red-orange in color, with indistinct core. They average 8 inches in length and 1½ inches in diameter at the shoulders. They are of the highest quality, tender and of excellent flavor. Matures in about 75 days. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.00, postpaid.

DANVER'S HALF LONG. Adapted to all soils and enormously productive; 5 to 6 inches in length; flesh very tender and sweet; rich orange color; fine grained and free from woody fibre. 70 days. Pkt., 8c; oz., 20c; ¼ lb., 55c; lb., \$1.75; 2 lbs., \$3.15; 5 lbs., \$7.00, postpaid.

CORELESS NANTES

Desirable for forcing and one of the best for home garden and market. A few days earlier than Chantenay. Roots 7 inches long and 1¼ inches thick; stump-rooted. Flesh bright orange with inconspicuous core and is as "coreless" as a Carrot can be. Pkt., 10c; oz., 25c; ¼ lb., 70c; lb., \$2.25; 2 lbs., \$4.05; 5 lbs., \$9.00, postpaid.

OXHEART. A good variety to grow on soils too hard and stiff for longer-rooted sorts. Root short and thick, nearly as thick as long but of good size and excellent quality. Season same as Danvers. Pkt., 8c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 2 lbs., \$3.60; 5 lbs., \$8.00, postpaid.

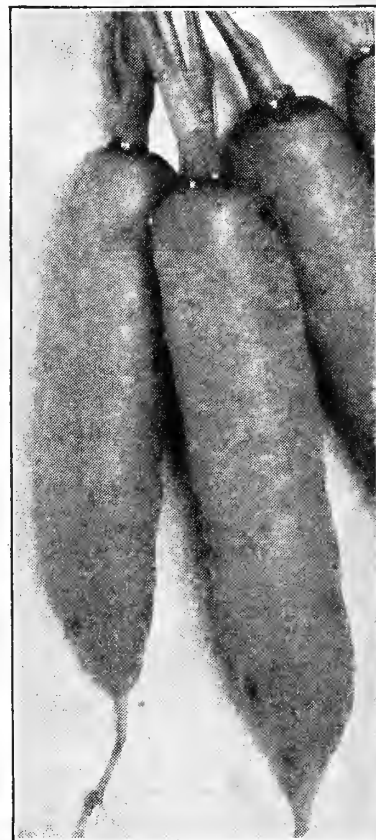

WHITE BELGIAN (Improved Mammoth). Probably the best stock carrot because of its large size, enormous productiveness and most excellent keeping qualities. Pkt., 8c; oz., 12c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.00, postpaid.

TENDERSWEET

The sweetest of all Carrots. This second-early sort is ideal for bunching. Roots 10 inches long, and only 2 inches broad at shoulder, gradually tapering to a point. Deep orange color, with indistinct core. Fine for shipping and unexcelled for home garden use. Pkt., 10c; oz., 25c; ¼ lb., 70c; lb., \$2.25; 2 lbs., \$4.05; 5 lbs., \$9.00, postpaid.

MORSE'S BUNCHING. An especially valuable variety for market growers, on account of its fine shape and color. Deep red even color throughout; roots almost cylindrical in form with very little taper, and both ends are well rounded. The tops are short and strong enough for bunching well, making a bunch that will outsell other varieties in almost any market. Finest quality, sweet and tender. Pkt., 10c; oz., 25c; ¼ lb., 70c; lb., \$2.25; 2 lbs., \$4.05; 5 lbs., \$9.00, postpaid.

IMPROVED LONG ORANGE. Uniform in shape and size, 8 to 10 inches long; smooth and of rich orange color. An excellent keeper. Fine quality for table use. Also planted extensively for stock feeding on account of its high yielding qualities and food value. Succeeds best in light soil. Ten days later than Danvers. Pkt., 8c; oz., 20c; ¼ lb., 55c; lb., \$1.75; 2 lbs., \$3.15; 5 lbs., \$7.00, postpaid.

Burgess' Special Chantenay Carrot

IMPERATOR. An outstanding bunching carrot which is popular with market gardeners. Fine for shipping and for the home garden. Roots 8 inches long, smooth and uniformly tapered to a semi-blunt end. Flesh rich orange color, extending to center of root, with indistinct core; fine grained, tender and of best quality. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.00, postpaid.

DASHEEN

A Delicious Vegetable and Ornamental Foliage Plant

Large Tuberous Roots Used Like Potatoes, Blanched Stems Like Asparagus, and the Leaves Used for Greens. Large Tropical-like Ornamental Foliage Similar to the Popular Elephant's Ear Caladium.

The Dasheen is popular in various parts of Europe and Asia, where it is grown principally as a root crop, the tubers being used the same as potatoes. The tubers sometimes reach a weight of more than 6 pounds each. One hill will produce on good rich soil 6 to 8 pounds or more of tubers, and in rare instances 20 to 26 pounds of Dasheens have been taken from a single hill. Crops of 600 to 900 bushels per acre have been produced.

The U. S. Department of Agriculture report 1,400 bushels from less than 5 acres in Florida, and on their different experimental grounds have secured yields of 450 bushels to the acre.

The "Country Gentleman" published the following regarding it: "Not only does the Dasheen promise well as a market crop once the public generally has recognized its merits, but in the meantime it is capable of furnishing food for home consumption. Its food value is higher than the potato, and about fifty per cent more protein and fifty per cent more starch. The flavor of the Dasheen is decidedly richer and more tempting than that of the potato."

Land that is too wet for ordinary crops can be used to advantage in growing Dasheens. They can be grown on lands that are subject to short overflows that would ruin most other crops, thus making much land available for food crops that is now considered worthless. They may also be successfully grown in hot, dry regions as has been demonstrated by tests in Arizona and in the desert regions of Southern California.

The Dasheen can be used in almost any way that Irish Potatoes or Sweet Potatoes can be used. They are excellent when baked, boiled, fried, creamed, stuffed, meat filled or scalloped, and for Saratoga Dasheen Chips and Fritters they are delicious.

Dasheen crisps, made from raw Dasheen with a fluted vegetable slicer and fried in deep fat, are declared by some epicures to be the most delicious of all Dasheen dishes. The delicate, nutty flavor of the Dasheen is accentuated by this method of preparation.

As a filling for fowl and other meats the Dasheen can hardly be surpassed. Served au gratin, that is, cooked with grated cheese, it is equal to any similar dish. It makes a delicious salad and may be French fried or German fried like potatoes.

The young leaves of the Dasheen make excellent greens, used like Spinach.

The stems, when grown under a box or barrel, so as to be blanched, are equal to Asparagus, and 5 to 8 crops of these shoots can be harvested. The Department of Agriculture says: "The shoots are very tender and have a delicate flavor, suggestive of mushrooms. There are probably few plants so well suited for forcing purposes as the Dasheen." First cutting can be made in about 35 days after tubers are set in ground, and subsequent ones at intervals of 10 to 14 days.

Dasheens require a rather long growing season in order to produce large size tubers, so planting should be done as early in the spring as conditions of soil and climate will permit.

For field culture the tubers are planted singly and entire, not more than 2 to 3 inches deep in hills 3 feet apart, the distance between rows being 4 feet. This will permit horse cultivation. In cultivating, the soil should be gradually drawn to the plants and the ground kept free from weeds, but require little cultivation after large enough to shade the ground. For ornamental purposes, they produce a gorgeous effect when planted with Cannas or used in the shrubbery or perennial border.

In growing Dasheens there seems to be no disease or insect enemy to contend with, as there is in growing potatoes. No dreaded potato bugs to be poisoned; no rot, scab, blight, mildew or other trouble.

While we do not recommend the Dasheen as a root crop in Northern sections where the season is short, we surely consider it worthy of a place in every garden. If you live in a locality where the growing season is not long enough to mature a satisfactory crop of tubers, the blanched asparagus-like stems and spinach-like leaves alone will many times repay you for the small garden space occupied by a few hills of Dasheens. If you haven't the room in your garden to give them a trial, you can at least plant a few for ornamental purposes and food. In addition to being one of the finest vegetables, you will also find them one of the most showy ornamental foliage plants, the leaves resembling closely the Caladium Esculentum, or Elephant's Ear. As our stock of tubers is limited, we recommend that you send your order early.

Choice seed tubers, 3 for 40c; 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.75; 100 for \$7.00, delivered to you prepaid. Pamphlet giving cultural directions and recipes for preparing and cooking the Dasheen free with each order.

GIANT CABBAGE-LEAVED DANDELION

One Ounce Will Sow 100 Feet of Row

GIANT CABBAGE-LEAVED or IMPROVED THICK LEAF is an improved type which should not be confused with the wild Dandelion. It is one of the earliest spring vegetables, and is much prized as a blood purifier and for its other health-giving qualities. Unsurpassed for early spring greens, and esteemed for making salad when the leaves are young and tender. The leaves are of a dark green color, but can be blanched by sheltering from light with inverted pots, covering with boards or tying up the same as Cos Lettuce. Cultivate same as Lettuce. It remains over winter and is ready for cutting the following spring. If the roots are not disturbed, they will grow again, affording another supply the next year. Pkt., 15c; ½ oz., 35c; oz., 60c; ¼ lb., \$1.90; lb., \$6.75, postpaid.

FLORENCE FENNEL OR FINOCCHIO

MORE EASILY GROWN THAN CELERY

The flavor is somewhat like celery, but sweeter. A delicious vegetable which should be more largely grown. It is extensively used as a salad in some parts of Europe, and is particularly palatable when served boiled, with a cream dressing. Very distinct from Sweet Fennel, easily cultivated, and matures quickly from seed sown in early summer. The thickened bases of the leaf-stalks form a bulb-like growth, which is blanched by earthing up like celery. Requires less blanching than celery. Pkt., 10c; oz., 25c; ¼ lb., 75c, postpaid.

Florence Fennel

Large Dasheen Tubers like this often grow from 3 to 5 lbs. each and sometimes to more than 6 lbs.

Garden Huckleberry

GARDEN HUCKLEBERRY

Grows from seed the first year. A new fruit that cannot be excelled for Pies and Preserves. It is very prolific, yielding an immense crop of fruit. It is an annual and must be planted each year from seed. Grows and thrives in all climates and on all kinds of soil. The fruits grow larger than the common Huckleberry or Blueberry and will remain on the plant two months after they are ripe. If cooked with apples, lemons or anything sour, they make the very finest jelly. You will be delighted and astonished with this easily grown and wonderful novelty. Pkt., 10c; ½ oz., 30c; oz., 50c, postpaid.

GROUND ALMONDS

200 TO 300 NUTS IN A HILL

The Ground Almond, or Chufa, has a fine flavor, resembling the Coconut or Almond. The meat is snow-white, covered with a thin shell or skin of brown color. It grows close to the surface. Is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If nuts are planted in the spring a big crop can be expected about potato harvest time. Usually eaten raw but have an excellent flavor either raw or roasted. Pkt., 10c; 3 pkts., 20c; ½ lb., 40c; lb., 75c; 3 lbs., \$2.00; 10 lbs., \$5.00, postpaid.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

COFFEE

ONE CENT PER LB.

Grow your own coffee at an expense of less than one cent per pound. The Domestic Coffee Berry makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and strength to young and old. The best coffee substitute ever discovered, and thousands pronounce it as good or better than the best coffee. It has the rich, deep brown color of old Java. One of the easiest grown and most productive of all plants. It is an early variety of soy beans, can be successfully grown in any climate, and is sure to ripen even in the extreme North. As easily grown as corn or beans, and does well on all soils. Thousands suffer untold injury from store coffee. Better grow some of the Domestic Coffee Berry this year and save your health and money. Prepared like any other coffee. Full directions with every packet. Pkt., 10c; ½ lb., 30c; lb., 50c, postpaid.

CELERY LETTUCE

Burgess' Celery Lettuce

Cos or Celery Lettuce is an entirely distinct type of lettuce, and is rapidly gaining favor. The plants are of erect growth, forming a slightly oblong bunch of large, crisp leaves. The outer leaves should be gathered together at the top and loosely tied with a piece of soft string for several days before wanted for use. This blanches the inner leaves to snowy whiteness and brittle crispness. **BURGESS' IMPROVED** is the best variety, always sweet and tender and of the best quality, even when grown during the hot summer months. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.20; 2 lbs., \$2.15; 5 lbs., \$5.10, postpaid.

Heads 2 lbs. Tender and Sweet

LOS ANGELES, NEW YORK or WONDERFUL. The most popular head lettuce ever introduced. Furnishes fine, crisp lettuce during the hot summer months. The largest variety grown, often producing heads weighing more than 2 pounds each, nearly as solid as a cabbage, and inside leaves blanched to beautiful creamy-white. Stands shipping as well as cabbage and remains in condition longer than other sorts. The most crisp and tender head lettuce grown. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.35; 2 lbs., \$2.45; 5 lbs., \$5.75, postpaid.

Burgess' Choice Lettuce

One ounce will sow 300 feet of row or produce about 8,000 plants.
4 pounds to the acre.

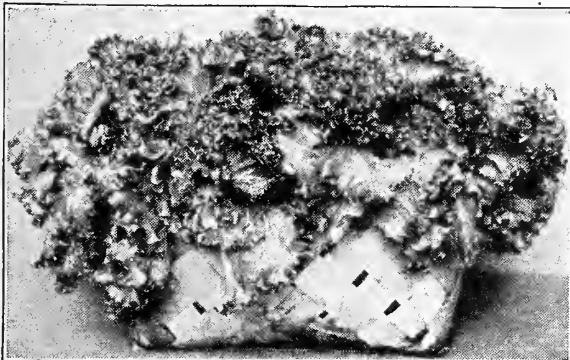

ALL SEASONS (Deacon). A popular variety with medium size heads made up of thick, light green leaves. The heart blanches to golden yellow and has a delicious, rich, buttery flavor. A sure header and slow to run to seed. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

BEEFSTEAK One of the best varieties for the home garden. Does not form tightly folded heads, but makes a compact bunch of leaves. The large, crimped leaves are highly colored brownish-red; crisp, sweet and exceedingly tender; very early, and stands a long time without going to seed. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75; 2 lbs., \$3.15; 5 lbs., \$7.45, postpaid.

BIG BOSTON. The best head lettuce for forcing under glass, and one of the best for outdoor planting. Produces large, solid heads, often 10 to 12 inches across. Excellent quality; sure to head. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.65, postpaid.

BLACK SEEDED SIMPSON. A popular curled or loose-leaved sort for early outdoor planting. Used extensively by market gardeners. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

EARLY CURLED SIMPSON, or SILESIA. (White seeded). A very early, hardy and dependable loose-leaved sort. Especially popular for home gardens. Plants large, compact, light lustrous green; leaves broad, frilled, firm, crisp, sweet and of good quality. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.65, postpaid.

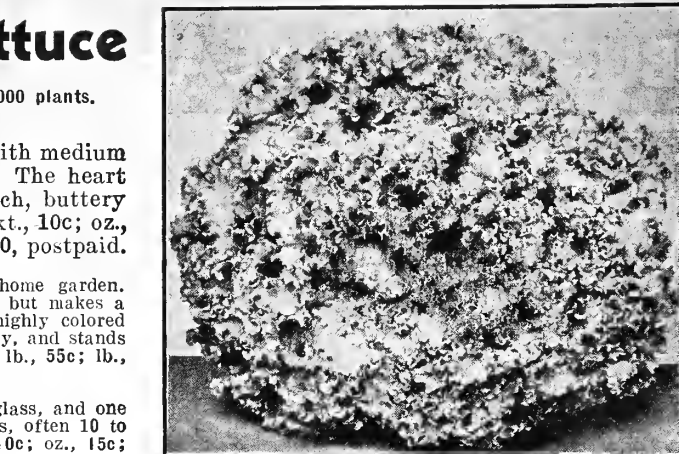

Grand Rapids Forcing

WHITE BOSTON. One of the finest varieties of Lettuce grown. Forms a beautiful, large, solid head similar to Big Boston, but earlier. Outer leaves light green; tightly folded heart blanches to a bright creamy yellow. Sweet, tender, crisp and juicy. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.40; 2 lbs., \$2.50; 5 lbs., \$5.95, postpaid.

Chicken or Rabbit Lettuce

Feed All Spring and Summer

The best green feed for chickens and rabbits. In this variety you will find a feed that yields as much or more than other green feeds. It is economical to grow, for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. The yield is extremely heavy. Chicken or Rabbit Lettuce is too coarse for a table variety. Grows 3 to 4 feet high and just loaded with large leaves. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

Beefsteak Lettuce

GRAND RAPIDS FORCING. The best loose-leaved sort for forcing under glass and an excellent variety for outdoor planting. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

ICEBERG An easily grown Lettuce of the crisphead type; no other variety surpasses it in quality. The heads are of medium size, firm and hard, exceedingly crisp, juicy, sweet and tender, with heart leaves blanched to almost white. One of the best varieties for market and the home garden. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.35; 2 lbs., \$2.45; 5 lbs., \$5.75, postpaid.

Big Boston Lettuce

IMPERIAL 44. A new variety of the Iceberg type developed for use in the Eastern States and found valuable because of its ability to make good solid heads during warm weather. It can be grown on a wide variety of soils, either upland or muck, and produces crops that can compete successfully with Western grown Iceberg. The heads are true Iceberg type, solid and of fine quality. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50; 2 lbs., \$4.50; 5 lbs., \$10.60, postpaid.

Chicken or Rabbit Lettuce

EGG PLANT (Disease-Treated) Seed

One ounce of seed for 1,500 plants

Black Beauty Egg Plant

BLACK BEAUTY.

The earliest and best of all Egg Plants. The fruits grow to an enormous size and are ready to use 10 days to 2 weeks ahead of other varieties. The plants grow into compact and robust bushes, and are laden with the mammoth fruits. Under favorable conditions they bear continuously until frost. The fruits are of most attractive form; the skin is a rich, lustrous, purplish black. Very productive; entirely free from spines or thorns. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.20; lb., \$3.85, postpaid.

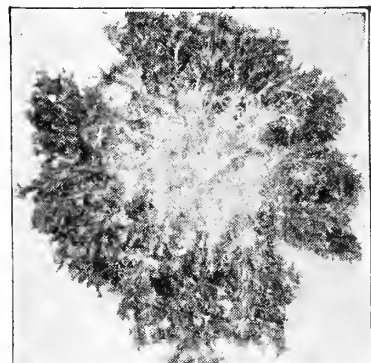

ENDIVE OR WINTER LETTUCE

One ounce will sow 150 feet of row

EXTRA CURLED. One of the most refreshing of all autumn and winter salads. May be grown any season of the year, but is more generally used late in the fall. Blanched by tying up the leaves in a conical form for about 10 days before using. Dr. Finck, an authority on foods, recommends it as a food for persons suffering from indigestion. Pkt., 8c; oz., 13c; ¼ lb., 30c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

SELF - BLANCHING. An improved strain of Extra Curled that does not need tying up. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35, postpaid.

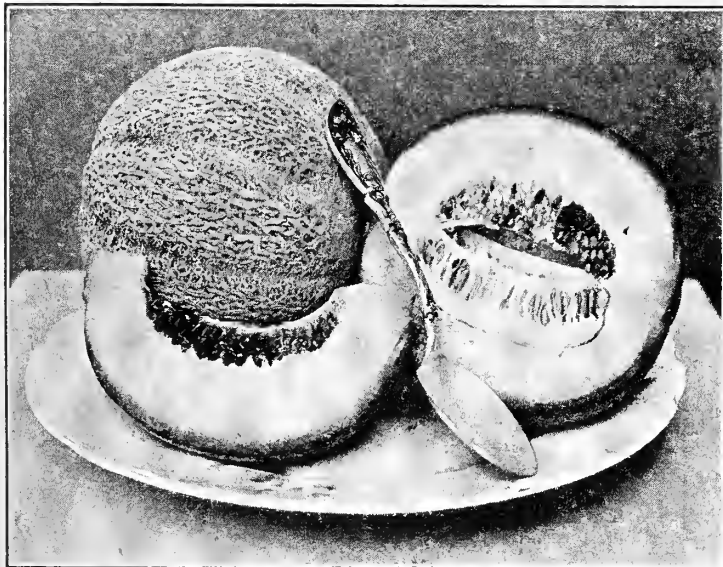

BATAVIAN FULL HEART. Foliage broad and flat—deep green leaves with thick midrib, that is exceedingly palatable when well blanched. Stands dry weather better than any other sort. We believe this variety is unsurpassed for salad when blanched by an experienced gardener, but is more generally used cooked like Kale or Spinach or as flavoring for soups, stews, etc. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

Extra Curled Endive

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

BURGESS' DISEASE-RESISTANT MUSKMELON SEED

Hearts of Gold

Hearts of Gold

Owing to its superior quality, Hearts of Gold is highly prized everywhere. Average weight, 1½ to 1¾ lbs. Flesh deep orange, extremely thick, fine grained, and very sweet and melting. It is a money maker for market gardeners and few equal it for the home garden. It is a marvel of productiveness. Pkt., 10c; oz., 18c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35; 10 lbs., \$12.00, postpaid.

Tip Top A wonderfully fine melon and one of the most productive. Its appearance on the market is very attractive—sells on sight. The fruits are of large size, nearly round, evenly ribbed and moderately netted. Flesh rich, deep salmon, firm but not hard, and edible to the outside coating. The testimony of those who plant Tip Top is that every melon produced is a good one—sweet, spicy, juicy and of finest flavor. Ripe fruit in 85 days. Pkt., 8c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

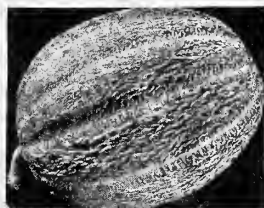

Home Garden Mixture

A seed mixture composed of the varieties listed on pages 16 and 17 and a few others from our trial grounds, which we haven't yet placed on the market. Pkt., 10c; oz., 20c, postpaid.

OSAGE

(MILLER'S CREAM).

One of the most popular main crop varieties. Fruits large in size, salmon flesh, thick, fine grained and highly flavored. Good for home garden and local market, and always in demand. Our Michigan seed produces ripe fruits much earlier than other strains. Pkt., 8c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

Osage, or Miller's Cream

Banana Muskmelon

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

There are many localities other than Michigan in which excellent Muskmelon seed is produced but none that combines the excellent quality with the extreme earliness that our Michigan grown pedigreed seed does. Our seed is also treated for the control of seed-borne fungous and bacterial diseases. The assurance of a big crop of disease-free melons of best quality, and ready for market a few days ahead of melons grown from seed produced elsewhere, is of the very greatest importance to the market grower.

One ounce of seed for 50 hills; 3 pounds per acre

Mel-O-Dew Quality Melon

Here is a new melon which we introduced last year. It is of such high quality and so strikingly beautiful and distinctive that it stands out from all other varieties. See complete description on page 2.

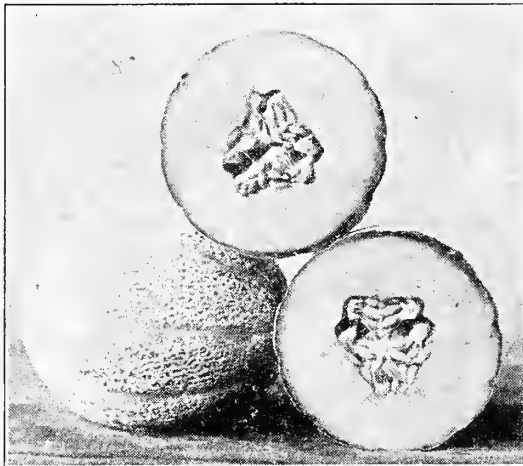

Lake Champlain

Lake Champlain The Earliest Muskmelon

Our Special Michigan grown seed of this variety produces ripe fruits ahead of any other melon, giving you a crop ahead of competitors and netting you the top market price. The Cornell University Experiment Station reports this melon to be much earlier than any other in their very extensive trials. It is not only the earliest Muskmelon of high quality, but it is so good that Professor Tompson of the Massachusetts Agricultural College reports it as the best in quality he has ever eaten. The flesh is deep, very sweet and melting, of golden yellow color; a small round melon; nicely netted. The plant is very vigorous and healthy, setting and ripening melons even under adverse conditions. It is not a long distance shipping melon, but is of high quality and will give you the earliest melons for the local market.

MICHIGAN GROWN SEED. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75; 2 lbs., \$3.15; 5 lbs., \$7.45; 10 lbs., \$14.00, postpaid.

COLORADO GROWN SEED. Matures melons several days later than Michigan seed. Pkt., 8c; oz., 14c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Hale's Best

Hale's Best

The Big Money Maker

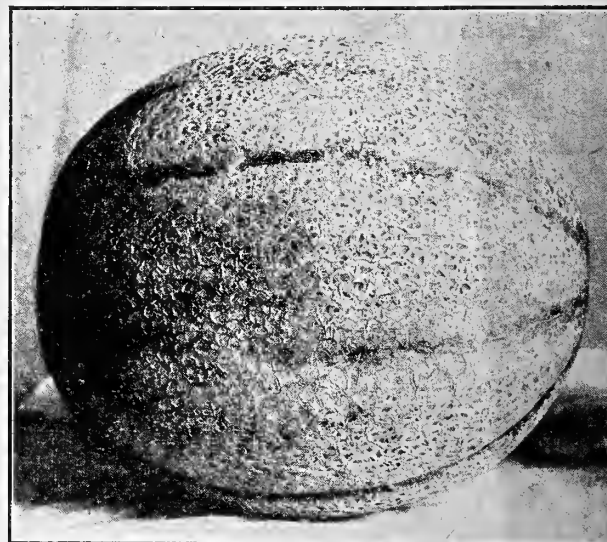

An outstanding early shipping melon. Our special stock of Hale's is only a few days later than our Michigan-grown Lake Champlain. It is a melon that can be shipped clear across the country or trucked a great distance and reach the customers in the best of condition. In addition to its shipping qualities, it is one of the best yielding varieties. The large Western melon growers grow more Hale's than any other variety. Fruits are oval, 6½ inches long and 5 inches in diameter; inconspicuous ribbing with very heavy netting. Flesh extremely thick, salmon-orange, sweet and of very fine quality. The seed we offer is our own strain, grown in Michigan, and we do not believe there is any question about its being earlier than and superior to any other stock of Hale's. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

Hale's Mildew Resistant

The same size, shape and quality as Hale's Best, but resistant to mildew, and matures about a week later. Our Michigan-grown seed will give heavier yields and earlier melons than Western-grown seed, and we can recommend it for the grower who is having trouble with mildew. Pkt., 10c; oz., 20c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35; 10 lbs., \$12.00, postpaid.

BANANA

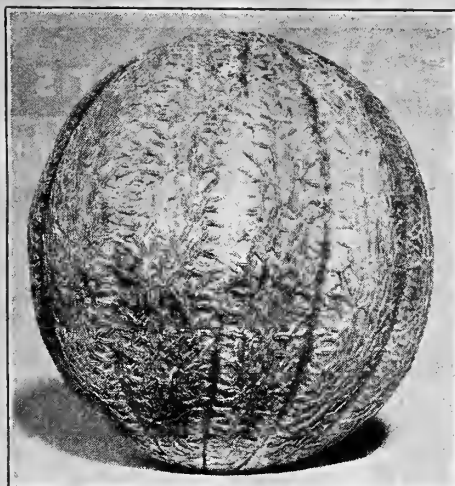

This melon surpasses all others in its delicious fragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. 18 to 36 inches in length; very prolific. Exceptionally sweet, spicy and delicious. Don't fail to try it. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25, postpaid.

Bender's Surprise

Bender's Surprise The Best Large Size Muskmelon

Exquisitely fine flavor, large size and medium earliness combine to make this melon a great favorite. Melons average quite large, many weighing 10 pounds or more; oval in shape; light green with coarse netting, and turn a golden tint as they mature. Flesh deep orange, very thick and deliciously sweet. Will keep in good condition a week after picking, and actually improve in flavor during that time. The flesh is so firm and thick that the melons remain in good condition much longer than any other large melon of this class. For market and shipping this is an important consideration. We know of no other large Muskmelon that will equal Burgess' Special Strain of Bender's Surprise for either the market or the home garden. Pkt., 10c; oz., 18c; ¼ lb., 45c; lb., \$1.40; 2 lbs., \$2.50; 5 lbs., \$5.95; 10 lbs., \$11.20, postpaid.

Pride of Wisconsin

Pride of Wisconsin

Delicious—Attractive—Productive

A new introduction of considerable merit. It is a most attractive fruit, both on the outside and when cut. This new variety seems to include many of the desirable characteristics of the Honey Rock, with a smaller seed cavity, and the added feature of the thick flesh not softening prematurely as it approaches maturity. Only 3 to 5 days later than Honey Rock; nearly round; flesh rich, deep pink. No variety can claim superiority in flavor and eating quality. It is unsurpassed for the home garden and holds up well for several days, allowing plenty of time for marketing. Pkt., 10c; oz., 18c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.40; 10 lbs., \$12.00, postpaid.

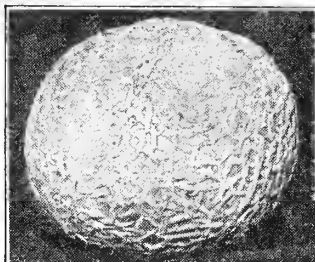

HONEY DEW

Full Grown Fruits That Do Not Ripen on the Vines Can Be Picked and Will Ripen in Storage

In the city markets the Honey Dew sells at higher prices than any other melon. Smooth, ivory colored skin; flesh green, thick, tender, and the juiciest and sweetest of all muskmelons. A late melon, requiring 100 to 115 days. Prefers a warm dry climate. A good shipper; will keep good for months if kept in a cool, dry place. Full grown fruits that do not ripen on the vines before the fall frosts can be picked and will ripen in storage. Pkt., 10c; oz., 18c; ¼ lb., 45c; lb., \$1.35; 2 lbs., \$2.45; 5 lbs., \$5.75; 10 lbs., \$10.80; postpaid.

VINE PEACH

Fine for canning, preserves and marmalade. The fruit is about the size of a large peach, and can be used in every way in which a peach can be used, except that it is not usually liked raw. A jar of these fruits cut in halves and cooked in syrup presents a beautiful and tempting appearance. The vine on which these fruits are produced belongs to the melon family. Easily grown in any garden; wonderfully prolific. Pkt., 10c; oz., 20c, postpaid.

Honey Rock

Honey Dew Melon

When You Buy Melon Seed From Us You Are Getting It Direct From the Grower. There's No Guesswork—We Know It's Good.

HONEY ROCK

Honey Rock (also called Sugar Rock) has proved to be a very profitable market variety. Honey Rock is one of the most productive varieties grown. Five to seven perfect fruits, and often more, are produced on one vine. The rind is tough and the fruits can be shipped in perfect condition after ripening on the vines. It is not of the Rocky Ford type. It averages a little larger and is earlier. The fruits are slightly oval—nearly round—and are overlaid with a heavy gray netting. This heavy netting and tough rind is what makes them stand handling and shipping so well. Honey Rock has deep orange flesh. Is wonderfully sweet and delicious. Pkt., 10c; oz., 18c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35; 10 lbs., \$12.00, postpaid.

HORSE RADISH

Thrives Everywhere

Every garden should have a few plants of Horse Radish. Grown from sets or piece-roots. Set them vertically, small end down, and the large end one to three inches below the surface of the soil. Cultivate until tops cover the ground.

BOHEMIAN GIANT. An improved, mammoth-rooted variety of excellent quality. Sets planted this spring will make good roots by fall. 6 for 25c; 12 for 35c; 25 for 60c; 100 for \$2.00; 250 for \$4.00; 1,000 for \$15.00, postpaid.

Once Established Lasts for Years

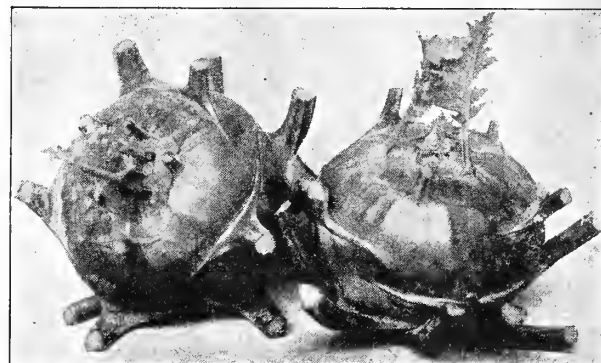

Kohl-Rabi

(Turnip Rooted Cabbage)

One Ounce of Seed to 200 Feet of Row

The Kohl-Rabi belongs to the Cabbage family. It does not make a head, but the stalk forms a turnip-shaped swelling just above the surface of the earth. These balls when the size of an egg make a very excellent vegetable. May be cooked either like cauliflower or turnip, resembling cauliflower in flavor. They are in season during June, July and August, or at periods when turnips are not good, and succeed in dry weather when turnips are fibrous and hot. For a continuous supply sow every 2 weeks up to the middle of July.

EARLY WHITE VIENNA is the best variety of Kohl-Rabi; very select, extra-early strain; ready for the table in 60 days from seed. Flesh firm but cooks very tender; sweet and delicious. No garden complete without it. Pkt., 10c; oz., 32c; ¼ lb., 90c; lb., \$3.00, postpaid.

Early White Vienna Kohl-Rabi

Kale, or Borecole

One Ounce of Seed to 300 Feet of Row

This is a species of the cabbage family which is extensively grown for greens. It is harder than cabbage; plants withstand several degrees of frost. In the Northern states it will provide an abundance of greens throughout the summer and late into fall, and all winter and the following spring in the South.

DWARF SCOTCH. The best variety. Large, finely curled, parsley-like leaves which can be used for garnishing as well as for greens. Tender and of the very finest flavor. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

LEEK

WINTER SUBSTITUTE FOR GREEN ONIONS

One Ounce of Seed to 200 Feet of Row

GIANT FLAG. Highly esteemed as a fall and winter substitute for green onions. Excellent for stews, soups or creamed. Belongs to the Onion family but is considered of finer flavor. Mild and sweet; very hardy and easily cultivated in the home garden. The edible stems are 6 to 8 inches in length and about 3 inches in diameter. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50, postpaid.

Giant Flag Leek

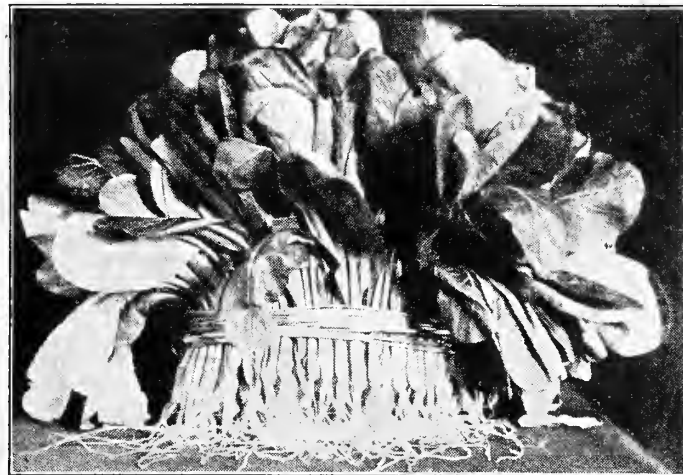

MUSTARD

One Ounce of Seed to 75 Feet of Row

The large leaves of the two following varieties make a most palatable and piquant type of greens and possess healthful tonic properties. Preferred by many to Spinach, but should be cut young, for when old the flavor is strong. Begin sowing seed as early in the spring as the weather permits and make successive sowings every two weeks.

FORDHOOK FANCY. Of vigorous growth; beautiful dark green leaves which curve outward like fine ostrich plumes. Shoots to seed more slowly than any other Mustard. Pkt., 8c; oz., 12c; ¼ lb., 22c; lb., 55c; 2 lbs., \$1.00; 5 lbs., \$2.30, postpaid.

SOUTHERN GIANT CURLED. Leaves large, yellowish-green, much crumpled on the edges. The most extensively grown of any variety. Ready for table in about 35 days. Pkt., 8c; oz., 12c; ¼ lb., 21c; lb., 50c; 2 lbs., 90c; 5 lbs., \$2.10, postpaid.

Mustard Spinach

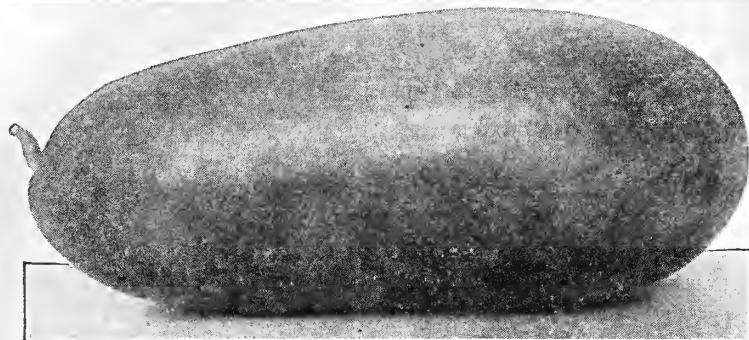

Mustard Spinach

One ounce of seed to 75 feet of row.

Mustard Spinach, or Tendergreen is ready for the table in 3 to 4 weeks after seed is planted. It is a very mild Mustard with a distinct Spinach flavor. It is an all season plant, resistant to insects and blight. The leaves, which are twice the size of Swiss Chard, are mostly used when young. Repeated plantings every two weeks will produce an abundant supply of delicious greens throughout the entire summer, as well as spring and fall. It is extremely resistant to both hot and cold weather, so early and late plantings are possible. The leaves are cooked and prepared for the table the same as Spinach. Pkt., 8c; oz., 13c; ¼ lb., 25c; lb., 65c; 2 lbs., \$1.15; 5 lbs., \$2.75; 10 lbs., \$5.20, postpaid.

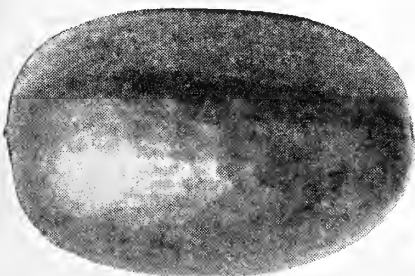

If You Want Seeds Sent by Express, Not Prepaid, Deduct 10c per Lb. from Postpaid Prices

Michigan Watermelon Seed Produces Earlier Melons

Pride of Muscatine Wilt-Resistant Watermelon

Pride of Muscatine is a strain of Kleckley's Sweet that is absolutely resistant to wilt, and will grow and thrive on wilt sick soil. In addition to this wilt-resistant feature, which is very desirable in some localities, it retains all the superb qualities of the old reliable Kleckley's Sweet or Monte Cristo. In fact, it is superior to that variety. The attractive, oblong melons are of large size, running from 40 to 60 pounds under good growing conditions. The rich, glossy, dark green rind is thicker than that of Kleckley's, making it a better shipper. The flesh is deep red, crisp, tender and deliciously sweet and melting. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

KLONDIKE The Sweetest of All Early Melons

This is one of the best early watermelons from a quality standpoint, ripening a few days later than the first early varieties. The melons are oblong, of an even dark green color, and usually weigh 20 to 25 lbs. Flesh is deep red, exceptionally crisp and tender, as well as most delicious in flavor. The seeds are small, black, with brown markings. Klondike has for years been the leading early variety in melon growing districts along the Pacific Coast. Our strain of this melon is an exceptionally heavy yielder and gives excellent satisfaction in the North. You will be pleased with it either for the market or home use. Give it a trial this year. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

Winter Watermelon

A home grown melon for your Thanksgiving dinner. It is not a citron or a freak, but a very prolific long-keeping true Watermelon. Flesh red, extremely firm, very brittle and deliciously sweet. Fruits taken from the field before killing frost and stored in a cool place will keep long into the late fall and early winter and retain their delicious sweetness and flavor. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25, postpaid.

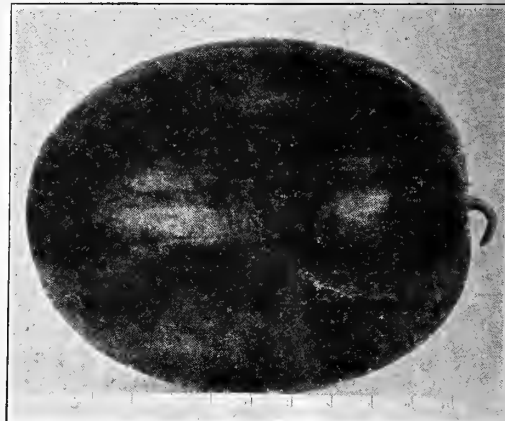

Kleckley's Sweet or Monte Cristo

One of the most popular melons for the home garden and nearby markets, because of its superb flavor and surpassing crispness. No melon sweeter. Average length 18 to 20 inches; color very dark green; season medium early. Pkt., 5c; oz., 12c; ¼ lb., 25c; lb., 80c; 2 lbs., \$1.45; 5 lbs., \$3.40; 10 lbs., \$6.40, postpaid.

Plant Burgess' Watermelon Seed for Early Maturity. Be First on the Market. Our seed is adapted to all climates and is the best for both the Northern and the Southern planter. We sell thousands of pounds of Watermelon seed to Southern planters who grow early melons to ship North. The fact they continue planting our seed each year, and pay more for it than they would have to pay seedsmen in their own locality, should be proof that our seed is worth more. A few days earlier maturity means considerable to both the Northern and the Southern market grower. One ounce of seed for 25 hills; 4 pounds per acre.

Northern Sweet 60 Day Melon

The Early Ice-Box-Size Watermelon. Weighs only 15 lbs., and has been grown to maturity, from planting, in 60 days. Fruits are nearly round, medium green with dark green stripes; rind very thin. Flesh very deep red, crisp, sweet, and delicious; seeds large and white. If you want an extra early melon you will not be disappointed with Northern Sweet. Ideal for home garden and local truckers. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Northern Sweet

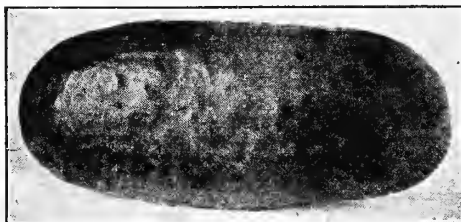

87 Oranges on Tree in Illinois

Two years after purchasing one-year-old trees from us, Illinois customer reports 87 oranges on one tree; 11 lemons; 14 figs. For Orange and Lemon Trees, see page 26; Fig Trees, page 75.

Peerless, or Ice Cream

Succeeds on All Kinds of Soil

Peerless is one of the finest early, large, long melons, and is especially recommended for the home garden, as it will succeed on all kinds of soil and where other melons fail. Our strain of this melon ripens only 5 to 8 days later than Pride of Yukon. The fruits are nearly as large as Kleckley's Sweet and 3 to 5 days earlier; rind light green, mottled and veined; flesh bright scarlet, solid to the center, tender, sweet, melting and delicious. Few, if any, surpass it for quality or productiveness. Pkt., 8c; oz., 13c; ¼ lb., 30c; lb., 85c; 2 lbs., \$1.55; 5 lbs., \$3.60; 10 lbs., \$6.80, postpaid.

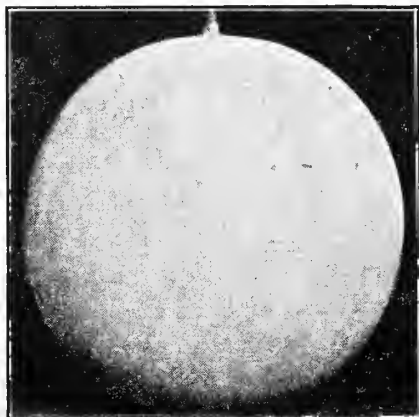

Peerless

Stone Mountain Wilt-Resistant

A wilt-resistant strain of this large, round, medium dark green, high quality melon. Flesh highly colored, very solid, with fewer seeds than most varieties. The fruits frequently attain a weight of 60 to 80 pounds. The rind is tough enough to stand handling for nearby markets but will not stand long distance shipping. We have found this somewhat earlier than other large varieties. It produces an abundant crop and can be grown successfully farther north than many of the large long varieties. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

Hawkesbury, or Gray Shipper

A wilt-resistant variety developed by the Australian Department of Agriculture. Of the Irish Gray type; long, usually weighing about 35 lbs. each, light gray with fine veining of green. The rind is tough, making it excellent for market and shipping purposes. Flesh dark pink, sweet, crisp, of excellent quality. Seed brownish black. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid.

Winter

Pride of Yukon EXTRA EARLY WILT-RESISTANT

Pride of Yukon

Pride of Yukon is an extra early wilt-resistant Watermelon. It is wonderfully sweet and of best quality; entirely free from stringiness and fairly melts in your mouth. Fruits are of attractive appearance; medium in size, seldom exceed 18 to 20 pounds in weight, averaging 10 to 15 pounds; flesh bright scarlet. Hardy, vigorous and remarkably productive. Recommended for extra early planting. Especially adapted to Northern localities where the season is short, but does well in all sections of the country and has created a sensation wherever grown. While it is not an extra good shipper, it is a wonderful melon for the home garden and a gold mine for the market gardener. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

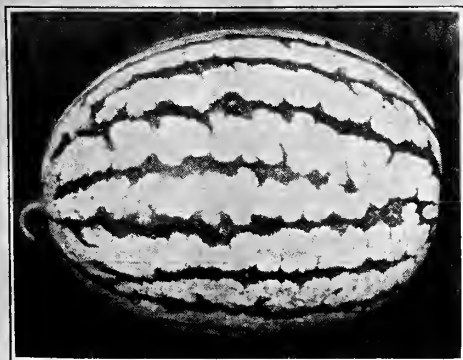

Stone Mountain

Deduct 10c per lb. from Postpaid Prices if you want seeds sent by express, not prepaid

Michigan Grown DIXIE QUEEN

Our Michigan grown seed of this melon, like all other varieties, is better than Southern grown seed for planting either in the North or the South, for it produces **EARLIER MELONS** of the very best quality.

Dixie Queen is a very prolific mid-season variety used extensively for shipping, and is rapidly gaining popularity for the home garden. Fruits are oval-round, light green with dark green stripes, of medium size but often growing to a larger size and weighing as high as 50 pounds. Rind is thin, but tough. The bright red flesh is crisp, sweet and practically free from fiber, and the few seeds are small and white. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.35; 2 lbs., \$2.45; 5 lbs., \$5.75; 10 lbs., \$10.80, postpaid.

"Cut-Red" Tom Watson

The improved "Cut-Red" or "Red-Heart" strain of this outstanding shipping melon has no white heart and is one of the most popular of all Watermelons. The flesh is superb in quality and of the brightest red color clear through. The handsome, dark green rind is thin, but hard and tough, so is unsurpassed as a market sort. The melons are usually 20 to 24 inches in length and 10 to 12 inches through, averaging on good soil over 30 pounds each, and single specimens often weighing 50 to 60 pounds. A good yielder and a great money maker on all markets. Matures in 85 days. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.80; 10 lbs., \$7.20, postpaid.

Jumbo Watermelon the 100 lb. State Fair Melon

Grow some of these giant Watermelons and win some prizes at your State or County Fair. More prizes for large melons have no doubt been won with Jumbo than with all other varieties of Watermelons combined. With rich soil and good care, mammoth size melons can be produced wherever ordinary melons can be successfully grown. Melons weighing 100 lbs. or more are matured in 90 days. The seed we offer is extra select and should produce fine, sweet, juicy melons of good quality and enormous size. Pkt., 10c; oz., 25c; ¼ lb., 60c; lb., \$2.00, postpaid.

Golden Honey

A Delicious Yellow-Fleshed Watermelon

Flesh of rich golden color, firm, crisp and glistening, sweet as honey, and fairly melts in your mouth. No hard core or stringiness. An early melon; average about 20 lbs.; very few seeds. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Coconut or Climbing Watermelon

Melons about the size of large coconuts and of the highest quality. Fruit ripens for a long period, unlike other sorts which ripen their fruits mostly at one time. The vine may be allowed to trail on the ground or may be trained and tied to trellis. Bright red flesh; crisp and sweet. An ideal melon for the small garden. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.50, postpaid.

Citron, or Preserving Melon

Flesh white and solid. Used exclusively for making preserves and candied fruit. Pkt., 8c; oz., 13c; ¼ lb., 32c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.80, postpaid.

Disease-Treated Onion Seed

Onions usually net the grower more money per acre than any other vegetable crop. If you are going to raise a crop that requires the labor and capital that Onions do, don't waste your time cultivating anything but the best. The difference in price, if any, between a good strain of carefully grown seed and a poor strain, carelessly grown, is so small that you can only afford to plant the very best. There are many inferior strains of Onion seed being offered to the public at low prices which will produce Onions of all sorts and sizes instead of the uniform, marketable crop obtained by planting a carefully selected strain of seed. Each year a large and steadily increasing number of market gardeners buy our pure bred, disease-treated Onion seed, because they realize that none is superior.

One ounce of seed for 150 feet of row; 4 to 6 lbs. per acre.

Burgess' Early Yellow Globe

Burgess' Early Yellow Globe The Earliest Yellow Globe Onion

Our Early Yellow Globe Onion will produce a crop from seed which will be ready for the market about the same time as onions grown from sets. It is positively the earliest yellow globe onion. Onions of good size, fine globe shape and beautiful yellow color. As to maturity, it can be put on the market fully three weeks earlier than Danvers or Southport Strains of yellow globe, and yields very heavily. On several occasions onion crops have been a failure except Early Yellow Globe, which produced a fine crop of good sized onions that brought a price much above market. Pkt., 10c; oz., 50c; ¼ lb., \$1.70; lb., \$6.00; 2 lbs., \$10.80; 5 lbs., \$25.50; 10 lbs., \$48.00, postpaid.

SOUTHPORT RED GLOBE. The best round red Onion. Pkt., 10c; oz., 60c; ¼ lb., \$1.95; lb., \$7.00; 2 lbs., \$12.60; 5 lbs., \$29.75; 10 lbs., \$56.00, postpaid.

SOUTHPORT WHITE GLOBE. Extra select; the best round white Onion. Always brings a fancy price on the market. Pkt., 10c; ½ oz., 40c; oz., 65c; ¼ lb., \$2.20; lb., \$8.00; 2 lbs., \$14.40; 5 lbs., \$34.00; 10 lbs., \$64.00, postpaid.

SOUTHPORT YELLOW GLOBE. The favorite round yellow Onion with the big Onion growers. Attractive in appearance and an immense cropper. Pkt., 10c; oz., 50c; ¼ lb., \$1.70; lb., \$6.00; 2 lbs., \$10.80; 5 lbs., \$25.50; 10 lbs., \$48.00, postpaid.

YELLOW GLOBE DANVERS. The most popular yellow Onion. Not quite as large or as globe shaped as Southport. Pkt., 10c; oz., 50c; ¼ lb., \$1.70; lb., \$6.00; 2 lbs., \$10.80; 5 lbs., \$25.50; 10 lbs., \$48.00, postpaid.

LARGE RED WETHERSFIELD. The standard main-crop flat red variety. Pkt., 10c; oz., 40c; ¼ lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00; 10 lbs., \$32.00, postpaid.

AUSTRALIAN BROWN. Semi-globe shape, brownish-yellow in color, solid, white flesh and very mild and sweet. A good yielder and a sure cropper and is noted for its long keeping qualities, having been kept in fine condition for a year after harvest. A valuable Onion for sections where the season is short. Pkt., 10c; oz., 40c; ¼ lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00; 10 lbs., \$32.00, postpaid.

PRIZETAKER, or MAMMOTH SPANISH. A handsome Onion of perfect globe shape and enormous in size, sometimes weigh as much as 4 lbs. each. The flavor is very pleasant, mild and sweet. Pkt., 10c; oz., 60c; ¼ lb., \$1.95; lb., \$7.00; 2 lbs., \$12.60; 5 lbs., \$29.75; 10 lbs., \$56.00, postpaid. For prices of frost-proof plants, see page 20.

Riverside Sweet Spanish

Riverside Sweet Spanish The Largest and Sweetest Onion

This globe-shaped Spanish variety is the largest and sweetest Onion grown. The flesh is pure white, of very fine grain, crisp, juicy, and so mild and sweet that it is unsurpassed for eating raw. The skin is light yellow or straw color, the general color and shape resembling Prizetaker, but it is a distinct type, and will average better than twice the size of Prizetaker. Although of gigantic size, it has a small top, is a good keeper, and, if allowed to thoroughly dry, will stand shipping long distances. Riverside Sweet Spanish is more resistant to thrips and mildew blight than any other variety. Pkt., 10c; ½ oz., 40c; oz., 65c; ¼ lb., \$2.20; lb., \$8.00; 2 lbs., \$14.40; 5 lbs., \$34.00; 10 lbs., \$64.00, postpaid. For prices of plants, see page 20.

Riverside White Spanish The Largest White Onion

RIVERSIDE WHITE SPANISH. Identical in every way to the above described Riverside Sweet Spanish except color, which is pure white. Mammoth in size, solid, crisp, juicy, sweet and mild. The most handsome white onion ever grown. Pkt., 10c; ½ oz., 45c; oz., 75c; ¼ lb., \$2.50; lb., \$9.00; 2 lbs., \$16.20; 5 lbs., \$38.25; 10 lbs., \$72.00, postpaid.

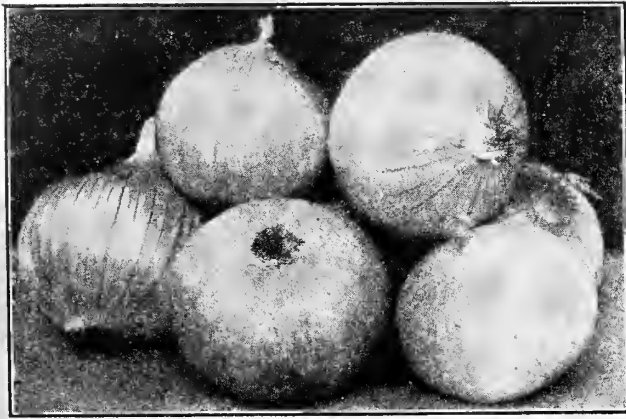

Trial-Grounds Mixture

Golly Moses! Dat Am Good!

Just right for those who want some of all the different Watermelons. A fine mixture of the varieties listed in this catalog and a few others from our trial grounds, which we haven't yet placed on the market. Large package, 10c; oz., 20c, postpaid.

Melons
to Please
Every-
body

Ebenezer or Japanese

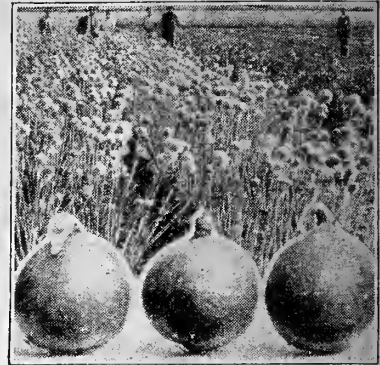

Brigham's Yellow Globe

Brigham's Yellow Globe is a strain of Southport Yellow Globe which is preferred by many growers on account of its fine keeping qualities and larger yields. Onions are solid, true globe shape, and are grown from selected bulbs of the original strain. Pkt., 10c; oz., 60c; 1/4 lb., \$1.95; lb., \$7.00; 2 lbs., \$12.60; 5 lbs., \$29.75; 10 lbs., \$56.00, postpaid.

Crystal Wax Bermuda

The most attractive onion in the world. Absolutely pure white. Many car loads of these flat white onions are grown annually in Texas and shipped North for early Spring use. Also does well in the North. One of the earliest Onions grown, and the earliest of the Bermuda type; very sweet and mild. Pkt., 10c; oz., 40c; 1/4 lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00; 10 lbs., \$32.00, postpaid.

Don't plant ordinary untreated Onion seed when you can secure Burgess' Disease Treated Seed at no additional cost.

Brigham's Yellow Globe

EBENEZER

The Extra Early, Long Keeping, Mild Onion

One of the mildest flavored Onions grown. The flesh is white, firm and of a very delicate flavor. The Onions are quite similar to Yellow Globe Danvers in shape but much larger in size, yellow skinned and have very small tops and mature early. Those who want a nice mild Onion, either for large Onions or bottom sets, would do well to try the Ebenezer. Sets of this variety rarely produce seed stalks as other kinds do. The Ebenezer is such a good keeper that even those ripening in July will keep sound and hard through the fall and all winter. Pkt., 10c; oz., 40c; 1/4 lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00; 10 lbs., \$32.00, postpaid.

IMPORTANT NOTICE

Onion seed is very scarce this year. Do not make the mistake of buying on price only. There is considerable old seed on the market, which may show a satisfactory germination test under favorable conditions, but which lacks the necessary strength and vitality to produce a good stand in the field. The seed we offer is fresh and strictly high grade.

Evergreen White Bunching

A very profitable home and market garden variety for young or bunching onions. Produces a cluster of 4 to 6 long, white shoots from a single seed in the first season. By drawing the soil up around the plants these tender shoots can be blanched 24 inches. Winters over well where weather is not too severe and provides a heavy crop for early harvest if planted in midsummer. Pkt., 10c; oz., 40c; 1/4 lb., \$1.20; lb., \$4.00; 2 lbs., \$7.20; 5 lbs., \$17.00, postpaid.

Crystal Wax Bermuda

GARLIC

One Pound Will Plant 150 Feet of Row

Garlic bulbs are composed of several parts which should be divided and set out like onion sets, 4 inches apart in the row and one inch deep. When the tops turn yellow, lift the bulbs and dry in the shade. Garlic is used for flavoring soups, sausages, etc., and is claimed to be highly beneficial in cases of high blood pressure, hardening of the arteries, nervousness, rheumatism, intestinal trouble, etc. Bulbs only. Lb., 40c; 3 lbs., \$1.00; 10 lbs., \$2.70, postpaid.

ONION SETS

One quart plants 50 feet of row. 4 qts. will supply a large family. Make a trench 4 inches deep and plant upright one inch apart. Ready for use in 4 to 5 weeks. Can be planted as soon as frost is out of the ground. A succession of plantings two weeks apart will furnish a continuous supply through the season.

YELLOW BOTTOM SETS—For both green and dry Onions. Choice small sets. 20c per pint; 35c per quart; 4 quarts (1/2-peck), \$1.15, postpaid.

YELLOW EBENEZER OR JAPANESE SETS—Fine for green Onions, and especially valuable for early dry Onions. Pint, 20c; quart, 35c; 4 quarts (1/2-peck), \$1.25, postpaid. Write for prices on larger quantities.

Evergreen White

HARDY ONION PLANTS

Earlier Onions—Highest Market Prices

The use of onion plants is no longer an experiment. Onion plants are being used more extensively each year by both home gardeners and commercial growers. Onion plants can be set out as early in the spring as the ground can be worked and will grow well-shaped onions that keep as well as those grown from sets.

Our onion plants will give you green onions earlier than can be had from sets, and large matured onions about two weeks earlier than from sets and much earlier than from seed. Onions from plants seldom run to seed, which is another big advantage. We can supply plants from January 15 to June 15. Order today and state in your order about what date you want plants shipped.

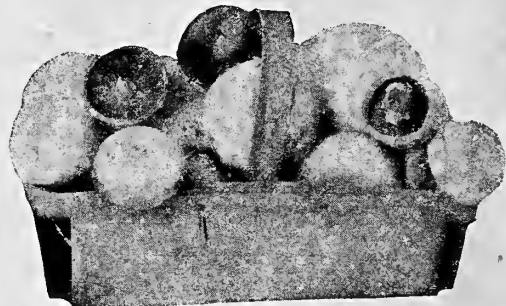

We can supply the following varieties:

CRYSTAL WAX WHITE BERMUDA
YELLOW BERMUDA
RED BERMUDA
PRIZETAKER
RIVERSIDE SWEET SPANISH

100 plants for 45c; 200 for 70c; 300 for 90c; 500 for \$1.20; 1,000 for \$2.00; 3,000 for \$4.25, by parcel post, postpaid. By express, not prepaid: 3,000 for \$3.00; one full crate or 6,000 plants, \$4.50; 5 crates or 30,000 plants, \$17.50. Weight about 35 lbs. per case of 6,000 plants.

NOTICE Bundles contain approximately 100 plants. Bundles may vary slightly, some a few less, others a few more. We cannot break bundles. Onion plants are sent direct from our growing station and are therefore not shipped with seeds or nursery stock.

MUSHROOM SPAWN

Our New Process Pure Culture Spawn has a numerous points of superiority over the old mature spawn, is more vigorous, more resistant to adverse conditions, and more repellent to insects than other types of spawn. It is without doubt the most dependable spawn produced.

If you have not succeeded with other brands of Mushroom Spawn, give our New Process Pure Culture Spawn a trial.

Plain instructions for growing Mushrooms by the latest and most successful method will be given with each order. Each package of our spawn will plant 12 1/2 square feet of bed. Package, 50c; 3 packages, \$1.25; 12 packages, \$4.00, postpaid.

FROST-PROOF CABBAGE PLANTS

These plants are grown in the open field in the South, where the soil and climatic conditions are just suited for growing tough, hardy cabbage plants during the winter and early spring. The plants make a slow but steady growth, until at 8 to 10 weeks of age they are very tough and hardy, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and be planted in the open ground a month or six weeks sooner than the home grown hot bed or cold frame plants. These Frost-Proof Cabbage Plants will stand a temperature of 20 degrees above zero.

Frost-Proof Cabbage Plants should be planted at least a month earlier than you would plant home grown plants, and they will mature heads 2 to 3 weeks earlier. We can supply plants from January 15 to June 15. We offer the following varieties only: Early Jersey Wakefield, Lightning Express, Golden Acre, Copenhagen Market and Premium Late Flat Dutch.

Cabbage plants are sent direct from our growing station and are therefore not shipped with seeds or nursery stock.

PRICES: 50 plants for 40c; 100 for 60c; 200 for \$1.00; 300 for \$1.40; 500 for \$1.75; 1,000 for \$3.00, postpaid. By express, not prepaid: 1,000 for \$2.00; 2,000 for \$3.50; 3,000 or more at \$1.50 per 1,000. Do not order less than 50 plants, and order only in multiples of 50 of one kind. That is, do not order 25 of one variety and 75 of another, as we do not break bunches.

Mature Heads 2 to 3 Weeks Earlier than Home Grown Plants

Earlier Crops—Bigger Profits with HOTKAPS

HOTKAPS are waxed paper cones, easily set out in quantity over seed or growing plants. They guard against rain, frost, cold, wind, hail, birds and insects, and maintain perfect mulch. Growth is forced and yield is increased 10 to 25%. Millions are sold every year. Crops mature 2 to 3 weeks earlier, and bring premium prices.

PRICES—25 for 70c; 50 for \$1.15; 100 for \$2.00; 250 for \$3.75; 500 for \$6.95, postpaid. By express, not prepaid, 250 for \$3.25; 500 for \$6.00; 1,000 for \$10.75.

Steel Setter and Tamper, \$1.85, postpaid; by express, not prepaid, \$1.50. Garden Setter, 60c, postpaid; by express, not prepaid, 50c. Tamper, 35c, postpaid; by express, not prepaid, 25c.

Burgess' Northern Grown Peas

One pint of seed for 50 feet of row; 120 to 180 lbs. per acre.

Little Marvel

EARLIEST Large-Podded Pea AMEER WILT-RESISTANT

This is a cross between Alaska and a large podded wrinkled pea and is sometimes called Large Podded Alaska. In comparison to Alaska, it is 2 or 3 days later, equally as hardy, dwarf upright vines completely laden with pods twice as large, that may be picked in one-half the time. It is resistant to Fusarium wilt, which makes it a most valuable variety for wilt infested areas. Due to its quality, earliness, size and productiveness, and to the fact that two pickings market the entire crop, gardeners who plant for early market will find it a money maker.

Drought-Proof Pea Laughs at Drought, Smiles at Rain

BURGESS' DROUGHT-PROOF will do well under a wider range of weather and soil conditions than any other variety. It will grow a crop during the driest, hottest summer months, at a time any other variety would be a failure. In the hot, dry localities of the West this variety will grow a large crop without irrigation and without a single drop of rain falling upon it from seed time to harvest. If it rains and the soil is kept moist this variety will produce as large a crop as any variety we know of; if it doesn't rain, and it gets hot and dry, you will get a crop anyway. The handsome round pods are well filled with from 7 to 10 peas in a pod; quality excellent, sweet and tender, even when the peas are large. Vines grow 2 feet high, and require no support. This pea is resistant to Fusarium Wilt and will do its best in the North, South, East or West.

Large White Marrowfat or Baking Pea

Used extensively for green peas, and the dried peas make a fine dish when prepared the same as baked beans. If you have never tried baking dried Marrowfat Peas, do so this year. This variety is also used for sowing with oats for feeding stock. 4½ feet high; bears prolifically. Pods 3 inches long, containing 5 to 6 large white Peas.

INOCULATION of seed hastens maturity, increases the yield and enriches the soil. Nitragin Inoculator for Peas only, half-bushel size, 25c; bushel size, 35c; 5-bushel, \$1.50, postpaid.

Garden Size. Good for Beans, Peas and Sweet Peas. Sufficient for 6 lbs. of seed, 10c, postpaid.

ALASKA (Wilt-Resistant Strain). Our strain of this variety is the earliest Pea grown. Exceedingly productive, can be planted as soon as ground thaws out in the spring. Height, 30 inches.

LITTLE MARVEL. The earliest wrinkled Pea, and the most productive extra-early wrinkled variety. Vines grow 18 inches high and are heavily set with well-filled pods.

AMERICAN WONDER. One of the finest early Peas; exceedingly dwarf, only 10 to 12 inches tall, and a few days later than Alaska.

NOTT'S EXCELSIOR. Of compact growth; 12 inches tall. Same season as American Wonder.

GRADUS, or Prosperity. A popular variety with market growers who demand both earliness and quality. Vines 2½ feet tall and bear an enormous crop. Pods 4 inches in length, containing 8 to 10 large sweet peas.

DWARF TELEPHONE, or CARTER'S DAISY. A dwarf growing strain of Alderman or Telephone; about a week earlier. Pods, 4½ inches long, containing 8 to 10 large, dark green peas of extra fine quality and sweet flavor. Vines 2 feet.

ALDERMAN (Improved Dark-Podded Telephone). A leading mid-season or main crop variety. Height, 40 inches. The dark pods are 4¾ inches in length and contain 8 or 10 very large peas. Sweet and tasty.

THOMAS LAXTON (Dark Podded). Only a few days later than American Wonder, but pods and peas much larger. Unsurpassed for quality; very productive, vines 2½ feet. Dark pods 3½ inches long, containing 7 to 8 large, tender peas.

GIANT PODDED THOMAS LAXTON

(Select Market Growers' Strain.)

Very dark, giant pods, 5½ to 6 inches long, containing extra large, tender, sweet peas. Same season as Thomas Laxton; exceptionally productive.

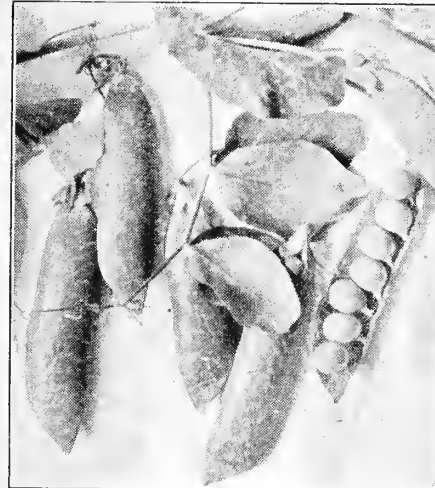

Laxtonian

LAXTONIAN

Improved Extra Early Strain

This is an early large podded variety with a dwarf vine, and is growing more in favor every year. Vines about 16 inches high, with dark green pods about 4½ inches long; pods well filled with large peas of the very best quality. Comes in bearing at the same time as Hundredfold, which it resembles very much.

HUNDREDFOLD, or BLUE BANTAM. A choice, large podded, early variety of the Laxtonian type which we can recommend for the market gardener and home use. The large, dark pods are tightly packed with 8 to 9 large, deep bluish-green Peas of finest quality. Vines 18 inches. Peas mature only a few days following Thomas Laxton.

Burgess' Drought-Proof

Edible Podded Peas

(Cook Like Snap Beans)

These varieties have all the sweetness and flavor of fresh green peas. When the pods are partly filled, they are prepared like snap beans; when the seeds have developed, they are eaten as shelled peas.

MAMMOTH MELTING SUGAR. Large, fleshy pods, 4 to 4½ inches long; stringless when young, very tender, and richly flavored. Vines 4 to 5 feet tall; very productive. 70 to 75 days.

DWARF GRAY SUGAR. Pods much smaller than Mammoth Melting Sugar, but are ready for use about 10 days earlier. 2 feet.

WYOMING WONDER

Wilt - Resistant Mammoth - Podded Pea that has the Unusual Quality of Remaining Tender and Sweet a Week or Ten Days After Reaching the Picking Stage.

Our Select Market Growers' Strain of Wyoming Wonder is one of the most valuable varieties ever introduced. Its pods are 5 to 6 and often 6½ inches long, very dark green, pointed and somewhat curved at the tip, making it a very attractive market sort. It is exceptional in quality, making it a superb variety for the home garden as well as for the market. Vine 24 to 28 inches tall. Matures in about 75 days. Resistant to Fusarium Wilt.

LIMA PEA or **FROST PROOF BEAN.** It belongs to the English Broad Bean family, but we list it among the Peas as well as the Beans, as the flavor is much more like peas than beans. For further description see page 6.

NOTICE

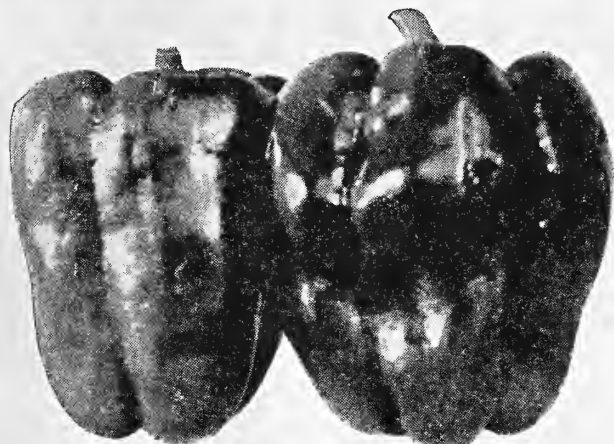

We are offering two strains of most of the varieties of Peas. Our regular strains are as good or better than most strains offered by other growers. Our Select Market Growers' Strains are the finest produced and can be depended upon to be of the highest quality.

These select strains result from years of selecting and breeding.

Burgess' Disease-Treated Pepper Seed

The Pepper is one of the most easily grown vegetables if our disease-treated seed is used

One ounce of Pepper seed will produce 1,500 plants.

Michigan Wonder

MICHIGAN WONDER

MICHIGAN WONDER is a Special Market Gardeners' Strain of Michigan-Grown Improved California Wonder. A selection from California Wonder that produces larger, more uniform and earlier-maturing Peppers with extremely thick flesh. Michigan Wonder is definitely superior and will command a higher price on the market. Many of the fruits weigh more than one-half pound, which is much heavier than other Peppers of the same size, because of their thick, meaty walls. Pkt., 15c; ½ oz., 35c; oz., 55c; ¼ lb., \$1.75; lb., \$6.00, postpaid.

"King of the North" Pepper

Enormous Fruit, Abundant Yield and Extra Early

This is the earliest of the mammoth-size Peppers. The fruits, which, when ripe, are of a brilliant red color, average about 6 inches long and 3 to 4 inches across. The flesh is thick, firm and very sweet and mild. The plants are of a branching growth and literally covered with the large fruits, which are borne from the bottom right up to the top of the plant. We consider King of the North the most valuable Pepper of recent introduction, and we recommend it both as a market variety and for the home garden. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.35; lb., \$4.50, postpaid.

CHINESE GIANT. 80 days. Largest Pepper grown; magnificent appearance; thick flesh; superior flavor, very mild. Four to five inches broad and are of equal length. Plants well branched and thickly set with enormous fruits. Pkt., 10c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.20; lb., \$4.00, postpaid.

Harris' Earliest

The earliest and most prolific sweet Pepper. Fruits ready to pick in 56 days after plants are set out. Peppers 3 inches in length by 2 inches in diameter and often as many as 20 on a single plant. Very mild and sweet. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00, postpaid.

Harris' Early Giant

63 days. The plants are very vigorous growing 1½ to 2 feet high and actually loaded down with fruits measuring 4½ inches deep by 3½ inches through; thick fleshed, sweet and pleasant flavor. Pkt., 10c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.10; lb., \$3.75, postpaid.

Neapolitan

The earliest of the medium-large, mild peppers. Very productive. 60 days. Fleshly fruits of best quality, measuring 4 inches in length by 2 inches in diameter. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00, postpaid.

Worldbeater

A very productive sweet Pepper of huge size that matures in 72 days. Glossy rich scarlet skin and thick mild flesh. 5 inches long and 3½ inches in diameter; just the right size and shape for stuffing. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50, postpaid.

California Wonder

A Pepper of exceptional merit. It is nearly as large as Chinese Giant, has much thicker flesh, and matures earlier (75 days). Its walls are exceptionally thick, firm and heavy, and the flesh is deliciously sweet and spicy, with no bite to it. The fruits will average about 4 inches in diameter and 4½ inches in length. The skin is smooth and glossy, deep green, turning to crimson. Very prolific. Will stand shipping long distances without wilting. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.20; lb., \$4.00, postpaid.

Hungarian Yellow

Hungarian Yellow

An improved strain of Long Yellow Pepper, also known as Banana, Hungarian Wax and Bulgarian Yellow. This variety caused a great sensation when first offered on the city markets. It is an extremely hot, long, slender Pepper of a bright waxy yellow color, which when fully mature changes to bright cherry red. The fruits are straight, gradually tapering to a point. Length 5 to 7 inches. One of the most valuable hot peppers for home or canning, a special favorite on account of its pungency and attractiveness, and a most profitable market sort. The plants are of strong growth and produce abundantly. Mature fruits in 60 days. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.35; lb., \$4.50, postpaid.

Bird's Eye Sold by florists about Christmas, at which time they produce a multitude of bright, attractive fruits. Also edible; none better for pepper sauce. Planted in garden will supply an abundance of hot Peppers, and plants can be taken up in the fall and potted for house culture. Pkt., 10c; ½ oz., 35c; oz., 60c, postpaid.

WINDSOR "A"

This early, thick-meated pepper received an All-America Award of Merit for 1937. It is especially recommended for regions where other varieties of pepper do not thrive. Fruits are 2½ inches broad at the top, slightly pointed, and 4½ to 5 inches long. Exceptionally thick flesh, smooth and sweet. It is unusually productive, producing a lot of ripe fruit early. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.20; lb., \$4.00, postpaid.

RUBY KING. 70 days. The standard Sweet Pepper for home and market. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00, postpaid.

PIMIENTO. 73 days. The great thick-meated canning Pepper. Sweet as an apple. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00, postpaid.

GOLDEN QUEEN. Largest, best and most handsome yellow Pepper; mild and sweet. Same season as Ruby King. Excellent home garden variety. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.35; lb., \$4.50, postpaid.

LONG RED CAYENNE. The leading hot Pepper. 5 inches long and about ½ inch thick. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00, postpaid.

TABASCO. Used exclusively for the famous Tabasco Sauce. Extremely hot. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00, postpaid.

BURGESS' SPECIAL PEPPER MIXTURE. We recommend this mixture for the home gardener who has but little space for peppers and wishes to grow several kinds. The mixture is made up of many varieties, sweet and hot, large and small. Pkt., 10c; ½ oz., 30c, postpaid.

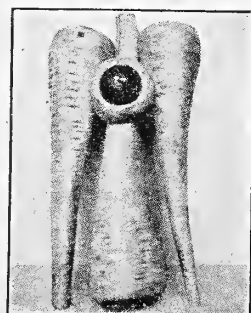

Moss Curled Parsley

PARSNIP

One ounce to 150 feet of row; 4 to 6 lbs. per acre.

IMPROVED HOLLOW CROWN. The best variety. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

On Express Shipments deduct 10c per lb. from postpaid prices.

I. H. C. Parsnip

PARSLEY

One ounce to 100 Feet

MOSS CURLED, or TRIPLE CURLED. Pkt., 8c; oz., 14c; ¼ lb., 33c; lb., 90c, postpaid.

PARAMOUNT. Extra-triple-curled type, of unusually dark green color. When thinned, the plants grow about 12 inches high and have a spread of about 20 inches. The uniform stout stems are ideal for bunching. Highly resistant to tipburn and will not turn brown at the edges with age. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00, postpaid.

TURNIP ROOTED. The fleshy root resembles a small parsnip. Excellent for flavoring soups, stews, etc. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00, postpaid.

NORTHERN GROWN PEANUTS

Just as good Peanuts can be grown in the Northern States as in the South, provided you plant **Improved Early Spanish**. This is the earliest variety grown, and very productive. The pods are small, but remarkably solid and well filled with nuts of the very finest quality. Shell nuts carefully so as not to break inside skin, and plant as soon as ground becomes warm, about 2 inches deep in rows 3 feet apart, and from 8 to 10 inches apart in the row. Pkt., 10c; pt., 25c; qt., 40c; 3 qts., \$1.10; 6 qts., \$2.00, postpaid.

Improved Early Spanish Earliest Peanut Grown

Okra, or Gumbo

One ounce of seed to 100 feet of row

IMPROVED WHITE VELVET. Sixty days from planting to maturity. White, tender pods. Pkt., 10c; oz., 14c; ¼ lb., 25c; lb., 60c; 2 lbs., \$1.10; 5 lbs., \$2.50, postpaid.

PERKIN'S MAMMOTH LONG POD. About a week earlier than White Velvet with more slender and longer pods, which are dark green. Pkt., 10c; oz., 15c; ¼ lb., 27c; lb., 65c; 2 lbs., \$1.15; 5 lbs., \$2.60, postpaid.

Imp. White Velvet Okra

RADISHES for the HOME GARDEN and the MARKET

One ounce of seed for 100 feet of row

CRIMSON GIANT GLOBE. A fine, large, bright red radish which differs from most others in that the roots attain a larger size without becoming pithy. Early notwithstanding its size. Sweet, crisp, juicy, brittle; finest quality. Pkt., 8c; oz., 13c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

EARLY SCARLET GLOBE. (Short Top.) A popular early round radish which is recommended for both forcing and outdoor planting. Color rich scarlet. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.05; 10 lbs., \$7.60, postpaid.

Early Money Maker

A profitable variety for market growers, because of quick maturity, rich scarlet color, perfect shape and superior quality. Always crisp, juicy and mild; globe shaped; fit to pull in 16 to 22 days. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.15; 2 lbs., \$2.10; 5 lbs., \$4.90; 10 lbs., \$9.20, postpaid.

EARLY LONG SCARLET SHORT TOP. The best long red Radish. Pkt., 8c; oz., 12c; ¼ lb., 30c; lb., 90c; 2 lbs., \$1.70; 5 lbs., \$3.80; 10 lbs., \$7.20, postpaid.

SPARKLER, or WHITE TIPPED SCARLET TURNIP. A favorite in all markets, owing to its fine appearance. Handsome bright scarlet color with white tip. One of the best early varieties for outdoor sowing; excellent quality. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.05; 10 lbs., \$7.60, postpaid.

ICICLE. The best long white Radish; mild and sweet. A favorite with market gardeners and for the home garden. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.05; 10 lbs., \$7.60, postpaid.

FRENCH BREAKFAST. Olive shaped; red, white tipped. Of quick growth and excellent quality. Pkt., 8c; oz., 13c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

LONG WHITE STRASBURG. The best summer Radish, withstanding hot weather the best of any sort. Pure white; firm and brittle. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.05; 10 lbs., \$7.60, postpaid.

PRIZE MIXTURE. All the leading early varieties mixed. Pkt., 8c; oz., 12c; ¼ lb., 30c; lb., 90c, postpaid.

Saxa

Earliest Radish Grown

Fit to Pull in 15 Days

SAXA. We have found this Radish to be earlier than any of the other so-called earliest sorts. The best extra early variety for forcing, and for growing in the open ground it has no superior. From seed sowing to table in 16 to 22 days and, under ideal conditions, fit to pull in 15 days. Round, bright scarlet in color and has a very small top and taproot. Flesh pure white, crisp, brittle, mild and juicy. The Saxa is one of the slowest to shoot to seed. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.35; 2 lbs., \$2.45; 5 lbs., \$5.75; 10 lbs., \$10.80, postpaid.

Deduct 10c per Lb. from Postpaid Prices

if you want seeds sent by express, not prepaid

Radishes 15 to 50 Lbs.

Valuable Cattle and Poultry Food

SAKURAJIMA, or Poultry Radish. The largest variety of radish in cultivation. Often attains a weight of 15 lbs., and some grow to more than 50 lbs. Nearly round. A great curiosity and a radish of extraordinary quality. Flesh solid, firm and brittle, and of most excellent flavor. A favorite for fall and winter use, and a valuable winter feed for cattle and poultry. Every poultryman should plant some of them. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75, postpaid.

YARD LONG (Nerima Long). An exceedingly sweet-flavored, long white radish. Grows 3 feet long; very crisp and brittle. Fine for all styles of cooking and excellent for pickles. One of the best for eating raw. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75, postpaid.

BEANS 22 DEGREES BELOW FREEZING

On March 26, 1940, a customer in Georgia wrote to us that he planted some of our Frost Proof Beans in the fall and that they lived all through the winter, standing 22 degrees below freezing.

This hardy bean can be planted in the fall in some parts of the South and in the North. For description and prices see page 7.

WINTER RADISHES

Winter Radishes mature in 50 to 60 days. By packing in sand, fresh, crisp radishes may be had all winter.

LONG BLACK SPANISH. 55 days. Keeps best and longest of all winter Radishes. Skin coal-black; flesh white and crisp; excellent quality. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

SCARLET CHINA. 50 days. A favorite winter Radish. Very handsome; of medium size; rose color; flesh white. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

WHITE CHINESE, OR CELESTIAL. 60 days. Claimed to be the finest of all white winter radishes. 12 to 15 inches long, and about 5 inches in diameter. The flesh is crisp, juicy and tender; flavor mild and fine. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

PUMPKINS One Ounce for 20 Hills; 3 to 4 Pounds Per Acre

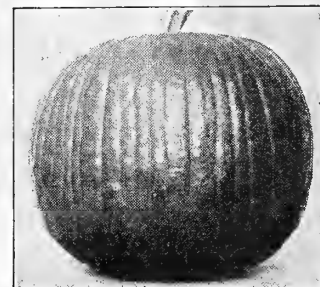

BIG TOM, or IMPROVED LARGE FIELD. Leading corn field Pumpkin. Smooth, hard, reddish-orange skin, with rich orange-yellow flesh. Wonderfully prolific. Pkt., 8c; oz., 12c; ¼ lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

SMALL SUGAR. The most popular pie pumpkin. Looks like a Field Pumpkin, but is smaller and of much better quality. Flesh sweet and tender; excellent keeper. Pkt., 8c; oz., 12c; ¼ lb., 27c; lb., 80c; 2 lbs., \$1.45; 5 lbs., \$3.40; 10 lbs., \$6.40, postpaid.

SWEET CHEESE. About 2 feet in diameter, round, flattened, hard and productive. Fine for market and family use, and excellent for stock feed. Pkt., 8c; oz., 12c; ¼ lb., 25c; lb., 65c; 2 lbs., \$1.15; 5 lbs., \$2.75; 10 lbs., \$5.20, postpaid.

TENNESSEE SWEET POTATO is an excellent sort which, when cooked, resembles a sweet potato in flavor, but is of more delicious taste. It is pear-shaped and slightly ribbed. The color is creamy white, sometimes striped with green. Flesh is fine grained and very dry. Fine when cooked like sweet potatoes and nothing superior for making pies and custards. Matures in 110 days, is hardy and productive, and keeps perfectly sound until late in the spring. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.05; 10 lbs., \$7.60, postpaid.

WINTER LUXURY. The best pie Pumpkin. Its winter-keeping qualities are almost unequalled. Slightly oval in shape and of medium size. Evenly and finely netted and is a yellowish russet color. Flesh deep and golden color; sweet and cooks quickly. A great producer. Pkt., 8c; oz., 13c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

Small Sugar Pumpkin

Prize Pumpkin Mixture

A grand mixture of different kinds. You can have some of each variety in one patch in your own garden, without having to purchase a package of each. Pkt., 10c; oz., 14c; ¼ lb., 30c; lb., 75c, postpaid.

SORREL

One ounce of seed for 100 feet of row

LARGE-LEAVED FRENCH or GARDEN. An improved variety which is used for soups, and when cooked like Spinach makes a very palatable dish. It is also fine for salads on account of its pleasant acid flavor. It is ready for use in about 60 days after seed is planted, and the plants will continue in full bearing from 3 to 4 years. Our seed is from the best garden strain, having large, pale green leaves of fine quality. Pkt., 10c; oz., 50c, postpaid.

JUMBO PUMPKIN

Often weigh 100 lbs., and sometimes as much as 300 lbs. Always a prize winner at exhibitions. A good pie Pumpkin, splendid keeper, and valuable for feeding purposes. Pkt., 10c; oz., 22c; ¼ lb., 50c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35; 10 lbs., \$12.00, postpaid.

Hybridized Potato Seed

Seed from the Seed Balls—Headquarters Stock. Your fortune may be in one of them. They are as easy to grow as tomatoes. Millions never saw Potato Seed Balls. They are the seed pods that grow on the top of the potato plant, and in most localities do not produce seed. This seed will produce an endless variety of new kinds. It is from these that all valuable new varieties of potatoes are produced. Growing new and distinct

Seedling Potatoes from the Seed-Ball Seed is intensely interesting. They will be the greatest curiosity of your garden. This seed will positively produce innumerable new kinds, colors, shapes, sizes and qualities. The product will astonish you. Some may be of immense value and bring you a golden harvest. Full directions on every package. Pkt., 15c; 3 pkts., 30c; ¼ oz., \$1.00, postpaid.

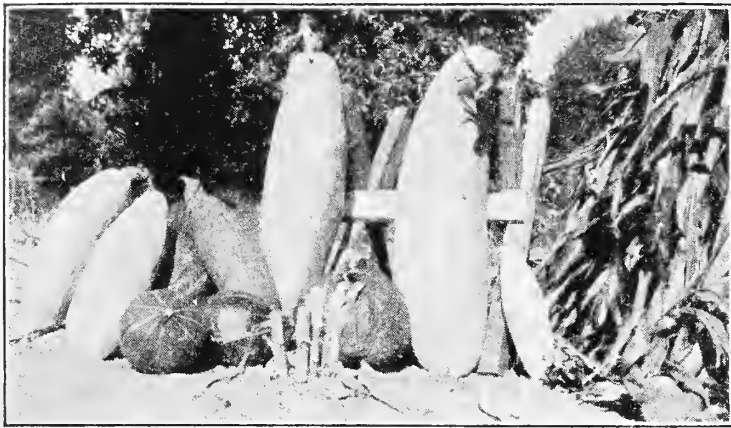

Potato Seed Balls—One-Half Size

Sweet Potato Plants

The three best varieties for the North are Nancy Hall, Porto Rico and Yellow Jersey. Easy to grow. Plants will be sent at any time you specify between April 15 and July 1st. Your choice of the above varieties at the following prices: 50 plants, 75c; 100 plants, \$1.00; 250 plants, \$2.25; 500 plants, \$3.50; 1,000 plants, \$5.50, delivered postpaid.

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

Banana and Hubbard Squash Grown by One of Our Customers

WINTER SQUASH

One ounce to 10 hills; 2 to 3 lbs. per acre.

BANANA One of the finest of all Squashes; 2 to 3 feet in length; a great yielder and a good keeper. Will produce a crop where other winter squashes do not succeed. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

Baby Hubbard (Kitchenette)

This small sized strain of Hubbard Squash was developed by the Minnesota Experiment Station. It is two weeks earlier than the parent type, is fully equal to any Hubbard for quality, and keeps as well in storage. The Squash average about 5 pounds; very little larger than Table Queen. The color of the shell is glossy dark green; flesh deep golden yellow, fine grained and delicious. Very productive. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.50; 2 lbs., \$2.70; 5 lbs., \$6.35, postpaid.

TRUE HUBBARD. The old stand-by, and most popular winter variety. Pkt., 10c; oz., 15c; ¼ lb., 38c; lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.65, postpaid.

BLUE HUBBARD. A large Squash of the Hubbard shape; color blue-gray; extra thick meated; excellent quality. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.40; 2 lbs., \$2.50; 5 lbs., \$5.95, postpaid.

CHICAGO WARTY HUBBARD. Preferred by many to True Hubbard. Popular with market growers catering to a fancy trade. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.20; 2 lbs., \$2.15; 5 lbs., \$5.10, postpaid.

GOLDEN OR RED HUBBARD. A week earlier than True Hubbard, and of the same shape and quality. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

DELICIOUS

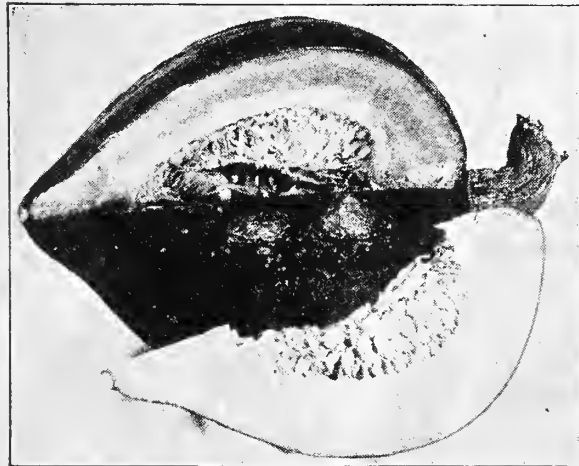

Unsurpassed for sweetness, richness of flavor and extraordinary quality. Excellent for fall and winter use; keeps well until late in the spring. Fruits usually weigh 5 to 10 lbs.; rind dark green, mottled in lighter shades; dark orange flesh; very thick and fine grained. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.40; 2 lbs., \$2.50; 5 lbs., \$5.95, postpaid.

Table Queen or Acorn

The most convenient size for baking and serving in the shell. 4 to 6 inches long and 4 inches in diameter; deeply ribbed, and a smooth hard shell; dark green, with sometimes a blotch of red. When picked about half grown and cooked like summer squash it is extremely fine. When allowed to ripen thoroughly it will keep all winter. Flesh deep yellow, dry, sweet and of delicious flavor. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.15; 2 lbs., \$2.05; 5 lbs., \$4.90, postpaid.

BUTTERCUP

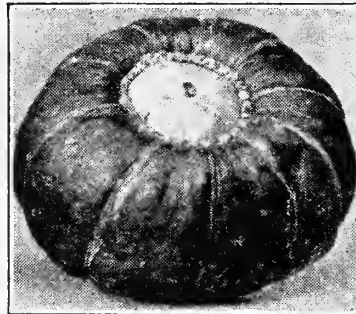

A variety of superb quality, developed at the North Dakota Experiment Station. The squashes weigh between 3 and 5 pounds and have thin, tough, green skin. There are no strings or fiber and the deep, rich orange flesh is untinged with green. It is a squash of excellent flavor, very sweet; the texture smooth and comparatively dry. Many who have tried it pronounce it to be the best squash they have ever tasted. It is an excellent keeper. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

Delicious Squash

WINTER SQUASH MIXTURE

This mixture is made up especially for those who have a limited garden space and want several varieties of Winter Squash and do not care to plant a whole packet of each one. Satisfaction guaranteed. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.15, postpaid.

Buttercup Squash

Summer Squash

One ounce to 25 hills; 3 to 4 lbs. per acre.

EARLY SUMMER CROOKNECK. The most popular of the yellow summer varieties. Edible in 50 days. Exceedingly prolific; finest quality. Dwarf or bush. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

GIANT SUMMER CROOKNECK. A very large type of the Early Summer Crookneck; 5 days later. Pkt., 8c; oz., 12c; ¼ lb., 33c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00, postpaid.

EARLY PROLIFIC STRAIGHT-NECK. An All-America winner. Productive from the time the first fruits are formed until killed by frost. It is strictly bush in habit of growth, which permits close planting. The beautiful clear yellow fruits are smooth and straight. They are firm and in fine condition at any length from four to fourteen inches. It is equally suitable for the home or market gardener. The uniformly straight fruits are convenient for packing and shipping. The table quality is unsurpassed by any of the summer squashes. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

EARLY WHITE BUSH, or PATTY PAN. 52 days. Very productive; a favorite with market gardeners. Pkt., 8c; oz., 12c; ¼ lb., 30c; lb., 90c; 2 lbs., \$1.60; 5 lbs., \$3.80, postpaid.

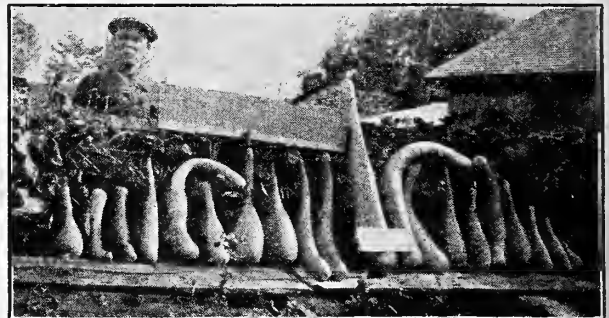

Asparagus Squash

Also Known as Italian Vegetable Marrow, Cozelle and Summer Asparagus.

One of the most delicious additions to the Squash family. Grows in the form of a compact bush, and 5 or 6 hills are sufficient for a large family. The long slender fruits should be picked when not more than 8 to 10 inches long. The fruits form and grow rapidly and may be picked almost every day from the latter part of June until October. Can be cooked like Asparagus, Squash or French fried potatoes. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25, postpaid.

Summer Squash Mixture

A choice seed mixture of all kinds of Summer Squashes. This is your opportunity to try them all for the price of one. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., 95c, postpaid.

New Guinea Butter Vine fruits grown from Burgess' seeds by Mr. George Price, Waubashene, Ont., Canada

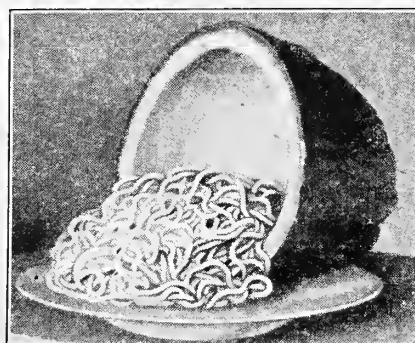

New Guinea Butter Vine

ONE OF THE MOST DELICIOUS OF ALL VEGETABLES

The New Guinea Butter Vine is a wonderful vegetable. Grows to enormous size, one fruit often weighing 15 lbs. and from 3 to 5 feet long. In growth it is similar to the squash, and can be grown in the same manner or can be trellised up. It is more productive than squash and much easier to grow. The vines are always free from disease and insect pests, and stand more neglect and abuse than any other vegetable vine we know of. The fruits should be eaten when small, while the fuzzy growth is yet on. It can be cooked like Squash and fried like Egg Plant. When cut up in small pieces and cooked with cream or fried it is most delicious. If trellised up, the vines take up so little space, no garden is too small for at least two or three plants. Mrs. Sam J. Yoder, Apple Creek, Ohio, grew one New Guinea Butter Vine fruit which weighed 15 lbs. and was 4½ feet in length. Another customer writes that he cut 75 fruits from one vine, and that each fruit was from 2½ to 3 feet long. Pkt., 10c; 3 pkts., 25c; oz., 40c; 2 oz., 70c, postpaid.

Black Zucchini

This is an increasingly popular bush squash which belongs to the vegetable marrow family. The fruits are of a blackish green color; grow long and slender, but should be picked when but a few days old, when 5 to 8 inches in length. They are very tender, and a table delicacy. Fine when boiled or cut in slices and fried in butter. Also delicious when cut lengthwise and baked with a strip of bacon on each piece. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., \$1.25; 2 lbs., \$2.25; 5 lbs., \$5.30, postpaid.

Vegetable Spaghetti

Vegetable Spaghetti

Spaghetti on a Vine in Nature's Own Package

This delicious vegetable from Persia thrives in all climates and in any ordinary garden soil. Each plant produces from six to ten beautiful bright yellow, oblong fruits about 8 to 10 inches long. Each fruit is filled with a delicious spaghetti-like pulp. When fully ripe the rind is deep yellow in color, and the fruits are ready for cooking. Cook the whole fruit (without cutting or peeling) 20 minutes in boiling water; then cut it in half. Remove seeds from center, the same as from a squash; then, with a fork pull the spaghetti-like contents from the shell. A dish-ful of this delicious vegetable spaghetti comes out of each fruit. Season with salt, pepper and butter and serve hot. Can also be served hot with catsup or tomato sauce or served cold, as a salad, with mayonnaise or French dressing. This vegetable is also delicious fried like egg plant when small and tender. This remarkable vegetable is one of the most valuable of recent introductions. Can be kept for fall and early winter use. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.00, postpaid.

Mr. Forrister and Son, Stalk of Rhubarb and Baseball Bat

Burgess' Colossal Rhubarb

One Stalk Sufficient for a Pie; 1 to 2 lbs. Each; 1 1/2 to 2 ft. Long

Here is the Proof

"Your records will show that I purchased three roots of your Burgess' Colossal Rhubarb in the spring of 1937. The enclosed photograph gives tangible evidence of the size this rhubarb will grow. The stalk shown is 7 1/2 inches in circumference, 24 inches long and weighs 2 pounds and 2 ounces. Its flavor is delicious. The grower and his son are the people in the photograph."—Lore G. Forrister, Shrewsbury, Mass., July 17, 1938.

We believe that Burgess' New Colossal is much larger than any other Rhubarb ever produced. It is not at all uncommon to cut stalks 2 feet in length and from 6 to nearly 7 inches in circumference. When grown on rich soil and given good care, the stalks should average close to 1 1/2 lbs. each. One stalk is sufficient for a pie. It is by far the most productive variety of Rhubarb. It is more tender than other varieties, even the matured stalks cooking up tender. It is not as sour as other varieties, requiring less sugar. The quality is unequalled. We have the entire supply of this wonderful variety, so you can not secure it elsewhere.

Roots (large divisions), 75c each; 3 for \$2.00; 12 for \$6.75, postpaid. Seed, 50c per packet.

New Ruby Rhubarb

STRAWBERRY COLOR WHEN COOKED

Stalks are very tender, do not grow large, and are intensely red—even the inside of the stalk is red clear through. When cooked or canned it is as red as strawberry sauce. Mild and delicious, requiring a minimum quantity of sugar. Pkt., 15c; oz., 35c; 1/4 lb., 90c; lb., \$3.00, postpaid. Roots, 50c each; 3 for \$1.25; 12 for \$4.50, postpaid.

VICTORIA Popular standard variety; heavy yielder of excellent quality. Pkt., 10c; oz., 16c; 1/4 lb., 45c; lb., \$1.40; 2 lbs., \$2.50; 5 lbs., \$5.95, postpaid. Roots, 25c each; 4 for 60c; 12 for \$1.25, postpaid. By express, not prepaid, 50 for \$3.50; 100 for \$6.00.

Burgess' Disease-Treated Spinach Seed

One ounce to 100 feet of row; 8 to 10 lbs. per acre in drills.

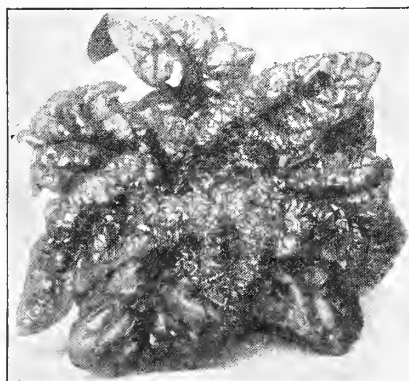

GIANT THICK LEAVED (Nobel). An excellent early spinach that is more long standing than most varieties, grows rapidly, and is the largest spinach grown. Plants 10 inches high and 2 feet across. Large arrow-shaped leaves, rather smooth, only slightly crumpled, very thick, of handsome green color, unusually tender and of the finest quality. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.00; 2 lbs., \$1.90; 5 lbs., \$4.65; 10 lbs., \$9.00, postpaid.

KING OF DENMARK. A valuable variety which forms compact bushes with round, thick, crumpled leaves of rich dark green color. It remains in good condition after nearly all other varieties have run to seed. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.00; 2 lbs., \$1.90; 5 lbs., \$4.65; 10 lbs., \$9.00, postpaid.

PRINCESS JULIANA. A very productive second-early variety, which is claimed by many to be the finest Spinach yet introduced. The first plants of Spinach to blossom are the male plants. Princess Juliana is a type without male plants, which causes it to remain in prime condition longer than other sorts. The leaves are of good size, very dark green, well crumpled and thick. Valuable for spring or autumn planting. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.00; 2 lbs., \$1.90; 5 lbs., \$4.65; 10 lbs., \$9.00, postpaid.

New Zealand or Everbearing Spinach (Hot Weather Spinach)

A distinct type of Spinach with small green leaves, which make large, bushy plants, often 3 feet in diameter. Only the young leaves and tips of branches are used, and the more they are picked the faster the plant grows. It will give fine greens all summer and fall. Especially suited to dry and arid locations where other varieties do not do well. The only kind that can be successfully grown in extremely hot weather. Pkt., 10c; oz., 15c; 1/4 lb., 40c; lb., \$1.25; 2 lbs., \$2.40; 5 lbs., \$5.75; 10 lbs., \$11.00, postpaid.

Bloomsdale Long Standing Savoy Spinach

BLOOMSDALE LONG STANDING SAVOY. Very attractive, highly crumpled dark green leaves. Resembles the old Savoy, but stands heat better and holds 12 to 14 days longer before throwing seed stalks. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.00; 2 lbs., \$1.90, 5 lbs., \$4.65; 10 lbs., \$9.00, postpaid.

Purple Top White Globe Turnip

TURNIPS

One ounce for 200 ft. row; 1 1/2 to 2 lbs. per acre in drills.

AMBER GLOBE, or LARGE YELLOW. The best large yellow late sort. Skin light yellow; flesh yellow, firm and sweet. Fine for table use and stock feeding. A good cropper and keeps in perfect condition until spring. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

GOLDEN BALL The best early yellow Turnip. Not of large size, but firm and of excellent flavor. Keeps well. Pkt., 8c; oz., 13c; 1/4 lb., 27c; lb., 80c; 2 lbs., \$1.45; 5 lbs., \$3.40; 10 lbs., \$6.40, postpaid.

EXTRA EARLY PURPLE TOP MILAN. The earliest Turnip grown. The bulb is flat, of medium size; white, with a bright purple top; and in quality the best. Planted extensively for first market crop, but not as well suited for summer planting. Reaches marketable size in 40 days. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., 95c; 2 lbs., \$1.70; 5 lbs., \$4.00; 10 lbs., \$7.60, postpaid.

EARLY PURPLE TOP STRAP LEAF. The standard early variety. Roots broad and flat, of medium size; white, purple top. Extensively sown for table use and stock feeding. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 65c; 2 lbs., \$1.15; 5 lbs., \$2.75; 10 lbs., \$5.20, postpaid.

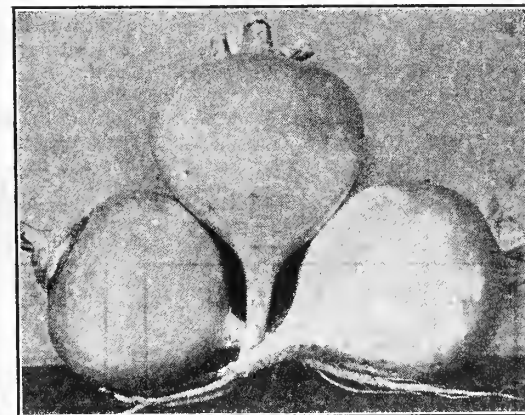

PURPLE TOP WHITE GLOBE. The most popular white Turnip for fall and winter use. Flesh pure white, fine grained and of fine flavor. Heavy yielder and splendid keeper. Desirable for table or stock. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

PURPLE TOP WHITE GLOBE SPECIAL. A more uniform and productive selection from our regular strain. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.00; 2 lbs., \$1.80; 5 lbs., \$4.25; 10 lbs., \$8.00, postpaid.

WHITE EGG. A quick growing, egg-shaped, smooth, pure white variety. Flesh firm, sweet and mild. Adapted to either spring or fall sowing. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

COW HORN. 12 to 15 inches long by 3 inches across; white, green top; grows partly above the ground; sweet and of fine flavor. Very valuable as a soil enricher. Can be sown broadcast on stubble ground, will grow on poor, worn-out soil, and if plowed under will enrich it as much as a crop of clover. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

JAPANESE FOLIAGE TURNIP. Edible tops and roots. Will grow and thrive in hot, dry weather, giving an abundance of both greens and sweet, tender turnips of excellent quality. Tops ready to cut in about 4 weeks; roots pure white. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 65c; 2 lbs., \$1.15; 5 lbs., \$2.75; 10 lbs., \$5.20, postpaid.

Improved Purple Top Yellow Rutabaga

Rutabagas, or Swedes

One ounce for 200 feet of row; 1 1/2 to 2 lbs. per acre in drills.

Rutabagas require a longer season than turnips, so should be sown earlier, or about the middle of June.

IMPROVED AMERICAN PURPLE TOP YELLOW. The best yellow variety; fine flavor. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 70c; 2 lbs., \$1.25; 5 lbs., \$3.00; 10 lbs., \$5.60, postpaid.

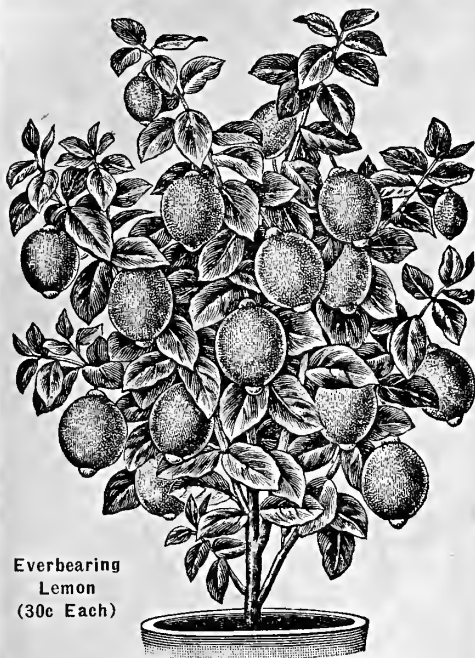

SPECIAL LONG ISLAND. A more productive selection from Improved American Purple Top Yellow. Larger roots, with small neck and tap root. Flesh firm, sweet and tender. Pkt., 10c; oz., 14c; 1/4 lb., 28c; lb., 80c; 2 lbs., \$1.45; 5 lbs., \$3.40; 10 lbs., \$6.40, postpaid.

MONARCH OR ELEPHANT. Mammoth yellow variety; yields enormous crops. Grown principally for stock feeding, but is good for table use. Pkt., 8c; oz., 13c; 1/4 lb., 27c; lb., 80c; 2 lbs., \$1.45; 5 lbs., \$3.40; 10 lbs., \$6.40, postpaid.

SWEET RUSSIA. Excellent keeper; flesh white, very firm and sweet. Pkt., 8c; oz., 12c; 1/4 lb., 25c; lb., 75c; 2 lbs., \$1.35; 5 lbs., \$3.20; 10 lbs., \$6.00, postpaid.

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

Ornamental and Edible Fruits for Pot Culture

Everbearing
Lemon
(30c Each)

Everbearing Lemon

A true everbearing Lemon that can be as easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high growing in pots; bear continually; delicious for lemonade and culinary purposes. Flowers are as fragrant as orange blossoms, which they somewhat resemble. Plants, 30c each; 4 for \$1.00, postpaid.

DWARF ORANGE

A fine pot plant, with glossy leaves, fragrant waxy-white blossoms, and an abundance of delicious little Oranges that will hang on the plants for six months after they are ripe. While it will grow 3 to 4 feet high and branch freely, it is not an uncommon thing to see little 5 to 6 inch plants full of bloom and even bearing one or two Oranges. Plants, 30c each; 4 for \$1.00, postpaid.

Strawberry Guava Delicious—Sweet—Spicy

This is a luscious tropical fruit which makes a useful as well as a charming and beautiful house plant. It bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is about the size of a walnut, of a beautiful reddish color, and of delicious, sweet and spicy flavor. Fine for eating out of hand, and unsurpassed for making jelly. These plants are usually grown from seed and begin to bloom and bear fruit while quite small. Pkt., 10c; 3 pkts., 25c. Plants, 40c each; 3 for \$1.00, postpaid.

Brazilian Cherry (Surinam Cherry)

An ornamental, as well as useful plant. Fragrant white flowers followed by beautiful bright red cherry-like fruits of most delicious flavor. A fine pot plant, and in warm climates can be planted outside for ornamental effect. Plants, 40c each; 3 for \$1.00, postpaid.

IMPORTANT NOTICE

Owing to quarantines, we do not ship Orange or Lemon plants to Alabama, Arizona, California, Florida, Georgia, Louisiana, Mississippi, Texas and Porto Rico.

SPECIAL 4 plants, one each of Dwarf Orange, American Wonder Lemon, Strawberry Guava and Brazilian Cherry, for only \$1.20.

FAST GROWTH HEAVY YIELDS INEXPENSIVE

This method of growing normal vegetables and flowers, indoors or outside, entirely without the use of soil, is amazingly simple and results are astounding.

In your own window you can grow the finest tomatoes, radishes, cucumbers, lettuce, other vegetables and many flowers, all from seed; also gladioli, gloxinias, tuberous begonias, cannas, lilies, and other bulbs, with complete success. House plants of all kinds respond wonderfully in chemical solution. No secret formula to confuse you. We tell you everything and furnish the proper chemicals, together with explicit directions so plainly written that even a child can understand.

GROW PLANTS WITHOUT SOIL Use VM-11

NO WEEDS NO SOIL PROBLEMS CONSERVES SPACE

Our book, "HYDROPONICS," is full of practical instructions on successful methods and formulae for growing plants without soil, in garden, greenhouse, and living room. Scores of helpful suggestions, showing how to economically and easily adapt common materials for soilless purposes. The book is a complete guide with detailed illustrations clearly showing proper methods for large and small plantings. Price, postpaid, 50c.

VM-11. Eleven chemicals all in one mixture. Easy to use—simply mix with water. 10 lbs., \$6.00; 50 lbs., \$25.00, by express, not prepaid.

11-oz. can, enough for 33 gallons of growing solution, postpaid, 75c.

SPECIAL INTRODUCTORY OFFER — 11-oz. can of VM-11 and our book "Hydroponics" \$1.00
\$1.25 value—both for.....

Culinary and Medicinal HERBS

Your choice of the following varieties at 15c per packet;
4 pkts. for 40c; or 12 pkts. for \$1.00, postpaid.

Herbs are both useful and ornamental, and are easily grown in beds, flower borders, rockeries and in the vegetable garden. They contribute flavor to the menu and fragrance to the home. For winter use, cut stalks on a dry day, when not quite in full bloom, thoroughly dry in the shade, and pack in air-tight jars. Varieties marked with an asterisk (*) are perennial.

- *ANISE. Aromatic seeds; leaves for salads.
- *BALM. Fragrant, lemon-minty leaves.
- BASIL, Sweet. For spicy flavoring.
- BORAGE. For seasoning and salads.
- CARAWAY. A biennial, grown for its spicy seeds.
- *CATNIP, or CATMINT. For seasoning and animal tonic; also used as tea for nervous headaches.
- *CHAMOMILE. Tonic; febrifuge.
- CORIANDER. Aromatic seed.
- DILL. For seasoning pickles. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.50, postpaid.
- *FENNEL, Sweet. For flavoring.
- *HOREHOUND. Used for flavoring candy, and tea for coughs.
- *HYSSOP. Flavoring and salads.
- *LAVENDER. Flowers are dried and placed in the linen closet to impart their perfume to the linens. Also used as a repellent to moths.
- MARJORAM, Sweet. Used in soups and salads; also as a tea for indigestion.
- *ROSEMARY. For soups and aromatic oil.
- SAFFRON. For flavoring and coloring.
- *SAGE, Broad Leaved. For seasoning dressings, sausages, etc. ½ oz., 45c.
- SUMMER SAVORY. For flavoring salads, dressings and gravies.
- *WORMWOOD. Used for worm medicine and flavoring liqueurs; a fine poultry tonic. Oz., \$1.00.

Your choice of the above varieties at 15c per packet; 4 pkts. for 40c; or 12 pkts. for \$1.00, postpaid.

ANNUAL HERB MIXTURE

This seed packet is a mixture of the annual varieties described on this page. Pkt., 20c.

PERENNIAL HERB MIXTURE

This seed packet is a mixture of the perennial varieties described on this page. Pkt., 20c.

The above two seed mixtures are intended to meet the needs of those who want a row or small bed of herbs without buying a full packet of each variety. Sow in a row, thinning out and transplanting to proper distance.

A 50c Book Saves You \$\$\$

David I. Galliher of the Chemical Gardens in South Dakota, writes: "I have before me a copy of your **Hydroponics (Soilless Agriculture)**. I wish to commend you upon the completeness and thoroughness of your work, and I know that I have spent many dollars for books on this subject containing much useless information. I have checked your formulas against many I now have in use and against those in other books and I honestly believe you have the nearest to perfection of any heretofore released to the public."

The price of this book is only 50c, postpaid.

Amaze Your Friends

Earlier and Larger Fruits and Flowers

VITAMINS, which have long been used successfully in treating human ills, are now amazing the agricultural world with their astounding benefits to plant life.

BETTER HOMES AND GARDENS reports that the use of VITAMIN B₁ has produced Tea Roses with 5 inch buds; Hyacinths on 27 inch stems with flower heads 12 inches long; Daffodils larger than salad plates on 42 inch stems; Roses transplanted in full leaf without setbacks; seedlings matured in nearly half the time they customarily require; and many other wonderful and exciting results.

We do not promise everybody results like these, but we believe that after you have once used our **Easy-to-Use brand of Vitamin B₁** you will never again want to run the risk of transplanting without it. You will want to use it for safe transplanting and to increase the health and vigor of both your indoor and outdoor plants, to increase size of blooms, lengthen and strengthen stems, speed up germination of seeds and the maturity of seedlings.

EASY-TO-USE VITAMIN B₁ BRAND

Our Vitamin B₁ is put up in two forms, both especially prepared for Horticultural, Floral and Agricultural use.

"EASY-TO-USE" VITAMIN B₁ Recommended for "vitaminizing" pot plants, garden flowers, roses, shrubs, etc., and for use in transplanting. Just pour a small measureful in water and it is ready for instant use. FREE handy measure in each package. House Plant size, 25c; large package, enough for 2,000 gallons, \$1.00, postpaid.

"GRO-FAST" VITAMIN B₁ HOSE CARTRIDGES. Easily applied with your garden hose. No sprayer, special nozzle or extra attachment to buy. Simply remove the nozzle from any garden hose, drop a Gro-Fast Cartridge into it, replace the nozzle, turn on the water, and quickly and easily "vitaminize" your entire lawn and garden. Each cartridge is sufficient for 1,500 square feet. Apply once a week. 30 cartridges (enough to "vitaminize" 1,500 sq. ft. once-a-week for 30 weeks), \$1.00, postpaid.

Burgess' Annual Flower Seeds for Cut Flowers

Flowers are enjoyed by everyone and are so easily raised that any home can have an abundance of blossoms during the entire year. We list with the annuals a few biennials and tender perennials which bloom and do their best the first year from seed and are usually treated as annuals. The seeds we offer are the products of years of careful selection, and no better strains are to be obtained at any price. ALL FLOWER SEEDS ARE DELIVERED POSTPAID AT PRICES GIVEN.

Fragrance and Quick Results

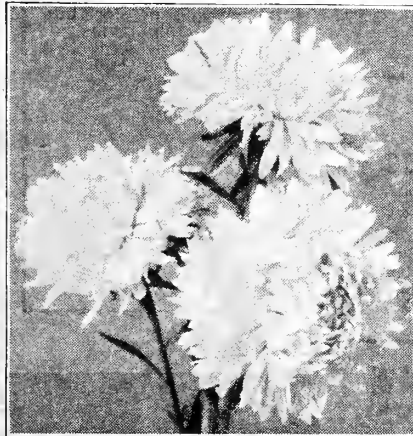

Disease-Treated Aster Seed

Queen of the Market

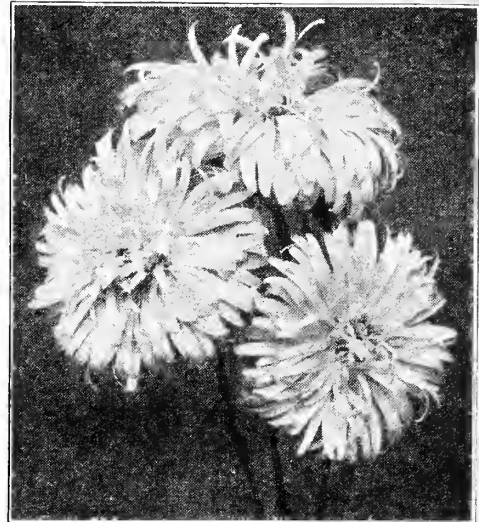

(Wilt-Resistant)

The Earliest Aster

Our early strain of Queen of the Market is a most valuable type for bedding as well as cutting, as they are entirely wilt-resistant, the first to come into bloom, and continue blooming until checked by fall frosts. Plants are 15 to 18 inches in height and branch freely near the ground, giving long stems. Very double flowers. White, Pink, Crimson, Light Blue, Dark Blue, Scarlet. Separate colors or mixed. 10c per packet; 6 pkts., 40c; ¼ oz., 30c; ½ oz., 50c; 1 oz., 80c.

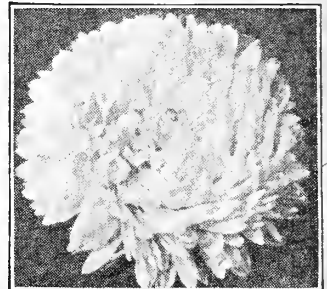

Queen of the Market

Giants of California Double Asters

Giants of California Double Asters

Giants of California are enormous flowers with long, attractively curled petals of the Ostrich Feather type, rivaling giant Japanese Chrysanthemums, and grow up to 6 inches in diameter, on stems 1½ to 2 feet long. The vigorous, freely branching plants grow 2 to 3 feet in height, begin to bloom in mid-season and continue until frost. Their immense size and beauty, long sturdy stems, and good lasting quality make them unsurpassed for cutting. Pkt., 15c; ¼ oz., 40c; ½ oz., 75c.

Wilt-Resistant Late Branching

Wilt-Resistant Late Branching

A grand strain of American Asters. Plants form strong, branching bushes, 2 to 2½ feet in height, bearing on long, strong stems, flowers which are very double and, under ordinary cultivation, average 5 inches across. Seed in mixed colors only. A fine mixture, including Crimson, Scarlet, Bright Rose, Flesh Pink, Sky Blue, Purple, White, etc. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c; 1 oz., 80c.

Giant Ostrich Feather (Wilt-Resistant)

Magnificent, feathery, full fluffy flowers of large size, on long stems. Fine mixture of colors. Pkt., 10c; ¼ oz., 25c.

Giant Sunshine Asters

Improved Anemone-Flowered

A beautiful type of Aster, forming well-branched bushes carrying a profusion of excellent long-stemmed flowers. Some of the flowers have twisted petals and some have quilled petals; all have a cushion center of tiny quills of a contrasting color which makes a flower look as if it were covered with snow flakes. The blue flowers are dotted with a paler blue and some in white, and the rose in a lighter shade of pink or white. Their delicate beauty is hard to describe. Excellent for garden display and particularly fine for cutting. We offer a fine mixture of colors, including the bright and delicate shades of blue, lilac, crimson, rose and white. Pkt., 10c; ¼ oz., 40c.

Heart of France (Wilt Resistant)

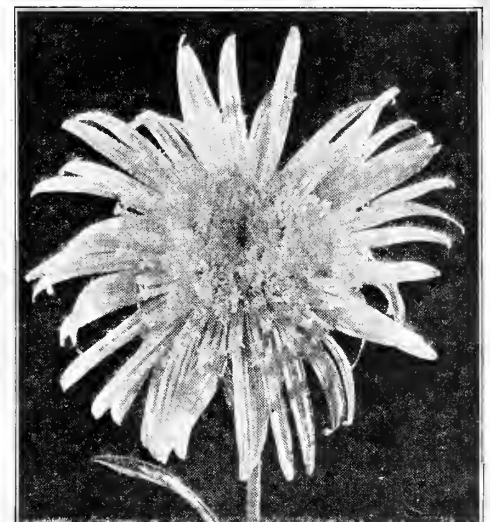

A wonderful pure red Aster. Nearly all others have shades of blue or too much yellow in the color pigments. Heart of France opens red as the purest ruby, deepens with age and retains its remarkable beauty to the very end. The petals appear strikingly changeable, showing now a glow and sheen quite unique, now a soft warm velvety texture. In any light, natural or artificial, Heart of France is startlingly beautiful and will command instant admiration. The flowers are large and full with never a trace of hollow center. Pkt., 15c; ¼ oz., 40c; ½ oz., 70c.

Burgess' Special Aster Mixture

Our own special mixture of all the varieties of Aster described on this and the next page. Pkt., 20c.

GIANT PEONY-FLOWERED ASTERS

Exceptionally fine double blooms measure 4 to 5 in. across; 15 to 20 in. stems. Choice mixture of all colors. Pkt., 10c; ¼ oz., 35c.

Sunshine Aster

SENSATION

(Wilt-Resistant)

This is the reddest of all Asters, the color being a dark rich garnet or ox-blood red, which glistens in the sunshine like a live coal. Grows 18 to 20 inches high, well branched, and covered with double flowers. The flowers are perfect in form, average 3½ inches across, and resemble Dahlias. Bloom from early August until frost. Pkt., 10c; ¼ oz., 40c.

Cut-Flower Mixture of Hardy Annuals

A fine mixture of hardy annuals blended to give a continuous succession of cut flowers from early summer until late fall. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

Wilt Resistant Golden Sheaf

Wilt Resistant Golden Sheaf THE FINEST YELLOW ASTER

Golden Sheaf is the deepest yellow Aster yet offered. The flowers are of good size, fully double, with an attractive crest-like center cushion of quill-like petals surrounded by an outer band of several rows of broad petals. Very popular with florists. The flowers last well when cut. Pkt., 15c; 1/8 oz., 40c; 1/4 oz., 70c.

Now Everyone Can Easily Grow Asters

During the past few years it has become rather discouraging to attempt growing the ordinary strains of Aster, due to the so-called "wilt disease." The spores of this fungus may be carried on untreated Aster seed, on the implements used in preparing the soil, and in the soil itself. When once introduced into the soil, it persists indefinitely, so that whenever an ordinary strain of Asters is planted, the wilt fungus living in the soil will attack the plants at some stage of their growth.

A wilt resistant strain of Asters is one which is highly immune to "wilt disease" and which, when planted on the very sickest soil, will withstand the attacks of the fungus and develop into strong healthy plants.

Correctly treated seed is disease-free and will not carry "wilt" or any other disease, but the treatment will not prevent plants from contracting diseases that may already be in your soil or carried by insects. All our Aster seed is treated, but if the disease now exists in your locality, we especially recommend our Wilt-Resistant strains.

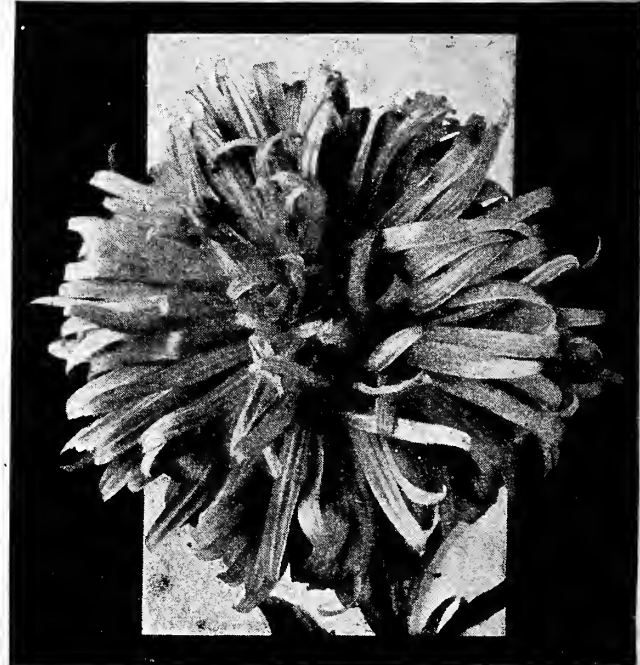

Wilt Resistant Crego Aster

Large Double Flowers 4 to 5 Inches Across

The Wilt-Resistant strain of Crego is the most popular of all the feathery or fluffy types of Asters. Very large, fully double flowers, with long, ribbon-like petals gracefully curled and twisted. Long stems; unsurpassed for cutting. Midseason.

Cattleya (orchid)	Shell Pink
Crimson	Peach Blossom
Dark Violet	White
Deep Rose	Mixed

Your choice of above at 10c per packet; 7 packets, 50c; 1/8 oz., 30c; 1/4 oz., 50c; 1/2 oz., 85c.

Wilt Resistant Crego Aster

Giant Rust-Proof Antirrhinum or Snapdragon

In point of beauty very few flowers approach the Antirrhinum or Snapdragon, yet this most beautiful flower lost favor for several years because of the ravages of the rust disease. After several years of painstaking experimentation a strain was developed which is immune to rust. 85% of the plants, when exposed to the most severe rust conditions, will remain completely immune in all instances.

The All-America Selection Committee, realizing the development of rust-proof snapdragons was so outstanding in the annals of horticulture, and the contribution so great to American gardeners, they issued a "Certificate of Honor" to Rust-proof Antirrhinums. While this committee makes Gold Medal Awards, Awards of Merit, etc., to various new novelties and introductions each year, this is the first Certificate of Honor ever to be awarded.

We can supply select seed of **Rust-Proof Antirrhinum Maximum** in the following colors:

- Campfire.** Luminous scarlet; free from orange or bluish tinges.
- Crimson.**
- Canary Bird.** Canary Yellow.
- Loveliness.** Pure soft rose-pink.
- Red Cross.** Glistening white tubes; deep, rich crimson faces.
- Shasta.** Pure white.
- Mixed.** Fine mixture of colors.

PRICES: Your choice of above at 15c per packet; 6 packets for 60c; 1/16 oz., 30c; 1/8 oz., 50c; 1/4 oz., 85c; 1/2 oz., \$1.50.

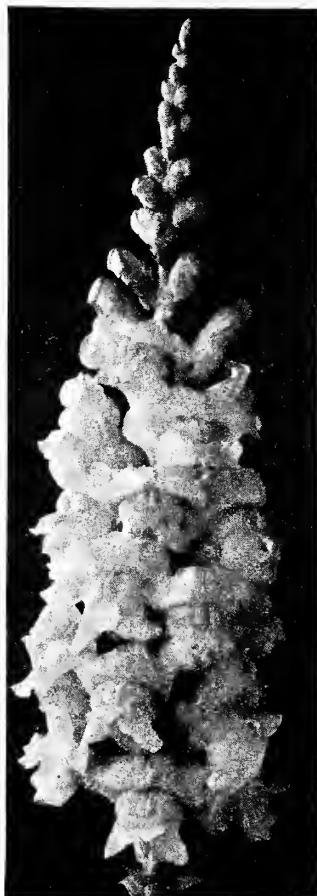

ROSALIE All-America winner for 1940. Tall; large flowered; rust resistant. Produces from 6 to 8 huge, long spikes of beautifully arranged flowers of rich deep rose with an underlying tone of topaz or amber. A handsome variety. Pkt., 15c.

Tall Giant Flowered 5 feet high. Flowers of magnificent size. A very fine strain, but not the rust-proof. A fine mixture of colors. Pkt., 10c; 1/8 oz., 30c; 1/4 oz., 50c.

Semi-Dwarf The massive, Hyacinth-like spikes are closely set with flowers as large as those of the Tall Giant type. Ideal for beds and borders. Pkt., 10c; 1/8 oz., 35c; 1/4 oz., 60c.

MAGIC CARPET ROCK GARDEN ANTIRRHINUM

A very dwarf form of Antirrhinum, of almost creeping habit, which nestles among the stones and clothes them as with a carpet. The beautiful soft colors add greatly to the appearance of the rock garden during the summer. Mixed colors. Pkt., 25c.

Rust-Proof Antirrhinum

Wilt Resistant Aster Collection One packet each of Wilt-Resistant Crego, Wilt-Resistant Queen of the Market, Wilt-Resistant Heart of France, Wilt-Resistant Late Branching, Wilt-Resistant Golden Sheaf and Wilt-Resistant Sensation, all 6 for 50c.

AGERATUM

MEXICANUM. A most effective bedding plant; beautiful fluffy blue flowers in great profusion. 2 feet. Pkt., 8c; 1/8 oz., 25c; 1/4 oz., 40c.

MIDGET BLUE 1940 All-America Silver Medal. Uniformly dwarf, dense, spreading plants, 3 to 4 inches high and 12 to 15 inches in width, almost smothered with clear azure-blue flowers. Superb for edging beds or for borders or rock gardens. Easily grown. Pkt., 15c.

PRINCESS VICTORIA LOUISE. A beautiful variety of compact, even growth; 8 inches. Skyblue with white center, the contrast being really exquisite. Pkt., 10c; 1/16 oz., 45c.

ALYSSUM

LITTLE GEM. A perfect "carpet of snow," commencing to bloom in spring when very small; continuing without interruption until late fall. 4 inches. Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

LILAC QUEEN. Deep lavender-lilac; about 6 inches, compact habit. Pkt., 10c; 1/8 oz., 35c.

PRIMROSE QUEEN. Dainty primrose-yellow. 6 inches. A lovely combination with Lilac Queen. Pkt., 15c.

SWEET. Flowers white; very sweet. 9 inches. Pkt., 8c; 1/2 oz., 20c; oz., 35c.

ACROCLINIUM

A handsome everlasting with white and pink flowers about an inch in diameter, and composed of many fine petals of silky appearance. Borne singly on long stems. When cut in bud, they can be dried and used for winter bouquets. Plants 18 inches tall and covered with a mass of bright blooms. Pkt., 10c; 1/4 oz., 35c.

Acroclinium

ABRONIA (Sand Verbena)

UMBELLATA. A quick growing, trailing plant with fragrant, rosy-lilac, verbenalike flowers. Especially adapted for dry, poor soils and sunny locations. Pkt., 15c.

CALENDULAS For Cut Flowers and Abundance of Blooms

Balsam (Lady Slipper)

BALSAM (Lady Slipper), Double Camellia-Flowered. Symmetrical, bushy plants, about 2 feet in height, with gorgeous masses of beautiful, brilliant-colored, very double flowers. Easily grown; also suitable for pot culture. Blooms throughout the summer and early fall. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

AMARANTHUS (Rainbow Plant)

Attractive foliage plants for backgrounds or groups on the lawn. 4 to 5 ft.

TRICOLOR (Joseph's Coat). Rich, scarlet-crimson foliage effectively variegated with yellow and bronze-green. Flowers bright crimson. Pkt., 10c; ¼ oz., 25c.

MIXED. Many varieties in mixture, including brilliant blood red and gorgeous variegated red, green and yellow foliage varieties. Attractive drooping blossoms. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

MOLTEN FIRE Brightest Colored Foliage Plant

This variety of Amaranthus is a most magnificent foliage plant and is attracting a great deal of attention wherever grown. Grows rapidly, attaining a height of 3 feet. It has handsome bronze foliage until it reaches a height of about 2 feet, when the leaves change to clear, glistening, fiery rose-crimson, increasing in size and brilliancy until the whole plant is illuminated with huge tufts of flaming fire which can be seen for half a mile. Retain their brilliancy for 3 months or more. Very easily grown. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

CANARY BIRD VINE

A beautiful rapid growing annual climber, the charming little canary-yellow blossoms bearing a fancied resemblance to a bird with wings half expanded. The sprays of flowers are very artistic and, when cut, keep in good condition for a week. Pkt., 10c; ½ oz., 25c.

CARDINAL CLIMBER

(*Ipomoea Quamoclit Slateri*). The most beautiful and brilliant climber ever grown. Strong, rapid growing annual attaining a height of 25 feet, with beautiful fern-like foliage and literally covered with a blaze of fiery cardinal-red flowers from midsummer to frost. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

The Calendula is one of the best and showiest free flowering hardy annuals. Blooms from early summer until killed by frost. Valuable also for pot culture.

FINE MIXED. Yellow, orange, orange-red, and striped; all double flowers. Pkt., 5c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.00.

"Campfire" or "Sensation" A beautiful variety which is a decided improvement in Calendulas. The flowers are large and double throughout. The long, strong stems make it unexcelled for cutting. Its color is a fascinating shade of rich, brilliant orange, with a scarlet sheen. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

RADIO A beautiful departure from the conventional form of Calendula. The flowers are large and double, and the petals attractively quilled. The color is a deep shade of golden yellow. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Orange Shaggy One of the most interesting and most distinct of the new types of Calendula is the lacinated type, Orange Shaggy. Deep orange shaded, lighter at the center, exceedingly graceful and informal in appearance, it is a striking contrast to the formal Calendulas in general use. The plants are free flowering, neat and compact, bearing long stems which make the fringing petaled flowers equally useful in the garden or for cutting. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Chrysanthemum-Flowered

Among the newer flower types in the Calendula family, the Chrysanth (Chrysanthemum-Flowered) type stands out as one of the best. Large double flowers of informal loose formation, with long slender incurved petals. Remarkable for their long stiff stems, making them ideal for cutting. We can supply two colors, as follows:

CHRYSANTHA BUTTERCUP YELLOW. Exquisite shade of clear buttercup yellow. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

CHRYSANTHA ORANGE SUNSHINE. Rich golden orange. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

Blue Lace Flower

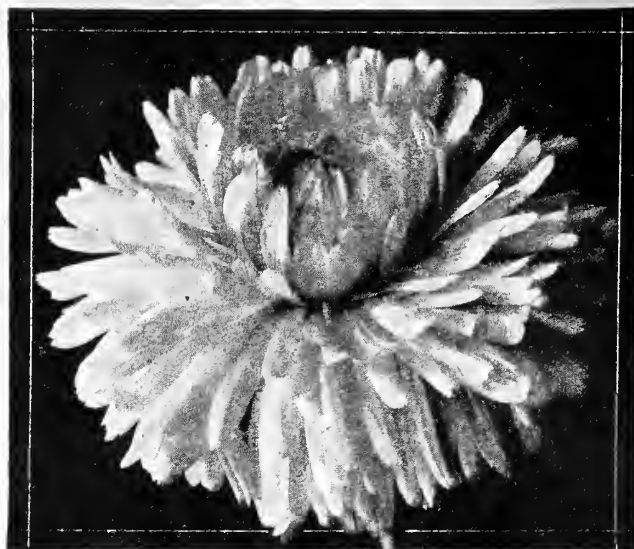

which resembles a handsome flower. Fine for trellis, rockwork, stumps, etc. 10 feet. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

Blue Lace Flower

(*Didiscus Coeruleus*). Large lace-like delicate lavender-blue flower heads, 2½ inches across. Long, graceful stems; 2 feet in height. Unsurpassed for cut flowers and last unusually long in water. Easily grown; bloom freely from July until the first hard fall frost. Pkt., 10c; ½ oz., 30c; ¼ oz., 50c.

BALSAM APPLE

(*Momordica Balsamina*). Very curious climbing vine, with very fine glossy green ornamental foliage and golden-yellow, warty fruits. The fruit bursts when ripe, exposing bright orange-scarlet interior, which resembles a handsome flower. Fine for trellis, rockwork, stumps, etc. 10 feet. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

Calendula Chrysantha (Chrysanthemum-Flowered)

Calendula Special Mixture

A mixture of all varieties described on this page. Pkt., 10c; ¼ oz., 30c.

Calliopsis

Calliopsis

Beautiful, showy, free-flowering plants, of the easiest culture, doing well in any sunny position, blooming all summer and excellent for cutting and massing.

DWARF MIXED. 9 to 12 inches. Ideal for rock gardens, borders, edgings, as well as for cutting. Always a mass of color, including shades of yellow, orange, mahogany-brown, red, etc. Pkt., 10c; ¼ oz., 20c.

TALL DOUBLE MIXED. Finest mixture of double varieties. Pkt., 10c; ¼ oz., 30c.

TALL SINGLE MIXED. A superb mixture of all colors. Pkt., 8c; ¼ oz., 20c.

CELOSIA

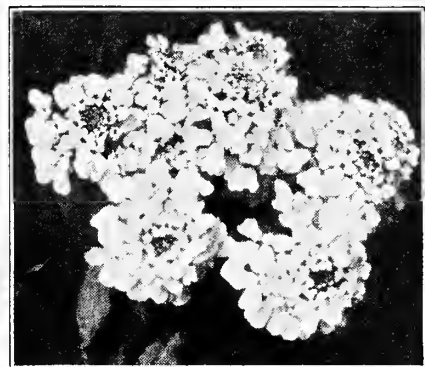

DWARF FLAME OF FIRE. Pyramidal-globe type plant, each branch bearing a large, almost round, fiery scarlet head of coral-like structure. 1½ ft. One of the most magnificent garden annuals ever introduced. Pkt., 20c.

CHINESE WOOL FLOWER (Celosia Childsii). Very showy and most desirable. Blooms continuously from midsummer until frost. Wool-like blooms in immense clusters, often measuring 2 feet in circumference. 2½ to 3 ft. high. Seed in fine mixture of crimson, white and yellow. Pkt., 10c; ½ oz., 30c.

PLUMED or FEATHERED (Celosia Plumosa). Of pyramidal growth, producing numerous brilliant, massive plumes which resemble ostrich feathers and wave gracefully above the foliage. 2½ to 3 ft. Choice mixture of red and yellow shades. Pkt., 10c; ¼ oz., 30c.

COCKSCOMB

(*Celosia Cristata*). Free-blooming annual, growing best in not too rich and in rather light soil. Grand border plant; attractive for pots. Fine mixed. Pkt., 8c; ½ oz., 25c.

Candytuft

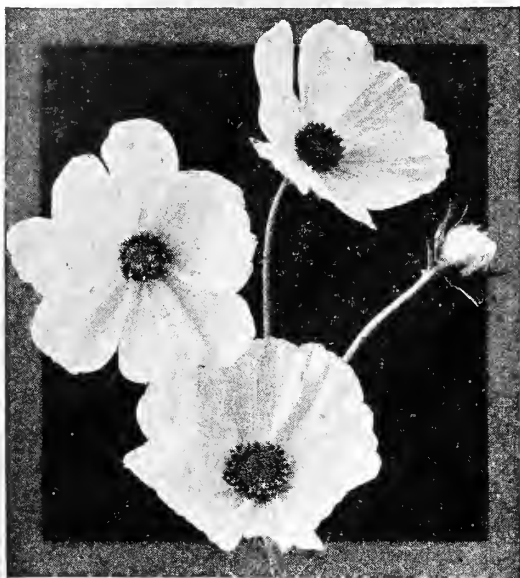

CANDYTUFT

The Candytufts are popular everywhere, and considered indispensable for cutting. Seed sown in April, flowers in June. Successive sowings should be made at intervals. Hardy and easy to grow.

GIANT HYACINTH-FLOWERED. The finest of all; immense spikes of large, pure white flowers. Pkt., 5c; ¼ oz., 30c; ½ oz., 50c; oz., 85c.

ALL COLORS MIXED. A fine mixture of white, pink, lilac and red shades. Pkt., 5c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

Cosmos Sensation

COSMOS Abundance of Cut Flowers Summer and Autumn

AUTUMN GIANTS. Gigantic flowers with broad, overlapped petals of splendid substance; borne on very long stems. All colors mixed. Pkt., 8c; ½ oz., 25c.

GIANT EARLY SUMMER. As early as the earliest and continues until frost. Nearly as large as the late sorts. A good mixture of crimson, pink and white. Pkt., 8c; ½ oz., 30c.

EARLY DOUBLE Lovely crested or anemone-shaped flowers, 2 to 2½ inches across. They do not come 100% double, but many double blooms can be expected. Frequently double and single flowers appear on the same plant. Height 4 ft. A mixture of white, crimson and pink. Pkt., 10c; ½ oz., 40c; ¼ oz., 70c.

Orange Flare This Grand Champion Gold Medal Yellow Cosmos is popular everywhere. Well-branched plants, 3 feet tall, covered with long-stemmed flowers of bright vivid orange. It is remarkable for its early blooming habit, and it continues to bloom profusely until frost. Does not require staking. Pkt., 10c; ½ oz., 35c; ¼ oz., 60c.

Sensation For the first time an early flowering Cosmos has surpassed in size of flower, the late flowering type. Plants 4 to 6 feet tall; and flowers 4 to 5 inches across, with broad, heavy fluted petals carried on very long stems. Extremely early flowering, blooming in 10 weeks from the time of seeding. While the flowers are usually large at all times, plants may be disbudded for even larger flowers for the cut flower trade. The mixture contains white, crimson, rose and pink. Pkt., 10c; ½ oz., 30c; ¼ oz., 50c; ½ oz., 85c.

Early Double Cosmos

BURGESS' GARDEN CARNATIONS

These are deservedly the most popular Carnations with the amateur, as they begin flowering in four months after seed is sown. Sown early, the plants will bloom during the late summer and early fall, and by repeated sowings they may be had in bloom all winter long if grown in the conservatory or green-

house. If slightly protected they will survive an ordinary winter out of doors and bloom the following spring.

Margaret Pink. Pkt., 15c.

Margaret Scarlet. Pkt., 15c.

Margaret White. Pkt., 15c.

Margaret Yellow. Pkt., 15c.

Finest Mixed. Pkt., 10c; ½ oz., 35c; ¼ oz., 60c.

Summer Chrysanthemums

Bloom profusely during the summer and fall. Quite distinct from the autumn flowering varieties. Elegant long stems; fine for cutting.

DOUBLE MIXED. Lovely double flowers, 1½ inches across, in white and shades of yellow. Pkt., 10c; ¼ oz., 20c; ½ oz., 30c.

SINGLE MIXED. Showy flowers of various bright colors. Pkt., 10c; ¼ oz., 20c; ½ oz., 30c.

Annual Campanula

Annual Campanula (Canterbury Bells)

The shape of the flowers and form of plant is the same as the well known biennial Canterbury Bells, but will bloom the first season if seed is planted early. The plants are 2 to 2½ feet in height and carry 7 or 8 spikes of bloom. Seed should be started inside and plants set out in the open ground when weather permits. Fine for cut flowers and beautiful for the garden. Seed in mixture of pink, rose, light blue, dark blue and white. Pkt., 10c; ½ oz., 30c; ¼ oz., 50c.

Chinese Forget-Me-Not

(Cynoglossum). A rare gem for your garden. Forms perfect bushes, 18 to 20 inches high, and is just one mass of lovely, brilliant, forget-me-not-like flowers from the latter part of May or the first of June until frost. It is ideal for bedding as well as for cut flowers. You can cut with 18 inch stems. No other annual will bloom more quickly from seed. Your garden will not be complete without this wonderful flower.

AMABLE BLUE. Brilliant sky blue. Pkt., 10c; ¼ oz., 25c.

AMABLE PINK. Bright pink. Pkt., 10c; ¼ oz., 30c.

Centaurea Imperialis

(Giant Sweet Sultan)

Undoubtedly the finest of all Sweet Sultans for cut flower purposes. The beautiful, sweet scented, exquisitely fringed, artistic shaped flowers measure 3 to 4 inches across, and are borne on long, strong stems. Height, 2½ feet. Flower profusely over a very long period. When cut and put in water, will last for several days in good condition. Fine mixture of colors, including dark purple, lilac, bright rose and white. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Centaurea Cyanus

(Corn Flower or Bachelor's Button)

A choice long stemmed strain of an old fashioned annual which never will decrease in popularity. It will grow anywhere and as a cut flower it is considered indispensable. It grows to a height of 2½ to 3 feet, and furnishes immense and well shaped double flowers throughout the summer. A nice assortment of colors, including blue, purple, mauve, pink, red and white. Pkt., 8c; ¼ oz., 20c; ½ oz., 30c; oz., 50c.

Centaurea Gymnocarpa or DUSTY MILLER

A beautiful foliage plant with finely cut silvery-gray leaves. Used for bedding purposes, borders, edges, etc. 1½ to 2 feet. Pkt., 10c; ¼ oz., 35c.

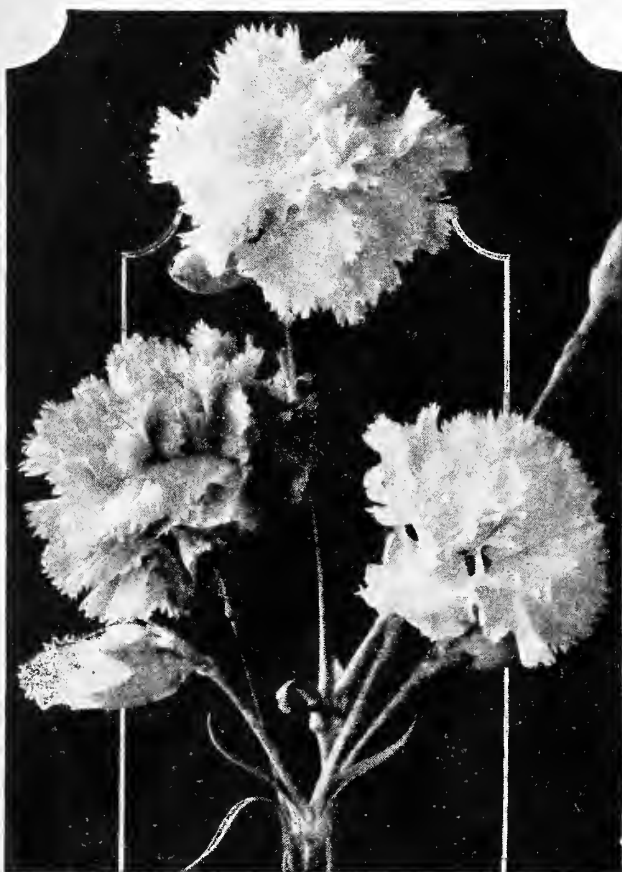

Clarkia

CLARKIA

ELEGANS DOUBLE

An easily grown annual doing well in rather poor soil, and in either sun or shade. Grows 2 to 2½ feet high, with beautiful double flowers, which open in water when cut. Resemble gorgeous sprays of Flowering Almond. A fine mixture of colors from pure white, flesh pink, bright pink, rose and salmon to the darker shades of orange, orange - scarlet, salmon - scarlet, etc. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

Burgess' Garden Carnations

Cobaea Scandens

CLEOME PUNGENS (Giant Spider Plant)

A strong, robust grower, 4 to 5 feet high, with great panicles of bloom as large as a Hydrangea and unaffected by wind or weather. The flowers are deep purplish pink when they first open, but turn to light pink, so that the lower part of the panicle is a different color from the upper. The stamens are several inches long, from which it derives the name—Spider Plant. Seed sown in the open ground in May will flower in July and continue in flower uninterrupted until frost. Pkt., 10c; ¼ oz., 25c.

COBAEA SCANDENS

Also called Cup and Saucer Vine or Cathedral Bells. A handsome annual climber of rapid growth, attaining a height of 30 to 50 feet during the season. Will cling to any rough surface. Large, bell-shaped, purplish-lilac flowers. Pkt., 10c; ¼ oz., 25c.

CYPRESS VINE

One of the most popular of the annual climbers. Very delicate fern-like foliage, and masses of small, bright, star-shaped flowers.

SCARLET. Pkt., 10c; ½ oz., 30c.

MIXED. Scarlet and white. Pkt., 10c; ½ oz., 25c.

Chinese Fragrant Fern

Delicate, lace-like foliage. Blooms profusely. Both flower and foliage are deliciously fragrant. Not a true fern; ornamental variety of Artemisia; 4 to 5 feet. No bouquet is complete without a spray or two of these perfumed beauties. Pkt., 15c.

ORNAMENTAL COTTON

Many people in the North have never seen cotton growing. As it is by far a more beautiful plant than many of the ornamentals and can be successfully grown in the North for ornamental purposes, it makes a very desirable addition to any flower garden; large, showy flowers, followed by large fluffy balls of white cotton. Pkt., 10c; 3 pkts., 20c.

DATURA

(Trumpet Flower)

WRIGHTII. The best annual variety. A handsome, hardy plant, 3 feet high, bearing immense trumpet-shaped flowers of white, tinged with lilac. Average about 8 inches in length by 5 inches across. Delightfully fragrant. Started early, will bloom from early summer until fall. Easy to grow. Pkt., 10c; ½ oz., 25c.

Annual Cineraria

ANNUAL CINERARIA

(Brachycome Iberidifolia)

Very fine, free flowering, easily grown annual, 10 inches tall, covered during the greater part of the summer with a profusion of dainty flowers which resemble small Cinerarias. A fine mixture of colors including the different shades of blue, purple, rosy-lilac, and white with contrasting dark eye. Suitable for edgings, small beds or pot culture. Pkt., 10c; ¼ oz., 35c.

HYACINTH BEAN

(Dolichos)

PURPLE SOUDAN. A rapid growing climber for sunny situations. 8 to 10 feet. Stems purplish-red; red and purple shades in the leaves. Long spikes of pea-like flowers of deep reddish maroon, followed by beautiful metallic purple seed pods. Pkt., 10c; oz., 25c.

Princess Helen. Pure white form of above; green foliage. Pkt., 10c; oz., 25c.

GYPSOPHILA (Baby's Breath)

WHITE. A quick-growing annual, bearing a profusion of small, open, bell-shaped flowers. Grows 10 to 15 inches tall. Extensively grown by florists for use in mixed bouquets. Pkt., 10c; oz., 30c.

ROSE. Similar in shape and size, but with flowers of dainty bright rose color. Pkt., 10c; oz., 30c.

DIANTHUS OR PINKS

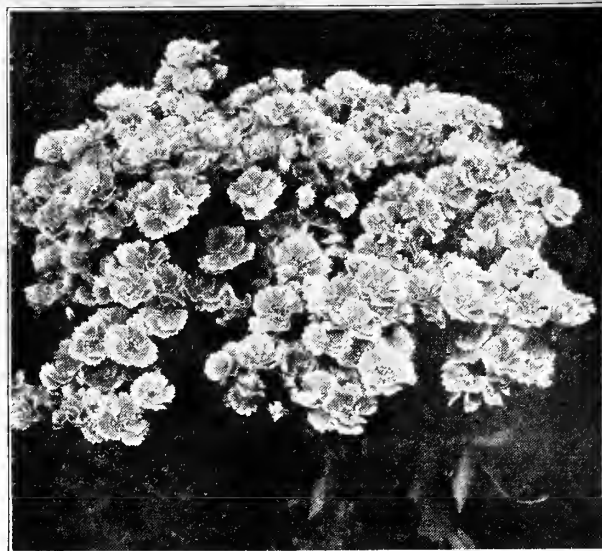

Few flowers can equal the old-fashioned Pinks in beauty and profusion of blooms. They are easily grown and do well in almost any kind of soil and location. The varieties listed on this page are biennials, but are usually treated as annuals, and are a mass of bloom within a few weeks after seed is planted. Excellent for cutting. As a rule, they survive the winter if given slight protection, flowering abundantly the following season.

CHINESE, Double. Sometimes called Indian Pinks. Handsome clusters of very double flowers; many bright colors. Pkt., 5c; ¼ oz., 25c; ½ oz., 40c.

FIREBALL. Large, double; rich, blood-red; splendid for cutting or as a border. Pkt., 10c; ¼ oz., 35c.

JAPANESE DOUBLE (Heddewigi). Large double blooms in many showy colors, varying from the richest velvety crimson to the most delicate rose. Pkt., 10c; ¼ oz., 25c.

LACINIATUS, Double Mixed. Flowers very large and double and the edges of the petals are exquisitely fringed. A fine mixture of brilliant colors—white, pink, rose, red and maroon shades, with white edges and variegated. Pkt., 10c; ¼ oz., 25c.

Dianthus Sweet Wivelsfield

EVERLASTINGS

for Winter Bouquets

To meet the growing demand for winter bouquets, we have prepared a special mixture of all the leading varieties of annual Everlastings, such as Acroclium, Globe Amaranth, Helichrysum, Rhodanthe, Statice, Xeranthemum, etc. You will find the most of these varieties described in this catalog. A most charming assortment ranging from the most delicate shades to the most brilliant colors. Liberal size packet, 10c; ¼ oz., 25c.

GLOBE AMARANTH

Gomphrena or Everlasting Bachelor's Button

A popular everlasting or strawflower. Our mixture includes a fine range of colors, including white, shades of pink, lilac, and the rich bronzy-yellow tones deserve particular mention. Plants 2 feet tall, and are literally covered with button-shaped flowers which measure nearly ¾-inch in diameter. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Ornamental Grasses

Useful and ornamental for winter bouquets when combined with Everlastings or Straw Flowers. Easily grown in any soil. A nice mixture of the finest varieties. Pkt., 10c; ¼ oz., 30c.

CRIMSON FLAX

LINUM GRANDIFLORUM RUBRUM. One of the most effective and showy bedding plants, having fine foliage and delicate stems, with brilliant scarlet-crimson flowers. 1 foot. Pkt., 10c; ¼ oz., 25c.

VITAMIZE YOUR PLANTS

Easy-to-Use Vitamin B₁ comes in powder form with handy measure. Also supplied in cartridge form to put in garden hose without extra attachment. See page 26 for prices.

Decorative Dahlia

DAHLIA SEED

Dahlias are as easily grown from seed as nasturtiums, and will bloom the first year if seed is sown early.

DOUBLE CACTUS-FLOWERED. Long, narrow, pointed, tubular and twisted petals of graded lengths, giving the layered flowers a very striking appearance. Excellent mixture of the finest varieties. Pkt., 15c; ½ oz., 75c.

DOUBLE DECORATIVE. Flowers full to the center; thick but not ball-shaped, with broad, flat petals. Choice mixture of large flowered varieties. Pkt., 15c; ½ oz., 75c.

CHOICE DOUBLE. A fine mixture of Decorative, Show and Peony-flowered varieties. Pkt., 15c; ½ oz., 50c.

Burgess' Special Mixture of Dahlia Seed

A select mixture of the finest varieties of Cactus-Flowered, Hybrid-Cactus, Ball or Show type, Decorative and Peony-Flowered, and a few of the most gorgeous of the single varieties. Pkt., 25c; ½ oz., 60c; 1 oz., \$1.00.

Ruffled California Poppy

Hardy Everywhere. One of the Most Desirable
Annuals for Beds, Borders and Cut Flowers.

ESCHSCHOLTZIA RAMONA HYBRIDS. Daintiest of the California Poppies. Among the many fancy varieties introduced, Ramona stands out as a distinct and very charming type in the frilled class. The frills give it the appearance of a semi-double flower. Ramona Hybrids come in a fine mixture of glistening shades of pink, yellow and white, and are very pleasing to the eye. 2 feet high. This unusually attractive novelty should be included in every collection. Pkt., 10c ¼ oz., 40c; ½ oz., 70c.

ESCHSCHOLTZIA CARMINE KING. Deep carmine red. A bed of these in bloom appears like a mass of bright red Tulips. Pkt., 8c; ¼ oz., 35c; ½ oz., 60c.

ESCHSCHOLTZIA ORANGE KING. Rich golden orange. Pkt., 8c; ¼ oz., 30c; ½ oz., 50c.

ESCHSCHOLTZIA MIXED. A choice mixture of all colors. Pkt., 8c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

African Daisy

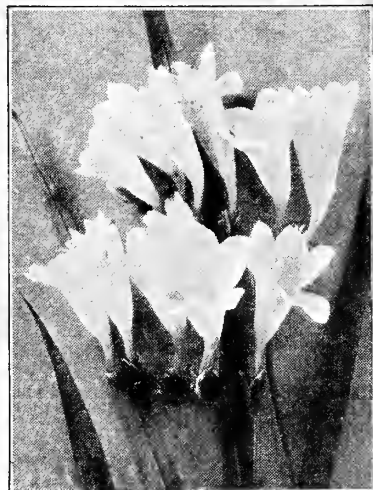

DIMORPHOTHECA, AURANTICA HYBRIDS. 12 inches; flowers 2½ inches across. Splendid mixture of white, cream, yellow, orange and rose, many flowers being zoned with several colors around darker centers. Pkt., 10c; ¼ oz., 35c.

FREESIAS

These are well known for their delightful fragrance. Seed should be sown in flats and transplanted after the bulb has formed. Will bloom the first year from seed.

REFRACTA ALBA. White. Pkt., 25c.

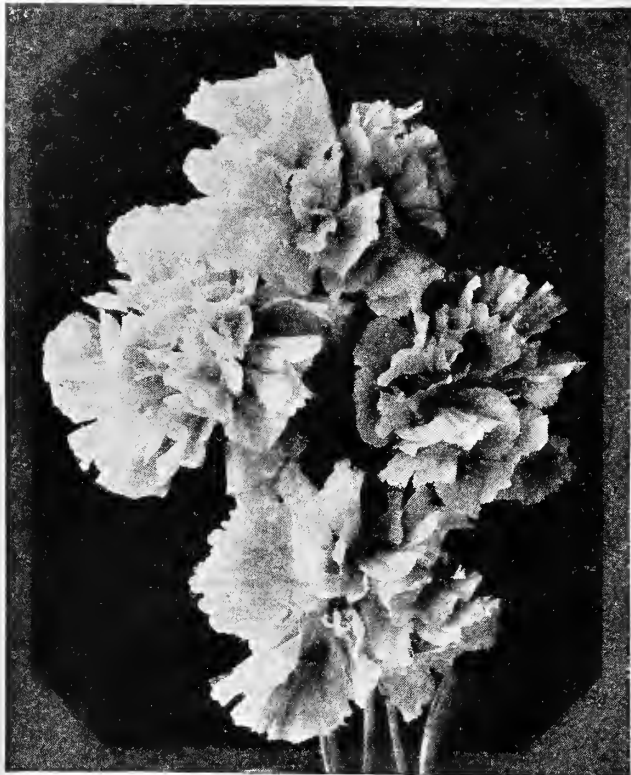

RAINBOW HYBRIDS. Very attractive because of their unique colorings and shadings. Pkt., 25c.

Freesias

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

Dwarf Double Azalea-Flowered Godetia

Azalea-Flowered Godetias

Wonderful Flowers That Rival the Loveliest Potted Azaleas

Godetias are unsurpassed for the brilliant effect they produce in beds and borders. The new Dwarf Azalea-Flowered varieties are also highly recommended for pot culture. They make compact bushes about a foot high, and the big beautiful blossoms are produced in such profusion as to just about hide the plant. It is surely a revelation, and you will be surprised and delighted. They are especially recommended for shady locations where many other flowers will not bloom. We have the four following varieties to offer:

DWARF DOUBLE AZALEA-FLOWERED, CARMINEA. Pink with crimson blotched center. So free flowering that when it is in full flower it is nothing but bloom. May be called an annual Azalea. Pkt., 15c; 1/8 oz., 30c.

DWARF DOUBLE AZALEA-FLOWERED, SWEETHEART. Bright cream-pink. Pkt., 15c; 1/8 oz., 30c.

DWARF DOUBLE AZALEA-FLOWERED, SYBIL SHERWOOD. Bright salmon-pink softened by an undefined edging of white. Pkt., 15c; 1/8 oz., 30c.

DWARF DOUBLE AZALEA-FLOWERED, MIXED. A fine mixture of colors. Pkt., 10c; 1/4 oz., 30c; 1/2 oz., 50c.

SPECIAL One packet each of Carminea, Sweetheart and Sybil Sherwood —all 3 packets for only 30c.

GAILLARDIA (Blanket Flower)

Remarkable for the profusion, size and brilliancy of their flowers, continuing in bloom from early summer until November. Excellent for beds, borders, or for cutting. A fine range of colors, from creamy-white and yellow shades to orange and crimson, both single and double. A fine mixture. Pkt., 8c; 1/4 oz., 25c; 1/2 oz., 40c.

Gaillardia

ORNAMENTAL GOURDS

Gourds make gay winter decorations when thoroughly ripened, cured and varnished. Gourds may also be used as dippers, bowls, pipes, nest eggs, bird houses, toys, etc.

APPLE BIRD HOUSE
CALABASH PIPE (Penguin)
DIPPER
DISH CLOTH

NEST EGG
ORANGE
PEAR-SHAPE
SUGAR TROUGH
SMALL JAPANESE BOTTLE

Price—Your choice of above named varieties: Pkt., 10c; 3 pkts., 25c; oz., 30c; 1/4 lb., 90c.

ORNAMENTAL GOURDS, ALL KINDS MIXED. Pkt., 10c; 3 pkts., 25c; oz., 30c; 1/4 lb., 90c.

Dish Cloth Gourd

The fruits sometimes grow to a length of 3 feet when vines are twined on trellis and fruits left to hang naturally. When the fruits are disturbed during the growing period they start to wind into various fantastic forms resembling green snakes. Fruits are edible when very young, and should be cooked like squash or egg plant. When ripe, the fibrous interior may be used like a sponge. Many women prefer a dishcloth made from the ripe Dishcloth Gourd. Pkt., 10c; oz., 30c.

ICE PLANT

Fine trailing plant for borders and hanging baskets, and valuable for dry, sunny situations on banks, rockwork, old walls, etc. Foliage very ornamental, being covered with ice-like globules which glitter in the sun. Pkt., 10c; 1/8 oz., 25c.

Calabash Pipe Gourds staged and decorated as Penguins

PENGUIN GOURDS

These charming and curious snow birds attract the curiosity and admiration of everyone, and are easily made from Calabash Pipe Gourds. They make delightful gifts, and also find ready sale. The gourds are easily grown, and no particular skill is required, as the gourds are simply harvested when ripe, painted, mounted on a wooden or plaster base and absorbent cotton is placed around to represent snow. Plant some of the seed and give them a trial this year. Pkt., 10c; oz., 30c.

Bird House Gourds are especially attractive to Wrens. Last season, 5 days after hanging several of these in our Nursery, the Wrens had moved in and taken possession.

The above photograph illustrates the dried seed pods of the Novelty Bird Plant, or Unicorn Plant, staged to represent birds.

NOVELTY BIRD PLANT

UNICORN PLANT. Although this is not a Gourd, we are listing it here because it is very effective when used in combination with Gourds. The seed pods have a distinct and curious appearance because of the long curved horn which splits into two parts as they ripen and harden. They may be painted to represent Humming Birds, Canaries, Blue Jays, etc. Mounted on a piece of sandpaper they are quite a distinct novelty. While its greatest interest is in the seed-pod stage, it has pretty flowers of pale yellow with purplish spots. The green seed pods are fine for pickles. Pkt., 15c; 2 pkts., 25c; 5 pkts., 50c.

Gourds for Bird Houses

Attractive and inexpensive Bird Houses can easily be made from gourds. All that is needed is the right kind of gourd and a sharp knife. Hang these Gourd Bird Houses in trees and other places, away from the reach of cats, and they will attract many beautiful birds. Birds are not only ornamental in the garden and on the lawn, but are very beneficial, destroying worms and other insect pests. Plant some of our Bird House Gourd seed this spring and grow your own Bird Houses. Pkt., 10c; oz., 30c; 1/4 lb., 90c, postpaid.

SPECIAL One packet each of Novelty Bird Plant, Bird House Gourd, and Penguin Gourd, all 3 for 30c.

IPOMOPSIS or Tree Cypress

A handsome plant with a fine feathery foliage like Cypress Vine. It has long spikes of very beautiful, dazzling scarlet, finely spotted flowers. Will thrive in any soil. Pkt., 10c; 1/8 oz., 35c.

JAPANESE HOP (Humulus Japonicus). Variegated-Leaved. A rapid climber; one of the best plants for covering verandas, trellises, etc. The large handsome leaves are beautifully variegated, green and yellow, and make a dense covering. Pkt., 10c; 1/4 oz., 25c.

JOB'S TEARS Curious and ornamental. Seeds used for beads and ornamental purposes. Pkt., 10c; oz., 25c; 1/4 lb., 70c.

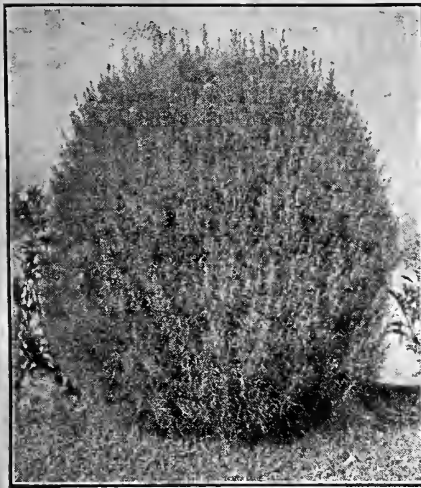

LINARIA Maroccana Hybrida Excel-sior. A hardy annual with small dainty flowers resembling miniature Antirrhinums and in addition each flower has a long Columbine-like spur. A nice cut flower. The colors range through crimson and gold, pink, mauve, dark blue, chamois and rose, with many lighter art shades. Height from 12 to 18 inches, and blooms in about eight weeks from seed. Pkt., 10c; 1/4 oz., 25c; 1/2 oz., 40c.

Four O'Clock or Marvel of Peru

(Mirabilis). This is another good old-fashioned flower of bushy habit, bearing hundreds of bright, sweet scented white, yellow, crimson and violet flowers. Very charming when used as a hedge plant, rivaling the privet, with its glossy foliage very closely set and dotted all over in the afternoon with a multitude of fairy flowers. It is a little known fact that roots of these may be lifted in the fall and stored like Dahlias and the tubers planted in spring. It will result in larger and stronger plants and more flowers. 2 feet. All colors mixed. Pkt., 10c; oz., 20c.

Annual Border Mixture

A select mixture of many standard and rare annual flowers suitable for border work, all growing six inches or less in height. This well-balanced mixture can be used not only in the border to the annual flower garden, but for setting off perennial gardens, as well as for border work around shrubbery, along walks, etc. Pkt., 10c; 1/4 oz., 35c; 1/2 oz., 60c.

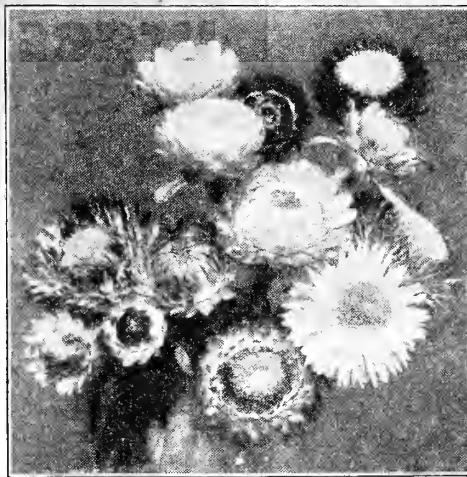

Kochia (Burning Bush)

HELICHRYSUM

(Straw Flower)

Winter Bouquets That Never Fade

Monstrosum. The largest of the Everlastings. Beautiful Aster-shaped flowers that when dried retain much of their original shape and splendor. Popular for winter decorations, for which purpose the blossoms should be cut when about one-third open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. Our seed is a carefully blended mixture of the various shades of Red, Violet, Purple, Rose, Pink, Salmon, Yellow and White. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

Helichrysum (Straw Flower)

KOCHIA (BURNING BUSH OR SUMMER CY- PRESS.) This beautiful bush grows about 2 to 2½ feet in height and resembles a closely trimmed ornamental evergreen. May be grown singly or in the form of a hedge or background. In early fall the entire bush turns bright scarlet. Pkt., 10c; ½ oz., 25c.

MORNING GLORIES

BRAZILIAN. Rich, rose-colored blooms 3 inches across; very showy and free blooming. As a quick growing vine it has no equal, covering an enormous space in a short time. Pkt., 10c; ½ oz., 25c.

Heavenly Blue The finest of all Morning Glories. Immense flowers measuring 5 inches in diameter; bright sky blue color with a white throat. Our strain of this variety is about 20 days earlier than the ordinary strain. Pkt., 10c; ¼ oz., 30c.

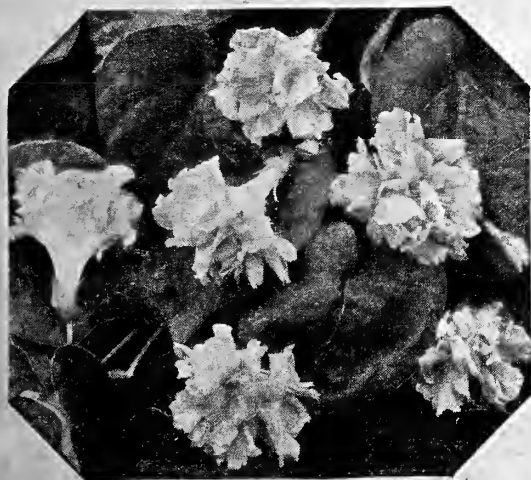

Scarlett O'Hara A new color in Morning Glories—rich dark wine red or deep crimson. Flowers about 4 inches across, freely produced on fast growing vines, and stay open longer than other varieties, many until in the afternoon. A blaze of brilliancy which will make it one of the most popular varieties. Pkt., 15c; ¼ oz., 45c.

JAPANESE IMPERIAL. This is a particularly attractive variety. The flowers are much larger than ordinary Morning Glories. The colors run from snow white through all possible shades of blue and red, from palest pink to darkest reds and purples, and streaked, mottled and bordered in wonderful fashion. Pkt., 10c; ½ oz., 25c.

JAPANESE EXTRA LARGE, or GIANTS. A superior strain of Japanese Imperial; extraordinary fine colors and gigantic in size, measuring more than 6 inches across. Pkt., 15c; ¼ oz., 45c.

JAPANESE FANCY FRINGED. A choice strain of Japanese Morning Glories with fringed and ruffled flowers. Pkt., 10c; ¼ oz., 30c.

SUPERB MIXED. This mixture contains none of the above varieties, but is a fine mixture of the old-fashioned sorts. Very hardy, so can be planted earlier and will begin to bloom earlier than the Japanese varieties. Pkt., 5c; oz., 20c; ¼ lb., 60c.

Double Morning Glories

Double Morning Glories

DOUBLE ROSE MARIE (Petunia-Flowered Ruffled). Blossoms resemble Double, Ruffled Petunias. A lovely shade of deep rose-pink. Begins blooming early and blossoms profusely all summer and fall. Nothing is more beautiful on a trellis or for porches, arbors, fences, etc. Pkt., 15c; ¼ oz., 40c.

DOUBLE MIXED. Double and semi-double flowers. Pkt., 10c; ¼ oz., 30c.

Burgess' Superfine Larkspur

This wonderful strain of Larkspur reminds one of the perennial Delphinium, and covers a much larger range of colors. Seed sown in the open ground before the close of April will produce flowering plants by the beginning of July, and the magnificent flower spikes will be produced in continuous succession until late in the fall. Large, double flowers of light blue, deep blue, lavender, lilac, purple, light pink, dark pink, rose, various shades of red, salmon, white, etc. Beautiful and attractive in flower beds and the shrubby border, and are most valuable as cut flowers. Pkt., 10c; ¼ oz., 40c; ½ oz., 70c.

EARLY GIANT HYACINTH-FLOWERED LARKSPUR

An early blooming type, each plant producing one big spike, broad at the base and tapering to a point at the top, thickly studded with large, perfect double flowers, reminding one of a gigantic Hyacinth. Height 3 feet. Seed comes in fine mixture of colors. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

GIANT IMPERIAL LARKSPUR

A magnificent type of distinctly upright growth, similar to the perennial Delphinium, producing many fine flower spikes, 3 to 4 feet long, branching from the base of the plant. Large, double flowers, and a fine assortment of colors, including the different shades of blue, lavender, lilac, light pink, dark pink, deep rose, salmon and white. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

MIGNONETTE

Sweet. The old variety; small spikes; very sweet scented. Pkt., 8c; ¼ oz., 25c.

Large Flowered. Many shades and types; very choice. Sowings made in April and again in July will keep up a succession of bloom from early summer until frost; can also be grown in pots for winter and early spring flowering. Pkt., 10c; ¼ oz., 30c.

NICOTIANA

Affinis Hybrids

Compact bush, about 3 feet; blooms all summer and fall; delightfully sweet-scented, tube-shaped white, purple, red, salmon, pink and violet flowers which will fill a whole garden with their fragrance. Easily grown from seed, and cuttings rooted in September will bloom freely in the winter. Fine mixture. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

NIGELLA

(Love-in-a-Mist)

One of our prettiest old-fashioned annuals. Attractive double flowers of white and various shades of blue, nestled among the fine, feathery foliage. 1½ ft. Fine for cutting. Bloom profusely over a long period. Pkt., 10c; ½ oz., 25c.

Climbing Petunia

The Double Rose Marie Morning Glory is sometimes referred to as the Climbing Petunia; owing to the blossoms resembling Double Ruffled Petunias. Pkt., 15c; ½ oz., 40c.

Oriental Garden

50 annual flowers from China and Japan, entirely adapted to our climate. Gorgeous mixture. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 70c.

Moonflower

Sweet Scented Giant Flowered

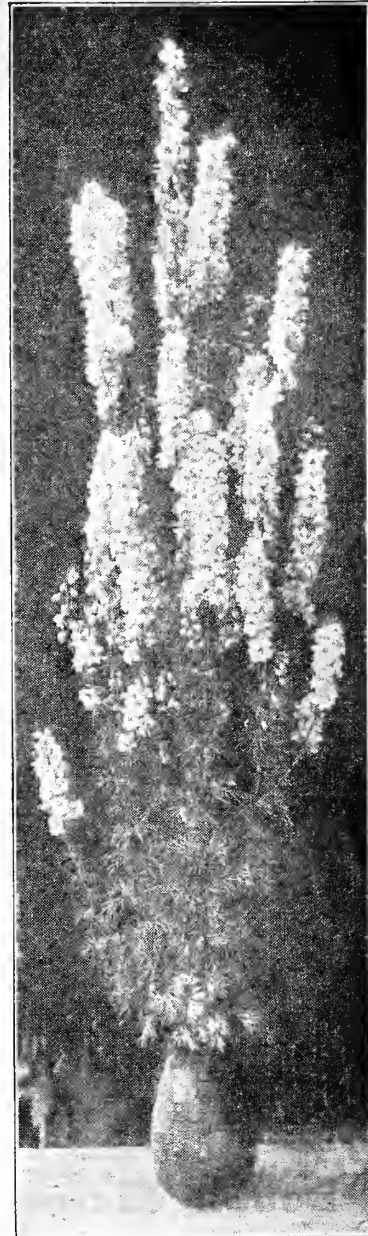

WHITE. A rapid climber, reaching a height of 20 to 30 feet; foliage very dense. Every evening, and on cloudy days the vines are covered with immense white flowers, many measuring 6 inches across. Pkt., 10c; ½ oz., 30c; oz., 50c.

PINK HYBRID. Large flowers of beautiful lavender pink color. Pkt., 10c; ½ oz., 30c; oz., 50c.

MOONFLOWER MIXED. A mixture of pink and white varieties. Pkt., 10c; ½ oz., 30c; oz., 50c.

Mexican Fire Plant

Larkspur Giant Imperial

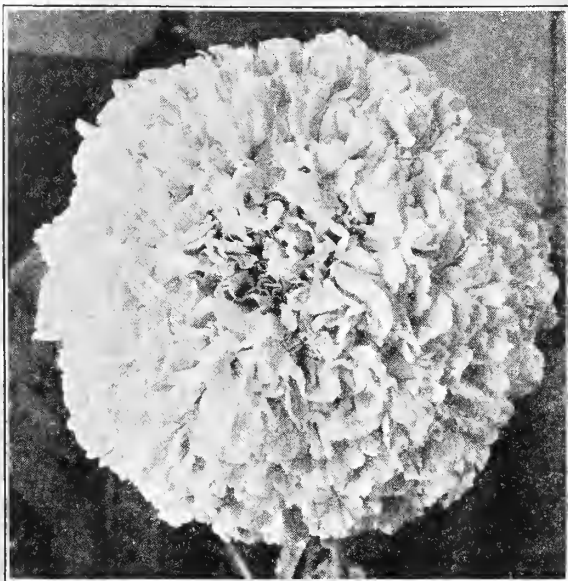

Moonflower

Mexican Fire Plant

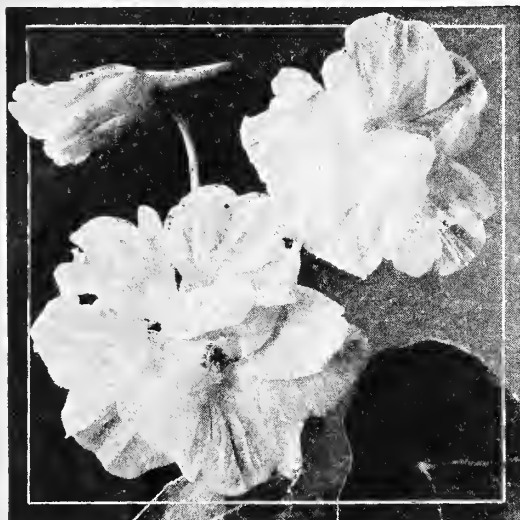

(Annual Poinsettia)

(EUPHORBIA HETEROPHYLLA.) A variety of Poinsettia which grows quickly to a height of 2½ to 3 feet from seed sown in the open during May. About the middle of summer the top central leaves turn to rich orange-scarlet, similar to the famous greenhouse variety of Poinsettia which is so popular about Christmas time. A blaze of glory throughout the summer and fall. Pkt., 10c; ¼ oz., 25c.

Flowers Listed on Pages 27 to 38 Are Annuals—Bloom from Seed the First Year

Sunset Giant Marigold

Double Globe Type Nasturtium

Double Gleam-Type Nasturtiums SEMI-DWARF BUSHES

The Gleam-Type Nasturtiums are semi-dwarf, forming vigorous, large bushes, and when fully developed send out short runners about 18 inches in length. The flowers are large, double, and semi-double, sweet-scented, and are borne on long, erect, stiff stems which stand well above the foliage, producing a blaze of glory. The neat compact habit and early appearance of flowers make it most valuable for flower beds and an excellent pot plant. The short runners, which also bear numerous flowers, add to the usefulness of the plant for window boxes, or the runners can be pinched back as soon as they appear, and a round mass of flowers will be the result. In the garden or for cutting no flower could be more lovely. We can supply the following varieties in the Gleam-Type.

GOLDEN GLEAM. Neatly formed plants, covered with a mass of large, sweet-scented golden yellow, semi-double flowers $2\frac{1}{2}$ to 3 inches across. When well grown the flowers have the appearance of being fully double. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

MAHOGANY GLEAM. Large, double, sweet-scented, dark mahogany-red flowers on long stems. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

SALMON GLEAM. A most pleasing shade of large golden salmon flowers, borne profusely on long stems; sweet scented. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

SCARLET GLEAM. Rich, dazzling orange-scarlet, double blooms of immense size, almost three inches across, full petaled, waved and fluted in effect, uniformly well formed, and richly sweet scented. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

DOUBLE GLEAM HYBRIDS. An excellent range of gorgeous colors, including salmon, golden yellow, creamy yellow, orange, orange-scarlet, cerise, crimson, gold flushed scarlet, rare art shades, variegated and blotched. Flowers of immense size, 3 inches across, double and semi-double, and exquisitely sweet scented. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

Burgess' Prize Marigolds

SUNSET GIANTS. Largest flowered Marigold ever produced, averaging 5 inches, and some as large as $7\frac{1}{2}$ inches. Instead of usual Marigold odor, the flowers have a definitely sweet fragrance. Sunset Giants is a mixture ranging from deep orange through golden orange, golden yellow, light yellow, lemon, and a delightful shade of primrose. Plants, $3\frac{1}{2}$ to 4 feet high. Pkt., 10c; $\frac{1}{8}$ oz., 35c; $\frac{1}{4}$ oz., 60c.

ALL DOUBLE LEMON. An African Marigold with large, perfect, double, quilled flowers of soft lemon yellow. 3 feet. Pkt., 8c; $\frac{1}{8}$ oz., 25c.

ALL DOUBLE ORANGE. A counterpart of All Double Lemon except in color, which is deep golden orange. Pkt., 8c; $\frac{1}{8}$ oz., 25c.

CROWN OF GOLD (Collarette). A lovely type with a golden orange, chrysanthemum-like top or crown, surrounded by a collar of big broad petals of golden orange. Sweet-scented flowers; foliage entirely odorless. $2\frac{1}{2}$ feet. Fine for cutting. Pkt., 10c; $\frac{1}{8}$ oz., 35c.

LIMELIGHT. Exquisite flowers with petals which wave and interlace in such a way that their resemblance to a Chrysanthemum is remarkable. The flowers are $2\frac{3}{4}$ inches across, and the color is a pale but clear shade of primrose-yellow. Dwarf, bushy plants 20 inches high and 2 feet across. Winner All-America Selections for 1940. Pkt., 15c.

DIXIE SUNSHINE. Large ball-shaped flowers; petals gracefully interlocking, giving it a dainty, fringed, Chrysanthemum-like effect. Brilliant golden yellow; a ray of dazzling, pure beauty. Tall and stately. Pkt., 10c; $\frac{1}{8}$ oz., 30c.

GUINEA GOLD (Carnation Flowered Marigold).

A distinct type of graceful pyramidal habit, $2\frac{1}{2}$ feet high, producing 30 to 40 semi-double flowers, $2\frac{1}{2}$ inches across, of a brilliant golden color. This variety produces no single flowers. Pkt., 10c; $\frac{1}{8}$ oz., 25c.

YELLOW SUPREME (Peony-Flowered). Exquisite brilliant lemon-yellow blooms, four inches across, with artistically arranged, broad, loose, frilled petals. Delightfully sweet scented, without the usual Marigold odor. Exceptionally fine. Pkt., 10c; $\frac{1}{8}$ oz., 30c.

GIANT AFRICAN DOUBLE, Mixed. Large flowered varieties in mixture of colors. Pkt., 8c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

DOUBLE DWARF FRENCH. Few annuals are as effective or flower so long a period. 10 to 12 inches. A fine mixture of lemon-yellow, golden-yellow and rich, mahogany-brown shades. Pkt., 8c; $\frac{1}{8}$ oz., 25c; $\frac{1}{4}$ oz., 40c.

3 pkts. 28c One packet each of Limelight, Sunset Giants and Yellow Supreme for only 28c.

SPECIAL

BURGESS' SPECIAL MIXTURE. A carefully blended mixture of the finest large varieties, including Sunset Giants, Dixie Sunshine; Guinea Gold, Crown of Gold and Yellow Supreme. Pkt., 15c; $\frac{1}{8}$ oz., 40c.

Double Globe-Type Nasturtiums

Dwarf Compact Bushes—Long Stems

The Double Sweet-Scented Globe-Type Nasturtiums are the finest type of Nasturtiums yet introduced. The plants are of dwarf, compact bush or globular form, about 1 ft. high, totally without runners, and hold their compact form throughout the season. The large double and semi-double flowers are produced in great profusion, and their long stems, wonderful fragrance and beauty, combined with their long keeping qualities, make them ideal for bouquets. They thrive under almost any cultural conditions, and the dwarf, rounded plants are most attractive for beds, borders, rock gardens and pot culture. We can supply the following varieties in the double globe-type.

DWARF GOLDEN GLOBE. Giant, golden yellow, double flowers. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 65c.

Sweet Scented—Fine for Cutting

DWARF RUBY GEM. Large, double, bright ruby colored flowers. Pkt., 15c; oz., 35c; $\frac{1}{4}$ lb., \$1.00.

DWARF SCARLET GLOBE. Fiery scarlet, double blooms of large size. Pkt., 15c; oz., 35c; $\frac{1}{4}$ lb., \$1.00.

Dwarf Double Globe Hybrids

Large, sweet-scented, double and semi-double flowers cover the compact little plants in great profusion. An excellent color range which includes shades of yellow, orange, scarlet, crimson, salmon, cerise, cream, maroon and many interesting color combinations. The mixture contains both dark and light foliage plants. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 65c.

Sweet Scented

All Globe-Type and Gleam-Type Nasturtiums are sweet scented. An ordinary bouquet will fill the room with delightful fragrance.

Single Flowering Nasturtiums

DWARF MIXED. Without exception the most gorgeous mixture of single-flowered dwarf varieties. A complete blend of all shades and colors. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

TALL MIXED. Our special mixture contains all the choicest colors and many kinds and types of Tall or Creeping Single Nasturtiums. Unexcelled for colorful display. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

OXALIS

Tropaeoloides. An excellent little plant for edging or pots; blooms all summer in the greatest profusion; yellow flowers, rich brown foliage. Pkt., 25c.

Burgess' Annual Poppies

AMERICAN LEGION. Dazzling orange-scarlet; enormous size. Rich, colorful. 2 ft. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

CARNATION FLOWERED. Splendid double fringed flowers. Fine mixture of all colors. 3 ft. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c; oz., 70c.

DOUBLE FEATHER BALL. Mammoth, globe-shaped, elegantly fringed flowers. Grand mixture of colors, including white, various shades of pink, rose, salmon, scarlet, etc. Pkt., 10c; $\frac{1}{4}$ oz., 30c; $\frac{1}{2}$ oz., 50c.

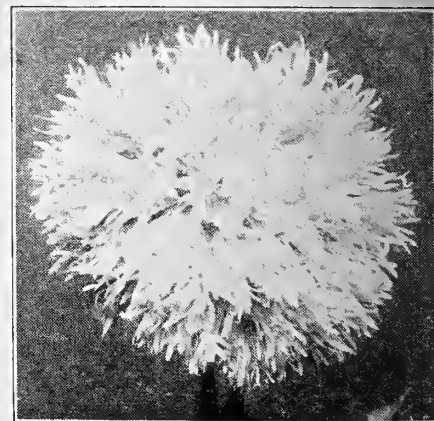

DOUBLE PEONY-FLOWERED. Large, showy, double, globular flowers resembling a double Peony. Fine mixture of many colors. 3 ft. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c.

SHIRLEY DOUBLE. Many attractive colors and gorgeous color combinations. One of the most showy of all Poppies. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c; oz., 70c.

SHIRLEY SINGLE. Loveliest of all single Poppies. Dainty shades of pink, rose, apricot, salmon, terra-cotta, etc. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c.

Evening Primroses

Double Feather Ball Poppy

Giant Yellow Tulip Poppy

(*Hunnemannia Fumariaefolia*). Magnificent, golden yellow, tulip-shaped flowers. Blooms from July until frost. 2 ft. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

EVENING PRIMROSE (Oenothera)

Elegant for a sunny position in the border or rockery, flowering freely the greater part of the summer.

LAMARCKIANA. Large flowered, yellow. Pkt., 10c; $\frac{1}{4}$ oz., 25c; $\frac{1}{2}$ oz., 40c.

Burgess' Prize Pansies

Engelmann's Giants

Pansies of Enormous Size

Engelmann's is the last word in Pansies. Gorgeous flowers of immense size. Unsurpassed for size, beauty, thick velvety texture and wide range of colors. Engelmann's Giants contain not only the blotched types, but spotted, splashed and striped. Our mixture contains light, dark and intermediate shades. One of the outstanding features of this wonderful strain is that the long, stiff stems hold the flowers well above the foliage; and the fact the plants continue to produce large blooms throughout the entire season makes it most valuable as a cut-flower as well as for bedding. Pkt., 50c; 1/16 oz., \$2.00.

Swiss Giants

These are really outstanding Pansies of robust habit and very large-flowering, often measuring 3½ inches across. The perfectly shaped flowers are of substantial texture and borne on long, stiff stems. The wide range of colorings and markings include the richest reds, coppers, bronzes, and yellows, together with the delicate rose-pinks and those beautiful light blues so much desired in Pansies. Pkt., 25c; ¼ oz., 75c; ½ oz., \$1.25; ¾ oz., \$2.00.

TRIMARDEAU, or GIANT BEDDING. A beautiful and dependable large-flowered strain; fine assortment of colors. Pkt., 15c; ¼ oz., 40c; ½ oz., 70c.

GOOD BEDDING MIXTURE. Where color effect is more important than size of blooms, this mixture will prove satisfactory. A fine mixture of delightful colors. Bloom profusely. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

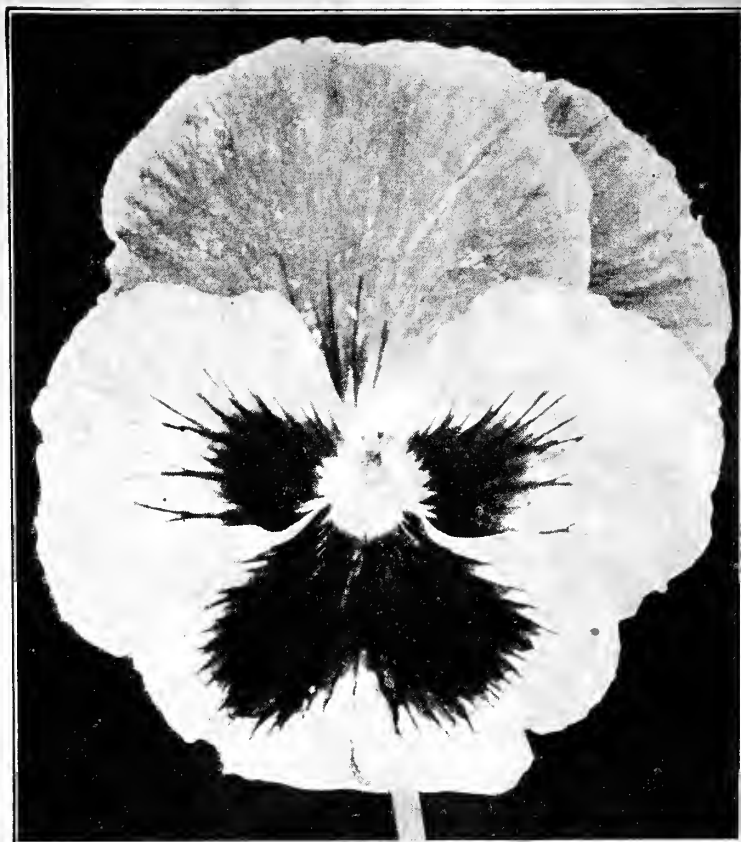

RUFFLED or FRILLED MASTERPIECE.

Large-sized flowers of most striking character, each petal being conspicuously curled or waved, giving them the effect of a double flower. The colors are mainly rich dark shades, bordered, blotched, or marked in ray-like veinings with contrasting colors. Bloom freely and continuously as long as the weather remains cool. Pkt., 15; ¼ oz., 75c.

MAMMOTH ORCHID-FLOWERED. This distinct and beautiful strain of Pansies will appeal to those who prefer delicate tints and soft shades and colors. The unique colorings include shades of chamois, terra cotta, pink, lilac, rose and orange. The flowers are of good size and they bloom freely from early spring until late in the fall. The name "Orchid-Flowered" has been given them because of their delicate shades and finely ruffled edges. Pkt., 35c.

FRAGRANT PANSY

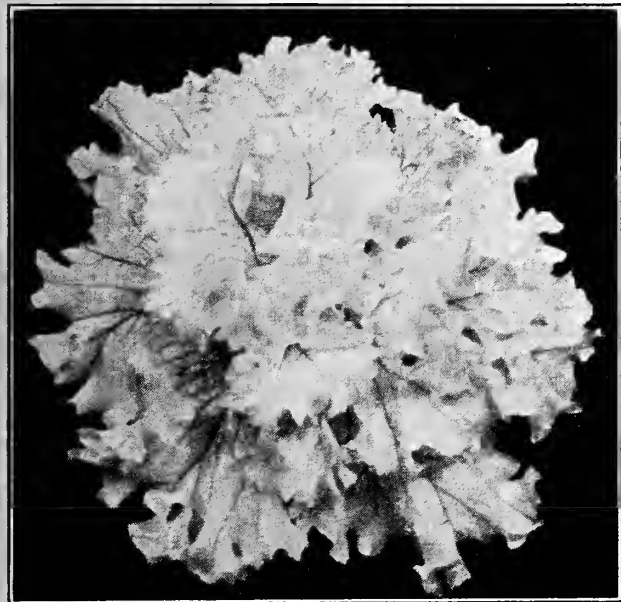

BURGESS' FRAGRANT PANSY has a most delightful fragrance which in no way compares to the faint smell usually found in Pansies. A dozen or two flowers in a vase in a reasonable size room will fill the entire air with a sweet yet delicate perfume. Our fragrant Pansies were, a few years ago, accidentally found growing in a field of Roggli Giants. They were of good size and we now have them in a fine assortment of shades, ranging from the most delicate to the brightest, richest, and most gorgeous colors. This is a wonderful Pansy for bouquets, and we believe it to be one of the most noteworthy novelties of recent years. Pkt., 25c; 1/16 oz., \$1.00.

Engelmann's Giant Pansy Grown on Our Own Seed Farms (actual size)

"All-Double" Giant Fringed Petunias Produces Practically 100% Double Flowers

The Finest Strain of Petunia Ever Produced.
Mammoth Double Blossoms. Exquisitely Fringed

"All-Double" Giant Fringed Petunia

MINIATURE PETUNIAS

Neat, compact, ball-shaped plants, 6 to 8 inches high and 8 inches in diameter, literally smothered with flowers. One plant will often carry as many as 25 or 30 blossoms at one time, completely hiding all the stems. Indispensable for borders, window boxes, pots, rock gardens and for bedding.

Blue Gem Gorgeous violet-blue flowers in great profusion on perfect ball-shaped plants. Pkt., 15c; ¼ oz., 45c; ½ oz., 75c.

Cream Star Cream colored star-shaped flowers. 1940 All-America Winner. Pkt., 15c; ¼ oz., 50c; ½ oz., 90c.

First Lady 1941 All-America Winner. Clearest pink of all existing varieties of Petunia. Pkt., 25c.

Glow The brightest red dwarf Petunia. 1940 All-America Winner. Pkt., 25c; ½ oz., 40c; ¾ oz., 75c.

Little Blue Star White star on rich blue ground. A magnificent variety. Pkt., 15c; ¼ oz., 50c; ½ oz., 90c.

ROSE GEM. Rich, deep rose colored flowers, 2 inches in diameter. Pkt., 15c; 1/16 oz., 40c; ¼ oz., 70c.

VELVET GEM. Velvety rose-purple; throat deep royal blue. Simply magnificent. Pkt., 15c; 1/16 oz., 50c; ¼ oz., 90c.

MINIATURE HYBRIDS. A select mixture of White, Blue, Rose and Pink shades. Pkt., 15c; 1/16 oz., 40c; ¼ oz., 70c.

Tall Type "All-Double" (Triumphant). 18 inches. Seed of this variety will grow 100% double flowering plants and produce flowers of immense size. These flowers show a wonderful assortment of beautiful colors, such as Carmine, Brilliant Rose, Velvety Purple, Violet, White, etc. These flowers, which are exquisitely fringed and duplexed, very often measure 5 inches across. 200 seeds, 50c; 600 seeds, \$1.00.

Dwarf Type "All-Double" (Victorious). Identical with the Tall Type "Triumphant" except that it is of dwarf, compact form, about 10 inches in height. Extremely floriferous, have an appearance similar to the double flowered Azalea. Fine for pots and for the border. 200 seeds, 50c; 600 seeds, \$1.00.

BEDDING PETUNIAS
Flaming Velvet Velvety, deep mahogany-red with a luster of scarlet. Magnificent, large, single blossoms in great profusion. Plants semi-compact; 15 inches. Pkt., 15c; ¼ oz., 40c; ½ oz., 70c.

General Dodds Vivid deep crimson of velvety texture. Pkt., 10c; ¼ oz., 30c.

Hollywood Star Flowers 2 inches across and deeply cut to form a most attractive star. A charming shade of rich rose set off by an amber colored throat. Pkt., 15c; ¼ oz., 40c; ½ oz., 70c.

Good Mixed A splendid mixture of single bedding varieties. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

BALCONY PETUNIAS
A most valuable type of Petunias for porch boxes, hanging baskets, beds, terraces, or among rockwork. Individual blossoms measure 3 inches in diameter and they are borne so profusely as to cover the plants throughout the season. Our seed mixture contains the most popular colors, such as rich velvety purple, brilliant rose-pink, pure white, etc. Pkt., 10c; ¼ oz., 40c.

Yellow Petunia "Dainty Lady"

YELLOW "DAINTY LADY"

A distinct new color in Petunias. Delicate golden-yellow single flowers of medium size, beautifully fringed, and produced in generous quantities on neat, compact, semi-dwarf plants. Pkt., 25c.

Giant Single Flowered Petunias

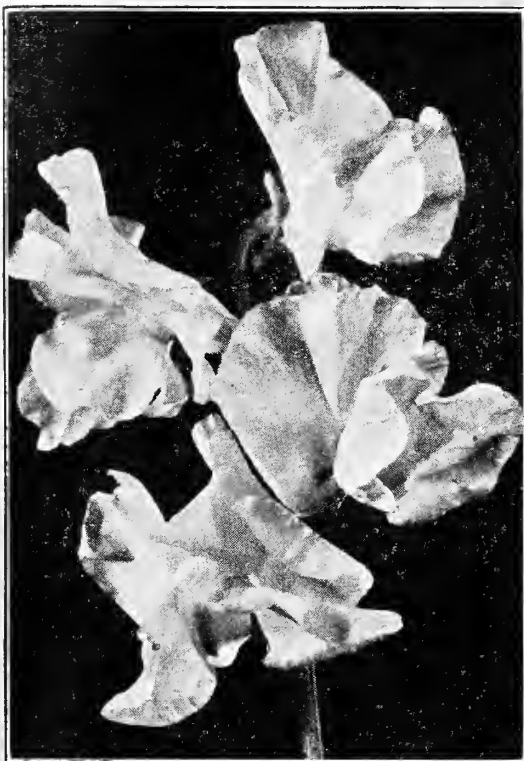

DWARF GIANTS OF CALIFORNIA. Well blended mixture of brightest colors. Mammoth size flowers. Pkt., 25c; ½ oz., \$1.50.

GIANT FLOWERED HYBRIDS. A wonderful assortment of colors; mammoth in size; single. Pkt., 15c; 1/32 oz., 75c.

GIANT FRINGED. Flowers of extraordinary size; deeply fluted, ruffled and fringed; varied and brilliant colors. Pkt., 20c; 1/32 oz., \$1.00.

TRIUMPH OF THE GIANTS. The largest and finest single Petunia. Flowers often measure 7 inches across. Gorgeous colors and markings. Pkt., 25c; 1/32 oz., \$1.50.

OUR
PETUNIA
SEED IS
TREATED
AGAINST
DISEASE

Giant Ruffled Mixed

A most gorgeous mixture of Giant Ruffled varieties. Pkt., 15c; 2 pkts., 25c; oz., 30c; ¼ lb., 90c; lb., \$2.75, postpaid.

Early Flowering Spencer Sweet Peas

Our Early Flowering Spencer Sweet Peas come into bloom from 2 to 4 weeks earlier than the Giant Spencers. Valuable for greenhouse culture, for outdoor planting in sections of the South where later varieties cannot be successfully grown, and for early blooms in cool climates. Choice mixture of all shades and colors. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00.

2 New Sweet Peas Come into bloom between the early and the late flowering types. Exceptionally choice varieties with unusually long stems. **SPRING-FLOWERING BLUE**, Pkt., 15c; **SPRING-FLOWERING ROSE-PINK**, Pkt., 15c; 2 pkts., one of each, 25c.

INOCULATE Sweet Pea Seed for best results. Enough Inoculation for 6 lbs. of seed for only 10c.

RHODANTHE **BRILLIANT STRAWFLOWER**. Lovely, silky, everlasting flower. Mixture of white, pink and brilliant shades of red. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Ricinus (Castor Oil Plant) Giant Zanzibar
Ornamental Foliage Plant. Drives Away Moles and Kills Grasshoppers and Japanese Beetles.

From seed of this variety, sown in the open ground in May, the plants are in full foliage early in July. They attain a height of 12 to 14 feet and form a perfect pyramid of foliage and brilliant colored fruit, presenting a beautiful tropical appearance. Enormous leaves, 2 to 4 feet across, and highly colored light and dark green, coppery-bronze and dark green with reddish ribs. The plants are a repellent to Moles and the foliage death to Japanese Beetles and Grasshoppers. Pkt., 10c; oz., 25c; ¼ lb., 70c, postpaid.

PORTULACA OR ROSE MOSS

Double Rose Flowered. Unsurpassed for brilliancy. Seed saved from perfect double flowers, so will produce a large percentage of double blossoms. A fine mixture of Scarlet, Orange-Scarlet, Rose, Golden Yellow, White, etc. Pkt., 10c; ½ oz., 40c.

Single Giant Flowered. One of the showiest low annuals, of easy culture, thriving best in light loam or sandy soil and in a sunny situation. Fine for massing in beds, edgings, rock-work, and to sow broadcast over sunny banks, etc. 6 inches. Flowers in mixture of the richest colors. Pkt., 8c; ¼ oz., 25c; ½ oz., 40c.

25 VARIETIES for the Rock Garden

This Rock Garden seed package is made up of a mixture of 25 varieties of annuals that are especially suited to the rockery. If you are starting a rock garden you will want to beautify it with a few annuals until such time as the perennials become established. You will also find this seed mixture valuable for filling in bare spots in old rock gardens and other flower beds. Pkt., 10c; 3 pkts., 25c.

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

GIANT RUFFLED SWEET PEAS

The highest achievement yet attained in Sweet Peas. Beautifully ruffled, duplexed and frilled, giving the large wavy flowers a double appearance. Long stems, each carrying four fully developed blooms. Twelve sprays make a more massive bunch than eighteen sprays of an ordinary Spencer Sweet Pea. The vines make a sturdy growth and bear a profusion of blooms.

We can supply Giant Ruffled Sweet Peas in seven separate colors, as follows:

Fluffy Ruffles A lovely rich rose-pink, a gleam of soft salmon, and a bright creamy undertone blend into a harmonious cream-pink shade that must be seen to be appreciated. A flower of exquisite texture and fragrance.

Lady Ruffles Soft pink self on white ground, the warm glow of color running well down to the base of the standard and wings. Received the high honor of winning the Gold Medal of the Scottish National Sweet Pea Society.

Ruffled Carmine Lovely carmine-rose, remarkably bright, yet soft and pleasing. The large blooms are perfectly frilled and borne on long-stemmed sprays.

PRICES Your choice of the above Giant Ruffled Varieties at 10c per packet; 3 pkts., 25c; 7 pkts., 50c; oz., 30c; ¼ lb., 90c; lb., \$2.75.

Ruffled Orchid Warm lavender-rose with a pastel-mauve sheen that produces a delicate orchid shade. Large, fully ruffled blooms.

Ruffled Primrose The best primrose or cream; free from pink hue or blush. The flowers are of great size and exquisitely ruffled.

Ruffled Rose Pure shade of rose that glows softly and gives the large blossoms an individual beauty. Perfectly ruffled.

Ruffled White Pure white flowers of gigantic size, often borne five to the spray. They are beautifully ruffled with duplex and triplex standards. This is undoubtedly the outstanding white Sweet Pea.

Burgess' GIANT SPENCER Sweet Peas

The old-fashioned Grandiflora varieties are now superseded by the Spencer and the Giant Ruffled types. The Spencers have large, round open flowers of extraordinary size, usually measuring two inches across, with wavy standards and wide-spreading wings, a very large percentage bearing four of these immense blossoms to the stem, which is long and strong, making them of exceptional value for cutting. Our list has been carefully revised and contains nothing but sorts of highest merit.

AMBITION. Rosy lavender.
AMETHYST. Bright clear blue.
BONNIE BRIAR. Deep rose-pink on white ground.
BRIDAL VEIL. Pure white.
CAPRI. Light silvery blue.
DOREEN. Rich carmine.
ECSTASY. Dainty blush pink.
FLAGSHIP. Navy blue.
GRAND SLAM. Bright scarlet-cerise, shaded orange.
MARY PICKFORD. Dainty cream-pink, suffused salmon.

PRICES: Your choice of any of these Prize Spencer varieties at 8c per packet; 3 pkts., 20c; 7 pkts., 40c; oz., 25c; ¼ lb., 70c; lb., \$2.10.

BURGESS' SELECTED MIXTURE OF SPENCERS is the finest mixture of Spencers we have ever offered. It contains the cream of the named Spencer varieties, including many recent novelties and superb new seedlings not yet introduced. It is the very best blend possible to produce and will surely delight all who want a grand variety of shades and colors. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$1.85.

MASTERCREAM. Beautiful cream color.
POWERSCOURT. Pure lavender.
RED BOY. Gorgeous deep crimson.
ROYAL PURPLE. Rich purple.
SMILES. Shrimp pink, shaded salmon.
SUNKIST. Rich cream; rose-pink edge.
TANGERINE IMPROVED. Fiery orange.
WARRIOR. Bronzy maroon.
WELCOME. Brightest dazzling scarlet.
YOUTH. White, edged rose-pink.

Grandiflora Mixture

For those who prefer the old-fashioned, non-waved Grandiflora Sweet Peas, we offer this fine mixture of many colors and shades. Pkt., 5c; oz., 14c; ¼ lb., 30c; lb., 90c.

CUPID Sweet Peas

The Cupid or Dwarf Sweet Peas are excellent for bedding and borders; form a line of emerald green foliage a little over a foot wide and 6 inches high, and from June until late summer are literally a sheet of bloom. All the best colors and shades mixed. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50.

Cupid or Dwarf Sweet Peas

SENSITIVE ROSE

(Mimosa Pudica). An interesting plant which will fold its foliage when touched. Beautiful, fluffy, pinkish-white flowers. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Phlox Drummondii

ANNUAL PHLOX (Phlox Drummondii)

Phlox Drummondii is one of the most brilliant and one of the easiest and most satisfactory plants which can readily be grown from seed. It will grow and drive in any kind of soil if given a sunny position. In a few weeks after the seed is sown the plants are a sheet of bloom, remaining so until frost. They show to best advantage when grown in masses, beds or borders; excellent for cut flowers.

The following colors are of the finest type, having the largest heads of blooms as well as the largest individual flowers, of strong, sturdy growth, attaining a height of about 15 inches.

Brilliant Scarlet. Pkt., 10c; ¼ oz., 30c. **Yellow.** Pkt., 10c; ¼ oz., 30c.
Deep Rose. Pkt., 10c; ¼ oz., 30c. **Violet-Blue.** Pkt., 10c; ¼ oz., 30c.
Soft Shell-Pink. Pkt., 10c; ¼ oz., 30c. **White.** Pkt., 10c; ¼ oz., 30c.

LARGE-FLOWERED MIXED. All of the above colors as well as a great many others. Pkt., 10c; ½ oz., 25c; ¼ lb., 40c; ½ lb., 70c.

STARRED AND FRINGED PHLOX. The flowers are either starred or fantastically fringed. A novel variety; many bright shades; mixed colors. Pkt., 10c; ½ oz., 30c; ¼ lb., 50c.

Salvia

Salvia (Scarlet Sage)

The Scarlet Sage has long been a favorite bedding plant. We offer disease-treated seed of the two finest varieties in cultivation.

FIRE BALL (America). The earliest, freest and most continuous bloomer of all Scarlet Sages, and the most uniform in habit of growth. The bushy plants do not grow over 12 inches high, with the spikes of brilliant scarlet flowers thrown well above the foliage, making a total height of about 1½ feet. The importance of this uniformity will be appreciated by those who use Scarlet Sage for beds or borders. Pkt., 25c; ½ oz., 75c; ¼ oz., \$1.25.

SPLENDENS. The largest flowering Scarlet Sage, well-grown plants measuring 3 to 4 feet tall; a scorching scarlet of unsurpassed brilliancy. Pkt., 15c; ½ oz., 50c; ¼ oz., 85c.

STOCKS

The stock is one of the most popular annuals, either for bedding or pot culture. For brilliancy and diversity of color, fragrance, profusion and duration of bloom it is unsurpassed.

MAMMOTH EARLY BRANCHING NICE. This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use. If sown early, they come into flower with the extra early small varieties; the flowers are large and double, and the branching habit renders them invaluable for florists. Height, 18 inches. Wonderful assortment of colors. Pkt., 10c; ½ oz., 40c; ¼ oz., 70c.

DOUBLE GIANT EXCELSIOR. This new non-lateral Stock grows to a height of 3 to 4 feet. Each plant produces one large flowering spike. The individual florets measure 2 to 2½ inches in diameter, and are very double. This is the latest improved strain of Stocks, and our fine mixture of seed contains all the light and dark shades and colors. Pkt., 15c; ½ oz., 60c; ¼ oz., \$1.00.

Evening Scented Stock (Perfume Plant)

Matthiola Bicornis. No annual in cultivation, even including the Mignonette, surpasses this in the delicate perfume of its flowers. The pink and lilac blossoms are partially closed during the day, but expand and produce their fragrance in the evening. Pkt., 10c; ½ oz., 30c.

Snow on the Mountain

(*Euphorbia Variegata*). One of the finest foliage plants for outdoor planting. Foliage attractively veined and margined with white. 2 feet. Excellent for beds and borders. Pkt., 10c; ½ oz., 25c; ¼ oz., 40c.

National Eezy Wear Garden Gloves

All-Leather
SOFT AS KID

WASHABLE
Durable

Being all-leather, Eezy Wear gloves give complete protection against dirt, scratches, bruises, stains, infection. Yet their amazing softness and pliability, the result of a special processing, make them extra comfortable. Cling to the hands and practically give you BAREHAND FREEDOM. Economical, too—outwear 6 pairs of ordinary fabric gloves, are washable and can be used for Garage, Yard, Housework, Furnace, etc.

Sizes for WOMEN: Small (size 5½ to 6½); medium (size 6½ to 7½); large (size 7½ to 8½).

Sizes for MEN: Small (size 7½ to 8½); medium (size 9 to 10); large (size 10 to 11).

Price: 75c a pair; 2 pairs for \$1.40, postpaid.

PEAT MOSS 80c Per Bag

Granulated Peat Moss should be used liberally on pot plants and in the garden. Indispensable for mulching perennial beds, lawn, roses, etc., and mixing with sandy or clayey soils.

By freight, not prepaid: 2-bushel bag (about 80 lbs.), 80c; 5 bags or more, 75c per bag; 10 bags or more, 70c per bag.

SUNFLOWERS

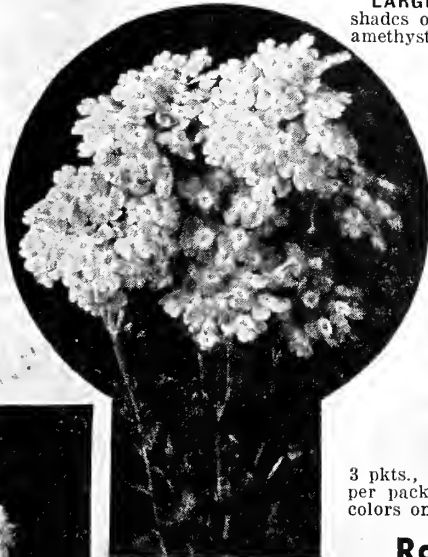

DOUBLE CHRYSANTHEMUM-FLOWERED. YELLOW. Rich golden-yellow; double as a Chrysanthemum and as large as a man's hat. 7 feet high. Pkt., 10c; oz., 35c.

SINGLE RED SUNFLOWER. Flowers of different shades of red and red margined with yellow; ranging from 2 to 5 inches in diameter. Plants of branching habit, 3 to 4 feet high, and bloom freely. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

MAMMOTH RUSSIAN. The largest variety of Sunflower, single heads measuring 12 to 22 inches in diameter, and containing an immense quantity of seed, which is highly valued as a food for poultry, being one of the best egg producing foods known. Pkt., 10c; ¼ lb., 15c; 1 lb., 30c; 5 lbs., \$1.10.

THUNBERGIA

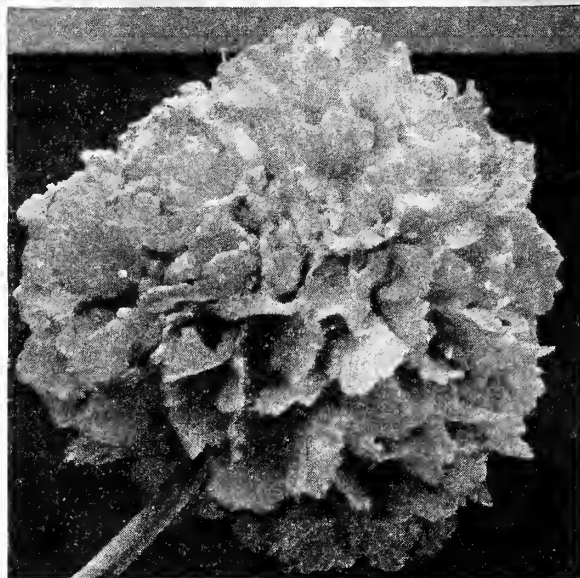

An elegant, graceful annual climber preferring a warm, sunny situation; excellent for hanging baskets and ground covers. Bright yellow, buff, white and orange flowers, with dark eyes. Bloom profusely from June until October. 4 ft. Pkt., 10c; ¼ oz., 25c.

Royal Bouquet
Bush Verbena

Giant Excelsior Stock

Scabiosa Blue Moon

SCABIOSA

BLUE MOON. A new type in Scabiosa with fully double flowers composed of broad, heavy, wavy petals, entirely eliminating the pincushion center. Color, rich deep lavender-blue. 2¾ inches across; 2 to 2¾ inches deep; stem length fully 27 inches. Ideal for cutting. Plants 42 to 48 inches high. Pkt., 20c.

FIRE KING. Dazzling fiery scarlet; the most brilliant of all Scabiosas. Gorgeous for the flower garden and for cutting. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

GIANT SHASTA. Pure white; flowers 3½ inches across; extremely long stems. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

GIANT PEACH BLOSSOM. Beautiful shade of peach-blossom pink; large size; long stems. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c.

HEAVENLY BLUE. 2 ft. Flowers are round, soft azure-blue and borne most profusely on 15 to 18 inch stems. Fine for mixed borders; need no staking. Highly prized for cutting. Pkt., 15c.

LARGE FLOWERED TALL DOUBLE. 2½ feet. Exquisite shades of pink, rose, cherry red, fiery scarlet, white, yellow, lavender, light blue, dark blue and purple, the soft shades predominating. Bloom from July until fall. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

TOM THUMB HYBRIDS. Free-blooming miniature-type. 6 to 8 inches tall. Valuable in the garden and for cut flowers. Fine mixture of colors. Pkt., 10c; ¼ oz., 35c.

MAMMOTH VERBENAS

Our strain of Mammoth Verbenas has been carefully selected and improved until we can recommend it as the best procurable. The trusses and individual flowers are of large size, of brilliant colors, free-blooming and of vigorous habit. The Verbena is one of the most popular garden annuals and lends itself willingly to many uses. For beds, borders and window boxes it is particularly fine, and is frequently used for an undergrowth to tall plants like lilies, etc. The clusters of showy flowers are borne in constant succession from June until frost. We offer the following colors: Blue, Scarlet, Pink, White, Lavender Glory (lavender with cream eye). Separate colors, 10c per packet; 3 pkts., 25c; 5 pkts., 40c; ½ oz., 40c. Mixture of colors, 10c per packet; ½ oz., 30c; ¼ oz., 50c. Plants—in mixture of colors only—25c each; 3 for 65c; 12 for \$2.10, postpaid.

Royal Bouquet Bush Verbena

An upright, compact form, growing 15 to 18 inches in height and not more than 10 inches across, with no lateral branches. Very large, brilliantly colored flowers in great profusion. The blossoms are borne on long stems and group themselves together at the summit of the plant. Excellent for beds and borders and the only variety recommended for pot culture. The color range is from purest white to pink, red, blue and purple, many flowers being distinctly auricula-eyed. Choice mixture of colors. Pkt., 15c; ½ oz., 50c.

SCHIZANTHUS (Butterfly or Fringe Flower)

One of the daintiest flowers imaginable; of easy culture outdoors and especially fine for the house in late winter and early spring. Seed sown in the spring will produce plants that will come into bloom in a few weeks, and with such loads of charming blooms as to completely obscure the delicate fern-like foliage. The butterfly-like flowers range in color from pure white through shades of cream and pink to crimson and mauve, many beautifully marked. Pkt., 10c; ½ oz., 25c.

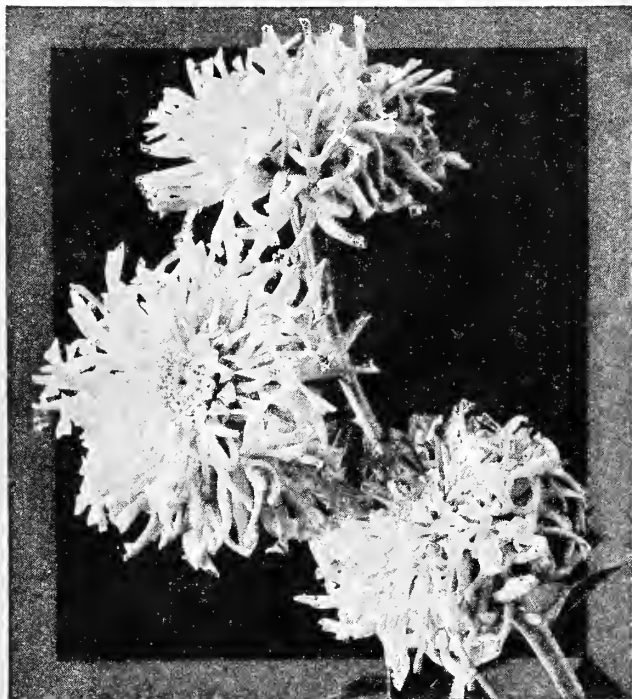

STATICE (Sea Pink)

One of the most beautiful flowers for the border. Retains its true color when dried, making it one of the most valuable Everlastings. Indispensable in making winter bouquets. Mixture of blue and rose shades. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

WILD CUCUMBER FOR QUICK SHADE

The most rapid growing annual vine in existence; grows 20 feet in six weeks. Pretty foliage, fragrant white flowers and ornamental prickly seed pods. Pkt., 10c; oz., 25c.

BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN

Fantasy Chrysanthemum-Flowered Zinnia

Fantasy Zinnia

Chrysanthemum
Flowered

Our improved strain of Fantasy is the most fascinating Zinnia ever introduced. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The rounded medium sized flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance, large enough to satisfy the desire for mass of color, yet small enough to lend themselves gracefully to flower arrangement. The color range includes the brightest shades of reds, yellow and orange, as well as the popular pastel pinks and cream. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

Giant Crested Howard Zinnia

A marvelous strain of Zinnias, the result of crosses between the Scabiosa-flowered class and those of the Giant Dahlia-Flowered. The blossoms average 4 to 5 inches in diameter, with a full rounded cushiony center surrounded by broad guard petals.

The colors included in the strain are charmingly bright and fresh, and contain almost all known colors and shades of colors to be found in this most popular of annual plants. Magnificent shades of orange, orange-scarlet, yellow, rose, maize and crimson predominate.

As a cut flower, or as an annual for garden ornamentation, they are without peer. For cut flower purposes, the effect of a bouquet of this gorgeous new strain is breathtaking and catches the eye at once.

Pkt., 25c; 3 pkts., 50c.

Dahlia-Flowered Giant Zinnia

This type bears flowers of mammoth size and in form like a perfect Decorative Dahlia. The plant is a strong grower and flower stems are long and stiff. This remarkable variety includes a complete range of delicate, bright and rich colors from white, yellow, lavender and rose to orange, scarlet and crimson. A wonderful cut flower.

Canary Bird. Brightest canary yellow.
Crimson Monarch. Rich crimson-scarlet.

Dream. Deep lavender.
Exquisite. Rose-pink; deeper rose center.

Oriole. Orange, shaded gold.
Polar Bear. The best white Zinnia.
Scarlet Flame. Rich orange-scarlet.
Mixed. A wonderful range of the above and other beautiful colors.

Your choice of the above Giant Dahlia-Flowered Zinnias at 10c per packet; 3 pkts., 20c; 7 pkts., 35c; ¼ oz., 30c; ½ oz., 50c.

Super-Giant Mixture

Burgess' Super-Giant Mixture is a select, well balanced blend of all the best colors of Giants of California and Giant Dahlia-Flowered Zinnias. Unsurpassed for colorful display or for cut flowers. Pkt., 15c; ¼ oz., 40c.

Creeping Zinnia

Sanvitalia Procumbens. Not a true Zinnia, but the small double flowers of deep golden yellow resemble tiny Zinnias on creeping or spreading plants 6 inches tall. Blooms all summer and fall. Fine for edgings and rockeries. Pkt., 10c.

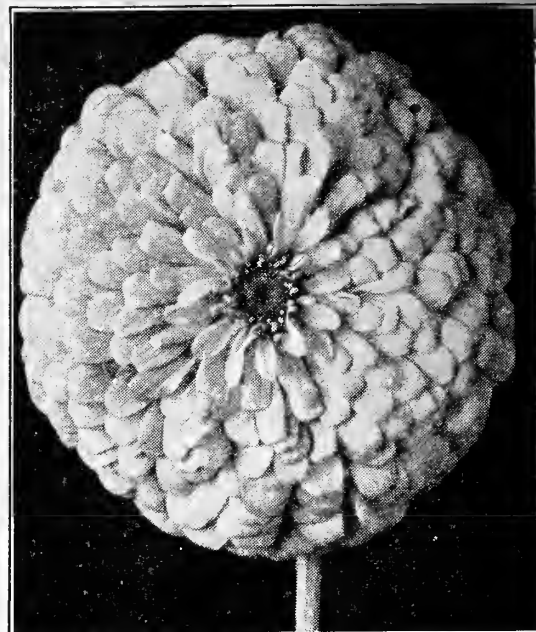

TOM THUMB Miniature Zinnias

Plants 4 to 6 inches, compact, covered with well formed perfectly double flowers. Colors range through the red, orange, yellow, pink, rose and other pastel shades. A most effective border plant, and excellent for bouquets. Pkt., 10c; ¼ oz., 30c; ½ oz., 50c; ¾ oz., 85c.

3 Choice Packets

Giant Crested Howard,
Giants of California and
Dahlia-Flowered Giant —
all 3 pkts., only 39c.

39c

Giants of California Zinnia

Giants of California

The largest of all Zinnias. Magnificent double flowers, 5 to 6 inches across. The many overlapping petals are more loosely placed than in the other large-flowered varieties. The well-branched, sturdy plants grow 3 feet tall, with long, strong stems. Our seed of this variety is put up in a mixture of colors that will make a most colorful display. Pkt., 10c; ¼ oz., 40c; ½ oz., 70c.

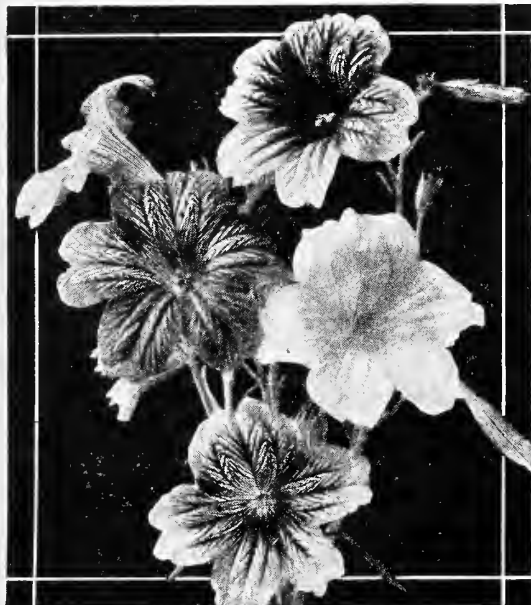

Scabiosa-Flowered Zinnia

A most charming cut-flower variety. Flowers 2½ to 3 inches across, composed of a row of broad outer petals, surrounding a deep, full, cushion-like crown of quill-like petals similar in form to the annual Scabiosa. Mixture of many exquisite shades and colors. Pkt., 10c; ¼ oz., 35c; ½ oz., 60c.

Zinnia Linearis

This dwarf zinnia is one of the most unusual of recent introductions. Starts blooming in six to eight weeks after seed is sown and continues until late fall frosts. Flowers are produced in great profusion, literally hundreds being open at a time. Flowers 1½ inches in diameter, golden orange with delicate lemon-yellow stripe through each petal. Plants make little, compact mounds 8 to 10 inches tall and from 1 to 2 feet through. Extremely valuable for edging or anywhere a dwarf growing plant with brilliant coloring is desired. Pkt., 10c; ½ oz., 35c.

SALPIGLOSSIS (Velvet Flower)

Salpiglossis or Velvet Flower

Gorgeous, funnel-shaped flowers of rich velvety texture. An exceptionally beautiful range of attractive colors such as crimson, primrose, purple and gold, rose and gold, scarlet and gold and white and gold, and all charmingly penciled, netted and veined. Blooms are 3 inches across, and produced freely on plants 24 to 30 inches tall. Continually in bloom from midsummer until frost. Desirable for bedding and prized for cutting. Burgess' Giant Strain is one of the finest of all annuals and is of easy culture. Pkt., 10c; ¼ oz., 25c; ½ oz., 40c.

Ornamental Vines

BURGESS' ORNAMENTAL VINE MIXTURE. A fine assortment of many varieties of annual climbers suitable for covering pillars, posts, porches, old trees, etc., and for trellis work, and sowing along fences, embankments and terraces. Transforms unsightly places into beautiful spots of pride and joy. Pkt., 10c; ½ oz., 30c; oz., 50c.

WALLFLOWER

Double Early Wonder

Magnificent flowers which are noted for their luxuriant colors—rich reds and yellows, some flaked with brown and mahogany. If seed is sown in March or April they will produce a wealth of graceful spikes set with large double blooms throughout the late summer and early fall. Splendid for outdoors or as pot plants. Sow from June to September for winter blooming. Delightfully fragrant, and last long as cut flowers. Pkt., 10c; ¼ oz., 30c.

Tithonia Giant Fireball

Dazzling as a ball of fire poised high above other flowers, Fireball is, undoubtedly, the last word in brilliance of color in a fall blooming plant. Many who have known Tithonia Speciosa have considered it the brightest possible flower for fall use. With the introduction, however, of Fireball, this older variety is entirely overshadowed. Fireball is a very brilliant shade of scarlet orange, the petals in dazzling contrast to the clear yellow center. Flowers 4½ to 5 inches in diameter, on fine long stems. Plants often reach a height of 8 or 9 feet and neat in appearance. Extremely showy in the garden and an excellent cut flower, keeping 5 or 6 days when cut. Pkt., 15c; ¼ oz., 40c.

Tithonia
Giant Fireball

Wild Flower Garden Mixture

Hundreds of Varieties of Pretty Flowers especially prepared from a select list of hundreds of sorts—the colors and varieties being carefully proportioned to produce a constant and varied bloom the whole season. In no other manner can so many different

varieties be obtained at such a small cost. It is suitable for any bare or unsightly spot in the yard, to sow along fences, embankments, etc. Pkt., 10c; one ounce (25,000 seeds) for 20c; ¼ lb., 60c; lb., \$2.00, postpaid.

BURGESS' HARDY PERENNIALS

SEEDS AND PLANTS

**FREE FROM
DISEASE
and
True-to-Name**

Perennials are plants which flower several years in succession and are used for permanent plantings. We list with perennials the biennials which are not usually treated as annuals, and those that are in perfection the second year. All varieties listed on this and pages 40 to 47 are hardy perennials unless otherwise stated.

We take pride in offering our stock of perennial

plants to the public because of their superior quality. Our plants are not light grade seedlings like those offered by so many growers at bargain prices. Neither are they overcrowded clumps which have outlived their usefulness and are difficult to transplant. They are of the proper age to insure their being successfully transplanted. All our plants are free from disease and insects and carefully selected to be true

to name. For best results plant Burgess' high grade perennials.

Perennials are shipped postpaid at the prices given, but if you order 12 or more plants by express we can frequently include larger stock at no increase in price, and will include extra plants of our own selection to help pay the transportation costs.

Anemone Hupehensis

Fall Flowering ANEMONES

The fall flowering Anemones produce a wealth of bloom in September and October when most perennials are out of bloom. Excellent for cutting.

HUPEHENSIS. 18 inches. Soft lilac-pink.

PRINCE HENRY. 2 feet. Double red.

SEPTEMBER CHARM. 3 ft. Silvery rose.

Prices of Anemone plants: Your choice of above varieties, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

PINK ARABIS or Pink Rock Cress

Showy rock garden and border plant of compact growth. 8 to 10 inches. Masses of pretty pink flowers each spring. Pkt., 15c.

Aquilegia or Columbine

Much hybridizing has been done to obtain the varieties that are now offered. All varieties will endure some shade and will thrive in any well-drained soil. For best effect plant in groups of 3 or more.

LONG SPURRED HYBRIDS. It would be impossible to describe the wide variation of color in our Hybrid Columbines. They range from bright yellow to vivid scarlet and from the daintiest blues to deep purple, with all the intermediate shades. Pkt., 15c; 1/16 oz., 60c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

CRIMSON STAR. No Aquilegia has enjoyed more popularity than this unusual combination of colors. The outer petals are vivid crimson while the center or corolla is pure white. Very striking and free flowering. Pkt., 20c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

CLEMATIFLORA (Clematis-Flowered Columbine). Just imagine, Clematis flowers on a Columbine plant. If you can you have a picture of Clematiflora. It is the newest and most unusual of all recent introductions. The flowers are produced in great abundance in pastel shades. They are wide open, without spurs or corolla. Clematiflora is different from anything you have ever seen. Pkt., 25c. Plants, 40c each; 3 for 90c; 12 for \$3.00, postpaid.

Astilbe Peach Blossom

First Prize

"Proud to say I won First Prize at the Illinois State Fair on Musk melon grown from your seed." — Wesley Young, Edwardsville, Ill.

Clematiflora or Clematis-Flowered Columbine

ASTILBE (Herbaceous Spirea)

Astilbes are of easiest culture, doing particularly well in a semi-shady situation. They also do well as pot plants. If grown out of doors, the many branched, feathery heads of flowers are produced in abundance during June and July. When grown indoors, they can be forced for winter and early spring blooming. Fine for cutting.

AMERICA. 18 inches. Large lilac-pink blossoms produced profusely. Earlier than most varieties.

BETSY CUPERUS. 2 feet. A most beautiful addition to this family of plants. The dainty, graceful sprays are a delicate pink and are especially suited as cut-flowers.

GLADSTONE. 18 inches. Immense pure white flower-trusses on elegant long stems.

MARGUERITE VAN RECHTEREN. One of the best new varieties for garden culture. The plants grow 4 to 5 feet high, producing flower spikes over 3 feet in length. The finely fringed flowers are bright red tinged with dark blue.

Prices of Astilbe Plants: 40c each; 3 for 90c; 12 for \$3.00, postpaid.

New Hybrid Hardy Asters

Perennial Asters are among the showiest of our autumn-flowering plants, always sure to bloom during September and October, when most hardy flowers are past. They grow freely in any soil. Valuable for mass garden effect and for decorative purposes. They form bushy plants with many branches filled with golden-centered, daisy-like flowers. The old common varieties have been discarded for these newer worthwhile hybrids.

TALL VARIETIES (3 to 4 feet)

BLUE GEM. Bright lavender-blue. Almost a true blue.

FREEDOM. Very large, rich violet-blue flowers.

MAID OF ATHENS. Large, clear rose-pink.

MULBERRY. Bright mulberry red. The finest red variety.

SUNSET. Sunset pink. Very free flowering. The best for mass planting.

WHITE LADY. The clearest white variety we have found.

DWARF VARIETIES (10 to 15 inches)

CONSTANCE. Clear rosy-pink.

LILAC TIME. Deep violet blue.

PRICES of Aster Plants—Your selection of above tall and dwarf varieties; 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Aster plants cannot be shipped into the State of Wyoming.

\$1 ASTER Collection

We have many varieties of hardy perennial Asters in our nursery in too small quantities to list separately so we are offering a collection of eight plants, each a different variety of our selection, for only \$1.00, postpaid.

PERENNIAL ASTER SEED

NEW HYBRIDS. A fine mixture of the most choice varieties and finest colors. Seed in mixture of colors only. Pkt., 25c.

New SPRING-FLOWERING Aster

Star of Wartburg. Unlike the other Asters on this page, Star of Wartburg blooms in early spring on one foot stems arising from a tuft of dark green foliage. The bright lavender-blue flowers are 2 to 3 inches in diameter with a golden yellow center. Fine for cutting. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

Bellis Burgess' Giant

BELLIS (Double English Daisy)

DOUBLE MIXED. A favorite which stands the winter if given the protection of a little litter. Height 6 inches. Fine mixture of red, pink and white. Pkt., 10c.

Burgess' Giant Select LARGEST AND BEST BELLIS DAISY

Largest of all Bellis. Flowers are very double, giant in size, and are borne on long upright stems. Delightful as a cut-flower. Choice mixture of red, rose and white. Pkt., 15c; 1/16 oz., 50c.

Allegheny Vine or Climbing Bleeding Heart

(Adlumia or Mountain Fringe). A graceful hardy biennial climber, but as it resows itself year after year, it might be considered perennial. The feathery foliage closely resembles that of the Maidenhair Fern. The flowers are tube-shaped; pink, somewhat like the Bleeding Heart, and completely cover the plant. Easily grown, and blooms first year from seed. Pkt., 15c.

Ghost Plant

**ARTEMISIA
SILVER KING
3 FOR 60c**

A showy plant with silvery-gray foliage. Used for both summer and winter bouquets. It would be difficult to imagine a flower arrangement without Silver King. This variety is used extensively by florists, both freshly cut and dried. Grows 3 feet high. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

**BURGESS SEED & PLANT CO.
GALESBURG, MICHIGAN**

Double Japanese Mountain Chrysanthemums

Japanese Mountain Chrysanthemum

AS A GARDEN PLANT—The Japanese Mountain Chrysanthemum is perfectly hardy outside where it produces a symmetrical bush two feet high. It has a wide range of colors, including bronze, pink, red, white, yellow, with many intermediate shades and has varied forms of double, semi-double, single, quilled and crested flowers. The keeping qualities of the flowers make them ideal for cutting and unlike most "mums" the leaves remain green until late in the season.

AS A HOUSE PLANT—The Mountain Chrysanthemum is unique in its response to artificial treatment. By proper pinching and staking, a potted plant can be grown in many unusual and fantastic forms. Pot plants continue in bloom long after outdoor plants have been cut down by frost.

SEEDS. Mountain Chrysanthemums will bloom the first year from seed planted early. We can furnish carefully collected seed as follows:

SELECT DOUBLE. Saved from only the finest double blooms, and will produce a larger percentage of double flowers than our regular mixture. Pkt., 25c; 5 pkts., \$1.00, postpaid.

ALL TYPES MIXED. Mixture of all types and colors. Pkt., 15c; 5 pkts., 60c, postpaid.

PLANTS. We have a fine stock of plants in a wide mixture of types and colors that we can offer at the same low prices as the other Chrysanthemums on this page. See prices below.

PRICES of Chrysanthemum Plants

Your choice of the Chrysanthemum plants listed on this page, at 30c each; 3 for 60c; 12 for \$2.00, postpaid.

We offer young plants, started in pots, ready to grow as soon as set out. They should not be planted until after danger of frost, and unless some date is specified in your order we will ship when we think best.

NOTICE—Chrysanthemums cannot be shipped into Wyoming.

Christmas Rose

Blooms Outdoors in the Snow

One of the most amazing plants of the floral kingdom. Just imagine picking flowers that bloom outdoors in mid-winter, regardless of snow, cold or ice. This is exactly what the Christmas Rose or Helleborus will do. Sometime during January and February you can expect to see these large white flowers, spotted with pink, purple or brown, pop up through the snow and remain for several weeks. Grows about a foot high, perfectly hardy, and will thrive even in quite dense shade. 75c each; 3 for \$2.00, postpaid.

Earliest Flowering Chrysanthemums

30c Each; 3 for 60c; 12 for \$2.00, postpaid

Chrysanthemums that do not bloom cannot be enjoyed. Now is the time to replace all of those old-time varieties that flower only once in 3 or 4 years with our carefully selected early types. These dependable Mums bloom year after year without fail, in our Michigan Nurseries, starting in August and early September. All double unless otherwise stated.

ALADDIN. 24 inches. Coppery bronze with orange shadings.

ALETTI. 24 inches. Light orchid, shaded deeper.

BARBARA CUMMINGS. 24 inches. Bright yellow shaded copper, changing to light bronze as the flower matures. Extra large.

CLARA CURTIS. 20 inches. Single salmon-pink daisy-like flowers about 3 inches in diameter.

CRIMSON SPLENDOR. 24 inches. Deep crimson with bright yellow center.

EARLY BRONZE. 15 inches. Golden bronze pompon; flowers freely produced.

EMMETT. 12 inches. Light bronze flowers. The low habit of this plant makes a fine addition to the border.

HAPPINESS. 30 inches. The light salmon pink, shaded with deeper tones makes a cheerful and happy combination that words cannot fully describe.

IRIDESCENT. 30 inches. Rose colored flowers with incurved petals.

LORELEI. 18 inches. Bright lemon yellow. Very early and a fine cut flower.

SEPTEMBER DREAM. 18 inches. A cushion type Mum with pure white extra large flowers.

TASIVA. 24 inches. Large free-flowering pure white of attractive compact growth.

ARCTIC and KOREAN Chrysanthemums The Hardest Race of Mums Known

The wild Arctic and Korean Chrysanthemums have been crossed with our popular garden "mums" to form a new race of plants that will stand our coldest winters unharmed. We offer the following choice varieties:

ASTRID. Large flowers like Shasta Daisies, except for color which is soft pink shaded apricot. The hardest "mum" known. Flowers not harmed by early frosts.

CERES. Combination of old gold and yellow. The mature flower has the appearance of being dusted with gold. Flowers 2 inches across.

HESTIA. One of the finest in this group, and the earliest to bloom. Semi-double flowers of delicate rose-pink with a white halo. Blooms 3 to 4 inches across.

KING MIDAS. 36 inches. Fully double yellow flowers with light bronze reflections. Flowers 4 inches across. One of the finest.

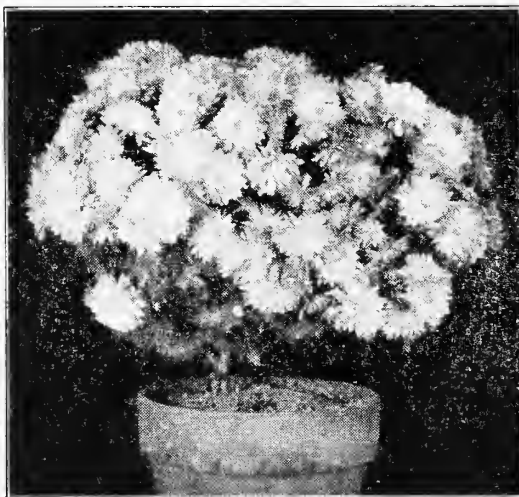

LOUISE SCHLING. 30 inches. A real bright salmon-red, changing to bronze and salmon as the flower matures.

SAPPHO. 24 inches. Bright canary yellow flowers of good size.

All Chrysanthemums on this page 30c each; 3 for 60c; 12 for \$2.00, postpaid

12 Chrysanthemums \$1

In growing Chrysanthemums, the best flowers are produced on year old plants. Cuttings are rooted during the winter and are known as rooted runners. Plant them outdoors after danger of freezing and watch them develop into strong blooming plants by fall. We will furnish a collection of 12 rooted runners, each a different variety of our selection, for only \$1.00, postpaid. Ask for Chrysanthemum Collection No. 40.

Pink Cushion Chrysanthemum—3 for 60c

CUSHION or Ameliamums

These most popular Mums form low mounds, comparable in shape to an inverted bushel basket. One fully developed plant will produce hundreds of flowers, so many open at one time that the foliage is almost entirely covered. Although this type of Chrysanthemum is sold under many names, the term "Cushion" seems to be the most accepted and it describes the plant perfectly. You are sure to enjoy these varieties from mid-August until late October.

PINK CUSHION. Two-tone pink flowers. The first to bloom.

CRIMSON CUSHION. Deep crimson.

BRONZE CUSHION. Bronze-red changing to yellow-bronze.

WHITE CUSHION. Pure white; extra large flowers.

GOLD CUSHION. Bright golden-yellow ball-shaped flowers.

CAMPANULAS

CANTERBURY BELLS (Medium). The old-fashioned biennial sort with beautiful, large, blue, rose and white, bell-shaped blossoms. Prefers sun. Mixture of colors. Pkt., 10c; ¼ oz., 25c.

CUP AND SAUCER (Calycanthema). A fine biennial type of this much prized garden plant. Large, semi-double blue, white, rose and striped flowers, each resembling a cup and saucer. Mixture of colors. Pkt., 10c; ¼ oz., 35c.

Siberian Forget-Me-Not

Brunnera Macrophylla. 10 to 12 inches. One of the most beautiful of the early flowering perennials. Blue flowers resembling the true forget-me-not. Blooms with the tulips in April and May. Long stems; fine for cutting. Of easy culture, and will grow in either sun or shade. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

HARDY CACTUS

While the desert is considered only a barren waste, one can find there some of our most beautiful wild flowers. Few people realize that some of these varieties are hardy and perfectly at home in our Northern gardens. **Opuntia Polycantha**, a free flowering variety, will stand 30 degrees below zero in any well drained situation. The flowers are 3 to 4 inches across, bright yellow and usually tinged with carmine. Grows less than a foot high; blooms in July. 35c each; 3 for 75c; 12 for \$2.50, postpaid.

PERENNIAL-CANDYTUFT

Iberis Sempervirens. A profuse, white-blooming, hardy perennial, coming in flower early in the spring. Has evergreen foliage. Does well in sun or shade. Much used for cemeteries, rockeries, etc. Pkt., 10c; ¼ oz., 40c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Hardy Outdoor Carnations

Hardy
Everblooming
Carnation
Brilliance
(3 for 75c)

CLEMATIS RECTA

Clematis Recta is not a vine, but a cut-flower perennial growing 2 to 3 feet high. The large, showy sprays of pure white flowers make a fine addition to the mixed bouquet in June and July. Very fragrant. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Chinese Lantern Plant

During the past few years plant breeders have developed the carnation to the point where it becomes indispensable to our outdoor gardens. The blooms have been increased in size so that now you can grow carnations outdoors that will rival the greenhouse varieties. Hardiness has been bred into the plants so they will now stand winter temperatures that are well below zero.

LARGE FLOWERED HYBRIDS. This is the latest carnation introduction. It promises to become the most popular garden variety because of the size of the flowers, which sometimes even exceed those grown in greenhouses. They have a pleasing spicy fragrance, and are

very free flowering. The colors range from pure white through all shades of red, pink and yellow, with many variegated and striped blooms. Plants, in mixture of colors, 40c each; 3 for 90c; 12 for \$3.00, postpaid.

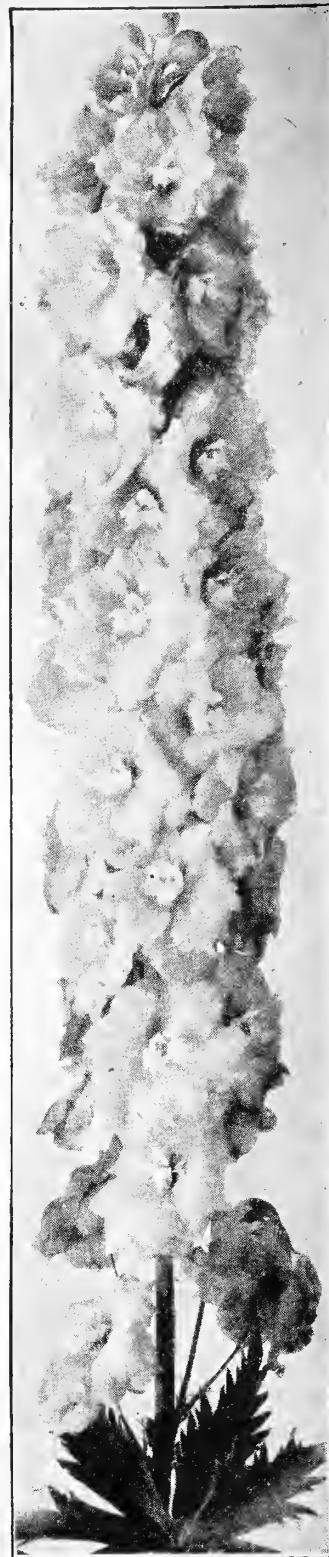

BRILLIANCY. The most outstanding of all hardy red carnations. The color, a dazzling crimson, is so intense that it actually startles you when you first see a bed in full bloom. A good flower for cutting, and the more it is cut, the more flowers the plant will produce. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

BEATRICE, The Everblooming Cluster Carnation. It is impossible to fully describe the beauty of these flower clusters. The color is a warm salmon pink. The flower clusters measure 3 to 4 inches across, giving the impression of one huge flower. They are delightfully fragrant, and are produced intermittently from June until frost. Very strong and hardy. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

HARDY BORDER CARNATIONS. 12 to 18 inches. The true hardy outdoor or border Carnation. Beautiful double, semi-double and single blooms in great abundance all summer. Excellent for cutting. A fine mixture of colors, including white, yellow, all the pink shades, light and dark red and striped. Pkt., 15c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

GIANT CHINESE LANTERN

For years the Chinese Lantern or Winter Cherry has been highly prized for winter decoration. New Giant is a much improved form with the balloon-like pods or lanterns measuring 6 to 9 inches in circumference. The strong, stiff stems grow upright to a height of 4 feet, while the common variety is usually too weak to hold the lanterns off the ground. The brilliant orange pods retain their shape and color all winter. Easily grown in almost any soil. A money maker for the florist and the roadside stand. Seed, 15c per packet. Strong roots, 35c each; 3 for 75c; 12 for \$2.50; 50 for \$9.00; 100 for \$15.00, postpaid.

All Double Pacific Hybrids

Burgess' Prize Delphiniums

The queen of the floral kingdom and the envy of every flower lover. No garden is complete without these stately towers of beauty. They are the very foundation of the perennial border. By planting our selected strains and following a few simple rules anyone can grow Delphiniums to be proud of. Provide a well drained soil that is not sour, feed well with hard wood ashes, and do not allow more than 2 or 3 spikes per plant.

ALL DOUBLE PACIFIC HYBRIDS. Did you ever go shopping and come home with that absolute feeling that your purchase was "tops" in every sense of the word? If you have, then you can have that same assurance with our beautiful, hand selected Pacific Hybrids. Individual double flowers 2½ inches across, on spikes 5 to 6 feet high, are not at all unusual. Your flower loving friends will stop, look and marvel at them. Greater beauty was never created. Many color combinations of blue, purple, rose and lavender are exquisitely blended, hardly two alike. Every plant carefully selected as outstanding to insure you only the best. Our hand picked seed is selected from these same plants. Pkt., 35c. Plants, 50c each; 3 for \$1.25; 12 for \$4.00, postpaid.

PACIFIC HYBRID SEEDLINGS. Supplied only in lots of one dozen or more. \$1.00 per doz., postpaid.

DOUBLE PURITY. Sometimes we look back at the things that used to be. Do you remember when "Iceberg" was introduced and the excitement over the first white Delphinium? Our new selected white strain of Pacific Hybrids is so far superior to the older form of greenish white blooms that we have called it Purity. Every plant produces large, glistening white double flowers, and is carefully selected for you. Pkt., 35c. Plants, 50c each; 3 for \$1.25; 12 for \$4.00, postpaid.

GIANT ENGLISH HYBRIDS. Our stock of English Hybrids has been made up from some of the finest Delphinium collections in Europe and America; and while they cannot compare with our Pacific Hybrids, they are far superior to ordinary Delphiniums. The range of color contains all of the self-colors, as well as various combinations of rose, mauve, blue, purple, etc. We can highly recommend this mixture. Pkt., 25c; ½ oz., 60c; ¼ oz., \$1.00. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

LAMARTINE. Rich indigo blue flowers produced throughout the season on tall, branching plants. Sometimes referred to as the "Everblooming Delphinium." Pkt., 25c; ½ oz., 60c; ¼ oz., \$1.00. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Hardy Fuchsia

For years the Fuchsias, with their beautiful pendulant flowers, have been classed among the most popular house plants. We are now able to offer 2 hardy varieties which bloom profusely all summer outdoors. Especially adapted for shady locations, but flowers just as freely in full sun. We advise protection north of Philadelphia.

MAGELLANICA. Beautiful pendulant flowers produced by the hundreds. Ruby-red with purple inner petals. Plants, 35c each; 3 for 70c; 12 for \$2.25, postpaid.

MAGELLANICA BLUSH. Same as Magellanica except the color, which is a dainty blush pink. Plants, 40c each; 3 for 90c; 12 for \$3.00, postpaid.

Digitalis or Foxglove

GIANT SHIRLEY. Stately and picturesque. The flower spikes are well over three feet long, attractive and showy. No foxglove exceeds Giant Shirley for size and beauty. Colors range from white through pink and rose, and usually spotted with small maroon dots. Classified as a biennial, but usually persists for several years. Pkt., 10c; ¼ oz., 25c.

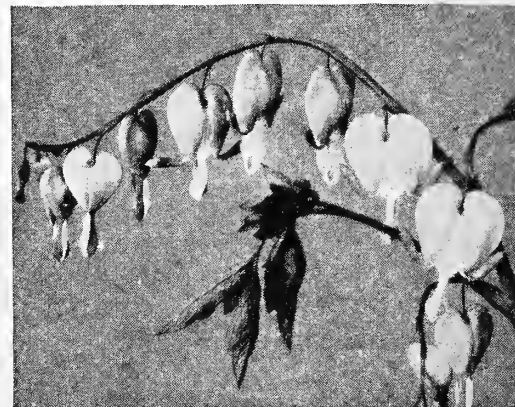

Digitalis

DICENTRA or Bleeding Heart

SPECTABILIS. 2 ft. April-June. An old garden favorite; one of the earliest blooming hardy plants; long racemes of graceful heart-shaped rose-pink flowers; easily grown anywhere; especially valuable for border planting and for planting in the shade. Also makes a beautiful house plant if potted late in the fall and kept in a cool place until a few weeks before the flowers are wanted. Plants, 45c each; 3 for \$1.10; 12 for \$3.50, postpaid.

EXIMIA (Everblooming or Plumy Bleeding Heart). 18 inches. An ever-blooming sort with beautiful finely cut foliage and showy racemes of heart-shaped deep pink flowers from April to August. It is equally at home in full shade or sun and perfectly hardy everywhere. Plants, 40c each; 3 for 90c; 12 for \$3.00, postpaid.

Dicentra Spectabilis (Bleeding Heart), 45c Each

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

Burgess' Geums

BORISII. 18 inches. Dazzling flowers of vivid orange-scarlet, produced on 12 inch stems; excellent for cutting. May to July. Pkt., 20c.

LADY STRATHEDEN. 24 inches. Rich golden-yellow, double flowers from June until August. Pkt., 15c; 1/16 oz., 40c.

MRS. BRADSHAW. 24 inches. Double, fiery red flowers that bloom nearly all summer. Pkt., 15c; 1/16 oz., 40c.

PLANTS: Your choice of the above 3 Geums at 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Dianthus (Garden Pinks)

LOVELINESS. 15 inches. The fine feathery flowers of this variety are so pleasingly different that the plant merits a place in every garden. The flowers are 1 1/2 to 2 inches across, delightfully fragrant and produced in varying shades of rose and lilac. Pkt., 20c; 1/16 oz., 75c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

DOUBLE CARNATION-FLOWERED. 12 inches. The favorite of the old fashioned garden. Double carnation-like flowers with a pleasing, spicy fragrance. We have developed an especially fine selection of plants grown from cuttings so we know that every plant will please you. Mixture of colors only. Pkt., 10c; 1/8 oz., 30c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Dianthus
Loveliness
(3 for 60c)

Geum

Flaming Fire Bells

FIRE BELLS (Heuchera Firelight). Did you ever look into the glowing embers of a fire and notice that bright red glow? If you have you need no further color description of this flower. The foliage forms a low mound from which grow many sprays of flowers on 18 inch stems. The flower head consists of 100 to 200 flaming red bells that appear in a seemingly endless succession. A group of three or more plants will produce flowers nearly all summer. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

CORAL BELLS (Heuchera Cascade). A pink flowered variety of the above. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

GAILLARDIA

Caillardias are needed in every flower garden to add that continuous dash of color throughout the summer, even during extremely hot, dry spells. The New Hybrid varieties now offered are especially desirable. All of the following varieties are perfectly hardy and fine for cutting.

BURGUNDY. Wine-red flowers 2 1/2 to 3 inches across. A very unusual color. Pkt., 10c; 1/8 oz., 50c.

DAZZLER. Deep red flowers with yellow tipped petals. The largest variety we know, often reaching 4 to 5 inches. Pkt., 10c; 1/8 oz., 30c.

GOBLIN. 15 inches. A splendid new dwarf compact variety covered with brilliant red, yellow tipped blooms. Pkt., 10c.

GOLDEN GODDESS. The entire flower is a pure bright yellow, on stiff 24 inch stems. Blooms continuously, and is perfectly hardy. Pkt., 10c.

IMPROVED HYBRIDS. Large assortment of types and colors. Pkt., 10c; 1/8 oz., 25c.

Prices: Your choice of above varieties of Gaillardia plants at 30c each; 3 for 60c; 12 for \$2.00, postpaid.

FEVERFEW

18 inches. June-October. Free-flowering hardy perennial. Fine, double white flowers resembling pompon Chrysanthemums. One of the best all-season cut flowers. Pkt., 10c; 1/8 oz., 30c.

GARDEN HELIOTROPE

(*Valeriana Officinalis*.) Large heads of pinkish-white flowers on 3 to 5 ft. stems. Very fragrant, perfuming the entire garden. Pkt., 20c; 1/16 oz., 75c.

GYPSOPHILA

or Baby's Breath

Vast improvements in flower form and color have greatly increased the demand for these ever popular flowers. The feathery sprays of flowers add greatly to the beauty of any mixed bouquet, either freshly cut in summer or dried for winter use.

BRISTOL FAIRY. The most indispensable of all flowers that help to make up bouquets. In the garden it adds that charm and daintiness that only Gypsophila can give. The individual flowers are full double, 1/4 to 1/2 inch in diameter and produced in large, airy, branching sprays 30 inches high. Choice grafted plants, 45c each; 3 for \$1.10; 12 for \$3.50, postpaid.

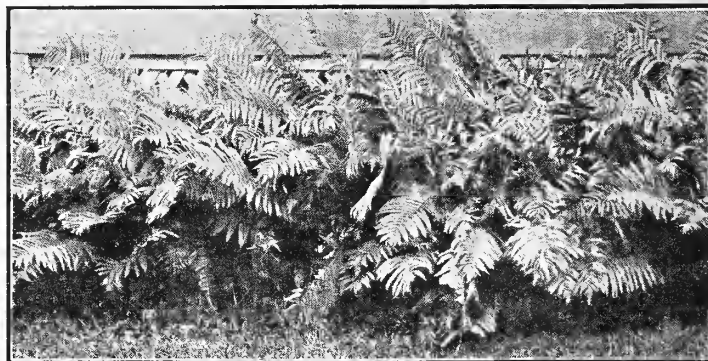

PACIFICA. 4 ft. A dainty pink flowered variety similar to *Paniculata*, but blooms a little later. Pkt., 15c 1/16 oz., 40c. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

PANICULATA DOUBLE WHITE. 2 ft. A great improvement on the single-flowered type and more lasting. When grown from seed, about 25 per cent usually come double. July-August. Pkt., 15c; 1/16 oz., 40c.

ROSY VEIL. Dainty pink, deepening with age. The flowers are Bristol Fairy except for color. The habit of the plant is dwarf, growing only a foot high. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

Hollyhock Triumph Double

Hardy or Outdoor Ferns

OUTDOOR FERNS

Hardy Ferns do well in shady and half-shady places in the garden and park, and are often useful for growing close to houses, in corners which are too dark for most plants. Ferns do best in light soils containing much vegetable matter, so it is always best to work a considerable amount of leaf mould into the soil of a fern bed. The common notion that Ferns require wet or almost swampy conditions is not well founded, as they will do nicely under ordinary garden treatment in the matter of moisture.

We have a fine assortment of Hardy Perennial Ferns, and sell them in a fine mixture of varieties at 3 for 75c; 12 for \$2.00, postpaid.

Forget-Me-Not (Myosotis) PERENNIAL EVERBLOOMING

Few flowers are more admired than the Forget-Me-Nots. *Palustris Semperflorens* and *Pink Beauty* are hardy perennials, and bloom continually from early spring until late autumn. They will grow anywhere, but prefer a moist location, which makes them invaluable for borders around pools or along streams.

PALUSTRIS SEMPERFLORENS. 9 inches. Lovely, bright sky-blue flowers in great profusion. Pkt., 15c; 1/8 oz., 50c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

PINK BEAUTY. 9 inches. A new variety; the only pink perennial Forget-Me-Not. Loaded with a mass of lovely bright pink flowers. No seed. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

BIENNIAL FORGET-ME-NOTS

The *Alpestris* Forget-Me-Nots are biennial and come into bloom very early in the spring and are largely used for bedding or borders in connection with spring-flowering bulbs, Pansies, etc. They also bloom again in the fall; bloom freely the first season and still more profusely the second spring. They do best in shady, moist situations.

ALPESTRIS BLUE. 6 inches. A mass of light blue flowers. Pkt., 10c.

ALPESTRIS ROSE. 6 inches. Beautiful rose-pink. Pkt., 10c.

Giant Hollyhocks

ORANGE PRINCE. Full double flowers of rich apricot-orange; a rare color among Hollyhocks. You will find it truly outstanding in any garden.

TRIUMPH DOUBLE. 6-8 ft. A large full double early flowering type. Much improved from the older types, both in size and texture. Seed in mixture of colors containing a full range of both the light and dark shades. Pkt., 10c; 1/8 oz., 40c; 1/4 oz., 75c. Plants in the following separate colors: Deep Rose, Red, Scarlet, Maroon, Lilac, Salmon, Yellow.

IMPERATOR DOUBLE. Extremely large flowers with wide frilled outer petals and a double rosette in the center. A complete range of colors. Pkt., 15c; 1/8 oz., 60c.

HOLLYHOCK PLANTS.—Your choice of the above varieties, 20c each; 4 for 50c; 12 for \$1.00, postpaid.

HARDY GLOXINIA

HARDY GLOXINIA (*Incarvillea*) is a fine plant for the garden. The large, trumpet shaped pink flowers are produced in clusters on 18 inch stalks and somewhat resemble an indoor Gloxinia. Blooms in June and July and prefers a dry location. Best planted in groups of 3 to 6 plants. Pkt., 25c. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

Lady Slipper or HARDY ORCHID

The Lady Slipper or *Cypripedium* is a popular member of the Orchid family, in fact so popular that it has become almost extinct in its native haunts. The beautiful yet curious flowers are produced on 12 inch stems in early summer. They are best suited to a shaded location with ample moisture. They are especially suited for planting around pools in the shade of overhanging trees. We can furnish plants in the following colors: **Pink or Yellow Lady Slippers**, 35c each; 3 for 75c; 12 for \$2.00, postpaid.

PAINTED DAISIES

(*Pyrethrum*)

A most valuable and decorative plant for the border. The gaily colored flowers grow on 18 to 24 inch stems in May and June. Very hardy and easy to grow. Highly prized as cut flowers, and if planted in groups of three, they produce a very effective and colorful clump.

ROSEUM. The large, bright daisy-like flowers range in color from pure white and light pink to brilliant scarlet and dark red, with bright yellow centers. Pkt., 10c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

DOUBLE SELECTED. Seed saved from the finest double flowers, and a choice mixture of colors. When grown from seed, only a small percentage will come double the first year. Pkt., 35c.

Lemon Lily Hyperion

LEMON LILIES

If you could see some of the new hybrid forms of *Hemerocallis* or Lemon Lilies, you would not wonder at their ever increasing popularity. They thrive in the moist ground around pools and along streams and seem to do equally well in poor soil and on hot dry banks. They will also do well in partial shade. Few plants are at home under such varied conditions. The following collection will supply blooms over a long period.

HYPERION. The flowers are a fine citron-yellow and produced in great numbers on stout 40 inch stems. The finest of recent introductions, delightfully fragrant and an ideal cut flower, the buds opening well in water. A few years ago it sold for \$2.50 each. Plants, 50c each; 3 for \$1.00; 12 for \$3.50, postpaid.

GOLD DUST. Orange-yellow; sparkle in the sun.

DOUBLE KWANZO. The only double flowering Day Lily. Bronzy orange flowers on 30 inch stems.

SOVEREIGN. Early flowering; dark orange flowers.

CITRONA. Tall sulphur-yellow fragrant blooms.

Prices: Your choice of four varieties—Gold Dust, Double Kwanzo, Sovereign and Citrona—at 35c each; 3 for 75c; 12 for \$2.50, postpaid.

NIEREMBERGIA

Five hundred individual cup shaped blue flowers are not at all unusual for this plant to produce in a single season. It is probably the most dependable low border plant for an endless succession of bloom. It grows less than a foot high but bushes out to the size of a half bushel basket. The plant is perennial but requires winter protection. Pkt., 25c. Plants, 35c each; 3 for 70c; 12 for \$2.50, postpaid.

Nierembergia

HIBISCUS Rose Mallow

Huge 6 to 8 inch flowers on dense tall growing, bushy plants. Flowers appear from June until October and range in color from white with red eye through pink to deep red. They are very showy and do well in any soil. They will thrive on very wet ground where little else will grow. Pkt., 10c; 1/4 oz., 35c. Plants, 20c each; 3 for 40c; 12 for \$1.00, postpaid.

Hibiscus, or Rose Mallow

Lily-of-the-Valley

9 inches. May-June. These popular and fragrant flowers do their best in a shady situation. 3 for 20c; 12 for 50c; 25 for \$1.00; 100 for \$3.50, postpaid.

Russell Lupinus

LUPINUS Russell Hybrids

No flower has ever created a greater sensation than the Russell Lupines with flower spikes 4 to 5 feet long. The flowers, which resemble sweet peas, are set closely along the stalk. They are rich and brilliant in color, ranging through shades of yellow, orange, red and purple, with many bi-colored and two-toned combinations. An excellent cut flower, blooming with the poppies and lasting over a long period. Pkt., 25c. Blooming size plants, 40c each; 3 for \$1.00; 12 for \$3.25, postpaid.

GIANT HYBRID LUPINUS. 3 to 4 feet. June-July. Long, graceful spikes. A fine mixture of white, rose and blue shades. Pkt., 10c; 1/4 oz., 30c.

Inoculate Lupinus for best results. Inoculation, 10c.

Hosta, or Plantain Lily

No better plant for that shaded area along the foundation on the North side of the house or between the walk and the foundation. Clusters of lavender lily-like flowers. We know of no plant that will stand more abuse. 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Blackberry Lily

The Blackberry or Leopard Lily (*Pardanthus*) belongs to the iris family which it resembles in foliage. The curious, lily-like flowers of deep orange, spotted red, are followed by several seed clusters that look like a large ripe Blackberry, making fine subjects for winter bouquets. Pkt., 15c. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

PENSTEMON GARNET

This is the first of a new hardy race of large flowered Penstemons. Garnet is of spreading habit, producing a succession of bloom from June until frost. The Gloxinia-like flowers of rich garnet are gracefully placed on 12 to 18 inch stems, with six to a dozen stems on a plant. Excellent for cutting, lasting a week or more in water. Plants, 60c each; 3 for \$1.50; 12 for \$4.50, postpaid.

Penstemon Garnet

Hardy Primroses

Munstead Giants. Interesting, colorful low growing plants. Almost any color or combination of colors you can think of, except blue, will be found in these beautiful hybrid primroses. They can be planted in the shade and do especially well in a moist situation. They bloom very early in the spring and the flower sprays almost entirely cover the foliage. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

ORIENTAL ROSE VINE

or Hardy Double Morning Glory

A valuable trailing plant or low growing vine. Full double, rose-like flowers of clear, bright pink, 1 1/2 to 2 inches across, produced throughout the entire summer. Fine for planting along dry sunny banks that need a ground cover, or wherever a low vine is needed. Climbs about 4 to 6 feet on a trellis. This is one vine which takes all kinds of abuse and still produces a profusion of flowers. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

SEMPERVIVUM (Hen and Chickens)

Sempervivum tectorum (Hen and Chickens) is an evergreen succulent plant with fleshy leaves in compact rosettes. They grow in any soil, along walks or in the crevices of stones, in fact any place a few small roots can get a footing. The central rosette is called the hen, while the dozens of smaller ones produced at the edge are the chickens. A very interesting plant. 25c each; 3 for 50c; 12 for \$1.75, postpaid.

Perennial Flower Seed Mixture

An inexpensive way of obtaining a good assortment of perennial plants is to send for our Perennial Flower Seed Packet of 25 Varieties. Packet, 10c; 3 for 25c; 7 for 50c.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

Tigress Phlox

New Fadeless Phlox

Because of the bright showy colors and their long blooming period, the hardy Phlox are counted among the most highly prized perennials. Enormous heads of brilliant flowers produced on strong erect stems. The older varieties with small flowers show good color when they first open, but usually fade within a short time. We have discarded all of the common varieties and offer here only those of recent introduction that we know will well repay our customers for the little care they require, giving special attention to varieties that hold their color well. They average 2 to 3 feet in height and bloom from June to October.

4 Select Varieties

We here select for you four varieties of Phlox which we consider the most outstanding for this season, both for color and size of bloom.

BLUE BOY. A very free flowering and sturdy Phlox, and the bluest of any we have ever seen. A low growing broad plant and one of the few Phlox that will stand semi-shade. 40c each; 3 for \$1.00; 12 for \$3.00, postpaid.

MARY LOUISE. Pure, glistening snow-white heads of unusually large size, the individual flowers being twice as large as in other white phlox. A perfectly beautiful variety; unquestionably the best white to date. A good grower of medium height, with clean foliage. Plants, 45c each; 3 for \$1.10; 12 for \$3.30, postpaid.

SALMON BEAUTY. Rich salmon-pink with white eye. The best phlox of this color yet introduced. Produces a very large spike with giant sized individual florets. 40c each; 3 for \$1.00; 12 for \$3.00, postpaid.

TIGRESS. An outstanding Phlox. Vigorous, upright growing with immense trusses of brilliant orange-scarlet flowers. The trusses are huge pyramids which are built up by long branched laterals, giving an unusually long period of bloom. Plants, 40c each; 3 for \$1.00; 12 for \$3.00, postpaid.

12 OUTSTANDING VARIETIES OF PHLOX

BRAINARD. Rose-pink; tall.

BRILLIANT. Large trusses of fiery scarlet with a deeper red eye.

ECLAIREUR. Violet-red; white eye.

EIFFEL TOWER. Salmon-pink with deeper shading toward center. Bright red eye surrounded by a pure white halo.

E. I. FARRINGTON. Soft salmon-pink with lighter pink eye.

GENERAL PETAINE. Deep wine red.

PRICES: Your choice of above 12 varieties at 30c each; 3 for 60c; 12 for \$2.00, postpaid.

CREEPING PHLOX

Moss-like, evergreen mats of foliage completely covered with flowers in very early spring. They withstand drought and will grow on the poorest soil. An ideal plant for the rockery, border, terrace or bank.

BLUE HILL. Deep blue flowers.

VIVID. Bright pink with bright red eye.

ALBA. Pure snow white flowers.

Above three varieties, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

EVERBLOOMING PHLOX

Starts blooming earlier than other Phlox, and continues to flower until late October. Long flower spikes, dependable bloomers, and free from disease.

MISS LINGARD. White with lavender-pink eye. 30c each; 3 for 60c; 12 for \$2.00, postpaid.

MAGNIFICENCE. Rosy-purple. 35c each; 3 for 70c; 12 for \$2.50, postpaid.

\$1.25 SPECIAL

One each of Blue Boy, Mary Louise, Salmon Beauty and Tigress for only \$1.25, postpaid.

PHLOX SEED

Select mixture of all colors of Perennial Phlox; choice large flowered varieties. Pkt., 25c.

A MILLION SATISFIED CUSTOMERS from Maine to California

Kendrick M. Martin, an Oakland, California, customer writes: "Thank you very much for the splendid shipment of young trees. We are exceptionally well pleased with the quality and value, the latter of which I am certain cannot be equalled in this locality at treble the cost."

Sun Roses (Helianthemum)

SUN ROSES Evergreen Perennial Plants

The Sun Roses (Helianthemum) are low growing, evergreen, shrubby perennials forming low clumps, 1½ to 2 feet in diameter, and bearing hundreds of roselike flowers. The foliage is almost completely hidden beneath a mass of bloom from June to August. A very desirable plant for the low border or rock garden, and will thrive in poor, dry soil. Seed in mixture of colors. Pkt., 10c.

FIREBALL. Bright fiery red. Double.
GOLDEN BALL. Bright yellow. Double.

Plants: Your choice of varieties, 30c each, 3 for 60c; 12 for \$2.00, postpaid.

STOKESIA

July-October. Beautiful corn-flower-like blossoms which measure from 4 to 5 inches across. Indispensable for cutting. Easily grown in any open sunny position. A fine mixture of white, blue, lavender and intermediate colors. Pkt., 10c; ¼ oz., 35c.

Perennial Sweet Peas

A good showy vine that remains in the ground year after year without care or attention. The pink, red or white flowers, like sweet peas, are produced in abundance on long stems suitable for cutting. Mixed colors only. Pkt., 10c; ¼ oz., 25c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Sweet William

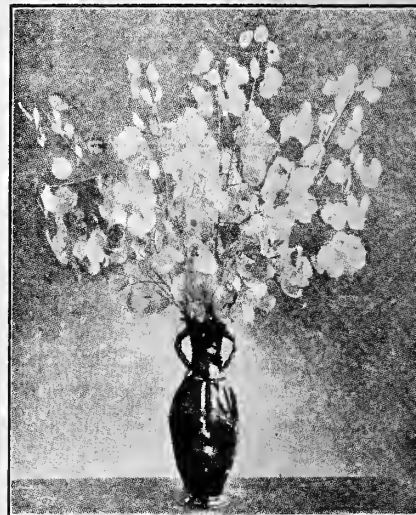

Popular garden flower, showing a wonderful array of vivid colors in fancy patterns. Flowers are shaped, clustered and colored much like Phlox, the markings being more sharply defined. A fine mixture of both delicate and gorgeous colors. Pkt., 10c ¼ oz., 25c.

TROLLIUS or Globe Flower

A few years ago the Globe Flower was almost unheard of. Today it is one of the most popular cut-flower perennials, keeping a long time in water. Globular orange and yellow flowers on 18 inch stems in spring and early summer. Usually produces a second crop if cut back when through blooming. Mixture of shades and colors, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

8 Phlox \$1 8 Plants

We have a surplus of exceptionally fine Phlox plants this spring. Many of the varieties are in too small quantities to list. We will make up a collection of eight varieties from this surplus stock at a special price of \$1.00 for the eight plants, each a different variety of our selection, and delivered postpaid.

Lunaria

Lunaria, or Honesty (Chinese Money Plant)

A beautiful hardy biennial, about 2 feet in height, which is known in the different provinces of China as the silver, satin or money plant, and in Europe as St. Peter's Penny. Flowers are violet-purple, white and dark crimson, followed by the silvery seed pods, which present a beautiful and rather curious appearance. When dried, the stems which are loaded with these glistening seed pouches, will last indefinitely and are exquisite for winter bouquets and other decorative purposes. Pkt., 10c; ¼ oz., 25c.

LYTHRUM PINK PROFUSION

A mass of flowers from early summer until fall—always in bloom. Spike after spike, loaded with deep pink flowers, grows out of the crown of the plant, literally flowering its way upward to a height of about 30 inches. After the spikes have flowered themselves to maturity they should be cut. In an incredibly short time more flowering branches will make their appearance—a real "cut-and-come-again" that needs no pampering. A satisfying plant that is neat of habit and easy to grow, and will provide a summer of complete enjoyment. Blooming size plants, 40 each; 3 for \$1.00; 12 for \$3.25, postpaid.

Cow Manure

Pulverized Cow Manure is a real plant food which has a lasting beneficial effect on the soil. Shredded and dried by a special process; no weed seed. Absolutely will not burn the most tender root or foliage. By freight, not prepaid: 100 lbs., \$2.50; 500 lbs., \$10.00; 1,000 lbs., \$18.00; ton, \$35.00.

Sheep Manure

One bag of Pulverized Sheep Manure is equal to a whole wagon load of barn yard manure. It puts life and fertility into your soil, is good for everything that grows. Absolutely no weed seed. By freight, not prepaid, 100 lbs., \$2.50; 500 lbs., \$10.00; 1,000 lbs., \$18.00; ton, \$35.00.

Gorgeous Oriental Poppies

Oriental poppies are unsurpassed for brilliant coloring in the flower garden. They require little or no care, and when they are through blooming in June the tops can be cut down and the space filled with annuals without harming the poppies.

CAVALIER. Glowing red; extremely large flowers; tall, strong stems; crinkled petals.

CERISE BEAUTY. Cerise-rose; crinkled petals.

DELICATA. Unusual color of purplish old rose.

GLOWING EMBERS. Deep glowing red; crinkled petals.

GORGEOUS. Largest and best pink. 8 inch flowers.

PRICES of the above varieties, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

SNOWFLAME

A sensational new Oriental poppy. The lower half of each petal is pure white and the upper half flame-orange, creating a very unusual and brilliant effect. A strong grower and very free flowering. Plants, 75c each; 3 for \$2.00; 12 for \$7.50, postpaid.

Oriental Poppy Seed

A grand mixture of all colors. Pkt., 15c; 1/8 oz., 35c.

NEGRILLON. Purplish maroon; very early. Requires some shade.

NEON. Bright orange-red. Late bloomer.

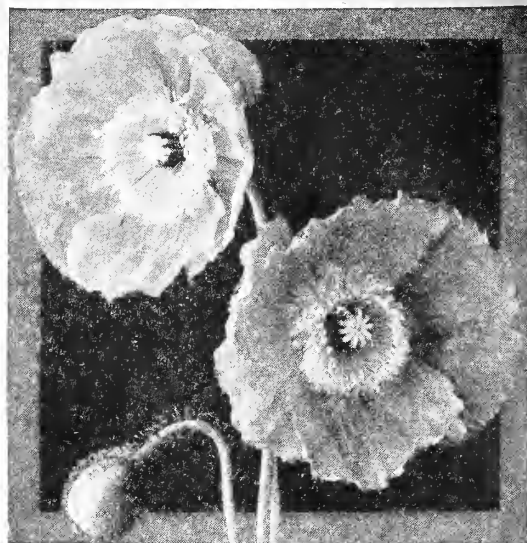

PERRY'S WHITE. Satiny white with purple blotch.

TANGERINE. Clear tangerine-orange. Best of its color.

WELCOME. Bright shiny red. Very large flowers.

8 ORIENTAL POPPIES \$1

We have many varieties of Oriental Poppies in our nursery in too small quantities to list separately so we are offering a collection of eight plants, each a different variety of our selection, for only \$1.00, postpaid.

Iceland Poppies Imperial Jewels

ICELAND POPPIES

From Tulip Time Until Fall

Iceland Poppies begin blooming with Tulips in early spring and, if not permitted to seed, will bloom all summer and until late in September.

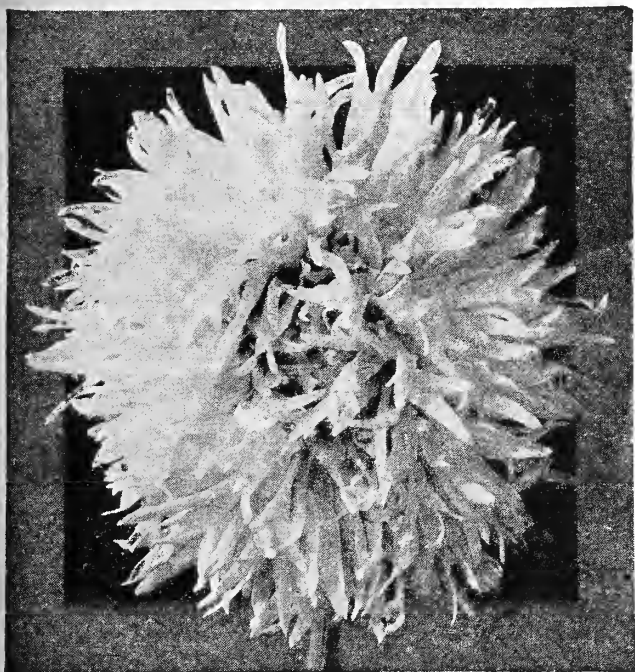

IMPERIAL JEWELS. Dazzling as the Imperial Crown Jewels, the kaleidoscopic coloring of this new strain is a delight to behold. The mixture contains wonderful color shades, from light to very deep orange, all shades of yellow, creamy white and pure white, every imaginable shade of pink from shell pink to salmon pink, deep rose and nearly red tones and many pastel hues of apricot, buff and chamais. Flowers beautifully frilled and fluted, many semi-double and all 4 to 5 inches or more in diameter. Stems 20 to 24 inches, bearing flowers upright in regal splendor. Imperial Jewels Mixture is so far ahead of any other Iceland Poppy available, that no florist can afford to be without it for his best cut flower trade. Pkt., 25c.

SINGLE MIXED. Mixture of yellow, orange-scarlet, pink and white. Pkt., 10c; 1/8 oz., 35c.

DOUBLE MIXED. Pkt., 25c.

SPECIAL NOTICE

For best results Oriental Poppies should be transplanted during their dormant season, in the late summer or early fall. We, being interested in the success of our customers, will fill orders for Oriental Poppy plants at that time unless otherwise instructed. We can make spring shipment to customers who want them at that time, but we can not be held responsible for the success of Oriental Poppies planted in the spring.

Giant Double White Shasta Daisy

Shasta Daisies

Shasta Daisies are indispensable to color contrast in the garden and are highly prized for cut flowers. The hybridizer's hand has developed this plant from the common white daisy of the old fashioned garden to a flower anyone can be proud to grow. Produced freely on stiff 2 to 3 foot stems.

GIANT DOUBLE WHITE. This strain includes an assortment of various types of double flowers ranging from the most fully double fringed petaled sorts through semi-doubles, to a type which, though single, forms unusual and beautifully shaped flowers with laciniated curled and quilled petals. The flowers are all large and carried on long wiry stems. Seed, 25c per packet; 1/8 oz., 95c. Blooming size plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

DOUBLE WHITE SWAN. Solid, double, pure white flowers on strong stems, 18 to 24 inches high. Under normal weather conditions it is usually in full bloom by Memorial Day. A wonderful addition to the garden, and an ideal cut flower producing as many as 30 blooms on one plant. No seeds of this variety to offer. Blooming size plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

GOLIATH This giant daisy is our own origination, and the results of fifteen years of cross-hybridizing. We unhesitatingly offer it as the largest and finest Shasta Daisy we have ever grown. The large pure white flowers are often 4 1/2 to 5 inches across on established plants, and produced in great abundance from late June until August. Pkt., 15c; 1/8 oz., 60c. Plants grown from divisions, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

MEMORIAL DAISY. An early flowered type that is always in bloom for Decoration Day. No plants to offer. Pkt., 10c; 1/8 oz., 50c.

TRUE VIOLETS

DOUBLE SWEET RUSSIAN. Another gem for that shady spot and a plant you will never regret owning. The large, double, deep blue flowers are unbelievably fragrant. They are produced in very early spring on stems long enough for cutting. It frequently blooms again in late fall and during mild spells in midwinter if protected with leaves. The genuine Double Russian Violet is scarce. You can absolutely depend on our plants being true stock. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

PEACOCK. Large single blooms on 6 inch stems. White with blue veins and yellow throat. Strong grower and a fine cut flower. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

PINK ROSINA. A truly pink violet. It is perfectly hardy, very fragrant and thrives in either sun or shade. Flowers are produced in abundance twice a year, once in early spring and again in the fall. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

SWEET VIOLET (Odorata). 4 to 6 inches. April-June. Perfectly hardy; covered with flowers in early spring; wonderfully sweet scented; also suited for forcing. Blue or White, 20c per packet; 2 pkts.—one of each color—35c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

New Everblooming Violet

A new sweet scented violet of the Odorata type that not only blooms in early spring but also throughout the summer and fall. The flowers are of medium size and are intense violet blue. Perfectly hardy. Plants, 60c each; 3 for \$1.50; 12 for \$4.50, postpaid.

VIOLAS

Violas resemble pansies in shape and form, but are somewhat smaller, grow 6 to 8 inches high, are true perennials and perfectly hardy. They bloom constantly from April until cut down by frost.

APRICOT. Rich apricot, shaded orange. Pkt., 35c.

ARKWRIGHT RUBY. Crimson and maroon. Pkt., 30c.

BLACK IMP. Rich, velvety black. Pkt., 25c.

BLUE GEM. Rich, blue-violet. Pkt., 25c.

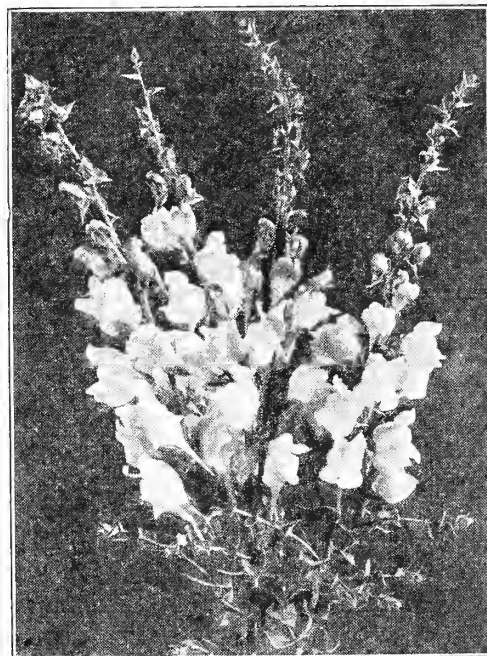

YELLOW GEM. Bright golden yellow. Pkt., 20c.

MIXED (Viola Cornuta). Fine assortment; many shades and colors not included in the above list of varieties. Pkt., 10c; 1/8 oz., 35c.

PLANTS—Your choice of above varieties, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Hardy Snapdragons

SPECIAL 3 Dainty Lady
3 Lemon Yellow
6 Plants for \$1

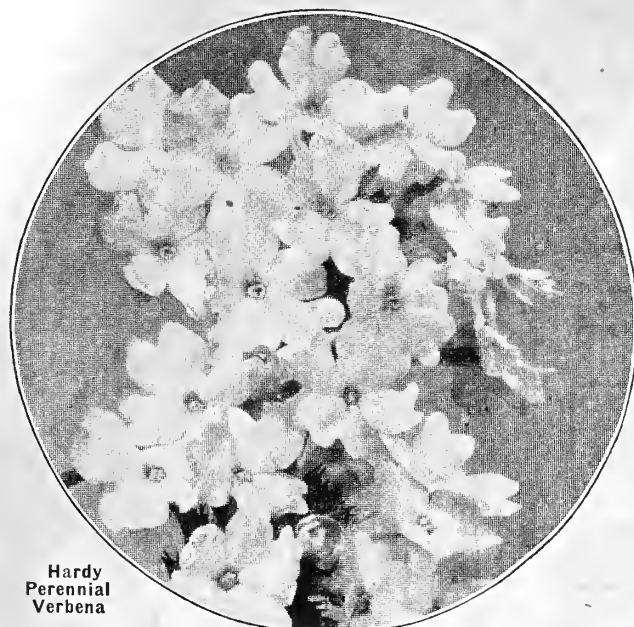

Hardy Perennial Snapdragon

Hardy Snapdragons

HARDY SNAPDRAGON (Linaria Dainty Lady). Dainty in color; delightful in appearance; prolific in bloom. A most pleasing English introduction that is hardy here. Dainty, orchid-pink Snapdragons often number a thousand or more. The compact, erect, grey-green plants grow about 12 inches high and bloom almost continuously. This charming garden subject will be admired by all who see it whether used as a group of three or more or as a low border. Blooming size plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

HARDY SNAPDRAGON (Linaria Lemon Yellow). 2 feet. Flowers of good size. One of the best perennial yellow flowers. Pkt., 15c. Blooming size plants, 25c each; 3 for 50c; 12 for \$1.75, postpaid.

Hardy
Perennial
Verbena

New Verbena "God of Fire"

When Verbena Brilliant was introduced we thought we had found the last word in this ever popular flower. Last year we first introduced "God of Fire," which is far superior to any other variety. One observer said, "This Verbena is, so far as color is concerned, the most startling thing I have ever seen. It is the first time I have ever seen a flower of a color which actually hurt my eyes and seemed to dance from its sheer brilliance. It is too bad that such names as 'Dazzler' and 'Brilliant' have been used up in applying them to plants of comparatively dull shades." This statement was made by a well known horticultural photographer and more aptly describes the brilliant red of Verbena God of Fire than anything we can say about it. No matter how crowded your garden may be, be sure to make room for a few of these plants. Prices: 40c each; 3 for \$1.00; 12 for \$3.50, postpaid.

Tritoma or Flame Flower

PFITZER'S IMPROVED. 3 to 4 feet. The finest of all Tritomas, the flowers being larger than most other varieties, on more upright stems, blooms more profusely and color is more intense. Many of the flowers measure 12 to 15 inches long by 4 inches in diameter. They are dazzling scarlet, the lower half of flower being tinged with rich orange. A clump makes a striking show, surpassing the finest Canna for attractiveness. Bloom from August to October. If roots are covered during the severe winter weather, they will live safely from year to year. Plants, 45c each; 3 for \$1.10; 12 for \$3.50, postpaid.

EARLY PERPETUAL-FLOWERING HYBRIDS. The first of the Tritomas to bloom; massive flower spikes 3 feet tall; flowers of various colors, ranging from pale yellow to deep orange-scarlet. Pkt., 15c.

Trailing Evergreen VINCA

An old timer but still the best ground cover for the shade. Will also grow in full sun. Glossy evergreen foliage and bright blue flowers. Plants, 3 for 30c; 6 for 50c; 12 for 90c, postpaid. By express, not prepaid, 100 for \$6.00.

YUCCA or Spanish Bayonet

FILAMENTOSA. An old timer that will never grow old. The evergreen leaves have the appearance of sharp bayonets and from the center of the clump arises an immense 4 to 5 foot spike of creamy, bell-shaped flowers. Used in the flower border as well as for lawn specimens. Grows on the poorest of soils, which has made it a popular plant for cemetery planting. Tubers 20c each; 3 for 45c; 12 for \$1.50, postpaid.

VARIEGATED YUCCA. A variegated form of Yucca Filamentosa. Each green leaf is striped with golden yellow. Tubers 25c each; 3 for 55c; 12 for \$1.75, postpaid.

STATICE or Sea Lavender

2 feet. August-September. Tufts of leathery leaves close to the ground, from which spring immense branching plumes of purplish blue flowers. Although a fine border plant, it is prized more as a dried flower for winter bouquets. Pkt., 10c. Plants, 30c each; 3 for 60c; 12 for \$2.00, postpaid.

Tritoma

STOKESIA

July-October. Beautiful cornflower-like blossoms which measure from 4 to 5 inches across. Indispensable for cutting. Easily grown in any open sunny position. A fine mixture of white, blue, lavender and intermediate colors. Pkt., 10c; 1/2 oz., 35c.

New Giant Scabiosa

GIANT HYBRIDS. One of the most beautiful hardy perennials. A wonderful improvement over other varieties of Scabiosa. Long-stemmed, giant ruffled flowers from August until frost. Valuable for cutting. A fine mixture of all pastel shades of blue and lavender. Pkt., 25c.

BARGAINS in Perennial Seedlings

One dozen for 60c -- 3 dozen, \$1.65 -- 5 dozen, \$2.50

The varieties offered here are all healthy, one year old field grown plants. While they are smaller than our regular list of transplanted stock, they afford you an opportunity to secure many varieties at truly bargain prices. As we have not seen these plants in flower we cannot guarantee them to be 100% true to color.

All Perennial Seedlings are packed in standard size bundles. If your order is for less than three dozen of these plants, you must order unbroken bundles of twelve of a variety. If your order is for three dozen or more, you may order either six or twelve of a variety. Please do not ask for any other quantities, for in order to give you the benefit of these low prices, we must conserve labor by packing all seedlings in standard size bundles.

ALYSSUM, Gold Dust. Bright yellow flowers in early spring.

AQUILEGIA, Clematiflora. See description on page 39.

AQUILEGIA, Crimson Star. See description on page 39.

AQUILEGIA, Long Spurred Hybrids. Fine selection of mixed colors.

ARTEMISIA, Silver King. See description on page 39.

ASTER, Fall Flowering Mixed. Assorted shades of large flowering varieties. Fine for mixed beds.

ASTER, Star of Wartburg. See description on page 39.

CAMPANULA, Medium. (Biennial.) Canterbury Bells in Blue, Pink or White.

CARNATION, Hardy Border. Double and single flowers in mixture of colors.

CHINESE LANTERN PLANT. Bright orange seed pods for winter decoration.

CHRYSANTHEMUM, Korean Hybrids. Single, double and semi-double in mixture of colors.

COREOPSIS, Double or Single. Bloom profusely; very showy; fine for cut flowers.

DELPHINIUM, Cliveden Beauty. Light blue.

DELPHINIUM, Chinese. A dwarf variety with blue and white flowers.

DELPHINIUM, Lamartine. Deep indigo blue.

DELPHINIUM, Giant English Hybrids. Many delightful color combinations.

DIANTHUS, Double Carnation-Flowered. The old fashioned clove pink with rich, spicy fragrance; hardy; do well anywhere.

DIANTHUS, Sweet Wivelsfield. (Biennial.) Excellent cut flower. Mixture of colors.

DIGITALIS, Giant Shirley. Fine mixture of colors. See description on page 41.

EVENING PRIMROSE, Oenothera Youngii. Sturdy plant with large shiny leaves from which stems arise to a height of about 2 feet. Quantities of beautiful lemon-yellow flowers from June to October.

FEVERFEW. See description on page 42.

GAILLARDIA, Burgundy. See description on page 42.

GAILLARDIA, Dazzler. See description on page 42.

GAILLARDIA, Goblin. See description on page 42.

GAILLARDIA, Mixed Hybrids. Mixture of all shades and colors.

GEUM, Lady Stratheden. See description on page 42.

GEUM, Mrs. Brawshaw. See description on page 42.

GYPSOPHILA, Double White. 2 ft. Flowers are showy white and a good percentage of them double. An excellent cutting variety.

GYPSOPHILA, Paniculata. See description on page 42.

HIBISCUS, Mallow Marvel. Canes grow to a height of 4 feet and bear great quantities of large, bell-shaped flowers. Blooms often measure up to 6 or 8 inches across. Red or pink.

IBERUS or PERENNIAL CANDYTUFT. See description on page 40.

IRIS, Japanese. Fine mixture of colors.

LATHYRUS (Perennial Sweet Pea). See description on page 44.

LAVENDER (Lavendula Vera). 18 inches. The real Sweet Lavender used and grown by our grandmothers. Bears exquisitely fragrant blue flowers all through July and August.

LIATRIS or Blazing Star. Tall spikes of purple flowers.

LINUM or Blue Flax. Blue saucer-shaped flowers from May to August.

LUNARIA (Honesty or Peter's Penny). (Biennial.) 2 ft. Known in the different provinces of China as the silver, satin or money plant. When dried, the stems which are loaded with glistening silvery-white seed pouches, will last indefinitely and are exquisite for winter bouquets and other decorative purposes.

LYCHNIS, Chalcedonica (Maltese Cross). 2 ft. Vivid scarlet flowers in flat heads, borne over an extremely long blooming period.

MYOSOTIS, Alpestris Blue (Forget-Me-Not). (Biennial.) Ideal for rockery or for edging walks, beds, etc. Charming clear blue flowers.

PLATYCODON or Chinese Bellflower. Balloon-like buds, on long stems, which open into large, rich blue flowers.

PYRETHRUM or Painted Daisy. Large flowers on long stems; fine mixture of colors.

SALVIA, Azurea Blue. 4 ft. Tall, willowy stems bearing masses of pale blue flowers. For profusion of blooms during early autumn this Salvia is unexcelled.

SCABIOSA, Caucasica. 1 1/2 to 2 ft. stems, each topped by a charming flower of soft lavender. Blooms from June to September. An ideal cut flower.

SHASTA DAISY, Conqueror. Giant flowered variety. **STATICE or Sea Lavender.** See description on page 45.

STOKESIA, Cynea Blue. Flowers of clear azure blue on stems 1 to 1 1/2 ft. A fine variety for cutting.

SUN ROSE, Mixed (Helianthemum). A dwarf plant with a multitude of bright, shiny flowers of white, rose and yellow.

SWEET WILLIAM. See description on page 45.

VIOLA, Apricot. See description on page 45.

VIOLA, Arkwright Ruby. See description on page 45.

VIOLA, Black Imp. See description on page 45.

VIOLA, Jersey Gem. Deep violet-blue; very fragrant; long period of bloom.

World's Finest Bearded Iris

25c Each—3 for 50c—12 for \$1.85

ANDANTE. 36 inches. One of the most handsome of the rich, velvety, red-purple varieties.

BLUE VELVET. 46 inches. The intense, deep blue flowers appear to have been cut out of velvet.

BRONZE BEACON. 50 inches. A real beauty. The standards are a glowing golden-bronze and the falls are Indian Lake with heavy bronze veining at the throat. Late; continues flowering after all others have finished.

CANDLELIGHT. 40 inches. A magnificent show Iris in a lovely blend of soft pastel tints, with a yellow glow in the center, giving the effect of light coming from within. Fragrant.

CLARA NOYES. 36 inches. Rich blend of Talisman rose colors.

DON JUAN. 40 inches. Gigantic blooms of rich garnet-red.

FRIEDA MOHR. 42 inches. A deep pink with huge flowers 7 inches across. Undoubtedly won more first prizes than any other Iris. One of the most fragrant of all Iris. Flowers with the earliest and continues to flower with the late varieties.

GLEAM. 42 inches. An unsurpassed sky-blue. Extra fine large flowers of satiny texture.

GOLDEN GLORY. 38 inches. A gorgeous yellow variety.

KING JUBA. 40 inches. Stands, old gold; falls, Dahlia carmine. A brilliant and effective garden subject.

KING TUT. 34 inches. One of the most brilliant of the fiery red toned Irises.

KOCHINETTE. 27 inches. An exceedingly rich purple color. Very early.

LOCHINVAR. 38 inches. Brilliant blue flowers of huge size. Very early.

PINK SATIN. 46 inches. One of the largest and finest of the pink-toned varieties. Sold quite recently at \$40.00 for a single plant.

RAMESES. 40 inches. A blend of tourmalene pink and soft yellow with a yellow glow at the center.

RAIN OF GOLD. 41 inches. Deep, clear yellow on tall stems, flowers covering the entire plant.

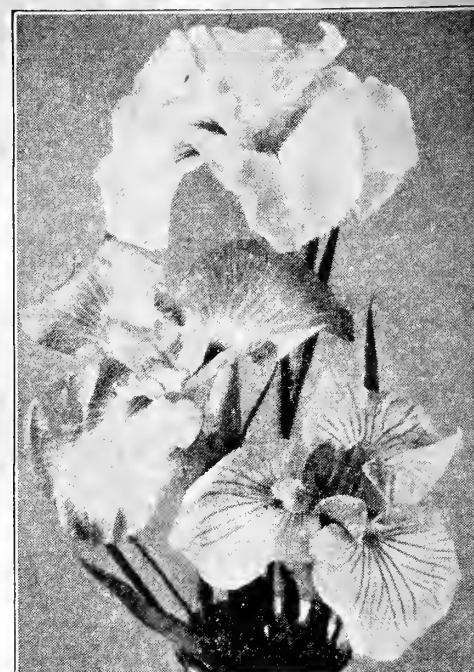

RED DOMINION. 42 inches. A fine red-toned variety with clear lustrous deep red standards and velvety red falls. Sold a few years ago at \$25.00 per plant.

SAN FRANCISCO. 44 inches. Fine, large flowers of pure white with a feather stitched edge of lavender.

SERENADE. 30 inches. The truest pink-toned Iris created to date.

WHITE AND GOLD. 36 inches. Pure satiny white with brilliant golden beard.

PRICES—The above 20 varieties of Iris, 25c each; 3 for 50c; 12 for \$1.85, postpaid.

Japanese Iris

APRIL FLOWERING DWARF IRIS

The first buds open up in late March or early April and stay in bloom until well into May. The plants are so completely covered with flowers that you can scarcely see the foliage.

BRIDE. 6 inches. A popular snow white variety with the fragrance of the Rose.

CYANEA. 6 inches. Very fragrant blooms of rich crimson-purple.

ROSE MIST. 10 inches. Soft rose-pink; no other like it.

ROYAL PURPLE. 8 inches. Deep royal purple flowers.

SOCRATES. 6 inches. Bright uniform clear claret red.

SOUND MONEY. 10 inches. Deep, rich golden yellow. Flowers twice a year, spring and fall.

PRICES Your selection of April Flowering Dwarf Iris at 25c each; 3 for 50c; 12 for \$1.85, postpaid.

EVERBLOOMING

and Fall Flowering Iris

BLACK MAGIC. 28 inches. Intense deep blue-violet; rich, velvety lustre and black sheen. Blooms profusely spring and fall.

GOLDEN HARVEST. 18 inches. Large flower; deep yellow with red-gold veining at the throat. A reliable bloomer spring and fall.

JEAN SIRET. 15 inches. Yellow. In addition to blooming in early spring and again in the fall, this variety has a decided tendency to flower any time that the weather seems to suit it throughout the summer months.

LIEUT. CHAVAGNAC. 15 inches. A new fragrant, brilliant, violet colored variety with the same ever-blooming tendencies of Jean Siret.

PRICES Your choice of the above four varieties of Iris at 30c each; 3 for 75c; 12 for \$2.50, postpaid.

Japanese Iris

Largest and richest colors of all Iris. Blossoms 6 to 10 inches across and 3 to 4 blossoms on a stem. Begin blooming after other Iris are gone and continue 5 to 6 weeks. Fine for cutting. Ideal for moist, sunny locations. If planted in dry location, water freely when buds are forming.

Choice mixture of colors ranging from white through varying shades of purple, violet, blue and red with delicate veinings of cream, white, yellow, etc. Pkt., 15c. Plants, 35c each; 3 for 75c; 12 for \$2.50, postpaid.

25 Iris for \$1.50

A fine assortment of Bearded or German Iris containing a most wonderful variety of showy colors. 6 for 50c; 12 for 85c; 25 for \$1.50, postpaid. 50 or more not prepaid 4 cents each.

May-Flowering Peonies

Burgess' Select Peonies

BARONESS SCHROEDER. Large globular flowers of cream-white shading to flesh. Of free flowering habit and very fragrant. One of the finest Peonies grown. 55c each; 3 for \$1.35, postpaid.

EDULIS SUPERBA. The famous Decoration Day Peony; very fragrant; of upright growth; and one of the best. Large double blossoms; beautiful pink. 40c each; 3 for \$1.00, postpaid.

FELIX CROUSSE. Very brilliant red; flowers mammoth in size, perfectly globular in shape, and have an agreeable fragrance. Mid-season. 45c each; 3 for \$1.10, postpaid.

FESTIVA MAXIMA. Large globular flowers. Pure white, with the center flecked crimson. Extra early; popular variety for cutting. 40c each; 3 for \$1.00, postpaid.

KELWAY'S GLORIOUS. Midseason. Large round flower of creamy pink. One of our choicest Peonies. \$1.25 each; 3 for \$3.30, postpaid.

LE CYGNE. The nearest perfect of any Peony, having a rating of 9.9. The fragrant white flowers are of true rose type and borne on tall stiff stems. The finest Peony in existence. \$1.30 each; 3 for \$3.25, postpaid.

MARY BRAND. One of the most popular Peonies on the market. Rose type flower of deep red, shaded purple. Excellent cut flower. 75c each; 3 for \$1.85, postpaid.

MONS. JULES ELIE. A gorgeous Peony of mammoth size. Glossy lilac-pink shading to a deeper rose at the base; the entire flower overlaid with a sheen of silver. 45c each; 3 for \$1.10, postpaid.

MONS. MARTIN CAHUZAC (The Black Peony). Deep maroon; the darkest of all red Peonies. 80c each; 3 for \$2.00, postpaid.

MRS. EDWARD HARDING. One of the highest rating white Peonies. Very fine. \$1.25 each; 3 for \$3.30, postpaid.

PHILLIPE REVOIRE. The American Peony Society gives this a rating of 9.2 which places it in a class by itself as the world's most perfect red Peony. It is also the most fragrant of the reds. Blooms mid-season. Flowers bright crimson. \$1.10 each; 3 for \$3.00, postpaid.

PRIMEVERE (The Yellow Peony). A single row of white guard petals enclosing a high crown of yellow. Will fade somewhat in strong sunlight, but if cut in the bud and allowed to open inside, they will hold their clear yellow color. \$1.00 each; 3 for \$2.50, postpaid.

RICHARD CARVEL. An early large flowered red of excellent habit. Makes a good lawn specimen and is a valuable cut flower variety. Much in demand. 65c each; 3 for \$1.60, postpaid.

SARAH BERNHARDT. A popular large "show" variety that should be in every peony garden. A fine flower of apple blossom pink. Each petal is tipped with a silver sheen. 55c each; 3 for \$1.35, postpaid.

THERESE. The immense bloom of this Peony surpasses anything thus far produced. Rich satiny pink with a silky sheen. Delightfully fragrant. Flowers of enormous size; blooms most profusely. Received the highest rating of any pink Peony yet judged by the American Peony Society. 60c each; 3 for \$1.50, postpaid.

WALTER FAXON. A most exquisite color of coral pink. Semi-rose type. Beautiful flowers of wonderful size. Unsurpassed for growing fancy specimen flowers for cutting. 60c each; 3 for \$1.50, postpaid.

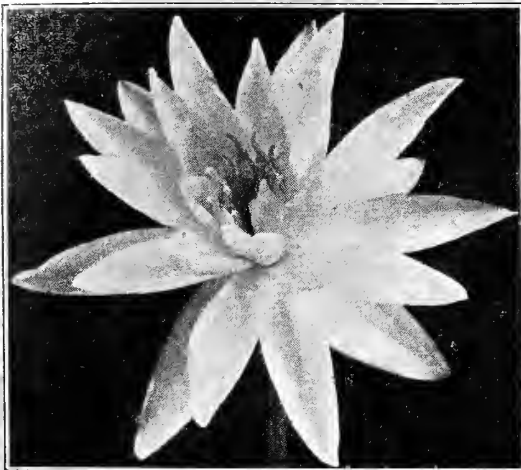

May-Flowering Peonies

The first Peony to bloom in the spring after the Fern-Leaved Tenuifolia. Opens in plenty of time for Decoration Day. Large, double flowers. We can supply the May-Flowering Peonies in three colors—Red, Pink and White. 75c each; 3 for \$1.85, postpaid.

FERN-LEAVED PEONY The Earliest Double Peony to Bloom

FERN LEAVED (Tenuifolia). The earliest double flowered Peony to bloom in the spring, coming before Decoration Day. The flowers are brilliant crimson. The finely cut foliage resembles that of the Cosmos, setting the flower off in a very artistic manner. This variety is very scarce. \$1.75 each, postpaid.

UNNAMED PEONIES—DOUBLE PINK, DOUBLE RED and DOUBLE WHITE. 35c each; 3 for 75c; 12 for \$2.50, postpaid.

Hardy Water Lily Sunrise

3 Water Lilies

Pink
Yellow
White

\$2.75

One each of Pink, Yellow and White—3 varieties of our selection for only \$2.75, postpaid.

Cobra Orchid

It Catches Flies, Eats Raw Meat,
Likes Ants and Bugs

One of the most fascinating plants known to man. It resembles the hooded cobra of the jungles of India, and is one of the few carnivorous plants known to science.

The plant has no leaves, the stalks are twisted and funnel shape, small at the bottom, growing larger with a rounded hood at the top from which hang two crimson and green appendages which have the appearance of feelers or whisks.

The hood is beautifully colored, and mottled by white translucent areas through which the interior is lighted. Both hood and appendages bear many honey glands, the excretion from which tempts bugs, ants, flies, in fact all kinds of insects toward the mouth, an orifice on the under side of the hood, and are lured inside the funnel-like stem from which they can not come back, as the stem is lined with innumerable little hair-like prongs all pointing downward, and once they get below a few of these points they have to continue on downward where the victim is absorbed in the digestive fluid or liquid in the bottom of the stem.

The Cobra Orchid, or Darlingtonia, is a perennial which will grow year after year out of doors, provided it is given a shady position and never allowed to become dry. Along the banks of a pool is an ideal place. It also may be grown as a house plant, in pots of sandy soil and leaf mould.

If kept in a room free from all insects, it is advisable once or twice weekly to place a few small particles of raw beef, about the size of a grain of wheat, in the orifice for its nourishment; however, if placed where there are other plants, in the average room, a sufficient number of insects will be attracted from them, making artificial feeding unnecessary.

The Cobra Orchid blooms in the spring, having unusual purple and yellow flowers.

Plants, \$1.00 each; 3 for \$2.50, postpaid.

HARDY WATER LILIES

for Pools
and Tubs

Our water lilies will bloom the first season, if planted between April 1st and July 15th. They may be safely planted any time before October 1st, but if started later than July 15th they may not bloom until the following summer.

Water Lilies and other aquatic plants are shipped from April to October.

AURORA. The flowers open creamy yellow, changing through orange to deep red as the flower ages. \$1.50 each, postpaid.

CARMINE LAYDEKER. Carmine-rose flowers of good size. One of the best for the small pool as it is free flowering and requires little room. \$2.50 each, postpaid.

CHROMATELLA. Bright sulphur yellow flowers, 4 to 6 inches across. Free bloomer, producing an endless succession of large flowers. One of the easiest to grow. \$1.50 each, postpaid.

COMANCHE. Hardest of all colored water lilies. Blooms open a rich apricot and later change to bronze. The leaves are olive green flaked brown. \$2.50 each, postpaid.

GLADSTONE. Pure white flowers with waxy petals and sulphur yellow heart. Of unusual size, often measuring 6 to 8 inches. \$1.50 each, postpaid.

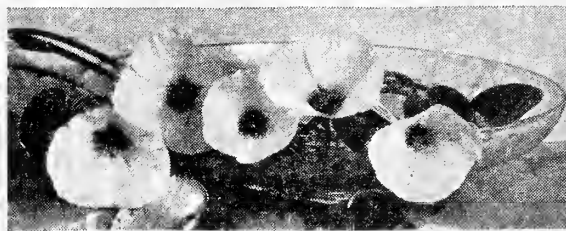

GLORIOSA. Deep carmine-rose changing to a deeper red with age. Large flowers freely produced throughout the season. Ideal for pool or tub. \$2.50 each, postpaid.

HELEN FOWLER. Deep pink with lighter center. Very fragrant and free flowering. \$1.25 each, postpaid.

PINK OPAL. Deep pink flowers of medium size. Well adapted to the small pool; fragrant and one of the best for cutting. \$1.50 each, postpaid.

ROSE AREY. Brilliant pink, fragrant flowers with pointed and incurved petals. A rapid grower and one of the finest of the pinks. \$1.75 each, postpaid.

SUNRISE. Largest of all hardy water lilies; the blooms often reaching eleven inches or more. The enormous flowers of clear sulphur-yellow are the first to open in the morning. Blooms continually from spring until frost. Leaves deep green flecked red. \$3.00 each, postpaid.

Water Poppies

WATER POPPY

Large, bright yellow, poppy-like flowers borne in continuous profusion throughout the season. The foliage floats on the surface of the water like a miniature pond lily. It should be planted and cared for in the same manner as water lilies, but cannot be left out in winter. 35c each; 3 for 75c, postpaid.

Sacred Lotus

CHINESE DOUBLE RED LOTUS. The King of Lotus.

Gorgeous, bright rosy-carmine flowers, carried well above the foliage. The best variety for small pools or tubs. Perfectly hardy. \$2.50 each, postpaid.

Siberian Water Lilies

Grow and Bloom in a
15 Inch Bowl

It is not necessary to have an extensive lawn with a large pool in order to grow water lilies. The Siberian, Pigmy or Baby Water Lily can be successfully grown indoors in a small bowl or outdoors in either a small or large pool.

The Siberian Water Lily (Nymphaea Tetragona) is especially suited for small quarters as it never feels cramped. This dwarf variety is the smallest species in cultivation and will grow and bloom indoors in an ordinary 15 inch crock. The leaves are 3 to 4 inches across. The white flowers, 1½ to 2½ inches across, are open from 3 to 4 days, closing at night.

The Siberian Water Lily is a native of Siberia and perfectly hardy. We have no plants to offer. Grows readily from seed. Pkt., 25c.

Other Outdoor Water Plants

Natural ponds and pools contain many small plants, both above and below the surface. They are necessary to maintain a natural and realistic appearance, as well as highly beneficial to aquatic life.

CAT TAIL. Erect growing, graceful native plant.

FLOATING HEART. Rapid growing plant similar to the lilies. Yellow flowers.

FLOWERING RUSH. One of the best for pools. Pink flowers.

GIANT RUSH. Suitable for growing in the corner of the pool.

GIANT ARROWHEAD. Erect growing plant with arrow-shaped leaves and white flowers.

PARROT FEATHER. A rapid growing feathery plant partly submerged. Also makes a fine window plant in a bowl of water.

PICKEREL PLANT. Grows 12 to 18 inches high bearing blue flowers.

PORCUPINE GRASS. Tall reed-like plant striped green and white.

PRIMROSE CREEPER. A shallow water plant with yellow flowers.

SHELL-FLOWER. A good plant for the shaded pool.

SPIDER LILY. A shallow water plant with curious white flowers.

SWAMP CALLA. Desirable for the margins of pools in shallow water.

SWEET FLAG. The native Flag of swamp lands; not an Iris.

UMBRELLA PLANT. Used as a pot plant or in the pool.

WATER FORGET-ME-NOT. An attractive shallow water plant.

WATER HYACINTH. A floating plant with spikes of blue flowers.

WATER IRIS. Blue. Smaller than the yellow variety.

WATER IRIS. Yellow. A tall growing variety with yellow flowers. Grows in wet or dry ground.

Water Hyacinth
(35c Each)

PRICES—35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00, postpaid.

Oxygenating Plants

These plants are indispensable in a water garden or aquarium where fish are present. They absorb many of the impurities of the water and liberate oxygen, which is necessary for the life and health of your fish. They furnish cover and protection for the fish during the heat of the day, and also supply them with green food.

Plants received without roots can merely be placed in the water or potted in soil where they will soon develop a root system.

We offer here a well balanced collection of ten plants for either indoors or out. The collection will contain such plants as Anacharis, Cabomba, Ludwigia, Myriophyllum, Sagittaria, Spatterdock and Vallisneria. 10 for \$1.25, postpaid.

Scavengers for the Pool

Scavengers are the housekeepers of the pool or aquarium and are required in order to keep it in a sanitary condition for your fish. Snails feed on the green scum (algae) that develops in the pool. We will furnish a collection containing a general assortment of snails. 6 for 65c; 12 for \$1.00, postpaid.

FRESH WATER CLAMS. 6 for 65c; 12 for \$1.00, postpaid.

BABY GREEN TURTLES. 2 for 35c; 6 for \$1.00, postpaid.

House Plants and Bedding Plants POSTPAID Bargain Prices

Our greenhouse department offers you a very complete list of house plants that we can supply throughout the year. We exercise the greatest care in packing to insure against frost and breakage in transit. House plant orders are sometimes held up during sub-zero weather, but never for more than a few days.

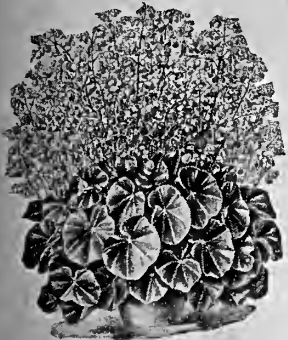

The low prices we charge for small house plants give our customers an opportunity of securing a nice lot of choice plants at very little expense.

WE GUARANTEE ALL POT PLANTS TO REACH YOU IN GOOD GROWING CONDITION and will replace free of charge any that do not, provided we are notified within ten days from date plants reach you. We do not, however, ship house plants outside of the Continental United States except at customer's risk.

Unless otherwise instructed, all house plants will be packed with damp moss on roots and delivered by parcel post, postpaid. We can send them with earth on roots, at the same prices, provided customers are willing to pay the express charges and will order in quantities of ten or more plants. We do not ship plants in pots.

House Plant Seeds

Some of our customers prefer starting house plants from seed. Much enjoyment can be had growing some kinds in this way, so we are offering seed of such varieties as we can supply and recommend. Our house plant seeds are fresh and of the very best strains, and we sell them at the lowest prices for which strictly high grade seeds can be produced.

Beefsteak Begonia

Rex Begonia (Lord Palmerson)—35c Each

Begonias

25c Each;
3 for 65c

Argentia Guttata (Angel Wing or Tree Begonia). Grows 3 to 4 feet tall. Purple-bronze leaves with silver markings; white flowers.
BEEFSTEAK (Feastii). A low spreading Begonia, with circular leaves, red beneath and dark glossy green above, and of heavy texture. Dainty coral-red flowers. The finest pot Begonia for house culture. Grown as easily as a Geranium.

CHRISTMAS RED One of the best flowering Begonias. The flowers are bright cherry color, changing to coral-red. Foliage rich, glossy green, shaded deep bronze. The popularity of this Begonia is well deserved from the fact that it is easily grown and very satisfactory both as a winter house plant and for bedding purposes.

Coralline Lucerne One of the finest and most beautiful varieties. Blooms last from a month to six weeks, borne in immense clusters 12 to 18 inches across, almost hiding the plant. Color bright coral red, changing to delicate pink.

Indian Maid Blackish-brown, metallic foliage and masses of scarlet flowers. Grows 10 inches high; blooms profusely.

LIGHTNING Very brilliant, deep blood red flowers measuring 2 inches across. Foliage dark green, edged with light brown. Grows only 9 inches high.

RUBRA Rich coral-red flowers that hang in large, pendent clusters. One of the best.

HARDY BEGONIA (Evansiana). Here is one of the best house and garden plants; a rapid, healthy grower, very profuse bloomer with beautiful foliage and clusters of large, waxy, pink flowers. The plant winters in the open ground as far north as Philadelphia, and farther north if mulched.

PRICES: Your choice of the above eight Begonias at 25c each; 3 for 65c; 6 for \$1.20.

Argentia Guttata Begonia
Watermelon Begonia

An excellent house plant for the window or table. The leaves withstand the dry air of rooms better than the majority of plants. Leaves thick and waxy-like, are distinctly variegated white and green, and have the appearance of being powdered with frosted silver. Plants, 30c each, postpaid.

16 Varieties of House Plants 25c

Begonia
Calla
Chrysanthemum
Coleus
Cyclamen

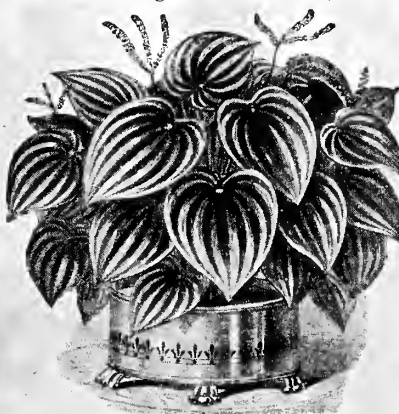

Dracaena
Asparagus Fern
Heliotrope
Cigar Plant
Carnation

Cactus
Fan-Leaf Palm
Geranium
Lantana
Periwinkle
Jerusalem Cherry

You can secure a nice collection of House Plants at practically no cost by sowing this seed in pots or boxes in the house. This collection contains 16 or more varieties that can be easily and successfully grown in the ordinary home. The seed is put up in mixture of varieties, a few seeds of each, and at our price of 25c a packet, a large assortment of plants can be grown for less money than you would pay a florist for one plant. Were you to buy these seeds in separate packets, they would cost you from \$2.00 to \$3.00. We have a good stock of these seeds and expect to be able to supply everyone who wants them, but should our supply of one or more varieties run short, we reserve the right to substitute other choice varieties or return your money. This is a bargain package that will please the most critical lover of house plants. With each packet, we send full directions for planting the seed and caring for same. Pkt., 25c; 5 pkts., \$1.00, postpaid.

Westport Beauty DOUBLE BEGONIA

Such beauty and charm in a plant so compact seems unbelievable. The Westport Beauty Begonia starts blooming when only a few inches high and continues to bloom prolifically as long as it grows. Not just ordinary flowers either. These flowers are a rich, deep salmon-pink, glistening in the light, and so double they seem to fairly burst out from the center. It will prove a most satisfactory house plant, not only because of its lasting qualities and neatness of habit, but also because of its ease of growth. 40c each; 3 for \$1.00.

Watermelon Begonia

Begonia Seed

SEMPERFLORENS HYBRIDS. As a bedding plant, it ranks with Coleus and Geraniums. Of sturdy growth, about one foot high, forming dense bushes, which from May until frost are completely hidden with flowers. As a house plant, it blooms throughout the entire year. A fine mixture of colors, from pure white to deepest crimson. Pkt., 15c.

VERNON. Bright orange-carmine flowers; deep red foliage. A fine house plant and unsurpassed as a bedding variety. Pkt., 15c.

GIANT PAINTED LEAF or REX Begonias

Few house plants are so entirely satisfactory in every way as the Rex Begonias. They are rich in color and beautiful in design and are easily handled under almost any condition. The large, broad leaves, high colorings and exquisite markings make them invaluable as decorative plants for house culture. They make excellent plants for baskets and vases if given plenty of moisture and not exposed to the full rays of the sun. We can supply the following six varieties:

LOUISE CLOSSON. A very odd combination of colors, being deep maroon, with broad band of silvery-rose, edged bronze. The most popular Rex.

LORD PALMERSON. Leaves have dark bronze center, silver band and irregular bronze border, blotched and speckled into the silver.

LESOUDESII. Beautifully marked bronze and red. The finest and largest of the Rex family.

SPECULATA. Leaves bright green with a background of chocolate and veins of light green, and the whole leaf spotted with silver. Individual white blossoms.

BEAUTY OF PEMBROKE. Curled leaf; red and bronze.

PERLE DE PARIS. Large, light silvery foliage. Erect grower; pink flowers.

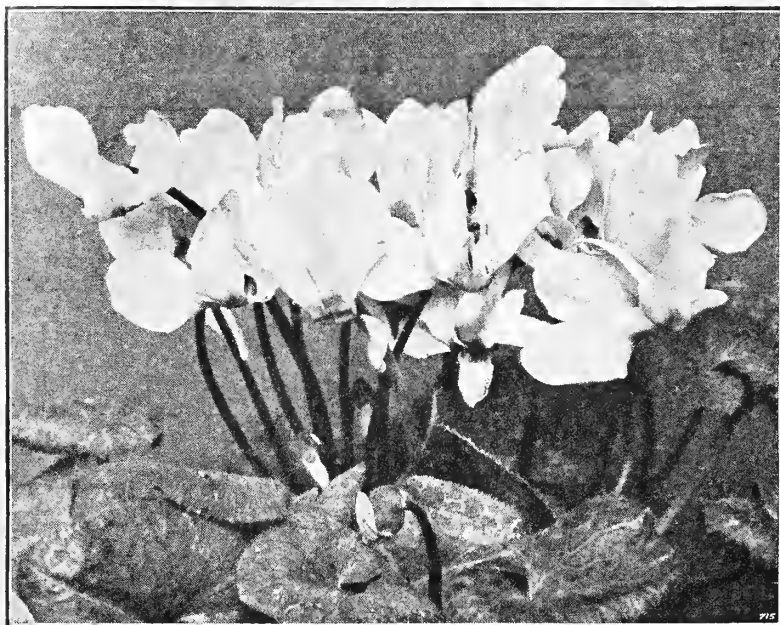

PRICES Your choice of the above Rex or Painted Leaf Begonias at 35c each; 3 for \$1.00; or all six for \$1.75, postpaid.

GROW THEM INDOORS

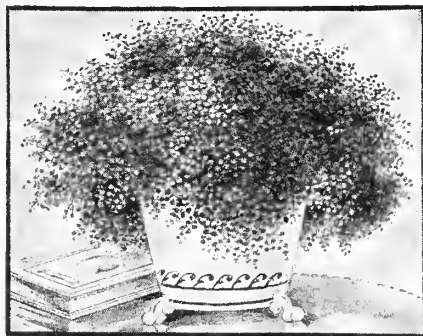

Most Comprehensive Book on House Plants Ever Published. Covers All Problems That Arise in the Successful Growing of House Plants.

For years we looked for a book of this kind to meet the demands of our customers. At last we found it. In this book, explained in simple, non-technical language and clarified by numerous drawings and photographs, are answers to the successful culture of plants indoors. Planting tables, directions for potting and soil mixtures, lighting, watering, feeding, ventilation, insect pests—all house plant problems are brought forth and discussed. Hundreds of plants from all corners of the earth are described; and there is a valuable chart of plants for interior decoration giving colors and flowering calendar. 221 pages. Price—\$1.90 per copy, postpaid.

For Tuberous Rooted Begonias
see page 56

Prize Giant Cyclamen (35c Each; 3 for 85c)

Baby Tears (Helxine)—25c Each

BABY TEARS

(Helxine or Irish Moss.) A compact, dense growing plant with miniature leaves. Of neat habit, and while forming a rounded mass of moss-like foliage, is of partially creeping or drooping tendency, which adds much to its attractiveness. Fine for shaded window boxes; grows easily under living-room conditions. In mild climates may be used in the rock garden and as an edging plant. Plants, 25c each, postpaid.

Bougainvillea

MAGENTA. Beautiful blossoms of brilliant magenta, produced from early March until midsummer. A most desirable window garden plant. Can be trained into a handsome outdoor climber in the South. Plants, 30c each, postpaid.

CRIMSON LAKE. A striking variety with the same habits as the above. The color is a brilliant crimson. Plants, 30c each, postpaid.

FISH HOOK or Candy Cactus

One of the strangest plant curiosities we have ever offered. Covered with hook-like spikes which are exactly the shape of fish hooks and from 2½ to 3 inches in length. The hooks are very hard, almost as strong as steel, and as sharp as the finest manufactured fish hook. It is claimed that they have been used by Indians of the Southwest for fish hooks for many centuries. The famous Cactus Candy is also made from this plant. The Fish Hook Cactus is easily grown from seed. With each packet of seed we will send complete cultural directions and recipe for making the candy. Pkt., 10c; ½ oz., 65c.

Cigar Plant

Cigar Plant

A charming compact house plant, literally covered with scarlet tubular flowers throughout the year. Simple culture. Pkt., 10c. Plants, 20c each, postpaid.

Brazilian Plume Plant

A native of Brazil. It is of the easiest possible culture, and seems to do well everywhere, requiring but little attention. It is a strong, rapid grower, throwing many shoots, each of which is tipped with beautiful pink, plume-like flowers. Plants, 25c each, postpaid.

Cactus Seed

A mixture of 30 choice varieties. Pkt., 10c; ½ oz., 40c.

CYCLAMENS

Cyclamens are, without question, one of the best and most beautiful house plants. Our Cyclamen seed is grown for us by a specialist, seed being selected only from plants of superior bloom and foliage. The flowers are unsurpassed for size, color and substance. The seed we offer is a mixture of bright red, dark red, light pink, deep pink, salmon, white, white with carmine eye, etc. In fact, the colors range from white to darkest crimson, with all intermediate shades.

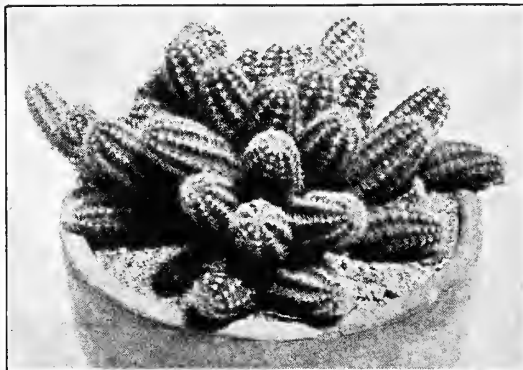

Prize Mixture of Giants. Extra large and choice. Pkt. (10 seeds), 35c.

Good Mixture. A very fine strain, but not as large as our Prize Mixture of Giants. Pkt. (10 seeds), 25c.

Cyclamen Plants—Red, Pink, White. 35c each; 3 for 85c, postpaid.

Artillery Plant

An interesting attractive plant with graceful frond-like foliage and many small flowers. The flowers produce a snapping sound when sprinkled with water and the discharge of pollen gives the effect of smoke. Plants, 25c each, postpaid.

Peanut Cactus

Cactus for Dish Gardens

The Cactus family makes most interesting house plants. Extremely odd and curious. Many have gorgeous and beautiful sweet scented blossoms, and bloom profusely. These oddest of all plants grow in many shapes and sizes, are easily grown, thrive and bloom with very little care, and endure the heat and dryness of the ordinary living room. Plant them in individual small bowls or in dish gardens. We offer a collection of the following:

Bird Nest, Dog Tail, Dwarf Tree, Golden Star, Golden Ball, Lawyer's Tongue, Peanut, Pipe Organ, Powder Blue, Powder Puff, Serpent and Thimble, at 30c each; 3 for 75c; or all 12 for \$2.00, postpaid.

Christmas Cactus

An early flowering crimson-scarlet variety with long, drooping flowers borne in great profusion. Easy to grow. Plants, 25c each, postpaid.

CROWN OF THORNS—(Euphorbia Splendens). Curious plant; fleshy twining stems with long spines; foliage bright green; flowers beautiful coral pink. Plants, 30c each, postpaid.

Giant Angel's Trumpet

The Brugmansia, or Giant Angel's Trumpet, is a magnificent plant. Hardy outside in the South. In the Northern States it can be kept indoors in winter and on the porch or garden in summer. Blooms both winter and summer. Large tropical leaves; beautiful trumpet-shaped flowers nearly a foot long, pure white, and as fragrant as the Jasmine. One of the most gorgeous of all blooming plants. Easily grown from seed. Pkt., 35c. Plants, 30c each; 3 for 75c, postpaid.

Giant Angel's Trumpet

CHINESE BELL FLOWER (Abutilon or Flowering Maple)

Abutilon (Flowering Maple)—4 for 90c

A very decorative plant for the house in winter, and for bedding outside in the summer. In the southern part of United States and in California it can be grown outside as a shrub. Produces attractive maple-shaped leaves and bell-shaped flowers. Will bloom in six months from seed.

SAVITZI. A very popular variety with variegated green and white foliage and yellow flowers.

SNOWSTORM. Green leaves and pure white flowers.

SPLENDENS. Green leaves and deep red flowers.

ECLIPSE. Green leaves blotched with yellow. Flowers salmon pink.

Plants, your choice of the above varieties, 25c each; 4 for 90c, postpaid. Seeds in mixture of varieties only, 25c per packet.

Bird of Paradise

(Poinciana Gilliesii). Rich, golden-yellow flowers with long, incurved, fan-like stamens and pistils of bright crimson. Flowers measure 2½ inches across and are produced in immense trusses. Foliage is also highly decorative. Should be grown as a pot plant, except in the warmer parts of the South, where it is hardy. Pkt., 20c. Plants, 25c each, postpaid.

BROWALLIA

SPECIOSA MAJOR. A conspicuous plant with numerous deep indigo-blue flowers 2 inches in diameter. Blooms continuously. Useful for pot plants, beds and baskets. 20c each; 3 for 40c, postpaid.

Chrysanthemums

24c each; 3 for 63c

12 for \$2.16

The Chrysanthemum is the queen of autumn flowers. For massive blooms, grandeur of colors, ease of culture, and certainty to flower, there is no plant that will surpass them.

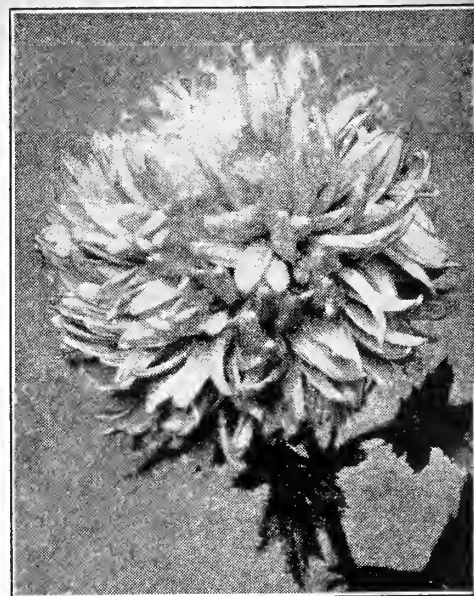

While there are a great many varieties to choose from, we have selected those which we believe will give our customers the most enjoyment.

Gold Lode

Harvard

Enchantress

Giant Exhibition Chrysanthemums

PINK

ENCHANTRESS. Earliest of the large pinks.
LIBERTY BELL. Mid-season. A beautiful new variety with salmon-pink incurved petals.
LUSTRE. Early. A beautiful variety with lavender-pink flowers.
PINK MISTLETOE. Late. A pink sport of Mistletoe. Very popular because of its lateness.
THANKSGIVING PINK. Dark pink.

WHITE

AMBASSADOR. White; largest early variety.
QUAKER MAID. Mid-season. Large, glistening white flowers on straight stems. Fine foliage.
SILVER SHEEN. Pure white; good keeper.
SNOW WHITE. Mid-season. Large snowy white flowers with incurved petals.
WHITE MISTLETOE. Late. The Christmas blush or white; the earlier blooms are soft blush-pink, the terminals are white. Large, globular, quite full incurved blooms on rigid stems.

Baby, Pompon or Button

Perfect miniature double flowers produced from late summer throughout the fall. Will live outside with protection except in the extreme North.

DAINTY MAID. White, tinted pink.
DOROTHY TURNER. Excellent bronze and old gold.
IRENE. Pure white.
JEWEL. Bright pink; good keeper.
MRS. H. HARRISON. Very early. Light day-break pink; when mature, pearly-white.
NEW YORK. Bronze.

YELLOW

FRIENDLY RIVAL. Mid-season. One of the best. Golden yellow with incurved petals.
GOLD LODE. Early. The best early yellow.
GOLDEN GLOW. Early. One of the best earlies. Bright yellow.
GOLDEN MISTLETOE. Late. Free blooming sort with good sized, ball-shaped flower of rich golden yellow. One of the latest to bloom.
HONEYDEW. Canary yellow.

BRONZE AND RED

HARVARD. Late. Large crimson-scarlet flowers, full double with reflexed petals. One of the best.
INDIANOLA. Light bronze.
MRS. DAVID LLOYD GEORGE. Mid-season. Extremely large, often measuring nine inches across. Rich crimson with gold tipped petals. Vigorous and healthy.
OAKLEAF. Dark bronze. Late.

Anemone Flowered Chrysanthemums

An attractive novelty type having a high, tufted crown surrounded by a single row of broad outer petals.

BRONZE BUCKINGHAM. Bronze.
NORMA. Orchid pink petals, with golden-pink cushion.
ROLINDA. Orange-bronze.
SUZANNE MILLER. Bright yellow.
WHITE NORMA. White sport of Norma.

Snow White

BARGAIN PRICES

on Chrysanthemums

Take your choice of the Chrysanthemum plants listed on this page, at 24c each; 3 or more at 21c each; or 12 or more at 18c each, postpaid.

House Plant Food 15c

Healthier plants and more and better blooms if you use "Soil-Vitamines." Clean, odorless and easy to use. Not a B-1 product. House Plant Size, 15c.

Coleus Seed

LARGE-LEAVED RAINBOW HYBRIDS. Leaves often measure 10 inches in length and 8 inches in width, heart-shaped and beautifully crimped, toothed and frilled; handsomely variegated and with color combinations that are remarkably rich. The finest strain of Coleus seed ever offered. Pkt., 15c; 1/2 oz., 50c.

SEVEN
COLEUS
PLANTS
87c

Coleus

Fancy Leaved Coleus

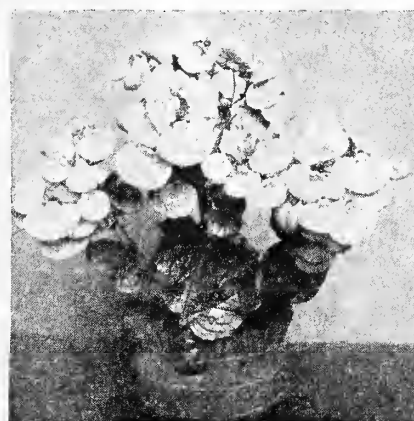

Probably the most popular of all foliage plants for bedding purposes and used equally as well as a winter plant or window box specimen.

AUTUMN TINTS. Red, blotched yellow.
BUTTERFLY. Light green leaves splashed bronze.
FIRE BRAND. Dazzling scarlet. One of the showiest.
SENSATION. Maroon with red center.
SUNRISE. Light vermillion edged green and yellow.
YELLOW BIRD. Bright golden yellow.
TRAILING QUEEN. An excellent variety for hanging baskets, vases and porch boxes. Center of leaves fiery red surrounded by deep maroon and edged olive green.

PRICES: Your choice of above varieties at 20c each; 3 for 40c; 6 for 75c; or all 7 for 87c, postpaid.

Giant Cineraria

Calceolaria

CALCEOLARIA

An ornamental house plant, producing a mass of beautiful pocket-like flowers in the spring; a universal favorite with florists. The Calceolaria is grown from seed. Our select strain of seed is, we believe, the finest in cultivation; flowers large in size and beautifully spotted and blotched in exceedingly rich and varied colors; very free flowering. No plants to offer. Seed, 35c per packet.

GIANT CINERARIA

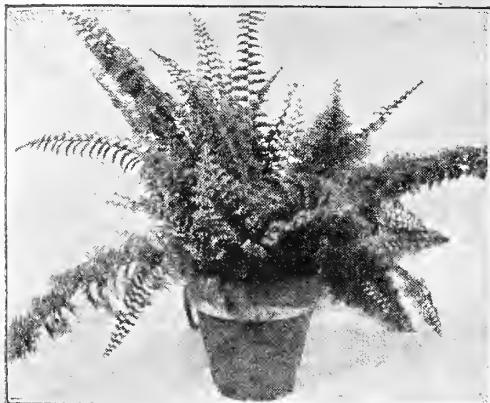

Our Giant Exhibition Strain of Cineraria is unsurpassed in size of flower, bright colors, and delicate fragrance. Plants grow into round bushes, completely covered by the massive flowerheads. For Christmas blooming, seed should be sown in April; for blooming during early spring, June or July sowing should be made. Pkt., 25c. Plants, 25c each, postpaid.

CARNATION

CHABAUD GIANT IMPROVED. This is a particularly fine strain of giant-flowering Carnations which will bloom the first year if seed is sown early in the Spring. The plants make compact bushes 2 to 3 feet tall and bear, on tall stems, a mass of nicely fringed, intensely fragrant double flowers. In many sections of the country they do well outdoors. Our improved strain comes 90% double. Seed in mixture of colors only. Pkt., 10c; 1/2 oz., 45c; 1/4 oz., 80c.

LARGE-FLOWERED CARNATION PLANTS. Separate colors —Pink, White, Red and Yellow —25c each; 3 or more at 20c each; or 12 or more at 15c each, postpaid.

A Kentucky customer reports a 1 1/4-lb. lemon and a larger one still growing. See page 26 for lemon plants.

Ostrich Plume Fern

Fern Dish Collection

We grow an assortment of small, odd-shaped Ferns that are just the right size for jardinières and small fern dishes. We offer them in collections only of 6 distinct varieties of our own choice for only 85c, postpaid.

Asparagus Ferns

PLUMOSUS (Lace Fern). Very finely divided feathery foliage. Seed, 15c per packet. Plants, 20c each; 3 for 50c, postpaid.

SPRENGER (Feather Fern). Long, drooping branches; fine for hanging baskets and window boxes. Seed, 15c per packet. Plants, 20c each; 3 for 50c, postpaid.

Fertilizer for Ferns

Your Ferns will grow better and be more beautiful if you fertilize them with "Soil-Vitamins." Not a B-1 product. Special small size for Ferns and House Plants, postpaid, 15c; 2 packages, 25c.

DRACAENA

Ornamental Foliage Plants

INDIVISA. Very graceful, slender, drooping leaves of several shades of green. An exceedingly handsome ornamental plant. Pkt., 10c; 1/4 oz., 35c. Plants, 20c each, postpaid.

TERMINALIS. One of the finest of ornamental foliage plants and of easy culture. In mature plants, the long broad leaves are a rich crimson marked with pink and white. Plants, 50c each, postpaid.

Burgess' Fuchsias

One of the most desirable house plants grown. In most varieties the sepals and corolla are of a different color, making a very pleasing combination. Of easy culture and will thrive in the temperature of an ordinary living room.

Fuchsia (3 for 60c)

BLACK PRINCE. A very free flowering variety. Brilliant, waxy carmine.

CARMELIATA. The finest of all double white Fuchsias. Very free flowering; scarlet and pure white.

IRWIN'S GIANT PINK. Gigantic flowers of beautiful salmon-pink.

LIBERTY BELL. Largest flowering Fuchsia in cultivation. Tall and branching like a tree. The glossy green leaves are veined crimson. The enormous scarlet and purple flowers, 3 1/2 inches across, are very double.

LITTLE BEAUTY. One of the most desirable varieties in cultivation. Neat, compact habit, well branched and a constant profusion of bloom. Scarlet and violet-purple.

TROPHÉE. An easy variety to grow and a continuous bloomer. Double flowers, waxy white and violet-blue.

TRAILING QUEEN. Entirely different from other varieties in its trailing habit. A good subject for the fernery or hanging basket. Flowers scarlet and purple produced in large drooping clusters.

PRICES Take your choice of the above Fuchsia plants at 25c each; 3 for 60c, postpaid.

For Hardy Fuchsia for outdoor planting, see page 41.

Fuchsia Seed

A fine mixture of varieties. Pkt. (20 seeds), 30c; 3 pkts., 75c.

Choice House Ferns 25c Each 3 for 65c

BOSTON. A wonderful Fern with long, drooping fronds (leaves) which often attain a length of 6 to 8 feet.

BOSTON SWORD. Different from the drooping Boston; grows upright; fine for center pieces in porch boxes and vases.

GOLD MEDAL (Colorado). Upright grower with broad, heavy foliage. A truly fine variety and one of the easiest to grow.

MAIDEN HAIR. An exceedingly beautiful and healthy dark green variety, the fronds of which are developed at the ends into bunching tasseled heads. A most desirable house plant; nothing else like it.

MOSS FERN. An upright growing plant with numerous feathery stems branching from the base and forming a dense tuft. Grows only 10 to 12 inches high.

OSTRICH PLUME. One of the easiest and healthiest ferns to grow. Each frond is delicately cut and curved somewhat resembling the grace of an ostrich plume. Fronds often measure a foot in width.

SELAGINELLA BROWNII. A new dwarf fern; very compact, low growing. Used extensively in small containers; grows like Baby Tears.

Silver Fern

ROOSEVELT. Dense, massive, broad fronds, often measuring 6 inches or more across and 5 or 6 feet long. The divided pinnae or miniature fronds which are so gracefully arranged, keep growing constantly, overlapping each other and showing two shades of green, while the center and main part of the frond is rich dark green, the contrast producing a beautiful effect.

SHAKING FERN. Large graceful fronds that shake and quiver with the slightest movement of the air.

Silver Fern Light green fronds with a band of silver. A most unusual fern and of very easy culture.

TEDDY JUNIOR, or Dwarf Roosevelt. A dwarf variety which produces more fronds than any other fern, producing 40 to 50 fronds 12 to 15 inches long in a 4-inch pot. A plant of rare beauty. Thrives to perfection in the average living room without special care or attention.

WHITMANI. A dense, compact Fern of graceful appearance. Wonderfully valuable on account of its easy culture and hardiness.

Dark green, irregular shaped fronds, which are heavily imbricated, the pinnae overlapping and so formed as to resemble miniature ferns.

PRICES—Take your choice of the above Ferns at 25c each, or 3 for 65c, postpaid.

French Hydrangeas

These are the Hydrangeas that are so extensively grown by florists. They are especially adapted for pot or tub plants for indoor, porch, lawn or garden decoration. In some soils the flowers turn blue, and this color can be secured artificially by mixing one-half pound of broken alum with each one-half bushel of soil. These Hydrangeas are easily grown and will many times repay you for the little time required in caring for them. Hardy out of doors in mild climates.

BLUE PRINCE. Immense flower heads of lavender-pink changing to blue under soil conditions described above.

GERTRUDE GLAHN. Very large flowers of dark rose-pink.

HELGE. Deep carmine red and very early.

LE CYNE. Large pure white flowers. The leading white variety.

MARECHAL FOCH. A very popular variety because of its earliness. Very early and a good forcer. Flowers of deep carmine.

MME. CHATTARD. Large deep salmon-pink florets in immense, compact flower heads.

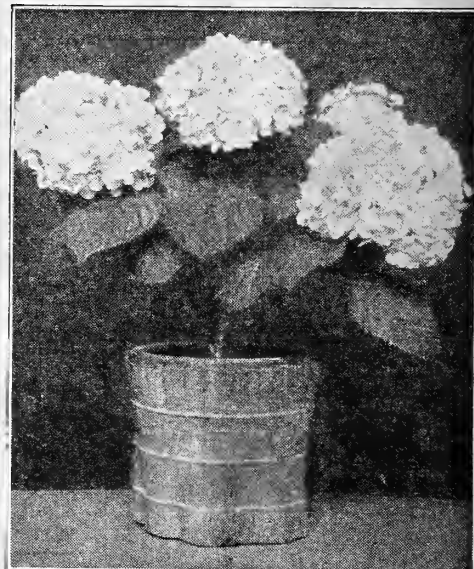

PRICES: Your choice of above Hydrangeas at 30c each, postpaid.

Night Blooming Jasmine

A highly prized house plant. Richly fragrant blooms; very sweet at night. 30c each.

Special Offer

6 French Hydrangeas, one of each of the above varieties, for only \$1.50.

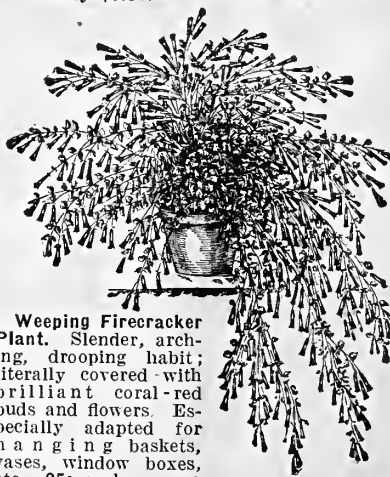

French Hydrangea (30c Each)

GARDENIA

The Flower of Romance

The Gardenia is the most fashionable flower of today. It is as much in esteem as the Orchid, but less expensive. It makes a grand house plant. The beautiful, waxy-white flowers together with the glossy, green foliage make an almost "fairy-like" combination. It is a picture difficult to visualize. The plants like a warm livingroom temperature. Pot the plants in a rich, sandy sod loam that has been finely screened and keep moist but not wet. These instructions are simple, but they will grow an aristocrat in flowerdom. Plants, 40c each; 3 for \$1.00, postpaid.

Weeping Firecracker Plant. Slender, arching, drooping habit; literally covered with brilliant coral-red buds and flowers. Especially adapted for hanging baskets, vases, window boxes, etc. 25c each.

HELIOTROPE

These are universal favorites on account of their delightful fragrance. Flower equally well as bedding plants in summer or as pot plants during the winter.

MIDNIGHT. Darkest lavender-purple; giant flowered.

PICCOLA. Large, blue flowers.

SNOW QUEEN. Large, pure white flowers.

Plants: 25c each; all 3 for 60c.

SEED. Fine mixture, all colors; large flowers. Pkt., 15c; 1/2 oz., 50c.

IMPATIENS

Sultana Hybrids

One of the most beautiful and free blooming bedding or house plants. They produce a great abundance of bright colored flowers which are well shown off by a background of heavy, rich foliage. Colors pink, orange-pink and brilliant vermilion. Continuous bloom may be expected from July to October. We can supply both seed and plants in finest mixture of colors. Pkt., 25c; 1/2 oz., \$1.00. Plants, 25c each, postpaid.

"Blue" Geranium

Duke De Montmort. Commonly known as the "Blue" Geranium due to its unusual and striking color, a rich soft purple. This variety has attracted great attention and is becoming immensely popular. It is of splendid habit and growth; blooms freely and starts remarkably early, often in a two-inch pot. 30c each; 3 for 75c, postpaid.

Poinsettia Geranium

This Geranium is remarkable for the distinctive nature of the flowers. The flowers are dazzling scarlet and resemble miniature Poinsettias in both color and shape. The flower clusters are of good size and prolifically produced. It is ideal for bedding as well as potting, being constantly in flower. 40c each; 3 for \$1.00, postpaid.

Poinsettia Geranium

Scented-Leaved Geraniums

LEMON. Foliage strongly lemon-scented. An old favorite.
NUTMEG. Foliage has the fragrance of the Nutmeg. Flowers pink.

OAKLEAF. Oak-shaped leaves; walnut scented. Flowers pink.

PEPPERMINT STICK. Soft velvety leaf, slightly scalloped, peppermint fragrance. White flowers.

ROSE SCENTED. Red flowers, rose-scented foliage.

SKELETON LEAF. One of the most popular of the scented leaved varieties. Deep cut fern-like foliage; cerise flowers.

Stars and Stripes

Sweet-scented foliage. Flowers double, white, striped with red. Well named "Stars and Stripes." A rare novelty.

Your choice of the above varieties, 25c each; 3 for 60c; 6 for \$1.00, postpaid.

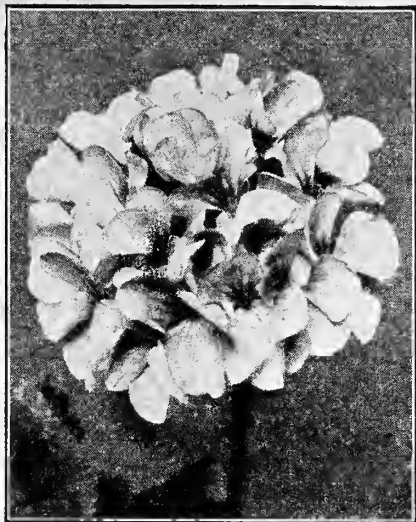

English Ivy

ENGLISH IVY

Very popular as a house plant. Fine for window boxes, hanging baskets, etc. 25c each; 3 for 50c, postpaid.

DOUBLE GERANIUMS

Fancy Leaved Geraniums

GOLDEN BRONZE. Foliage bright golden yellow with wide zone of chestnut-brown and scarlet flowers.

HAPPY THOUGHT. Dark green foliage, creamy center with dark zone. Scarlet flowers.

MME. SALLEROI. Small green leaves, edged white. Small variegated flowers of pink and white.

MRS. POLLOCK. Foliage bronzy red, bordered crimson and edged yellow. Flowers orange-red.

VARIEGATED S. A. NUTT. Leaves edged white; flowers crimson.

WM. LANGGUTH. Foliage deep green with pure white margin. Double brilliant scarlet flowers.

Your choice of the above varieties, 30c each; 3 for 75c; 6 for \$1.30; or 12 for \$2.40, postpaid.

ALPHONSE RICARD. Enormous trusses of semi-double flowers of brilliant orange-red. One of the best.

AMERICAN BEAUTY. Extremely large heads of two inch flowers resembling the American Beauty Rose in color. Foliage green and brown.

BEAUTE POITEVINE. Apricot with white eye.

IRVINGTON BEAUTY. Clear rosy-salmon. Always in bloom.

MME. BUCHNER. Large flowers of pure white. Vigorous grower.

PEACH BLOSSOM. Peach-pink shading to white.

PINK BEAUTY. Beautiful shade of clear rose-pink. One of the best.

RADIO RED. Brilliant scarlet. A good bedder, and a free bloomer.

SENSATION. Bright flame-red flowers with velvety foliage.

VIOLET BEAUTY. Unusual color in Geraniums. Rich velvety violet tinged red.

Your choice of the above varieties, 20c each; 3 for 50c; 6 for 90c; or 12 for \$1.50, postpaid.

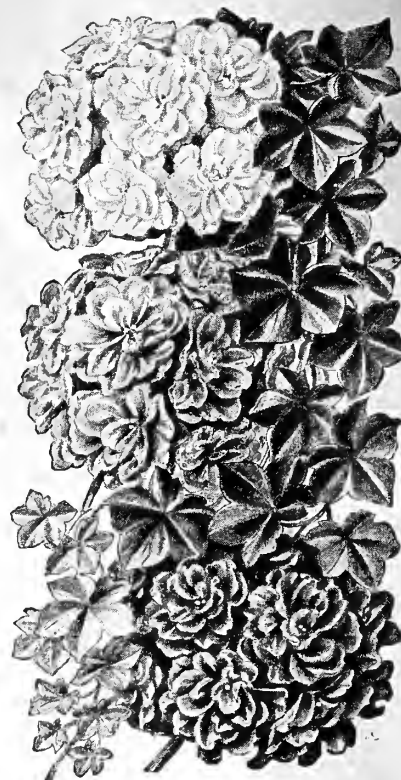

Double Silver-leaved Geranium,
Wm. Langguth
(30c Each)

"SOIL VITAMINES" will make Geraniums and other plants grow and bloom better. Not a B-1 product. House Plant Size, 15c.

Geranium Seed

A superb strain of the finest American and European varieties, many of them with zoned and variegated leaves. A choice mixture of all colors. Very interesting to grow from seed, and easily grown. Pkt., 15c; 1/2 oz., 50c.

Trailing Ivy Geraniums

IVY GERANIUMS

Of trailing habit, with ivy-shaped foliage and flowers of exquisite colors. Fine for hanging baskets and urns. Your choice of colors: Pink, Red and White. 25c each; 3 for 60c, postpaid.

Strawberry Geranium

Leaves nearly round, striped freely with silver bands; blooms white, and borne in spikes nearly 12 inches high. The plant is of easiest growth; will stand neglect and mistreatment; adapted for hanging baskets, vases, etc. 25c each, postpaid.

Pansy Geraniums

(Pelargonium or Lady Washington)

The gorgeous colorings of the Pansy Geraniums rival the Azalea for beauty. They are very free bloomers and of easy culture.

EASTER GREETINGS. Fiery amaranth-red. Gorgeous.

EDITH NORTH. Rosy-pink. A grand variety.

GARDENER'S JOY. Apple blossom pink. Beautiful.

MME. LAYLE. A most unusual variety because of its color, a combination of pink, white, purple and black. A beautiful flower and a profuse bloomer.

SCHWABEN MAID. Large reddish-carmine with black blotches. A fine variety.

SPRINGTIME. An unusual shade of salmon-pink.

Your choice of the above varieties, 30c each; 3 for 75c; 6 for \$1.30; or 12 for \$2.40, postpaid.

LOBELIA

SAPPHIRE. A beautiful trailing plant; a mass of large sapphire-blue flowers with white eye; never out of flower. A most desirable plant for pots, baskets, urns, beds and borders. Pkt., 20c. Plants, 20c each, postpaid.

HYBRIDS. Delicate blue and white flowers. Pkt., 15c; 1/2 oz., 50c.

WATER IVY (Parlor Ivy)

A rapid growing trailing plant especially suited for indoor hanging baskets, vases and trellis work. Small glossy green leaves and clusters of yellow flowers. Grows in either soil or water. Plants, 20c each, postpaid.

Chinese Hibiscus

The Chinese Hibiscus in bloom is one of the most striking plants in existence. The well formed flowers are of immense size. A popular outdoor plant in mild climates, and a wonderful house plant in the North.

BRILLIANT QUEEN. Bright grower. Extremely large double flowers, vermilion-scarlet. One of the best.

COLLERII. A pleasing canary yellow, with a dark eye; very double and good size bloom.

GRANDIFLORA. Rich Flaming Scarlet.

MINIATUS. Bright Vermilion.

ORANGE BEAUTY. Large double orange flowers. Very attractive.

PEACHBLOW. Rich clear pink. Double.

SUBVIOLEACEOUS. Enormous violet tinted flowers.

Prices: Your choice of the above Hibiscus plants, at 25c each; 3 for 60c, postpaid.

Jerusalem Cherry

A very showy house plant, loaded with ornamental "cherries," which turn to glossy scarlet when ripe. Fine for Thanksgiving and Christmas decoration. The bright cherries, which are not edible, will hang on the plant all winter; foliage always green and very ornamental. Pkt., 15c; 1/2 oz., 50c. Plants, 25c each; 3 for 60c, postpaid.

Musk Plant

(Mimulus Moschatus). The musk scented foliage of this variety perfumes the spot where it is grown. Chiefly a foliage plant but it bears numerous small pale yellow tubular flowers. Pkt., 20c.

Chinese Hibiscus (3 for 60c)

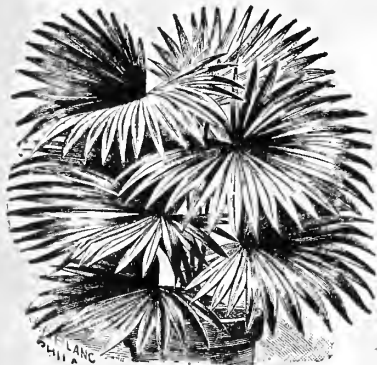

SPECIAL Seven Hibiscus — one of each variety — for only \$1.25, postpaid.

Night Blooming Cereus (30c Each)

Night Blooming Cereus

A sub-tropical plant native of Mexico. The large white flowers commence to open after sun-down and are at their best about midnight. When fully developed they often reach twelve inches in diameter and over two pounds in weight. Of easy culture when grown indoors. 30c each; 3 for 75c, postpaid.

Giant Fan-Leaved Palm

Umbrella Palm

Oleander (25c Each)

SWAN FLOWER

(Swainsonia)

Lovely sprays of sweet-scented blossoms like Sweet Peas. A very pretty plant, both for flower bed and house culture. Red or White, your choice of colors, 30c each; 2 for 50c, postpaid.

Everblooming Lantanas

An unexcelled bedding or border plant; also used as a pot plant, in hanging baskets, porch boxes and vases. Almost constantly in bloom.

CRAIGI. Dark, cardinal-red, center studded with gold.

DELICATISSIMA. Large flowers. Yellow in early stages, shading to pink as bloom gets older.

GOLDEN QUEEN. Beautiful deep golden yellow.

JACOB SCHULTZ. The best of the deep red varieties.

Prices of Lantana Plants: Your choice, 20c each; 3 for 50c, postpaid.

LANTANA SEED Everblooming Hybrids. One of the most desirable half-hardy perennial house or bedding plants. Verbena-like heads of orange, white, rose, crimson and various red shades; constantly in bloom. 2 to 3 feet. Fine mixture of colors. Pkt., 15c.

JADE PLANT

or Japanese Rubber Plant

An attractive novelty from the Orient. Thick, waxy foliage; will withstand the hot dry atmosphere of the average living room. A fine pot plant. 20c each.

MONKEY FLOWER (*Mimulus Tigrinus*). Attractive, large, tubular flowers beautifully tigers and blotched in many colors on yellow ground. Pkt., 10c; 1/2 oz., 45c.

PASSION FLOWER

There are few flowers more lovely than the showy waterlily like blooms of this semi-tropical evergreen climber. The fragrant pink, blue and white flowers are followed by ornamental, edible fruits which are fine for salads and preserves. Hardy in the South, but does better indoors in all Northern States. Plants, 25c each; 3 for 60c, postpaid.

Mrs. Mary M. Kubiak, Avon, Ohio, writes as follows: "Last year I bought from you two Passion Flower plants. They certainly are wonderful. All our neighbors marvel at them."

PHILODENDRON A popular tropical vine for hanging baskets, vases and window boxes. Large glossy pear-shaped leaves. One of the few vines that will succeed without full light. 25c each; 3 for 60c, postpaid.

Giant Fan-Leaved Palm

The finest of all Palms, and easily grown from seed. Elegant fan-shaped leaves of a rich, dark green; beautifully fringed with long, thread-like filaments along the segments of the leaves. The plant is a compact grower, well adapted to pot culture, and succeeds in any situation. Needs no petting; stands dust and dry air; lack of sunshine does not bother it. Seed, 35c per packet. One-year plants ready to develop fan-shaped leaves, 50c each, postpaid.

Kentia Palm The most popular Palm. Stands more neglect than most varieties. Graceful, curving leaves; bright green foliage. 50c each, postpaid.

Japanese Umbrella Palm (*Cyperus Alternifolius*). Not a true palm, but handsome ornamental palm-like plant. Grows in water or soil. Pkt., 15c. Plants, 35c each.

OLEANDER

No plant makes a more handsome specimen for tub, pot or box culture for the house, veranda or yard. Large, double blossoms, as pretty and as fragrant as a rose. We can supply plants in separate colors, Red, White, Pink, Salmon and Yellow, at 25c each; 3 for 65c; 5 for \$1.00, postpaid.

VARIEGATED-LEAVED. Leaves bordered creamy white. Double pink flowers. Very attractive. Plants, 30c each, postpaid.

Philippine Copper Plant

MANDARIN'S GOWN (*Acalypha Tricolor*). About the highest colored foliage plant known. Large, beautiful, copper-colored foliage, with blotches of crimson-bronze. Highly tri-colored and of tropical appearance. Easily grown. Plants, 25c each, postpaid.

PERIWINKLE (Vinca)

ROSEA. Glossy laurel-like foliage; pretty pink and white flowers 1 1/2 inches across. Never out of bloom all summer and fall, as bedding plants, and if taken up and potted they bloom all winter in the house. Never troubled by insects or disease. Seed (mixed colors only), pkt., 15c; 1/4 oz., 50c. Plants, either Pink or White, 20c each, postpaid.

VARIEGATED TRAILING. A beautiful plant for hanging baskets and vases. The leaves are glossy green, broadly margined creamy-white; flowers blue. 20c each, postpaid.

SENSATION. Large flowers of pink with yellow centers.

SNOW WREATH. Pure White.

WEeping LANTANA (*Russelia Elegantisima*). Very striking semi-trailing plant, especially adapted for hanging baskets, vases, window boxes, etc. Large clusters of lilac or rosy-pink flowers. Very beautiful.

Lantana Sensation (20c Each)

KALANCHOE

FEDTSCHENKOL. Bluish foliage; bell-shaped orange flowers. 20c each.

GLOBULIFERA COCCINEA. Brilliant cerise-scarlet flowers in February, March and April. 25c each.

ROYAL PURPLE PLANT

Universally popular on account of its brilliant and exquisite coloring. Surpasses the finest Coleus or Begonia in the color of its leaves. 25c each; 3 for 60c, postpaid.

Royal Purple Plant

Blue Lily of the Nile

A splendid ornamental plant with bright evergreen foliage spreading 3 or 4 feet and surmounted with spikes of bright blue flowers which remain in bloom for a long period. It is a most desirable tub plant for porch or lawn. Should be wintered in the cellar or greenhouse. Seed, 15c per packet. Plants, 25c each, postpaid.

POINSETTIA

Christmas Red

Tropical plant with brilliant red bracts surrounding the flowers. Too well known to require much description. Indispensable for table decoration and for cut flowers at Christmas time. Plants, 30c each; 3 for 75c, postpaid.

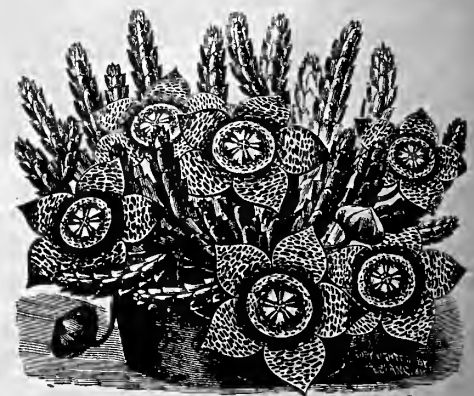

STARFISH

or Jewel Flower

(*Stapelia*). A branching succulent plant from Africa, somewhat resembling a Cactus. Produces grotesque star-shaped flowers nearly two inches across, spotted yellow and brown. A very attractive plant and a great curiosity. 20c each, postpaid.

Rubber Plant

(*Ficus Elastica*). Dark green, shiny foliage. 80c each, postpaid.

Starfish or Jewel Flower (Stapelia)

FAIRY OR BABY ROSE

Roses from Seed the First Year

One of the most unique and novel pot flowers grown. The only genuine dwarf house Rose, blooming in three to five months after sowing the seed, giving about equal proportions of single, semi-double and double flowers, borne in clusters and contain all the tints and colors of cultivated Roses. Plants from seed sown in February in the house may be had in bloom in June, and should bloom continuously month after month. Seed in mixture of colors only. Pkt., 15c. Plants in separate colors — Red, Pink, White—at 25c each; 3 for 60c, postpaid.

PRIMROSE (Obconica Grandiflora)

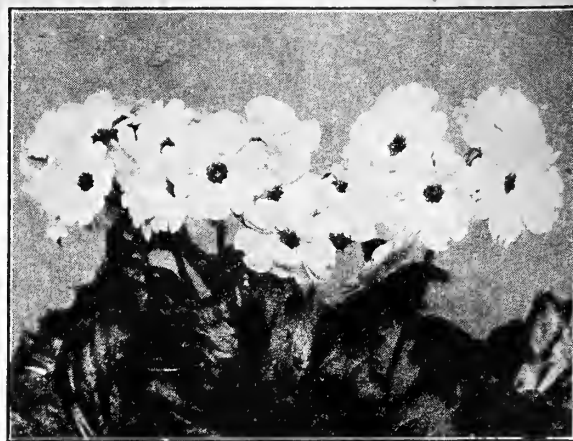

One of the finest and most important winter blooming pot plants. Can be easily grown in any light window, flowering abundantly and continuously, bearing immense trusses of large flowers in choice assortment of colors, from pure white and soft pink through the different shades of rose and red to the brightest crimson. Pkt., 15c; 1/4 oz., 80c.

Plants in separate colors—Red, Pink, White—at 25c each; 3 for 60c, postpaid.

SHOWER OF GOLD (Genista)

This beautiful plant well deserves the great popularity it has gained. The drooping branches are covered with delicate sage-green foliage, and every twig tipped with a long raceme of exquisite pea-shaped blossoms of rich golden yellow, almost hiding the foliage. Grows and flowers freely with ordinary care, and is usually a mass of bloom at Easter time. 25c each, postpaid.

SILK OAK or **AUSTRALIAN SILK** (Grevillea). Long, drooping, silky, fern-like foliage. An excellent pot plant for the house, where it grows from one to five feet, depending upon size of pot in which it is grown. Pkt., 10c; 1/4 oz., 30c. Plants, 20c each, postpaid.

Primrose Obconica Grandiflora (3 for 60c)

WAX PLANT

Hoya Carnosa or true Wax Plant is an easily grown climbing house plant suitable for window gardens and trellis work. Umbels of fragrant, waxy, white flowers with pink centers, produced in succession. The shining, succulent, dark green foliage makes it an interesting plant even when not in bloom. Plants, 35c each, postpaid.

SHOO-FLY PLANT

AFRICAN VIOLET

(Saintpaulia ionantha). A charming little pot plant producing violet-blue flowers resembling violets. The foliage is similar to that of the Gloxinia. Blooms luxuriantly during the winter months. Plants, 30c each, postpaid.

SMILAX

Graceful window vine with small, glossy, green leaves; fine for vases and hanging baskets. Easy to grow. Pkt., 10c; 1/4 oz., 30c. Plants, 20c each; 3 for 50c, postpaid.

SNAKE PLANT

(Sanseveria). A most striking decorative foliage plant. No other house plant stands as much downright neglect and hardship. It will stand gas and dust and will go for months without a drop of water. 20c each, postpaid.

GOLDEN STRIPED SNAKE PLANT (Sanseveria Laurentii). This new variety has all the good qualities and habits of the above and in addition has a band of creamy yellow on the outer edges of the leaves. 35c each, postpaid.

SHOO-FLY PLANT It is said that flies will not stay in a room where it is grown if they can conveniently escape. What there is about it that repulses them is not clear, as the plants and flowers have no odor. It is a beautiful flowering plant, and blooms in a short time (60 days) from seed. It is a profuse bloomer in pots both summer and winter, the blossoms being large, cup-shaped and of a lovely light blue color with white center. Pkt., 10c; 1/4 oz., 60c.

Snake Plant (Sanseveria)

WEATHER PLANT

(Abrus Precatorius). If the leaves stand upright the weather will be fine. If they stand out straight, changeable weather is expected, and the leaves droop or "go to sleep" during a storm. Light purple flowers; brilliant red seeds which are used for beads. Pkt., 15c.

WANDERING JEW. Will grow in either soil or water. Foliage plain green, variegated green and white, or green and purple. 20c each.

LEMON VERBENA Low growing plant with fragrant lemon-scented foliage and white flowers. May be grown in the garden in the summer and in pots in winter. Its delightfully scented foliage is fine for bouquets; leaves may be dried and laid among linens. Plants, 25c each.

PLANT SPRAYER 75c

Essential to the success of house plants, and keeps the foliage fresh and healthy.

Sprays Under the Leaves, the Most Important Place to Spray.

Excellent for Sprinkling Newly Sown Seed, as it will not wash them out. Also for spraying cut flowers and sprinkling clothes before ironing and any surface before sweeping.

Easy to fill. Simply compress bulb and hold spray end in liquid and then relax pressure on bulb.

A pressure on the bulb ejects the water in a fine spray.

Price, 75c, postpaid.

Both for \$1.25

One Plant Sprayer and one Insect Powder Blower, the two for \$1.25 if both are ordered at one time. Order today. Both, postpaid, \$1.25.

Insect Powder Blower

The most outstanding household duster on the market. Efficient and practical. Every home in which house plants are grown needs one of these little powder guns. Also indispensable for dusting rose bushes and other small outdoor plants. Made of best grade rubber and fitted with brass screw top. Screen to prevent powder clogging. Up to date and within reach of modest purse.

Price, 75c, postpaid.

SLUG SHOT DUST

The safe, non-poisonous, dusting insecticide. Kills Cucumber, Melon and Squash Bugs, Bean Beetles, Cabbage Worms, Potato Bugs, Green Flies, Slugs and all chewing insects, and controls fungus. Harmless to humans, pets, plants, flowers and vegetables, but deadly to leaf-eating insects and fungus. Easy to use—simply dust it on. 1 lb. (in perforated tin top canister), 35c; 5 lbs., \$1.35, postpaid. By express, not prepaid, 1 lb., 25c; 5 lbs., \$1.00; 25 lbs., \$3.00; 125 lbs., \$12.50; 250 lbs., \$24.40.

Grape and Rose Dust

Prevents Mildew and Black Spot. Successful Rose growers, Grape growers and florists everywhere use this non-poisonous fungicide. Safe to use—will not harm any pet or human. Easy to use—simply dust it on. Green in color—not unsightly. 1 lb., 45c; 5 lbs., \$1.60, postpaid. By express, not prepaid, 1 lb., 35c; 5 lbs., \$1.25; 25 lbs., \$6.25; 100 lbs., \$22.00.

KILL MITES and TERMITES

Apply Once a Year—Guaranteed

There is only one sure way to rid your poultry houses of Mites, Blue Bugs and Fowl Ticks—apply genuine Avenarius Carbolineum with either brush or sprayer. Guaranteed for a full year. Also preserves wood and Stops Termites. Adds at least 100 per cent to the life of fence posts, poles, sills, floors, etc. On the average smooth surface, about one gallon will be required for each 200 sq. ft.; on rough or porous surface, about 100 sq. ft. per gallon.

PRICES—1 gallon, \$1.50; 5 gals., \$7.00, f.o.b. Galesburg.

TREAT your SEEDS

Against Rodents and Birds

NO-CROW insures seeds against attacks of crows, doves, blackbirds, larks, pheasants, starlings and all other seed-pulling birds and rodents such as moles, squirrels, gophers, woodchucks, etc., during the germinating and rooting period. 1/2 pint can (enough to treat one bushel seed), 60c; pint, \$1.00, postpaid.

ROTENONE

The SAFE Insecticide

Forty times more powerful than arsenate of lead as a stomach poison, and fifteen times more effective than nicotine, yet harmless to humans and animals. Dry powder—easy to use—no water, no mixing, no muss. Perfect control for leaf-eating insects on all crops. Recommended for Mexican Bean beetle, cabbage and tomato worms, cucumber and melon beetles, aphids, and most bothersome insects. 1 lb., 40c; 5 lbs., \$1.05, postpaid. By express, not prepaid, 1 lb., 30c; 5 lbs., 70c; 25 lbs., \$3.20; 50 lbs., \$6.10.

More Roots

ROOTONE

Reg. U. S. Pat. Off.

the PLANT HORMONE POWDER

Dip Cuttings for Quicker, More Successful Rooting. Dust Flower Seeds and Bulbs for Better Germination, Stronger Plants and Earlier Flowering. Dust Vegetable Seed for Earlier and Bigger Crops.

25c Package (about 1/4 oz.)—Will treat up to 400 cuttings; 2 1/2 to 10 lbs. of seed; 25 to 30 seed packets; or 100 bulbs—just right for the small gardener. 25c, postpaid. 2 oz. Jar \$1.00, postpaid.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

BULBS

For Outdoor Spring Planting and Indoor Winter Planting

Everyone succeeds in growing flowers from bulbs, and with very little care excellent results may be obtained. The hardy bulbs, when once planted, will live outdoors for years without being disturbed. The most of the tender varieties, if taken up and given a period of rest, may be re-planted each year and, handled in this way, the previous year's display will be repeated.

**Burgess' High Grade
Bulbs Are Sure to
Please You. Direc-
tions for Planting

Order**

Hardy Red Amaryllis

Hardy Red Amaryllis

Hardy Red Amaryllis (*Hippeastrum Miniatum*). Hardy Out of Doors All Winter. The bright red flowers, 3 inches across, are borne in clusters on 8 to 10 inch stems, during late summer or early fall. In mild climates the foliage remains evergreen through the winter, but dies down in the North. Grows in sun, shade, or sod. A bed of these flowers is like a bed of fire. Can also be used as a pot plant. We recommend August planting, but will ship in the spring if we are requested to do so. Blooming size bulbs, 40c each; 3 for \$1.00; 12 for \$3.60, postpaid.

NUT ORCHID (*Achimenes*)

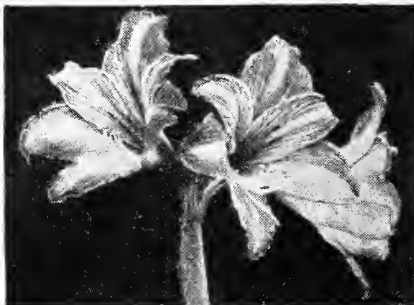

One of the easiest of all bulbs to grow indoors. Blooms in ten weeks from planting. We recommend four bulbs to a pot. Also suited to outdoor culture in semi-shade. The flowers are 1½ to 2 inches across and similar in appearance to Gloxinias. Red, Purple, Lavender, White or Mixed Colors, 20c each; 4 for 50c; 12 for \$1.50, postpaid.

TUBEROUS-ROOTED BEGONIAS

This charming class of Begonia is perhaps the most handsome of all summer-flowering tuberous-rooted plants, and deserves even greater popularity. Fine for pot plants and for planting outside in a semi-shady location. Their culture is of the simplest, and with the least regard for their requirements they will repay with an abundance and brilliancy of bloom not equaled by any other class of plants. All Begonias we offer are blooming size.

Double Pink, Double Scarlet, Double Orange, Double Yellow, and Double Mixed. Separate Colors or Mixed, 30c each; 4 for \$1.00; 12 for \$2.70, postpaid.

AMARYLLIS Giant Hybrids

Giant Hybrid Amaryllis

There is nothing that will give the amateur greater pleasure for the window garden than these giant-flowering Amaryllis. The strain we offer is the finest that has ever been produced; strong bulbs, throwing vigorous stems with from four to six giant blooms of the most perfect form, ranging in color from almost pure white, through various shades of pink and rose, to the brightest scarlet and the deepest crimson, some with beautiful markings and mottled throats. Large, blooming size bulbs, in mixture of colors, 75c each; 3 for \$1.75; 12 for \$6.00, postpaid.

CRINUM

A fine bulbous plant which produces flowers of great beauty. Usually two flower stalks are sent up at the same time, each bearing a large cluster of lily-like, fragrant blooms. The flowers are enormous in size; color, white with a lavender-pink or reddish-purple stripe through the center of each petal. Succeeds in pot or open ground. It is not hardy, so bulbs should not be left outdoors through the winter. 60c each; 3 for \$1.50, postpaid.

Hardy Begonia Evansiana

Does well under trees and in deep shade. Covered with pretty, waxy, pink flowers from early September until frost. Foliage deep green with traces of bronze. Height 18 to 20 inches. Perfectly hardy if given a little protection of leaves or strawy manure during the winter. A planting of Hardy Begonia becomes more beautiful from year to year. 25c each; 3 for 65c; 12 for \$1.20, postpaid.

Crinum

COOPERIA or RAIN LILY

Mrs. Eva Lambert of Moline, Illinois, writes: "My Rain Lily blooms every time it rains."

The Rain Lily receives its name because, in its native state, it blooms through the summer and fall after nearly every rain. The flowers are 2 to 3 inches across, waxy white with a tinge of pink outside. Borne on 18-inch stems. They flower several times each year. Perfectly hardy for outdoor planting and may also be used as a pot plant. Blooming size bulbs, 3 for 30c; 12 for \$1.00, postpaid.

CALLAS

BABY CALLA. A new addition to our Calla collection that promises to become very popular. The dainty, pure white flower is a perfect miniature of the tall growing *Aethiopica*. The stems are 10 to 15 inches in height and the plant blooms prolifically throughout the winter. Without question the best White Calla for the average home. Blooming size bulbs, 30c each; 4 for \$1.00, postpaid.

BLACK CALLA (*Pictum*). Flowers deep purple, almost black. An interesting novelty that will attract much attention. Blooming size bulbs, 30c each; 4 for \$1.00, postpaid.

Pink Calla (*Zantedeschia Rehmmanii*). A magnificent Calla with beautiful bright pink flowers. One of the most exquisite flowering plants we have ever seen. Will grow and bloom freely in pots like the common white Calla. Marvels of beauty; sweet scented. Blooming size bulbs, 85c each; 3 for \$2.40, postpaid.

WHITE CALLA (*Aethiopica*). An exceptionally fine strain of the old reliable White Calla. Flowers pure white, unusually large, held high, and on stiff stems. Pkt., 15c. Blooming size bulbs, 30c each; 4 for \$1.00, postpaid.

YELLOW CALLA (*Elliottiana*). Beautiful pure golden yellow flowers, 4 to 5 inches broad. Leaves are attractively marked with white spots. Easily grown. Blooming size bulbs, 30c each; 4 for \$1.00, postpaid.

Chinese Cinnamon Vine

The Cinnamon Vine is one of the most satisfactory climbers. Its handsome foliage and fragrant, cinnamon-scented blossoms commend it to every lover of flowers. It is tuberous-rooted and, once planted, will grow a lifetime. It is perfectly hardy, thrives on all soils, in sun or shade, wet or dry. No insects or blight ever trouble. Will quickly surround your windows, arbors and porches with a mass of vines, and profusion of small white flowers.

While the Cinnamon Vine is grown mainly for its beauty and fragrant blossoms, the tubers are edible, being most delicious when baked like Sweet Potatoes.

For windows, plant two on each side. For porches, walks, etc., plant 8 inches or a foot apart, covering 2 inches. Furnish twine support for the vines. Choice tubers, 3 for 25c; 12 for 90c; 25 for \$1.75, postpaid.

Fancy Leaved Caladiums

No plant in bloom could attract more attention than the foliage of our Porto Rico Caladiums. They are indispensable wherever brilliant decorative plants are required. Plant them in window boxes, jardinières, and among ferns or other green leaved plants to add color. They are also suitable for bedding out-of-doors in partial shade. We offer here four distinct and outstanding varieties.

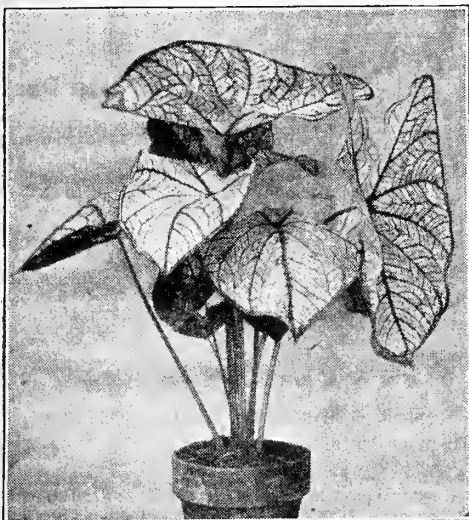

LORD DERBY. A delicate transparent pink with dark green ribs and narrow green border.

MRS. HALDEMANN. One of the showiest. Color bright red with narrow green border mottled and splashed with white.

RECONCAVO. Deep green leaf with rose center and carmine ribs.

SNOWFLAKE (*Candidum*). An outstanding variety for contrasting color. White with green spots and veins.

Prices of named varieties: 40c each; 4 for \$1.25; 12 for \$3.35, postpaid.

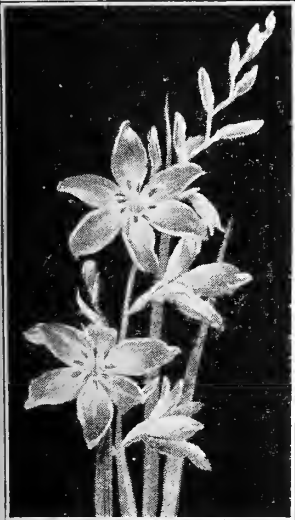

Fancy Leaved Caladiums

SPECIAL Caladium Offer

From the many different colors and varieties of the beautiful Porto Rico Caladiums, our growers have made up the finest mixture it is possible to produce. We know that you will be well pleased with the assortment it contains. Prices: 5 for \$1.00; 12 for \$2.25, postpaid.

Chlidanthus Fragrans

A very fragrant and easily grown summer bulb belonging to the Amaryllis family. Bright yellow, trumpet-shaped flowers are produced on 12 to 15 inch stems. 25c each; 3 for 50c; 12 for \$1.75, postpaid.

Montbretia

MAGIC LILY

This bulb, known botanically as *Lycoris Squamigera*, is a native of Japan and one of the most interesting members of the Amaryllis family. Each spring it produces attractive green foliage which disappears in midsummer. About a month later, as if by magic, the flower stalk appears, bearing a cluster of 7 to 12 fragrant lily-shaped flowers of delicate lilac-pink, shaded blue.

The Magic Lily is perfectly hardy in the Northern States, where it may be left in the ground year after year unmolested. If planted in August they will flower the same summer they are set out. Order now and we will ship at the proper planting time. Price, 60c each; 3 for \$1.50, postpaid.

Tuberose

Fairy Lilies (Zephyranthes)

One of the prettiest and most easily grown bulbs; white and rose colored flowers, similar to the Amaryllis, but of miniature growth. For an effective display, the best way is to plant several bulbs in a box or flower pot. They can also be planted in the open ground in the spring, where they flower in great profusion during the summer; suitable for the rock garden. Bulbs should be taken up in the fall and treated the same as *Gladiolus*.

White. Pure white.

Rose. Large flowers of a clear rose color.

Yellow. Flowers coppery yellow, striped with purple outside.

PRICES—Your choice of colors, or mixed, 3 for 35c; 12 for \$1.15, postpaid.

MONTBRETIAS

The Montbretia is one of the most floriferous and showy of summer flowering bulbous plants, producing in great numbers, graceful spikes 8 to 12 inches in length, each spike bearing from 18 to 30 exceedingly beautiful star-shaped flowers, 1½ to 2 inches across. Very popular for clumping among perennials and shrubbery, easily grown, and add much to any flower garden. Also highly valued as cut-flowers and can be grown in flower-pots in the house. Montbretias are quite hardy and should be planted early in the spring, preferably in a warm, sunny location. They should be protected during the winter with a heavy covering of leaves, or can be taken up each fall and stored the same as *Gladiolus* bulbs. Our mixture contains many bright shades of yellow, salmon, orange and scarlet. **Special Mixed**, 3 for 25c; 12 for 80c; 25 for \$1.50; 100 for \$5.75, postpaid.

COLCHICUM

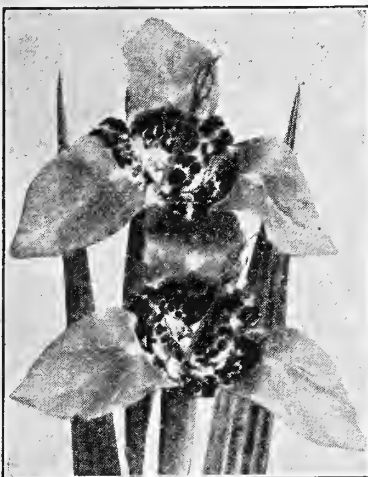

Bloom Without Soil or Water

Through nature's own process, *Colchicum* bulbs store within themselves all the fertility, water, etc., they require to bloom. Simply place the bulb in a dish or on the table or window sill and watch its beauty unfold. Each bulb produces from 6 to 15 beautiful blooms. The only way to prevent *Colchicum* bulbs from blooming is to put them in cold storage at about 32 degrees. Valuable for florists as they can bring the bulbs out of cold storage and have them in bloom whenever wanted. Before the ground freezes, the bulbs should be planted in the open garden where each fall they will bloom in great profusion. If you prefer, you can remove the bulbs from the ground about July 1st, dry them in darkness for a few weeks, and use for indoor decoration as at first.

DOUBLE FLOWERED. Double, rose-violet blooms, 3 to 4 inches across; September or early October. 40c each; 3 for \$1.00; 12 for \$3.25, postpaid.

SINGLE. Rose-tinted blooms, 2 to 3 inches across; September. 35c each; 3 for 75c; 12 for \$2.50, postpaid.

Special Notice. *Colchicum* bulbs cannot be sent until August, but you should order now, as our supply is limited.

Tigridia

TUBEROSE EXCELSIOR PEARL

Finest double Tuberose. One of the most beautiful of the late summer flowering bulbs. Spikes and blooms enormous in size and very double and fragrant. 3 for 20c; 12 for 60c; 25 for \$1.00, postpaid.

EARLY FLOWERING. Plant as soon as danger of frost is over. Will bloom four to six weeks earlier than other Tuberoses. The flowers are on long stems, ten to twenty blossoms to each stalk; snowy white, star-like petals, thick, wax-like, filling their surroundings with the sweetest fragrance. 3 for 25c; 12 for 90c, postpaid.

Fairy Lilies

ISMENE CALATHINA

Peruvian Daffodil

A grand summer flowering bulb, producing with great freedom large Amaryllis-like, pure white, fragrant blossoms. Keep the bulbs in a dry, warm place, and plant out in June. Bulbs can be taken up in October, and after a few weeks' rest, potted and flowered in the house in the winter or kept over for planting out another season. Easily grown. 3 for 30c; 12 for \$1.00, postpaid.

Single Flowered Colchicum

TIGRIDIA (Tiger or Shell Flower)

Showy, bulbous plants suitable for the mixed border, growing about 18 inches high, bearing erect spikes of large attractive flowers with oddly blotched cup-shaped centers. Few flowers are more gorgeously colored or so beautiful. Bloom from middle of July to September. The bulbs are edible. When plain boiled and seasoned they have a delicious, nutty flavor, as palatable as a potato. They are easily grown and keep better than potatoes. The Tigridia should be extensively grown in vegetable and flower gardens everywhere. Bulbs are planted and handled the same as *Gladiolus*. **Red, Rose, Lavender, Yellow or Mixed Colors**, 20c each; 3 for 40c; 12 for \$1.35, postpaid.

Large Flowered Ranunculus

Each year *Ranunculus* becomes more popular as a cut flower. With their richly colored flowers and simple growing habits it is little wonder that the demand exceeds the supply every year. Our Large Flowered Hybrids are by far the largest and finest strain of *Ranunculus* we have ever seen. They produce full double flowers with a blending of semi-double and single blooms. They measure two inches and more across and range in color through all the shades of red, rose, salmon, orange, yellow, etc. Such desirable and inexpensive bulbs should be planted liberally for cut flowers that start blooming in late June. Bulbs can be grown or planted outside after the ground thaws, or grown indoors in pots. Recommended for partial shade. Choice bulbs, 6 for 35c; 12 for 65c; 100 for \$4.50, postpaid.

Gloxinia

GLOXINIA

Magnificent Flowers of Rich Colors

These showy plants are easily grown in pots, and may be transplanted to the garden bed, preferably in a semi-shaded place. Bulbs will bloom in 6 to 8 weeks from time they are planted.

ETOILE DE FEU. Bright scarlet.

BLANCHE DE MERU. Rose with white throat.

MONT BLANC. White.

PRINCESS ELIZABETH. Blue with white throat.

PRINCE ALBERT. Dark violet.

ROI DES ROUGES. Dark crimson.

Prices: Your choice of above named varieties, or mixture of colors if you prefer, at 35c each; 3 for 90c; 5 for \$1.25, postpaid.

Gloxinia Seed

Selected from the finest strains of *Gloxinia*; magnificent flowers of the richest colors, containing the spotted hybrids as well as the finest self-colored sorts. Pkt., 35c.

Giant Hyacinth

(*Hyacinthus Candicans* or *Galtonia*). A species of *Hyacinth*. Blooms late in summer. Huge spikes of pure white flowers on stems 3 to 5 feet high. Blooming size bulbs, 3 for 30c; 12 for \$1.00, postpaid.

Oxalis Bulbs

Fine for borders, pot culture, hanging baskets, vases, etc. Beautiful green foliage; white, pink and red blossoms, your choice of colors. 6 for 15c; 12 for 25c; 25 for 45c; 100 for \$1.50, postpaid.

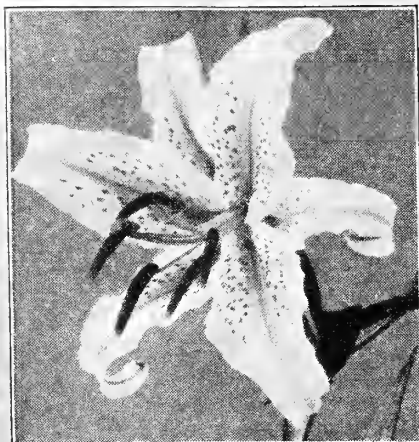

Constance Strother, Raleigh, N. C., reports a Philippine Lily with 7 stalks; one having 51 lilies; 104 lilies from one bulb; stalks 6 ft. tall. All grown from our seed. See page 58.

Burgess' HARDY LILIES

11 for \$2.50

One each of Gold Band (Auratum), Red Band (Magnificum), Korean (Cernum), Turk's Cap (Superbum), Philippine (Formosanum), Fireflame (Elegans), Regal (Myriophyllum), Coral (Tenuifolium), Double Tiger, Concolor and Umbellatum, all for only \$2.50, postpaid.

Lilies are of the easiest culture, comparatively free from insect pests, and need no dusting or spraying with poisons. All varieties offered by us are hardy in the North.

Gold Band Lily (35c Each)

Beautiful Japanese Lilies

The Japanese Lilies are well known because of their extensive use in floral pieces. They are also very popular for garden planting in all parts of the country. In the North they should have a covering of straw or leaves in winter. We offer here the two best varieties for outdoor planting.

GOLD BAND (Auratum). Immense, fragrant flowers measuring nearly a foot in width when fully expanded, produced in great profusion from July to September. Broad petals, gracefully recurved. White, thickly studded with crimson-maroon spots, with a wide gold band down the center of each petal. 3 to 6 feet. A woman in Iowa writes that she had 75 blooms on one stalk and the stalk was 6 feet high. 35c each; 3 for 95c; 12 for \$3.25, postpaid. Seed, 15c per packet.

RED BAND (Magnificum). No words can overstate the brilliant beauty of this famous Japanese Lily. Large, rosy-white flowers, thickly dotted with crimson spots. One of the best for garden culture. 2 to 4 feet. August and September. 35c each; 3 for 95c; 12 for \$3.25, postpaid. Seed, 20c per packet.

KOREAN LILY

(Cernum)

The dainty Korean Lily is similar to the Coral Lily except for color, which is lilac with purple spots. The flowers are fragrant and appear in June and July, on plants 1½ to 3 feet high. 30c each; 3 for 75c; 12 for \$2.50, postpaid.

Turk's Cap Lily

(Superbum)

One of the finest American Lilies. The flowers are bright orange spotted brown, appearing in July and August on plants 5 to 6 feet high. They do well in moist soil, in semi-shade, and are easily established in a permanent location. 30c each; 3 for 75c; 12 for \$2.50, postpaid.

Hardy Philippine Lilies

PHILIPPINE HARDY EASTER LILY (Formosanum). One of the finest hardy lilies in existence. The flowers are white tinted purple outside, larger than the common Easter Lily and delightfully fragrant. Starts blooming in August and the flower stems appear one after another until fall, with as many as 10 flowers on a single stem. Seed sown indoors in winter frequently blooms the following summer. Two year old bulbs, 25c each; 3 for 60c; 12 for \$2.25, postpaid. Seed, 15c per pkt.

NEW WHITE PHILIPPINE LILY. An improved strain of the above variety. A large per cent of the blooms come almost pure white, with very little color on outside of flower. No bulbs to offer. Pkt., 25c; 5 pkts., \$1.00.

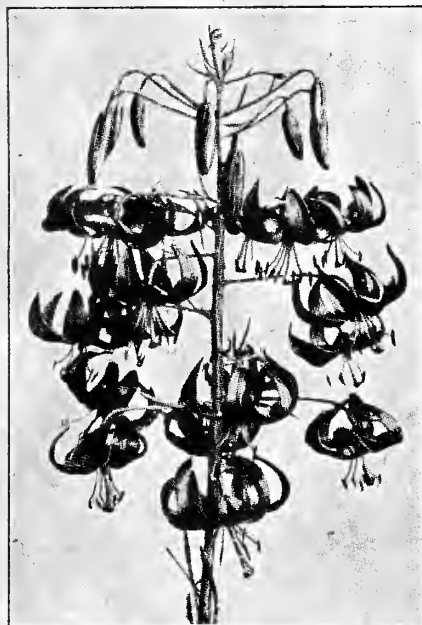

Philippine Lily (3 for 60c)

Other Hardy Lilies

CONCOLOR or STAR LILY. We are enthusiastic about this lily for several good reasons. The color is a bright crimson-scarlet, brighter than anything you have ever before witnessed in a lily. It is unique because the flowers grow upright and you can look down into them. It is hardy, dependable, and as permanent as a lily can be. A graceful, handsome lily of easy cultivation, excellent for pots or open ground, grows 18 to 24 inches high and blooms in June and July. 25c each; 3 for 60c; 12 for \$2.00, postpaid.

CORAL LILY (Tenuifolium). A most attractive Lily for rock gardens or in the foreground of the herbaceous border, attaining a height of 18 inches to 2 feet. Bears large heads of pendulous, waxy, deep scarlet flowers on wiry stems. This Lily attracts an unusual amount of attention for its daintiness and brilliancy. Probably the brightest in color of all Lilies. Easily grown and permanent. 25c each; 3 for 50c; 12 for \$1.85, postpaid. Seed, 15c per pkt.

Coral Lily (3 for 50c)

Umbellatum Lily

One of the early flowering garden varieties, coming into bloom in June and extending into July. The large, orange-scarlet blooms are held upright on 2 to 3 foot stems. Will thrive in either sun or shade. 30c each; 3 for 75c; 12 for \$2.50, postpaid.

REGAL LILY

(Myriophyllum)

3 to 5 ft. One of the most beautiful of the garden lilies. The large trumpet-shaped flowers, 4 to 6 inches in length, are white, slightly suffused with pink and a glow of canary yellow at the throat. The delightfully perfumed flowers are freely produced during July. One of the hardest. 30c each; 3 for 70c; 12 for \$2.50, postpaid. Seed, 15c per pkt.; 40c per ¼ oz.

DOUBLE TIGER

The most dependable lily in cultivation. Grows in practically any soil and is free from disease and insect pests. Produces large pyramids of double orange-red flowers with black spots. Fine cut flower. For best results plant several in a clump. 20c each; 3 for 50c; 12 for \$1.75, postpaid.

LILIES FROM SEEDS

Grown from seed, Lilies are very interesting at all stages of growth. Our seed mixture is made up from the varieties offered on this page. You should get a nice assortment of varieties, the most of which will bloom the second year. Pkt., 25c.

Burgess' Gorgeous Cannas

**20c Each; 6 for \$1.00
25 for \$3.00**

The Canna is the grandest of all bedding plants. Being of quick growth, and having a tropical appearance, make them popular in all sections of the country. Cultural directions will be sent with each order of Cannas.

GREEN LEAVED VARIETIES

CITY OF PORTLAND. Glowing shade of pink; immense trusses. 3½ feet.

EUREKA. Best white Canna; large, clear, waxy, creamy-white flowers. 4 feet.

HUNGARIA. Magnificent flowers of purest rose-pink with satiny sheen. 3 feet.

MME. CROZY. Large, brilliant scarlet flowers bordered golden yellow. Very attractive. 3½ feet.

MRS. A. F. CONARD. Large salmon-pink flowers in immense clusters. 4 feet.

RICHARD WALLACE. Pure canary-yellow; one of the largest flowered yellows. 4½ feet.

THE PRESIDENT. Rich, glowing, cardinal scarlet blossoms of mammoth size. One of the most gorgeous Cannas. 5 feet.

YELLOW KING HUMBERT. Deep, rich yellow with crimson dots. 5 feet.

Cannas with Colored Foliage

AMBASSADOR. Rich scarlet with bronze foliage. Exactly like The President except color of leaves.

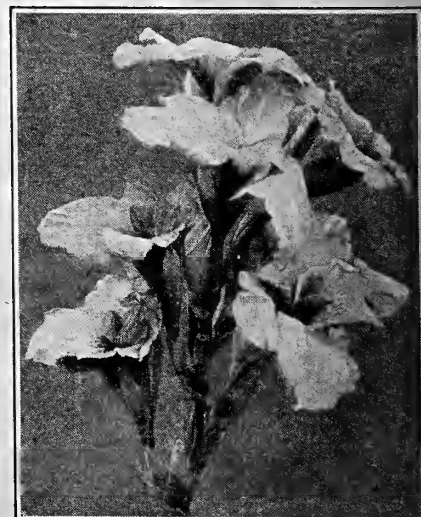

KING HUMBERT. Massive heads of orange-scarlet, orchid-like flowers 6 to 8 inches across. Large heart-shaped leaves of purple-madder-brown over bronze. 5 feet.

SHENANDOAH. Large trusses of rose-pink flowers and ruby-red foliage. 3½ feet.

WYOMING. Immense spikes of orange flowers with purplish-bronze foliage. 6 feet.

CANNA SEED

Fine mixture of varieties. Will bloom the first year from seed if planted early. Pkt., 10c; ½ oz., 30c.

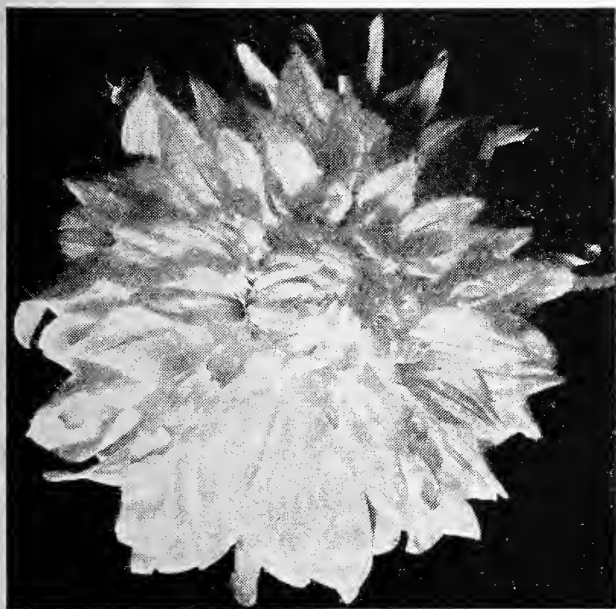

Hungaria Canna

PRICES Select the Cannas you want at 20c each; 6 for \$1.00; 12 for \$1.75; 25 for \$3.00, postpaid. 100 by express, not prepaid, \$7.00.

Monarch of the East

Lord of Autumn

Dahlias in Mixture of Colors

An assortment of Dahlias embracing all the types in a riot of colors, including many of the new ones and some of the best of the older kinds. These tubers are strong and vigorous and sure to bloom. This is your opportunity to secure Dahlias worth many times what they will cost at our bargain prices of 6 for 75c; 12 for \$1.25, postpaid. 25 or more by express, not prepaid, 6c each.

Dwarf Dahlias IN BLOOM FOR EASTER

A charming new race of dwarf growing dahlias. The habit of the plant is compact and dwarf, producing flowers when hardly a foot high. The flowers are of medium size and mostly of the Hybrid Cactus type. They make ideal house plants in winter and when planted outside commence blooming weeks ahead of the regular garden types. No group of Dahlias will give you more blooms over so long a season.

By planting in January in a sunny window they can be brought into bloom for Easter. After warm weather, transplant them outdoors where they will continue to bloom until frost.

EASTER GREETING. The original of this dwarf type. Creamy white flowers. The earliest to bloom.

GERTRUDE. Clear sulphur-yellow blooms of good size. Very compact.

KATE. Bright showy flowers of lacquer-red. Decorative type.

URSULA. Intense blood-red flowers with carmine reverse. Large flowers.

Blooming size tubers which should flower two months after potting and continue to bloom until frost. 60c each; 3 for \$1.50, postpaid.

Prize Dahlias for 1941

This collection has been selected from the finest of the late introductions and we know you will be well pleased with every one of them.

CALIFORNIA IDOL (Informal Decorative). Very large. Many times a prize winner. Beautiful yellow flowers on extra long stiff stems. A vigorous grower and highly recommended, 50c each; 3 for \$1.20, postpaid.

CLARA CARDER (Decorative). Cyclamen pink with flush of yellow at base. Blooms 10 to 12 inches across on strong stems. Vigorous and free from insects. One of the best pinks yet introduced. 70c each; 3 for \$1.80, postpaid.

HUNT'S VELVET WONDER (Informal Decorative). Rich, violet-burgundy. Huge flowers with long wavy petals, held outside the foliage on stiff stems. 40c each; 3 for \$1.00, postpaid.

SPECIAL OFFER. One each of the above six Prize Dahlias for only \$2.85, postpaid.

Exhibition Dahlia Collection

This collection includes only those varieties that produce extra large fine blooms that you can be proud to have in your garden and display in the flower shows.

DADDY KEMP (Informal Decorative). A Roll of Honor variety and a sensation wherever shown. Immense flowers of rich purplish-red that often reach 14 inches across. 60c each; 3 for \$1.50, postpaid.

HILCREST MANDARIN (Informal Decorative). Brilliant Oriental scarlet and golden yellow flowers, with curled petals, on heavy 4 foot stems. One of the most massive and striking Dahlias grown. A thrifty grower and free bloomer. 35c each; 3 for 90c, postpaid.

KATHLEEN NORRIS (Decorative). One of the finest exhibition Dahlias grown. Monstrous flowers with broad overlapping petals of true rose-pink, often attaining a diameter of 10 in. Tall stiff stems, and a long keeper. Recognized as the greatest pink Dahlia in cultivation for exhibition purposes. 40c each; 3 for \$1.00, postpaid.

LORD OF AUTUMN (Informal Decorative). Without question, one of the finest Dahlias of

SPECIAL OFFER. One each of the above seven Exhibition Dahlias for only \$2.70, postpaid.

"Best Seller" Collection

Each year we watch the trend of public opinion and include in this collection moderately priced varieties that have proven their popularity, year after year, in spite of the hundreds of new introductions.

BASHFUL GIANT (Decorative). Gigantic bloom of apricot with golden shadings. One of the largest varieties ever produced, often reaching 10 to 12 inches. Where very large flowers are wanted for exhibition purposes this variety has "IT." 30c each; 3 for 75c, postpaid.

JANE COWL (Decorative). Deep, massive bloom of bronzy-buff and old gold, shading deeper at a perfect center. Without special care it often reaches ten inches in diameter and by special care and disbudding it will grow to twelve and fourteen inches. 25c each; 3 for 60c, postpaid.

JEAN TRIMBEE (Semi-Cactus). Large thick flower, with long petals of Petunia violet. Strong grower; long stiff stems. 50c each; 3 for \$1.20, postpaid.

JERSEY'S BEACON (Decorative). A decided novelty of Chinese scarlet with a paler reverse,

SPECIAL OFFER. One each of the above seven "Best Seller" Dahlias for only \$1.75, postpaid.

MONARCH OF THE EAST (Informal Decorative). Warm gold suffused apricot and orange, with slight copper reverse. Giant flowers, 12 to 14 inches in diameter, held on stiff stems up to 4 feet long. Has won many awards. \$1.25 each; 3 for \$3.25, postpaid.

MRS. GEORGE LE BOUTILLIER (Informal Decorative). A giant flower of deep crimson red. An exceptionally good cut flower for its size, held well above the foliage. 50c each; 3 for \$1.20, postpaid.

PRINCE OF PERSIA (Informal Decorative). Mammoth flowers seven to nine inches in diameter and three to four inches thick. Plants four to five feet tall, very bushy. Its color is intense flame scarlet. The finest brilliant red yet produced. 50c each; 3 for \$1.20, postpaid.

all times. Deep, golden yellow blooms of enormous size on strong stems. A certain prize winner in any show. 80c each; 3 for \$2.10, postpaid.

ORIENTAL GLORY (Informal Decorative). Bright cadmium orange with scarlet overlay. Strong grower of medium height, a free bloomer, and always blooms early. Average diameter of flower 9 inches. 50c each; 3 for \$1.20, postpaid.

PAN (Decorative). Very brilliant red. Erect grower with stiff canes that need no staking. Profuse bloomer. One of the best red Dahlias for cutting purposes. 35c each; 3 for 90c, postpaid.

WHITE WONDER (Informal Decorative). Flowers seven to nine inches across, and three to four inches thick. Petals long and wavy. Beautiful waxy pure white. Plants three to five feet tall. The largest of the white Dahlias we offer, and highly recommended. 50c each; 3 for \$1.20, postpaid.

giving a two-tone effect; large exhibition flower of excellent habits. One of the best. 30c each; 3 for 75c, postpaid.

JERSEY'S BEAUTY (Decorative). Beautiful true pink. The best pink Dahlia in existence for commercial use. The flowers are early, perfect in shape, produced in abundance, on long stems. Keeping qualities are unexcelled. 25c each; 3 for 60c, postpaid.

MARGARET WOODROW WILSON (Decorative). A blending of creamy white and opalescent pink with a deeper pink reflex. An exceptional flower for exhibition, because of its tremendous size. 30c each; 3 for 75c, postpaid.

OMAR KHAYYAM (Decorative). Chinese red shading to bright orange with lighter tips. Easy to produce 10 inch flowers. 50c each; 3 for \$1.20, postpaid.

Dollar Dahlia Collection

This collection is made up from good, substantial standard varieties that are well known and always in demand. Don't think because of the low price they are inferior, for they are not. These varieties are still shown at nearly every Dahlia Show.

MRS. C. D. ANDERSON (Show). Probably the largest tightly quilled Ball Dahlia; an excellent keeper after cut. Very long stiff stems; exceptionally abundant bloomer; rich American beauty red, called by some purple crimson. Very desirable.

MRS. I. DE VER WARNER (Decorative). Clear lilac-rose coloring seldom seen in a Dahlia; beautifully formed; carried well on long extra strong stems; wonderful cut flower variety. Blooms often reach 10 inches or more across. A prize winner.

PRIDE OF CALIFORNIA (Informal Decorative). A very large, thick flower of dark crimson; shades to almost maroon at the center. An ideal garden and cut flower variety.

SAGAMORE (Decorative). An outstanding variety owing to its great beauty and wonderful keeping qualities. Large flowers of true decorative form; color golden yellow, shaded orange buff.

SEQUOIA GIGANTEA (Decorative). 10 in. Gigantic, rich, butter-cup yellow flowers with long stems. Strong, sturdy, vigorous grower, and a continuous bloomer.

PURITY (Decorative). The purest white Dahlia we have seen. Beautiful, clear, waxy white. Free flowering.

PRICES: Your choice of the above six Dahlias at 25c each; 3 for 60c; or all six for only \$1.00, postpaid.

Cactus Dahlia Collection

Cactus Dahlias are becoming more popular each year, and we offer this year an assortment that any one can afford to grow. Their curiously quilled and twisted petals make them unusually interesting. They are extremely free flowering and unexcelled as cut flowers.

BERTHA HORNE. A bronze hybrid similar in color to Jane Cowl.

BETTY AUSTIN. A blending of pink, rose and yellow.

LIBELLE. Bright purple

REINE CAYEUX. Rich crimson-red; straight, tightly quilled petals.

SCARAMOUCHE. Large Cactus of bright Indian red.

SUNSET GLOW. Flaming orange blending to golden yellow.

PRICES: Your choice of the above six Cactus Dahlias at 25c each; 3 for 60c; or all six for only \$1.00, postpaid.

POMPON DAHLIA COLLECTION

Pompon Dahlias are perfectly formed, miniature ball-type flowers from one to two inches across. Bloom continuously from July until frost. Not uncommon to find 25 to 50 flowers open at one time on a single plant. The following varieties are ideal for cutting:

AMBER QUEEN. Bronze.

BOBBY. Purple.

CHALLENGE. Red, tipped white.

GANYMEDE. Fawn pink.

INDIAN RED. Bright-red.

YELLOW GEM. Yellow.

PRICES: Your choice of these six Pompon Dahlias at 25c each; 3 for 60c; or all six for only \$1.00, postpaid.

World's Most Select Gladiolus

The Cream of Over 800 Varieties

Gladiolus are prized the world over for both garden display and cut flowers. We have made our selections from over 800 varieties in our own trial gardens, and those of other growers. You need not hesitate to order any of the varieties we offer, even though you are not familiar with them, as they will please the most critical buyer.

BLUE BIRD. (Mrs. Konyenberg.) Analine blue, and without question the best in its color class. The tall 5 foot spikes make it outstanding in any garden.

EARLY CARDINAL. Strong spike with 6 to 8 giant blooms open at one time. Bright cardinal red with lighter upper petals. One of the largest grown.

GRAND GLORY. Massive flowers of golden orange with yellow throat. Attains a height of 6 feet or more.

IMPERIAL PINK. Delicate pink with a lavender tint, with 6 to 8 large florets open at one time. Truly an exhibition variety with excellent keeping qualities. Won first prize at the Michigan Gladiolus show in 1937.

MOROCCO. Deep oriental red. Large flowers and good substance.

MOTHER MACHREE. Rich lavender with edges of petals overlaid salmon and flecked orange-red. Tall spikes and many flowers open at one time.

PAL O'MINE. One of the best exhibition purples. Very large florets with as many as 10 open at one time. You will be proud of this one.

PAULINE FREDERICK. A fine ruffled flower of rich lemon yellow shading deeper on the lower petals. Strong grower.

RED SPLENDOR. A very brilliant scarlet with lower petals a deep, rich velvety red. New.

STAR OF BETHLEHEM. Immense, pure white bloom on tall sturdy spikes. One of the finest exhibition varieties.

Prices The above varieties are 8c each; 10 for 60c; 100 for \$5.25, postpaid.

AMANDA DEAN. A new ruffled variety with 5 to 7 large pure white blooms on tall spikes.

CRINKLES. A beautiful deep peach-blossom pink. Intensely ruffled. Always a prize winner, and one of the most outstanding ruffled varieties.

EARLY ORANGE. One of the fine new Primulinus Grandiflora type gladiolus. Color, bright orange. Popular for bouquets. Indeed beautiful.

GRAPHIC. Deep lavender-violet; feathered blotches of deep purple on lower petals. Very outstanding.

LOS ANGELES. (Cut-and-Come-Again Glad.) Immense spikes bearing huge blossoms of shrimp pink with a throat of orange tinted with carmine. Sends up new spikes after the old are cut, making it almost ever-blooming; often 100 blooms from one bulb. This variety has created a sensation among Gladiolus growers everywhere.

MINUET. Very large flowers of rich lavender. One of the most outstanding varieties.

MRS. LEON DOUGLASS. The largest Gladiolus in existence; has taken first prize in every show where exhibited. Color, begonia-rose striped with flame-scarlet. Lip is pale lemon speckled with ruby. The size of the individual flower is, we believe, the largest of any variety. The spikes are extra long and have up to as many as seven side spikes on each main spike.

PREDOMINATOR. Rich salmon-scarlet with 8 to 10 massive flowers on a tall heavy spike. A wonderful cut flower.

SPANGLED BEAUTY. Dark rose-pink closely flaked a deeper shade. Tall graceful plant with many showy flowers open at one time.

UHLAN CHIEF. Tall, graceful spikes of brilliant vermilion-scarlet flowers. A magnificent variety.

Prices The above varieties are 7c each; 10 for 50c; 100 for \$4.25, postpaid.

ALBANIA. Large, glistening, pure white flowers. One of the best whites.

BETTY NUTHALL. Rich coral-pink, shaded with orange and carmine. Large flowers often 6 inches across, and 8 or more open at one time. Very tall grower.

CHAS. DICKENS. Bright, radiant purple. Strong grower with several blooms open at one time.

FLAMING VALE. Very tall; long spikes with large, deep, cardinal red flowers. Throat a little deeper.

GOLDEN DREAM. Rich, golden yellow, on tall stems. Particularly suited for cut flowers. Six or seven flowers open at one time.

MARY JANE. A constant prize winning variety. Beautiful silvery-pink with light lavender sheen.

PICARDY. Soft shrimp pink, with a soft rose feathering. Usually 7 to 8 blooms open at one time, and often more. Flowers often 6 to 7 inches across. The "last word" in pink Glads. Received the largest number of favorable votes by the Michigan Gladiolus Society in 1938.

PINK CLOVER. Rose-pink tinted slightly lavender and deeper on lower petals. Upper inner throat blended from the edges to an almost white.

ROSE SPLENDOR. Rose-pink; narrow white border; pronounced dark rose-red throat. An outstanding variety which attracts attention.

RUTH HUNTINGTON. Beautiful, tall, violet-lilac, with deeper lilac markings on lower petals.

Prices The above varieties are 6c each; 10 for 40c; 100 for \$3.25, postpaid.

Predominator

Pal O'Mine

Rainbow Glad Garden

25 Glads—Each Different—50c

Just imagine, all select blooming size bulbs and each different. 25 for 50c; 100 for \$2.00, postpaid.

Gladiolus in Mixture

Glory Mixture

The finest mixture we have ever offered containing hundreds of different colors, shades and varieties. This mixture contains more varieties than any other we have ever known. Try some of these bulbs this year.

LARGE BULBS. 10 for 50c; 25 for \$1.00; 100 for \$3.00, postpaid. By express, not prepaid, \$11.00 per 500; \$20.00 per 1,000.

Bargain Mixture

The same assortment of colors and varieties found in the Glory Mixture. The only difference is in the size of the bulbs. They are smaller, but all blooming size.

10 for 30c; 25 for 60c; 100 for \$1.75, postpaid. By express, not prepaid, \$6.50 per 500; \$12.00 per 1,000.

Butterfly Mixture

The name "Butterfly" applies to the Primulinus Hybrid Gladiolus. While the flowers are smaller than the Grandiflorus or Large Flowered type, they are ten days to two weeks earlier and produce colors not known in any other type. Our mixture contains several dozen varieties and is sure to please.

LARGE BULBS. 10 for 50c; 25 for \$1.00; 100 for \$3.00, postpaid. By express, not prepaid, \$11.00 per 500; \$20.00 per 1,000.

GROWING GLADIOLUS FROM SEED

Always Interesting—Sometimes Very Profitable

Glads are easily grown from seed. That's the way new varieties are started. All the leading new varieties are seedlings. Bulbs grown from seed do not come true to name, so you are just as apt to get a choice new variety as anyone. If seed is planted early, a few blooms are usually produced the first year. Pkt., 10c; 3 pkts., 25c; ¼ oz., 50c.

Everblooming Hybrid Tea Roses

SHIPMENT BY EXPRESS.

parcel post shipment of Roses, add 5c per plant to the prices given.

We recommend express shipment of all nursery stock. Delivery is faster, safer and economical. If you want

Mrs. Pierre S. Dupont

Everblooming Hybrid Teas are hardy and of vigorous growth, but for best results should be given a winter covering in the Northern States by hilling the soil up around the plants to a depth of 6 or 8 inches. From the many hundreds of roses on the market today we have selected a group that we believe will give the most satisfaction to the average grower. If the varieties we offer are not familiar to you by name, you need only select them by color as you will be well pleased with all of them.

AMI QUINARD. Deep crimson-maroon overcast with a soft blackish sheen. Semi-double, cup-shaped and distinctly fragrant.

AUTUMN. An extraordinary bud of burnt sienna, opening into a riot of golden yellow, stained crimson, with an orange scarlet center. Long stiff stems. The finest multi-colored rose.

BRIARCLIFF. A fine rose; large, long buds; large, high pointed, double, very lasting flowers of a brilliant rose-pink at center, shading lighter at outer petals.

CALEDONIA. The finest white rose we have ever grown. Beautifully shaped, long buds opening to snowy-white flowers of delicious fragrance. Long stems.

PRICES Your choice of the above 20 varieties, in thrifty, field-grown, two-year-old plants, by express, at 40c each; 3 for \$1.00; 12 for \$3.60. Add 5c per plant for postage charges if you want them sent by parcel post.

SPECIAL ROSE COLLECTION—One each of the above 20 varieties, by express, not prepaid, \$5.50; by parcel post, postpaid, \$6.50.

Thornless Beauty Rose \$1.50

(Plant Patent Applied For)

For centuries it has been the dream of every florist and nurseryman to grow a rose without a thorn. At last, after years of research and hybridizing, that dream has come true.

The beautiful crimson-red roses are perfectly formed, fully double and about four inches across. They are produced freely all summer on good stems and, what is more, you can pick arms full of them without fear of scratches or torn clothing. Thornless Beauty is the world's first recorded Hybrid Tea Rose without a thorn. Two-year-old field-grown plants, \$1.50 each; 3 for \$3.75.

Three-in-One BEAUTY TREATMENT for ROSES

1. Kills Sucking Insects
2. Kills Chewing Insects
3. Protects Against Many Fungus Diseases

Kix is a combination spray—complete control in one spray—no other spray required. Protection against both sucking and chewing insects, fungus, black-spot, mildew, rust and blight. It stimulates vigorous plant growth and assures healthy green foliage and luxuriant blooms. Kix spray is transparent when on foliage; does not detract from appearance of plants. Harmless to the tenderest foliage. Kix is ready to use—simply mix with water and spray. 4-oz. bottle (15 rose size), 65c; ½-pt., can (30 rose size—enough for 5 gallons of spray), \$1.00, postpaid.

COLUMBIA. A very free flowering variety with large blooms of clear Imperial Pink carried on long erect stems. Very fragrant.

CONDESSA DE SASTAGO. Golden buds striped red. The petals of the open flower are fiery coppered inside and rich gold outside. A highly colored rose with an alluring, spicy fragrance.

DAINTY BESS. Delicate pink with a brownish-red overcast. One of the finest single roses in cultivation.

EDITH NELLIE PERKINS. Very fine double flowers. Inside of petals salmon-pink; outside coppery-orange. Strong grower with few thorns.

EDITOR McFARLAND. The finest pink garden rose we have ever seen. Many perfectly formed, sparkling pink flowers, throughout the season. Keeps well as a cut flower. Long stems, fragrant.

ETOILE DE HOLLANDE. Magnificent, brilliant red flowers. Very fragrant and particularly free flowering.

GOLDEN RAPTURE. A splendid new rose with pure yellow buds opening to large double flowers. They hold their color well and are excellent for cutting.

GRUSS AN TEPLITZ. This is one of the most useful of all roses for the lawn, succeeding under the most ordinary conditions. Grows freely to a height of 4 or 5 feet; hardy in all sections; vivid, dazzling, fiery crimson; sweetly fragrant; and is in bloom all the time.

LOS ANGELES. Bright pink tinged with red and shading to rich yellow at the base. Very free flowering and one of the most satisfactory outdoor roses.

MARGARET McGREDY. Long lasting, double, cup-shaped flowers. The color is brilliant oriental red, changing with age to orange-scarlet. Vigorous and free flowering. Seldom out of bloom.

MME. BUTTERFLY. Pink, white, apricot and gold; an exquisite type; very beautiful.

MRS. G. A. VAN ROSSEM. An outstanding rose of vivid color. Deep apricot-orange over a ground of golden yellow.

MRS. PIERRE S. DUPONT. Winner of more Gold Medals for outdoor blooms than any other rose ever grown. Long pointed buds of rich yellow gold that hold their color to the end. A continuous bloomer, and, we believe, the finest clear yellow rose ever introduced.

RED RADIANCE. Deep rose-red, globular blooms. One of the hardiest roses in its class. Profuse bloomer and fragrant.

SISTER THERESE. Long pointed buds of chrome-yellow splashed carmine. The open flowers are rich golden-yellow, holding the color well. Sweetly fragrant and produced freely on long stems. Hardier than most yellows.

SOUVENIR DE CLAUDIUS PERNET. An old stand-by. A real yellow rose and still one of the most popular.

Editor McFarland

Everblooming Roses In Tree Form

Our trees are grafted to a standard or trunk 3 feet high, and will reach a height of about five feet at maturity. Trees planted this spring should bloom this year. We can supply the following varieties in tree form:

E. G. HILL
EDITH NELLIE PERKINS
MRS. PIERRE S. DUPONT
TALISMAN
WHITE AMERICAN BEAUTY

The flowers are large and double and in every way exactly like the blossoms grown on the regular Hybrid-Tea and Hybrid Perpetual plants of the same varieties. For descriptions of these varieties see pages 61 and 62.

Your choice of the above five varieties, by express, not prepaid.

\$2.50 Each
3 for \$6.75

10 Everblooming \$1.00 Roses

ROSE COLLECTION NO. 61—This is one of the biggest bargains in Roses we have ever offered. They are small pot-grown plants, and are shipped in full leaf, ready to start growing the minute you set them out. They will be delivered to you at the right time for transplanting to the open ground. After they have been grown outside through the summer they will be just as hardy as field-grown stock. One each of the following varieties:

Columbia. Peach pink.
Crusader. Velvety crimson.
Edith Nellie Perkins. Salmon pink.
Etoile de Hollande. Brilliant red.
Francis Scott Key. Glowing scarlet.

Joanna Hill. Bright yellow.
Los Angeles. Bright pink.
Mme. Jules Bouche. Pure white.
Radiance. Carmine-rose.
Sunburst. Copper-orange.

These roses are all excellent varieties. We cannot change the collection or supply other varieties at this price, but we reserve the right to substitute similar kinds should we run out of one or more varieties.

These plants should not be set outside until after danger of freezing. Please give date you want them sent. If no date is given we will use our best judgment.

ALL TEN FOR \$1.00, POSTPAID.

Everblooming Hybrid Perpetual Roses

The Hybrid Perpetuals are harder and more vigorous than the Hybrid Teas, and perhaps the most valuable of all Roses for permanent planting, as they will succeed almost any place. Many people in the North think they cannot grow Roses because of the severe winters, but Roses can be grown in any climate, provided the right kinds are planted.

Our stock has been constantly selected from plants showing persistent everblooming habits. Hybrid Perpetuals should be given severe pruning after the spring blooming season to induce best bloom for late summer and fall.

AMERICAN BEAUTY. Large, perfectly formed flowers of cerise-crimson. Intensely fragrant. Our strain of this lovely Rose, under normal conditions, shows remarkable everblooming tendencies.

HENRY NEVARD (RED DRUSCHKI). Large, velvety-scarlet flowers. Full double and very fragrant. One of the freest flowering varieties in its class.

MME. ALBERT BARBIER. Sometimes called the Yellow American Beauty. Large full double flowers of soft fawn-yellow blended with pinkish shades at the center, changing to creamy white with age. An unusual color for a Rose in this class.

PINK AMERICAN BEAUTY (GEORGE ARENDS). One of the finest pink Roses. Flowers extra large, soft pink, and very fragrant.

WHITE AMERICAN BEAUTY (Frau Karl Druschki). The most popular white rose in existence. Extra large flowers of pure waxy white. Very fragrant and free flowering. Tall, healthy and vigorous. Can be trained as a pillar Rose as it frequently grows 6 to 9 feet in height.

PRICES Your choice of the above five Hybrid Perpetual Roses, in thrifty, field grown, two-year-old plants, by express, not prepaid, at 45c each; 3 for \$1.10; 12 for \$3.85. If wanted by parcel post, add 5c per plant to these prices.

Sweetheart Roses

The three varieties offered here are perfect miniatures of the larger Hybrid Tea group. For dainty miniature bouquets and corsages they cannot be excelled.

BABY DOLL. An exquisite little rose that receives praise and admiration wherever shown. The perfectly formed buds are exact counterparts of the larger florist varieties. The double blooms are saffron-yellow blended with shades of pink and tipped with scarlet.

CECILE BRUNNER. Dainty, double flowers of perfect form produced in graceful sprays. Soft rosy pink on a creamy white ground.

PERLE D'OR. Long, pointed, orange-yellow bud of distinct beauty; free bloomer.

PRICES: 2-year-old, field-grown stock, not prepaid, 45c each; 3 for \$1.10; 12 for \$3.85. On parcel post shipments add 5c per plant.

Everblooming Baby Ramblers

**Bush Roses—Always in Bloom
Grow 18 to 24 Inches High**

The most truly everblooming of all Roses. They are scarcely ever without flowers during the growing season. They are the first to bloom and continue until the last, even into October after the frosts have cut down the others. They are not climbers as the term rambler might indicate, but a bush rose growing 18 inches to 2 feet high and are proving more popular each year for bedding, borders and hedges. Flowers are produced in clusters or sprays of a dozen or more, and are excellent for mixed bouquets.

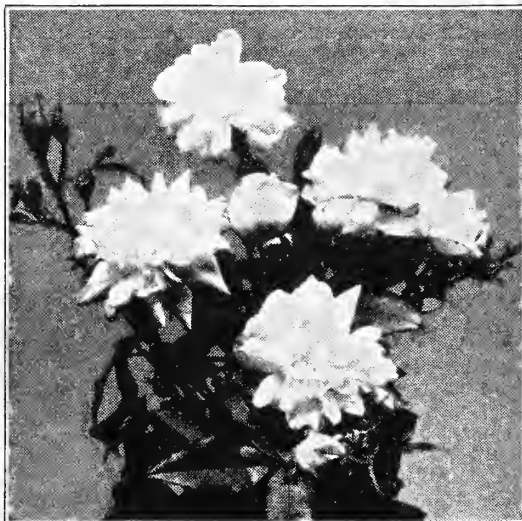

CAMEO. Cameo-pink flowers produced throughout the season.

EDITH CAVELL. Very lasting scarlet-crimson. Also makes a fine pot plant.

GLORIA MUNDI. Orange-scarlet; profuse, continuous bloomer.

GRUSS AN AACHEN. Buds orange pink, opening blush pink. The flowers are larger than most of them in this group and are delightfully fragrant. It is rarely out of bloom from June until severe frosts. The photo reproduced on this page was taken in our gardens on October 16th. One of the most satisfactory varieties in this group.

PRICES 2-year-old, field-grown stock, not prepaid, 45c each; 3 for \$1.10; 12 for \$3.85. On parcel post shipments add 5c per plant.

Gruss an Aachen (Photo taken Oct. 16th)

Eskimo Beauty Roses Hardest Roses in Cultivation

Rugosa Roses and their hybrids, commonly known as the Eskimo Beauties, are the hardest race of roses in cultivation. They are not only suited to the coldest Northern States, but do equally as well in the South and West; in the mountains and at the sea shore; in fact, they will grow most anywhere, requiring no care or protection and will adapt themselves perfectly in rough places and neglected corners of your yard. Also valuable for their resistance to insects, disease, blight, etc. They make dense compact shrubs 4 to 6 feet in height and are very useful as well as ornamental both as specimen plants and in the shrubbery border. They are the most dependable of all roses and should be liberally planted.

A severe pruning immediately following the spring blooming period will bring an abundance of bloom through late summer and fall.

F. J. GROOTENDORST (Everblooming Carnation Rose). Small, bright red, double fringed flowers produced in large clusters resembling bouquets of red carnations. Blooms profusely from spring until frost. A very vigorous plant, growing to a height of 6 feet. We consider it the most dependable rose in existence.

SIR THOMAS LIPTON. Perfectly double; pure white; very fragrant; borne in profusion in the spring and sparingly through the summer and fall. Extremely hardy.

F. J. Grootendorst

AGNES. Coppery-yellow buds opening to ivory-yellow. A fine double rose; richly fragrant; the only yellow Hybrid Rugosa.

AMELIE GRAVEREAUX. Large, full double, carmine-red flowers changing to "American Beauty" red as the blooms develop. The flowers are produced in profusion during June and again in the fall.

BELLE POITEVINE. Full double flowers of bright rose produced in loose clusters. Flower continuously from June until frost.

62

PRICES 2-year-old, field grown stock, 45c each; 3 for \$1.10; 12 for \$3.85, by express. On Parcel Post Shipments add 5c per plant.

Baby Doll

Miniature Roses Ideal for the Rock Garden or As a House Plant

Just imagine a rose bush in full bloom small enough to place beneath a tumbler. The two varieties offered here are outstanding for use in the rockery or in small pots indoors, where they bloom the greater portion of the entire year. We ship strong plants, grown in pots, at the proper time for outdoor planting. If wanted for indoor culture, please specify shipping date.

ROULETTI. The smallest rose in existence. The tiny buds, no larger than a pea, open into well formed, double rose-pink flowers about the size of a dime. We have seen this plant bloom when only 2 inches high and so small it could be planted in a thimble. Strong pot plants, 30c each; 3 for 75c, postpaid.

BABY LILLIAN. A brand new variety offered for the first time last year. The flower is a little larger than Rouletti, is a vivid shade of pink shaded salmon, and is fragrant. We know you will be well pleased with this little miniature. Strong pot plants, 40c each; 3 for \$1.00 postpaid.

ROSE SPECIAL

To clean up surplus at end of season, we will supply, as long as they last, ten or more roses, our selection of varieties, by express, not prepaid, at 20c each. Shipment to be made April 20th or later. No order for less than ten at this special price.

20c Each

Baby Lillian

HARDY CLIMBING ROSES

Yellow Rambler

BLUE RAMBLER (Veilchenblau). Flowers rosy-lilac when opening, changing to a metallic blue. Covers a large porch in a single season; very showy.

Jacotte Large semi-double flowers of orange-yellow tinted copper. Very profuse bloomer. Flowers similar to hybrid teas, but borne in clusters.

THOUSAND BEAUTIES (Tausendschoen). A climbing rose which produces on the same plant so many different colored flowers that it is impossible to describe the variations, hence the fitting name, "Thousand Beauties." Blooms profusely; double flowers in large clusters. The colors run from tender rose through the intermediate shades of bright rose and carmine, with white and yellow tints showing.

YELLOW RAMBLER (Goldfinch). Deep yellow buds borne in large clusters, opening into cream colored flowers with yellow centers. A strong grower and a free bloomer. Fragrant.

PAUL'S SCARLET. Full, double, scarlet flowers cover the entire plant in a solid vivid mass of flaming red. The petals do not fade like those of many climbing roses, but retain their bright color, and remain in bloom for from two to four weeks.

SILVER MOON. Long creamy buds opening to gigantic saucer-shaped flowers of transparent creamy-white. Extra strong grower.

Spanish Beauty (Mme. Gregoire Staechelin). A new type of climbing Rose brought to this country from Spain. The long pointed buds are crimson, opening to iridescent pearl-pink splashed with carmine. Large semi-double flowers, often measuring 5 inches across, are borne on 12 to 15 inch stems. One of the earliest to bloom, free flowering and fragrant, a characteristic which is seldom found in hardy climbers. Flowers are followed by large attractive fruits. Vigorous grower; resistant to disease.

Climbing American Beauty

PRICES The above seven varieties in thrifty, two-year-old, field grown plants, by express, at 40c each; 3 for \$1.00; 12 for \$3.00. Add 5c each if you want them by parcel post.

10 ROSES \$2

To clean up our surplus of Roses at the end of the shipping season, we will supply, as long as they last, ten or more Roses, our selection of varieties, by express not prepaid, at 20c each. Shipment of these orders will be made April 20th or later. No order for less than ten Rose plants at this special price.

Climbing American Beauty

A sturdy, vigorous grower, absolutely hardy, throwing strong flowering canes in one season which are covered with dark, glossy foliage that is immune to disease and insects. The Roses are 3 to 4 inches in diameter, are produced on individual stems, vivid rosy-crimson in color, and with the same delicious fragrance as the old American Beauty. We have a large stock this year, enabling us to make a special price, on this variety only. Two-year-old, field grown plants, 35c each; 4 for \$1.00. Add 5c each if you want them sent by parcel post.

HEDGE PLANTS

A suitable hedge is almost essential to define the boundaries of a well kept garden or lawn. In the following list we offer plants that are adapted to this purpose, in proper hedging grades and at reasonable prices.

Variety	Size	Each	Per 5	Per 10	Per 25	Per 100
Japanese Barberry.....	3 yr. 15-18 inch	\$0.25	\$0.90	\$1.20	\$2.50	\$ 9.00

Siberian or Chinese Elm.....	1 yr. 12-18 inch			1.00	2.25	7.50

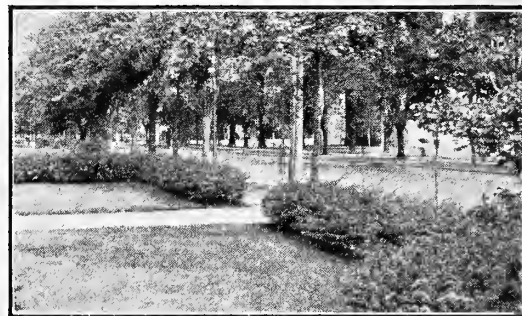

These Hedge Plants Are Sent by Express or Freight, Not Prepaid, at the above prices. On parcel post shipments add 10c per plant on the 18-24 inch size plants, and 5c per plant on smaller sizes.

Blue-Leaved Hedge Willow

This dwarf, Blue-leaved Willow (*Salix purpurea*) was discovered in the Tundras of the North Arctic Circle. It will grow anywhere in either wet or dry soil, and will withstand the lowest temperature encountered in this country. Makes an ideal low hedge or edging around taller plantings and flower beds. Grows 18 inches high and may be grown unpruned or trimmed in formal style. Plant 8 inches apart.

PRIVET AMOOR RIVER. Hardy northern type; will withstand 40 degrees below zero without injury. Bright green, somewhat lustrous leaves; fragrant white flowers followed by blue-black berries. Besides being one of our best hedge plants, it is fine for growing on the lawn, and makes richly green foliage backgrounds against foundation walls. Set 9 to 12 inches apart.

We recommend KIX for Roses and other plants that are subject to fungus, blight or insects. See page 61.

Barberry Hedge (Plants, \$1.75 per 100)

BARBERRY SEEDLINGS

For those who want to grow their own hedge plants we offer one-year-old, 6 to 9 inch Japanese Barberry seedlings at the following

BARGAIN PRICES

Green-Leaved Japanese Barberry Seedlings—10 for 50c; 25 for 80c; 100 for \$1.75; 1,000 for \$12.00, delivered prepaid.

Red-Leaved Japanese Barberry Seedlings—10 for 80c; 25 for \$1.25; 100 for \$3.25; 1,000 for \$20.00, delivered prepaid.

Green-Leaved Japanese Barberry

Japanese (*Berberis Thunbergii*). 4 feet. Beautiful shrub of neat, dense growth, with graceful drooping branches. Yellow flowers, followed by scarlet berries in fall and winter. Fine for planting along drives and walks. Indispensable as a foundation shrub, to mix with an evergreen planting, or in the foreground of taller shrubs. As a hedge plant, set 12 to 18 inches apart. Requires no trimming.

Red-Leaved Japanese Barberry

4 feet. Like the green-leaved Japanese Barberry except that the color is of a rich, lustrous, bronzy red. If planted in a sunny situation, the coloring becomes more brilliant and gorgeous as the season advances, and in the fall its foliage changes to vivid orange, scarlet and red shades. An excellent contrast when planted in the foreground of taller green-leaved shrubs, and makes an outstanding hedge plant. Brilliant, scarlet berries remain on the plant the entire winter.

Ripe Tomatoes Until December 1st in Detroit

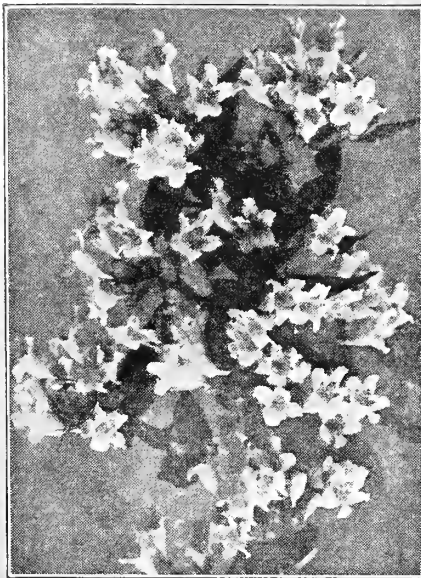

One of our customers, Mr. H. J. Snyder, 2671 Crane Ave., Detroit, informs us that he pulled up vines of Burgess' Climbing Trip-L-Crop Tomatoes before the first frost and hung them on rafters in his garage and had ripe tomatoes until December 1st.

Burgess' Climbing Trip-L-Crop Tomato vines rap-

idly grow to a height of 10 to 18 feet—often more than 20 feet. Large clusters of fruits are borne all the way up the plants from early summer until frost. Fruits are large, deep crimson in color, and have an exceptionally mild and pleasing flavor. Often one plant produces 2 to 3 bushels of fruit. See page 5 for further particulars.

No sprayer, special nozzle or extra attachment to buy. Simply remove the nozzle from any garden hose, drop a Cartridge into it, replace the nozzle, turn on the water, and quickly and easily "vitamize" your entire lawn and garden. Each cartridge is sufficient for 1,500 square feet. Apply once a week. 30 cartridges (enough to "vitamize" 1,500 sq. ft. once a week for 30 weeks), \$1.00 postpaid.

Burgess Seed & Plant Co.
GALESBURG, MICHIGAN

Beauty Bush, photo furnished us by Courtesy
Arnold Arboretum, Harvard University

BEAUTY BUSH FRAGRANT For Semi-Shade or Full Sun

The gracefulness of the plant and its free flowering habit makes the Beauty Bush (*Kolkwitzia*) one of our finest flowering shrubs. It grows to about nine feet with the inner stems erect and the outer ones arching to the ground. **FRAGRANT** pink, tubular-shaped flowers are produced in abundance along the entire length of the branches. Makes an excellent lawn specimen or may be planted in the tall border. Perfectly hardy and will do well in semi-shade or full sun. 2 feet, 60c each; 3 for \$1.50.

Purple Fringe (Smoke Bush)

PURPLE FRINGE (Smoke Bush)

15 feet. The Purple Fringe or Smoke Bush (*Rhus Cotinus*) is a conspicuous spreading shrub or small tree; overhung in mid-summer by mist-like clouds of tiny flowers. These billowing panicles of light lavender give the impression of smoke at a distance. One of the most beautiful of all large shrubs. Can be grouped with other shrubs or used as a lawn specimen. 2 feet, 80c each; 3 for \$2.00.

WHITE FRINGE

20 feet. Easy to grow. Somewhat similar to Purple Fringe, making an excellent companion shrub. The open clusters of finely cut white flowers appear in June, followed by purple plum-like fruits that are very attractive to birds. 2 feet, 80c each; 3 for \$2.00.

HARDY FLOWERING SHRUBS

The shrubs we offer are strong, healthy field grown plants that should prove entirely satisfactory to the most critical buyer. The figures following the variety name indicate the height at maturity. The figures preceding the price indicate the minimum height above ground when the shrubs are dug, but they usually exceed these figures. The most of them are of blooming age. All stock is carefully graded and packed to insure safe arrival.

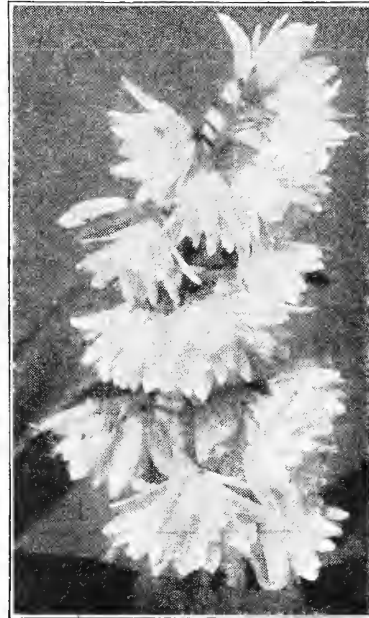

WE RECOMMEND EXPRESS SHIPMENTS OF NURSERY STOCK

We recommend shipment by express whenever possible, as stock is delivered more promptly and usually in much better condition. Present express rates are the lowest in years and you pay only the actual shipping costs at time of delivery. In cases where there is no express office, or customer prefers parcel post shipment, we will prune and pack the stock to comply with postal regulations if you instruct us to do so and include in your remittance 10c extra for each shrub ordered. If not so instructed, all shrubs, trees, vines and roses will be sent by express.

ALTHEA (*Rose of Sharon*). 8 feet. Blooms profusely in late summer and early fall, when few other shrubs are in bloom. These are the color spots of fall, as Lilacs are of spring. Fine for the shrubbery border or for single lawn specimens. We can supply the finest double flowered varieties in the following colors: Lavender, Pink, Red, White. 2 feet, 35c each; 3 for 90c.

CELESTIAL BLUE ALTHEA. The best Althea that has been introduced in many years, and the only true blue in existence. Highly recommended. 2 feet, 50c each; 3 for \$1.20.

BARBERRY. See Hedge Plants on page 63 for both red and green leaved Japanese Barberry.

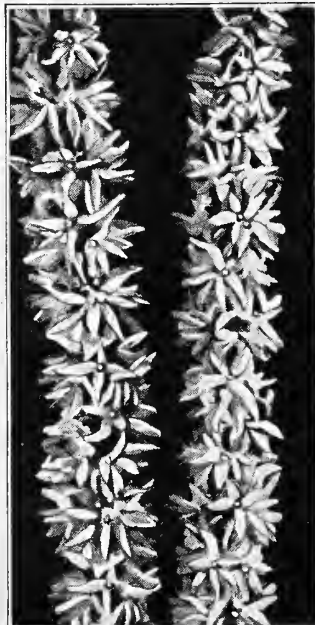

Deutzia Pride of Rochester

DEUTZIA

Flowers in Profusion

LEMOINE. 4 to 5 feet. A vigorous upright grower with slender arching branches from the base. In the spring the plant is completely covered with clusters of white bell-shaped flowers. One of the best shrubs we know of for foundation planting. 2 feet, 50c each; 3 for \$1.20.

PRIDE OF ROCHESTER. 8 feet. A vigorous upright grower, and one of our finest shrubs. Very double, bell-shaped flowers are borne in great profusion during the month of June. Flowers white, tinged rose. 2 feet, 40c each; 3 for \$1.00.

Forsythia Spectabilis

New Buddleias or Butterfly Bush

The most perpetual blooming shrub we know of, flowering without a break from early summer until severe frost. During its blooming period it attracts butterflies by the hundreds, hence the name Butterfly Bush. The plant is of shrubby growth, growing 4 to 6 feet in height, and dies to the ground each winter. The root is perfectly hardy, sending up a new top each year, which produces a graceful bushy shrub, every branch of which is tipped with a flower spray. The newer varieties offered here are excellent for cutting. Strong pot plants that will bloom this year can be supplied, postpaid, at the prices given.

DUBONNET. An entirely new color in Butterfly Bushes. The color is that of the French wine, Dubonnet, a shade that has been so popular in dress fabrics. In sunshine the flower glows almost a true red. 35c each; 3 for 90c; 12 for \$3.00.

ELEANOR. The color of this new Butterfly Bush is known as Eleanor Blue, and is the nearest to a true blue Buddleia we have ever found. 50c each; 3 for \$1.25; 12 for \$4.00.

FORTUNE. (Plant Patent No. 206). Fairly dwarf in habit, growing 4 feet high and about 4 feet across. Flowers pure lilac with orange eye. The flower sprays instead of being flat on the under side, like many of the older types, are fully round and in bloom from base to tip, all at the same time. We have also found it to be the best cut flower variety. 75c each; 3 for \$2.00; 12 for \$7.50.

PINK CHARMING. Many varieties of Buddleia have been introduced in the past in varying shades of lavender and lilac, and some even bordering on pink. After years of hybridizing a true pink has been developed which will please the most critical gardener. Produces a bushy plant 5 feet high. Starts blooming in June. We can highly recommend this new variety. 35c each; 3 for 90c; 12 for \$3.00.

SPECIAL. 4 Buddleias, one each of the above four varieties, for only \$1.50.

BUSH BITTERSWEET (*Euonymus Europaeus*). 15 ft. Large, erect shrub; yellow flowers in nodding clusters in May, followed by rose colored berries. In the fall the berries open to display the orange colored seeds in the same manner as the common Bittersweet or Celastrus, and hang on until midwinter. The leaves turn crimson-scarlet in fall. 2 feet, 50c each; 3 for \$1.20.

Large Fruited Coral Berry (*Symphoricarpos Parviflorus*). 4 feet. An improved form of the common Coral Berry or Indian Currant, and with much larger berries. Graceful shrub; flowers light pink, followed by clusters of bright pink berries, which remain on the branches until late in the winter. An easily grown shrub that will thrive in even the poorest of soils. 2 feet, 50c each; 3 for \$1.20.

Evergreen Daphne The evergreen Daphne (*Daphne Cneorum*) has been one of the most popular small shrubs ever offered. Words cannot describe the delightful arbutus-like fragrance of the Daphne which fills the air when this lovely shrub is in bloom. It grows only a foot high with spreading branches that form a round clump about 2 feet across. The tip of each branch is studded with a cluster of bright pink flowers in April and May. Many growers are offering an inferior strain grown from seed. Be sure to get our true stock. 2 year old, well branched plants, 60c each; 3 for \$1.50.

DOGWOOD or CORNUS

The Dogwoods are valuable for their foliage in summer, brilliancy of fruits in fall, and highly colored barks in winter. All varieties do well in sun or shade, and afford excellent contrast in shrub groups, while the berries attract birds in fall and winter.

For the flowering tree Dogwoods see page 68.

GOLDEN-BRANCHED (*Lutea*). 6 feet. A broad bush with bright yellow bark. Strikingly conspicuous when combined with the red barked varieties. Small white flowers; white berries. Very attractive. 2 feet, 40c each; 3 for \$1.00.

RED-BRANCHED (*Siberica*). 8 feet. Bright coral-red bark. Yellowish white flowers in spring and a profusion of bluish white berries in the fall. 2 feet, 40c each; 3 for \$1.00.

FORSYTHIA or Golden Bell

Beautiful shrubs with golden yellow bell-shaped flowers which appear very early in the spring, before the leaves, frequently while the ground is still covered with snow. Branches cut off in winter and put in a vase of water will bloom in the house. No other shrub will give as showy a floral display. Plant them liberally in the shrubbery border.

SPECTABILIS. 10 feet. The showiest of all Forsythias. The branches are so densely covered with the golden yellow flowers that the wood is scarcely visible. 2 feet, 40c each; 3 for \$1.00.

WEeping (*Suspensa*). 8 feet. Graceful, long, slender, drooping branches, with long sprays of golden yellow flowers. 2 feet, 50c each; 3 for \$1.20.

FIREBUSH

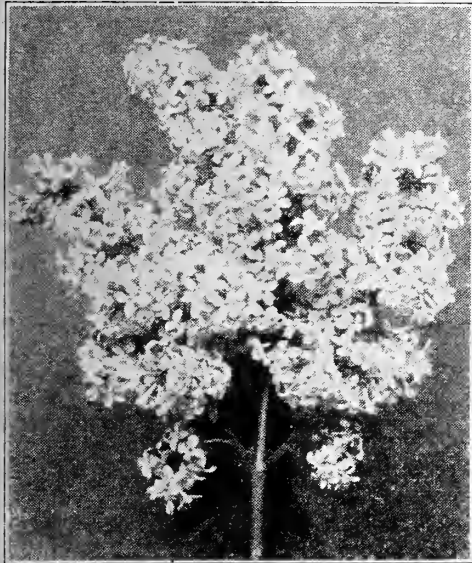

Firebush or FLOW-
ERING QUINCE. 7 feet.
Spreading compact
shrub; completely cov-
ered with dazzling or-
ange or scarlet flowers,
very early in the spring,
followed by small
quinces. One of our
showiest spring flower-
ing shrubs that will
blend into the shrub-
bery border, or may be
planted in clumps of 2
or 3 in the open lawn.
Glossy foliage. 2 feet,
40c each; 3 for \$1.00.

Add 10c Each

If You Want Shrubs
Sent by Parcel Post.

Gold Flower

Hypericum Moserian-
um. 2 feet. A desira-
ble, low growing shrub
to plant at the base of
larger growing plants.
The large, rich yellow
flowers are produced on
slender arching stems
from July to September.
2 feet, 40c each; 3 for
\$1.00.

French Hybrid Lilac

Philadelphus Virginalis

Blue Hydrangea

HYDRANGEA BLUEBIRD. On Cape Cod, Massachusetts, in a garden once belonging to a clipper ship captain, was found a beautiful specimen of hydrangea opuloides. The owner permitted a few cuttings to be taken from this wonderful plant, which he said his father brought from China many years ago. The color is a deep, intense blue not found in the greenhouse varieties. A protected location is recommended in cold climates. We can offer blooming age pot plants of this beautiful shrub at 50c each; 3 for \$1.25, postpaid.

GIANT ROSE HYDRANGEA A new large flowered type of *Paniculata Grandiflora*. Immense pyramidal panicles of bloom one foot or more in length, and often measuring a foot and one-half or more in circumference, are produced in late summer when most shrubs are out of bloom. The flowers open white, but gradually turn to a deep rose color. Usually blossom the same year they are set out. 2 feet, 60c each; 3 for \$1.50.

SNOWBALL HYDRANGEA The earliest bloom-
ing Hydrangea,
growing 4 to 5 feet high, flowering from June until August; large
balls of beautifully formed flowers of dazzling snowy whiteness. A
magnificent shrub which does well in either shady or sunny places.
2 feet, 50c each; 3 for \$1.20.

Bush Honeysuckles

A race of shrubs that will grow under almost any condition, sun,
shade, extreme heat or cold, and even in very poor soil. The fra-
grant blooms come in early spring, followed by bright red berries
that are highly attractive to birds in summer and fall. We recom-
mend the following:

BLUE LEAVED HONEYSUCKLE. The Blue Leaved Honeys-
uckle (*Korolkowi Floribunda*) is one of our most useful shrubs.
Growing from 8 to 12 feet high, it may be used in the shrubbery
border where its blue-green foliage makes a very pleasing contrast.
In addition, we have found it to bloom heavier than any other va-
riety, and the large sprays of deep pink flowers are held well above
the foliage. 2 feet, 60c each; 3 for \$1.50.

DAPHNE-SCENTED HONEYSUCKLE. The
Daphne-Scented Honeysuckle (*Lonicera Syrin-
gantha Wolfii*) is a welcome addition to the
Honeysuckle family. It is all that its name
implies. The individual florets resemble those
of *Daphne Cneorum* in size and shape, and
exudes the delightful perfume found in *Daphne*
and the *Trailing Arbutus*. They are lilac-pink
in color and produced in early spring. Unlike
other bush Honeysuckles, it grows only 3 to
4 feet high, making it suitable for foundation
planting and for the low shrubbery border.
It is more graceful in habit than most varieties
making it desirable for specimen planting. 2
feet, 40c each; 3 for \$1.00.

TARTARIAN HONEYSUCKLE. 12 to 18
feet. An excellent variety for screens, tall
hedges and the background of the shrubbery
border. Perfectly hardy anywhere and will
grow on all types of soil and in either sun or
shade. One of the first shrubs to leaf out in
the spring, usually before the last snows are
gone. Your choice of colors, Red, Pink or
White. 2 feet, 40c each; 3 for \$1.00.

French Hybrid Lilacs

The hybrid Lilacs listed below differ from the common Lilacs in that their
flower clusters are much larger and fragrance more entrancing. The plants
themselves are more dwarf and bushy, usually reaching a height of 6 to 8
feet, and do not sucker or sprout from the roots. A much greater range of
color runs through the varieties of hybrids than may be found in the common
varieties, and they commence blooming on very young plants. They are far
superior to the older sorts in every way.

CHARLES JOLY. Double flowers of deep reddish-purple. The large flow-
ers are held well above the foliage.

CLAUDE BERNARD. Very large panicles of light lilac pink, semi-double
flowers. Blooms a week ahead of the regular lilac season.

DESCAINE. One of the most outstanding lilacs we know of, and a very
unusual color. Large panicles of true light blue, single flowers.

MME. ABEL CHATENAY. The very large, globe-shaped buds look like
huge clusters of Lily of the Valley. They open into pure white double flowers.

RUHM VON HORSTENSTEIN. Enormous panicles of flowers are pro-
duced, even on three year old plants. One of the best red shades. Single.

VAUBAN. A very early flowering variety and the most rapid grower in
our list. Large panicles of delicate pink, double blooms.

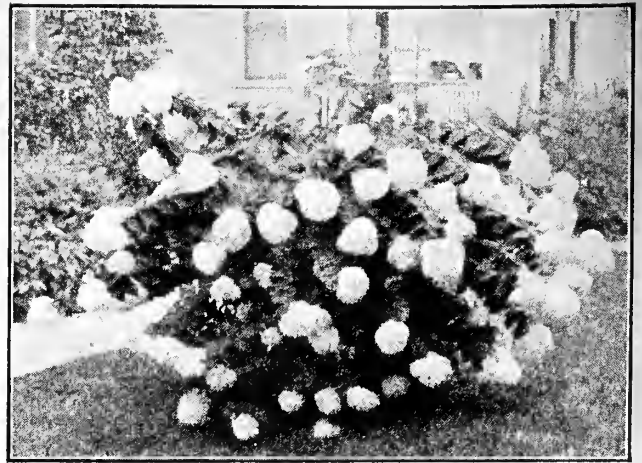

PRICES ON HYBRID LILACS: Your choice of the above 6 varieties in
2 ft. stock at 60c each; 3 for \$1.50.

Persian Lilac 12 feet. Graceful, drooping branches; does not
sucker or sprout from the roots. Single, light lav-
ender, loosely arranged flowers. 2 feet, 40c each; 3 for \$1.00.

Philadelphus, Syringa or Mock Orange

CORONARIUS. 8 feet. An old variety, but one of the finest for group-
ing and specimen planting. Beautiful white flowers in early summer; prob-
ably the most fragrant of all tall growing shrubs. Fine for cutting. 2 feet,
40c each; 3 for \$1.00.

VIRGINALIS (Double Syringa). 6 feet. A magnificent variety. The flow-
ers are double and the largest and most striking of all varieties; often meas-
ure two inches or more in diameter, very fragrant and excellent for cutting.
It has a long blooming season, making its best display of flowers in May and
June, with scattered bloom through summer and fall. A most desirable shrub
for the border and for foundation plantings. Many who have seen it, declare
it to be the most beautiful white flowered shrub that has been introduced
within the last quarter of a century. 2 feet, 65c each; 3 for \$1.75.

Giant Rose Hydrangea

ROSE ACACIA

(*Robinia Hispida*).
3 feet. One of the
most striking of all
spring flowering
shrubs. The pea-
shaped flowers of rose-
purple are produced
in May and June in
loose panicles giving
the impression of a
cluster of sweet peas.
Easily grown and will
thrive on the poorest
of soils and in either
sun or partial shade.
2 feet, 40c each; 3 for
\$1.00.

Snowberry

(*Symphoricarpos Ra-
cemosus*). 5 feet. A
beautiful shrub with
pinkish-white flowers
in loose racemes, in
summer, followed by
clusters of snow-white
berries, which remain
on the branches until
way into the winter.
One of the few shrubs
that will do well in
dense shade. 2 feet,
40c each; 3 for \$1.00.

Tartarian Bush Honeysuckle

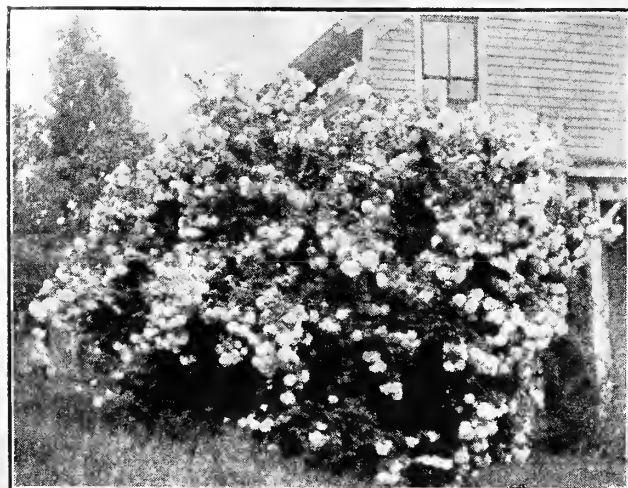

Snowberry

Sweet Pea Shrub

An extremely hardy shrub or
small tree from Siberia. Some-
times called Siberian Pea Tree.
Grows to a height of 15 feet if
the lower branches are removed,
allowing it to grow in tree form.
Handsome green colored bark;
dainty, yellow, pea-like flowers
cover the plant in May or June.
By trimming it can easily be
trained to grow in any shape de-
sired, such as globe, pyramid and
fan-shaped specimens. 2 feet, 40c
each; 3 for \$1.00.

Common Snowball (Viburnum Sterilis)

SNOWBALL

WHITE SNOWBALL (Viburnum Sterilis). 12 feet. A well-known favorite shrub with globular clusters of pure white flowers. Most attractive for Decoration Day, as they are usually in full bloom at that time. Can be planted in the shrub border but shows to best advantage as a lawn specimen. 2 feet, 60c each; 3 for \$1.50.

JAPANESE SNOWBALL (Viburnum Plicatum). 8 feet. Erect, compact growing; purple tinted foliage of beautiful pattern, spangled with perfect ovoid corymbs of purest white in June. Exceptionally fine for the shrub border. 2 feet, 60c each; 3 for \$1.50.

SPICE BUSH

Calycanthus Floridus. 6 feet. A unique shrub of upright growth; large glossy leaves; double, spicily fragrant flowers of mahogany red; blooms in June and at intervals thereafter. 2 feet, 40c each; 3 for \$1.00.

SPIREAS

BRIDAL WREATH (Van Houttei). 7 feet. A leader among shrubs and a beautiful ornament at all seasons. Sometimes called Bridal Wreath. A round and graceful bush with arching branches, covered with white flowers in the spring. No doubt one of the most useful of all shrubs for the border, around porches and for hedges. For prices on smaller hedge size see page 63. 2 feet, 35c each; 3 for 90c; 12 for \$3.00.

GOLDEN SPIREA (Aurea). 8 feet. Of similar habit to Spirea Van Houttei; golden yellow foliage. One of the finest yellow-leaved shrubs. 2 feet, 40c each; 3 for \$1.00.

KOREAN SPIREA (Trichocarpa). 6 feet. Proclaimed the most beautiful of all Spireas. The shrub is rounded and compact. The glistening white flower clusters are produced in great profusion in huge arching sprays. Flowers about two weeks later than Van Houttei. Use for lawn specimens, base planting around the house and for hedges. 2 feet, 40c each; 3 for \$1.00.

PINK SPIREA (Menziesi Macrothyrsa). The best pink Spirea we have ever found and we do not hesitate to recommend it to our customers. The shrub grows 4 to 5 feet high and the bright rose-pink flowers are produced in large dense panicles with several side branches to the flowering stem, giving the effect of a large flower head a foot or more in length. 1 to 2 feet, 40c each; 3 for \$1.00.

RED SPIREA (Anthony Waterer). 2½ feet. Handsome round bush, 2½ to 3 feet in height and width. Begins to bloom in early summer, and if the dead blossoms are picked off, it will continue blooming until late in the fall. Bright red flowers in large clusters, all over the bush. The most popular of all red flowered shrubs. 1½ to 2 feet, 50c each; 3 for \$1.20.

Spirea, Anthony Waterer

Spirea Van Houttei (Bridal Wreath)

French Pussy Willow

10 feet. Not the wild pussy willow but a cultivated variety that has made a sensation wherever it has been shown. Branches of this variety have been selling at retail during the winter months in cities at from \$1.00 to \$2.00 per dozen. You Can Grow Them on Your Own Lawn. Enjoy these dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. 2 feet, 35c each; 3 for 90c; 12 for \$3.00.

Fern-Leaved Sumac

RHUS, Typhina Laciniata. 10 feet. Beautiful fern-like foliage of deep green, which, in the fall, turns to shades of golden yellow and brilliant red. Especially effective if placed in the rear of lower shrubs. Flowers are borne during June and July in dense terminal panicles, followed by red fruits which are attractive in the autumn and winter. Extremely hardy; will thrive in any soil, even in dry, barren spots where little else will grow. 2 feet, 50c each; 3 for \$1.20.

TAMARIX (Feather Bush)

AFRICANA. 10 feet. Fine feathery foliage like that of Juniper. Delicate pink flowers, borne profusely on graceful drooping branches with red bark. Will thrive in almost any situation, even in the poorest, dry, sandy soil. A beautiful shrub. 2 feet, 35c each; 3 for 90c.

HISPIDA (Spanish Tamarix). 4 ft. A densely bushy shrub. Flowers bright coral-pink, produced in extra large upright panicles in mid-summer. Finely feathered foliage. A very striking shrub both in and out of bloom. 2 feet, 40c each; 3 for \$1.00.

Weigela

FLORIBUNDA. 5 feet. The best red flowered Weigela we have found which is perfectly hardy. Showy, bright carmine red, bell-shaped flowers in early summer. 2 feet, 60c each; 3 for \$1.50.

HENDERSONI. 5 feet. Deep rose, bell-shaped flowers in great profusion during May and June. A robust and healthy shrub that will grow in either sun or partial shade. 2 feet, 40c each; 3 for \$1.00.

VARIEGATED. 4 feet. Leaves variegated, green, yellow and pink. Flowers delicate rose and pink. A charming shrub. 2 feet, 50c each; 3 for \$1.20.

French Pussy Willow

Honeysuckle

Bittersweet

Hardy Climbing Vines

Our hardy vines are strong field grown plants except where otherwise noted. Prices are for shipment by express, not prepaid. If you prefer that vines be sent by parcel post, add to your remittance the very nominal additional charge we make for parcel post shipments.

BOSTON IVY (*Ampelopsis Veitchii*). A grand hardy climbing vine for covering houses, churches, schools, etc. Clings firmly to the smoothest surface of rock or wood. The glossy leaves assume, in the autumn, the most beautiful tints of scarlet and crimson. The best vine in existence for growth on brick walls. Sun or shade. 40c each; 3 for \$1.00. 5c each extra by parcel post.

Bearing Age Bittersweet

Our stock of Bittersweet (*Celastrus Scandens*) has already fruited in the nursery, and we offer only the fruiting plants. A most desirable climber. Handsome, large leaves; yellow flowers in May and June and clusters of ornamental orange-capsuled fruit in autumn. The dried berry-clusters find a ready market for winter decorations. Extra heavy 3-year-old plants, 40c each; 3 for \$1.00; 12 for \$3.50. 25c each extra by parcel post.

EVERGREEN BITTERSWEET

(*Euonymus Vegetus*.) A beautiful thick leaved evergreen shrub or vine. Will grow in either shady or sunny location. If planted near a wall, they make a low vine, and if planted in the open, they grow into a low spreading evergreen shrub. They bear bright orange-red berries in the autumn like the wild Bittersweet, the berries remaining on the plant the greater part of the winter. The plants also hold their beautiful green leaves all winter. 40c each; 3 for \$1.00. 5c each extra by parcel post.

CLEMATIS

LARGE-FLOWERED HYBRIDS. The following varieties are the best of the large-flowered Clematis, producing an abundance of flowers often measuring 5 and 6 inches across.

DUCHESS OF EDINBURGH. Double White.

JACKMANII. Violet-purple.

MONTANA RUBENS. Anemone-pink.

RAMONA Sky-blue.

TANGUTICA. Bright yellow.

Your choice of the above large-flowered Clematis at 80c each; all five for \$3.50. 5c each extra by parcel post.

PANICULATA (Sweet Scented Japanese Clematis). Finest small flowered Clematis. Rapid grower; flowers pure white, fragrant, and produced freely in immense clusters in September. A very desirable vine. 40c each; 3 for \$1.00. 5c each extra by parcel post.

DUTCHMAN'S PIPE

Brownish flowers, resembling miniature pipes. An ideal vine for sunny situations requiring dense shade; leaves deep green, very large, broad and closely laid. Our plants are grafted from blooming wood of selected specimens, assuring rapid growth and early blooming. 80c each; 3 for \$2.25. 5c each extra by parcel post.

Goldflame Honeysuckle

Blooms Continually from May
Until Fall Frosts

(Heckrotti). No other hardy climbing vine will bloom so continuously over such a long period of time as Goldflame. Every plant in the nursery is loaded with blossoms from May until heavy fall frosts. The showy trumpet-shaped flowers are bright red outside and yellow inside. The reflexed petals expose both colors and give a pleasing two-tone effect. We believe this to be the most valuable climber introduced in recent years. It can also be trimmed into shrub form if desired. 70c each; 3 for \$1.80. Postage 5c each extra.

HALL'S JAPANESE HONEYSUCKLE. Flowers white, changing to yellow; extremely fragrant. Grows in either sun or shade. 35c each; 3 for 90c. Postage 5c each.

SCARLET TRUMPET HONEYSUCKLE, Sempervirens. Trumpet-shaped flowers of bright scarlet; blooms nearly all summer. 35c each; 3 for 90c. Postage 5c each extra.

CLIMBING HYDRANGEA

An attractive climber with broad, bright green foliage and large, flat clusters of fragrant white flowers in early summer. A rapid grower when once established and will cling to the wall like Ivy. Very scarce. Choice pot grown plants, 75c each; 3 for \$2.00. 5c each extra by parcel post.

PUERARIA Kudzu Thunbergia (Jack-and-the-Bean-Stalk). A remarkable climber which starts new shoots from the crowns of the roots each year. It is the most rapid growing vine in cultivation; grows 8 to 10 feet the first year from seed, and after it has become established a growth of 40 to 60 feet in a single season is not unusual. The foliage is large and furnishes dense shade; bears panicles of rosy-purple, pea-shaped blossoms somewhat like Wistaria, during August and September. Field grown roots, 25c each; 3 for 50c. 5c each extra by parcel post.

EVERGREEN ENGLISH IVY

A true evergreen climbing vine which retains its beautiful, broad, glossy, dark green leaves all winter. It is perfectly hardy in the open ground, and can be grown in the shade, near porches and foundations, where very few other plants will grow. It is a most desirable vine wherever a low or medium size vine is wanted; much used for cemetery work. It also makes an excellent house plant or tub plant for the porch. If pruned it will branch out and can easily be trained into fine globe, pyramid, and fan-shaped specimens. Choice pot plants, 25c each; 3 for 50c, postpaid.

SILVER LACE VINE or CHINESE FLEECE

(*Polygonum Auberti*). One of the fastest growing hardy vines in existence, making a dense growth to 25 feet high, sometimes in a single season. During late summer and fall the entire vine is covered with foamy sprays of white flowers. If you need a vine to produce quick results, *Polygonum* will best suit your purpose. 50c each; 3 for \$1.25. 5c each extra by parcel post.

PINK JAPANESE WISTARIA

18-Inch Clusters

Beautiful clear pink flowers in clusters 15 to 18 inches long. One of the finest Wistarias and the most profuse bloomer we have ever found. Does not bloom quite as young as some varieties, but well worth waiting for. Strong plants, grafted from blooming wood. 90c each; 3 for \$2.40. 10c each extra by parcel post.

Oriental Wistaria

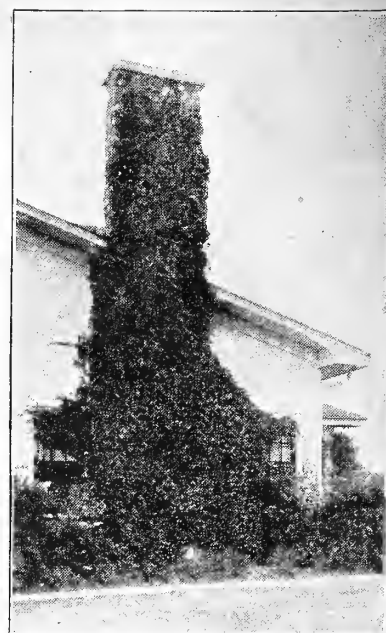

4-Foot Flower Clusters

WISTARIA KYUSHAKU. One of the most sensational Wistarias found in the Orient. The parent plant from which our stock originated produces beautiful purple flower clusters over four feet in length. Stock limited, so order early. Grafted vines, \$2.00 each; 3 for \$5.00. 10c each extra by parcel post.

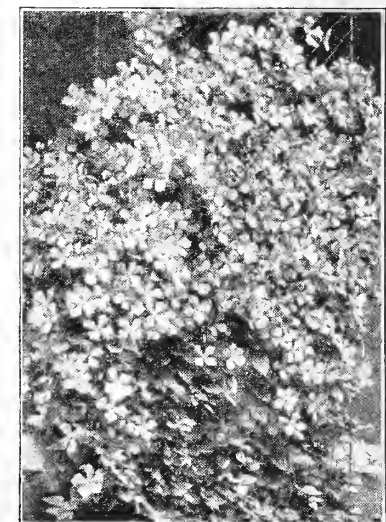

WISTARIA CHINESE PURPLE. The light purple flowers are produced in clusters a foot or more in length. Seedling plants require many years in which to bloom. Our Wistarias are all grafted from blooming wood and should flower within two or three years. Strong vines, 50c each; 3 for \$1.20. 10c each extra by parcel post.

WISTARIA JAPANESE WHITE. We consider it the best of the white flowered varieties. Flowers in 18-inch clusters. Strong vines, 75c each; 3 for \$1.75. 10c each extra by parcel post.

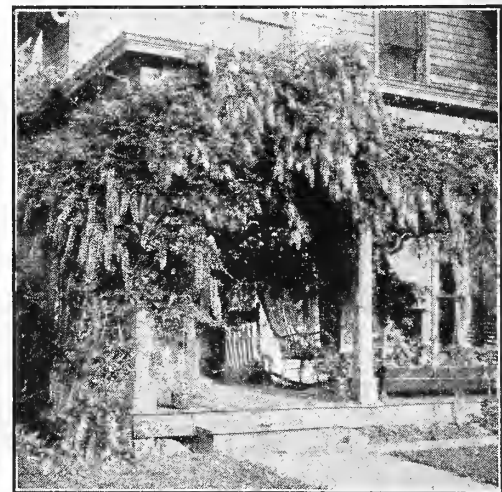

TRUMPET VINE Very hardy and rapid grower. Used for covering unsightly places, stumps, or wherever a showy flowering vine is desired. Produces clusters of trumpet-shaped, orange-scarlet flowers about 3 inches long. If tops are kept cut back it makes a beautiful bush for the lawn. 35c each; 3 for 90c. 5c each extra by parcel post.

Ampelopsis Veitchii (Boston Ivy)

Clematis Ramona

Wistaria Chinese Purple

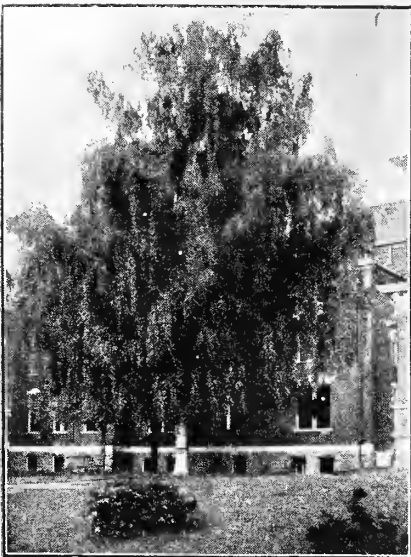

KEEP DOGS AWAY

If you are bothered with dogs, cats or rabbits, "Dog-Za-Way" is the spray you need. One spraying will last from three to four weeks. Not poisonous to plants and will not injure animals. Not offensive to humans. Its use is guaranteed to keep these animals from any place where they are not wanted.

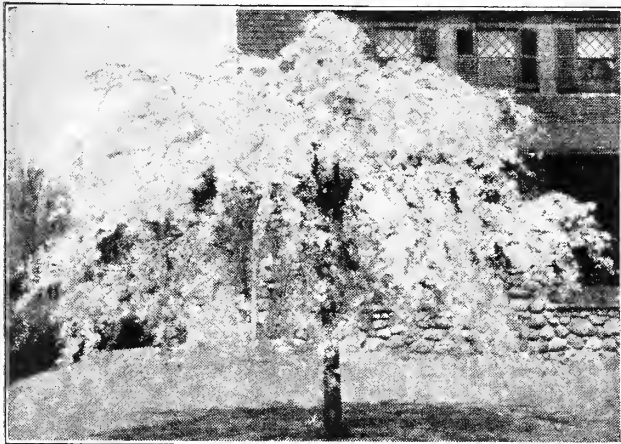

"Dog-Za-Way" is applied with any small insect sprayer and one application usually does the work.

"Dog-Za-Way" will save its cost many times over around the garden and home. Price, 39c, postpaid.

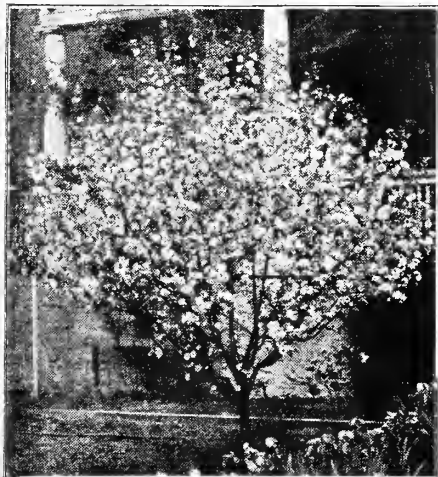

Cut-Leaved Weeping Birch

Japanese Weeping Cherry

Bechtel's Double Flowering Crab

Chinese Elm

The Most Rapid Growing
of All Fine Shade Trees

A tree without faults, and is rapidly replacing other quick growing trees. The picture shown on this page is from a photograph taken 6 years after planting, the trunk of the tree measuring 34 inches in circumference 18 inches from the ground. You need not wait 15 to 20 years for shade, as Chinese Elms will give **LUXURIOUS SHADE IN 5 TO 6 YEARS**. With no other desirable tree can new homes enjoy the luxury of cool shade in such a short time. It has dense, dark green foliage; the first shade tree to put out leaves in the spring and the last to shed them in the fall. Thrives on either rich or poor soil, resists drought and cold, and makes a fine showing even if neglected. It succeeds in all parts of the United States, including both the cold and semi-arid regions, and thrives everywhere except on low, wet ground. 4 to 6 feet, 80c each; 3 for \$2.00. Parcel post, 20c each extra.

HEDGE GRADE. Chinese Elms make a very desirable hedge or windbreak. Hedge grade trees, 12 to 18 inch, 25 for \$2.50; 100 for \$8.50, prepaid.

Ornamental and Shade Trees

Our list of trees includes the most popular and useful varieties for lawn adornment and street planting. They are offered in 2 to 4 year grades that transplant easily and will please the most critical buyer. Our trees are priced for shipment by express, not prepaid, but if you have no express office, or want them by parcel post, we will prune and pack to meet parcel post size limits. Extra charge for postage and special packing is noted after the price of each tree, which must be added to the advertised cost. If not otherwise instructed, we will send all trees by express.

If you want small one-year-old trees, refer to our offer on page 66.

AILANTHUS (Prairie Palm). 60 feet. An extremely rapid grower with brilliant green tropical-like foliage. Thrives under the worst of city conditions, smoke, etc., and in soil where other trees would perish. 4 to 6 feet, 80c each; 3 for \$2.25. Parcel post, 25c each extra.

THE BIRCHES

The Birches make excellent lawn trees of distinctive character, the silvery white bark contrasting sharply with the color of the foliage. They are frequently planted in groups of 3 or 4, which makes a beautiful landscape effect. Bark is brown until about the third year.

CUT LEAVED WEEPING. 40 ft. A tall, slender tree with drooping habit. The finely cut foliage is deep green. 4 to 5 feet, \$1.80 each; 3 for \$5.00. Parcel post, 25c each extra.

EUROPEAN WHITE. 40 feet. For those who prefer an upright tree with spreading branches we offer this popular European variety. This variety adapts itself to clump planting better than the others. Plant 3 or 4 in the same hole and watch them develop into an unusually attractive group. 4 to 5 feet, \$1.25 each; 3 for \$3.00. Parcel post, 25c each extra.

PURPLE LEAVED WEEPING. 40 feet. A very conspicuous tree with its white trunk and reddish-purple foliage contrasting well with the other trees in the landscape. The supply is very limited and we are fortunate in owning practically all of the salable stock in America. 4 to 6 feet, \$1.80 each; 3 for \$5.00. Parcel post, 25c each extra.

Umbrella Catalpa

BUNGEII. 10 feet. Budded on straight, heavy stems, it makes an umbrella-shaped top without pruning. Flourishes in all soils and climates. Leaves large, heart-shaped, deep green, lying like shingles on a roof, always making a symmetrical head. Usually set in pairs on opposite sides of walk, entrance, etc. 4 to 5 feet, \$1.25 each; 2 or more at \$1.10 each. Parcel post, 25c each extra.

Double Pink-Flowering Cherry

20 feet. A charming small tree with branches completely covered by a mass of large, double, bluish-pink flowers in early spring. 3 to 4 feet, \$1.50 each; 3 for \$4.00. Parcel post, 15c each extra.

Japanese Weeping Cherry

12 feet. The finest of all weeping flowering trees. A mass of beautiful rose-colored blossoms in early spring, giving the tree the appearance of being buried beneath a wealth of exquisite color and fragrance. 5 to 6 feet, \$4.00 each; 3 for \$10.00. Too large for parcel post shipment.

Flowering Dogwood

WHITE DOGWOOD (Cornus Florida). 18 feet. Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; foliage grayish green, glossy and handsome; in the autumn turning to deep red, presenting a gorgeous spectacle. 2 to 3 feet, 80c each; 3 for \$2.25. Parcel post, 10c each extra.

PINK DOGWOOD (Cornus Florida Rubra). Similar to above but with handsome pink flowers. An attractive lawn specimen or group subject. 2 to 3 feet, \$1.90 each; 3 for \$4.70. Parcel post, 10c each extra.

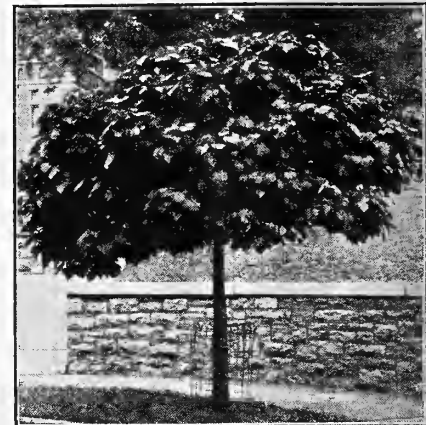

HORSE CHESTNUT 40 feet. An attractive flowering shade tree, being one of the first to cast a dense shade in May. Magnificent, hyacinth-like spikes of sweetly scented white flowers, standing stiffly erect in strong contrast to the rich dark green leaves. 3 to 4 feet, \$1.00 each; 3 for \$2.50. Parcel post, 25c each extra.

JAPANESE MAIDENHAIR TREE

(Ginkgo Biloba). Tall narrow tree in its native country, but in America is usually of more spreading habit. Especially suited for street and lawn planting. It is perfectly hardy, withstands cold, heat and smoke, and is absolutely free from disease and insects. The dark green fan-shaped leaves resemble those of the Maidenhair Fern, from which it receives its name. 3 to 4 feet, \$1.50 each; 3 for \$4.00. Parcel post, 15c each extra.

Flowering Dogwood

Umbrella Catalpa

Flowering Crab

BECHTEL'S DOUBLE FLOWERING. 15 feet. A fine, small flowering tree which, when in bloom, presents the appearance of being covered with delicate pink roses, scenting the atmosphere for a long distance with a perfume surpassing the fragrance of the Tea Roses. The cut blossoms have often been taken for roses. The ideal lawn tree for the small yard. 3 to 4 feet, \$1.00 each; 3 for \$2.50. Parcel post, 20c each extra.

MAPLES

SILVER (Soft Maple). 60 feet. A fine, rapid-growing tree; leaves bright green above and silvery beneath, turning to red and orange in fall. 4 to 5 feet, 80c each; 3 for \$2.25. Parcel post, 25c each extra.

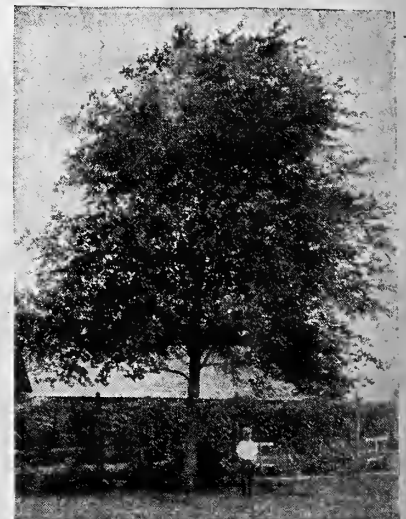

SUGAR (Hard Maple). 80 feet. A spreading, symmetrical tree affording very dense shade. Will grow in most any situation. Maple syrup is made by boiling down the sap from this tree. 4 to 5 feet, \$1.00 each; 3 for \$2.50. Parcel post, 25c each extra.

Paul's Scarlet Hawthorn

The most popular variety of English Hawthorn. Flowers deep crimson-scarlet and very double; produced in great profusion late in spring. These are followed by showy red fruits and autumnal colorings of foliage. One of the most attractive small trees, attaining a height of about 15 feet. Will thrive even on the poorest soil; suitable for planting in groups or as a single specimen tree. 3 to 4 feet, \$1.50 each; 3 for \$4.00. Parcel post, 20c each extra.

GIANT SILVER BELL

A handsome dwarf tree or large shrub with branches growing close to the ground. In May the tree is loaded with hanging, bell-shaped, white flowers. Very attractive, and thrives in either partial shade or full sun. 2 to 3 feet, 85c each; 3 for \$2.25. Parcel post, 10c each extra.

Chinese Elm

Lombardy Poplars

LOMBARDY POPLAR

A tall, picturesque tree of slender, upright growth; used in formal gardens, and for landscape effect; can be planted very close together to screen unsightly views and buildings. A hardy, rapid grower.

4 to 6 feet, 60c each; 3 for \$1.50, 10 or more at 40c each; 25 or more at 30c each; or 50 or more at 25c each. Parcel post, 20c each extra.

Bolleana Poplar Similar to Lombardy in habit but a much finer tree. The large, glossy green leaves have a silver reverse that glistens in the sun as the wind blows. 5 to 6 feet, \$1.00 each; 3 for \$2.50. Parcel post, 20c each extra.

MAGNOLIA

Soulangeana. A hardy variety and one of the finest of all Magnolias; beautiful, cup-shaped, pink blossoms, 3 to 5 inches across, opening in the spring, before its large, glossy leaves appear. A most magnificent, medium-sized tree for the lawn, which, when in bloom, will attract more attention than anything else we know of. 2 to 3 feet, \$3.00 each; 3 for \$8.00. Parcel post, 15c each extra.

MOUNTAIN ASH 25 feet. A medium-sized tree of unusual beauty, with fern-like leaves. The clusters of white flowers in spring are followed by large bunches of very ornamental, showy, red berries. In fall the foliage turns to beautiful orange and red colors. An exceptionally fine ornamental tree. 3 to 4 feet, 90c each; 3 for \$2.40. Parcel post, 15c each extra.

Magnolia Soulangeana (\$3.00 Each)

Mulberries for Shade and Fruit

Save Your Berry Crops by Planting Mulberries for the Birds

Two Mulberry Trees are required for cross pollination in order to bear fruit. Two or more trees should be planted near each other unless there are others in the neighborhood.

RUSSIAN MULBERRY. An ideal shade tree; luxuriant foliage; clean and hardy everywhere; a rapid grower. Bears an abundant crop of edible fruits which resemble blackberries and are very sweet. A few Russian Mulberry trees will save your cherry crop as the birds prefer the Mulberries to cherries. 4 to 6 feet, 80c each; 3 for \$2.25. Parcel post, 20c each extra.

NEW AMERICAN MULBERRY. One of the most prolific of all Mulberries; bears an abundance of jet black fruits of enormous size, much larger than those of the Russian variety and of better quality. Sweet, rich and delicious; ripe fruit every day for from 4 to 6 weeks. 4 to 6 feet, \$1.00 each; 3 for \$2.50. Parcel post, 20c each extra.

TEA'S WEeping MULBERRY. The most graceful, small, hardy weeping tree. Forms a perfect round head with slender branches drooping to the ground. Admirably adapted for small grounds, specimens or for cemetery planting. 4 to 6 feet, \$2.00 each; 3 for \$5.00. Parcel post, 25c each extra.

WILLOWS

GOLDEN UPRIGHT. 35 feet. Very showy variety with golden bark of high color; very conspicuous in winter. 5 to 6 feet, 65c each; 3 for \$1.75. Parcel post, 25c each extra.

GOLDEN WEEPING (Niobe). 35 feet. Somewhat like the Wisconsin Willow except the bark is bright golden yellow. Very effective in the landscape, even when not in leaf. A rapid grower and perfectly hardy. 5 to 6 feet, \$1.00 each; 3 for \$2.50. Parcel post, 25c each extra.

RING LEAVED. A very unusual and attractive tree. The habit of growth is very much like the other Willows, except for leaf formation. The narrow leaves are about 3 inches long and curl in such a manner as to form almost a perfect ring. 3 to 4 ft., \$1.00 each; 3 for \$2.50. Parcel post, 15c each extra.

WISCONSIN WEEPING. 35 feet. A graceful tree of large size; one of the finest, if not the finest of all large weeping trees. Long, slender, wavy, drooping branches and narrow green leaves and green bark. A rapid grower, and thrives in either moist or dry ground. 5 to 6 feet, 75c each; 3 for \$2.00. Parcel post, 25c each extra.

GOLDEN TREE WISTARIA

A true Tree—grows to a height of 15 feet. Bloom starts on small trees. The blooms of GOLDEN TREE WISTARIA (Laburnum Vossii) resemble the true Wistaria and bloom in great abundance. Just imagine long clusters of golden pea-shaped flowers growing on a tree.

Strong three-year old trees, 4 to 6 feet high, only \$1.50; 3 for \$4.25. Parcel post, 25c each extra.

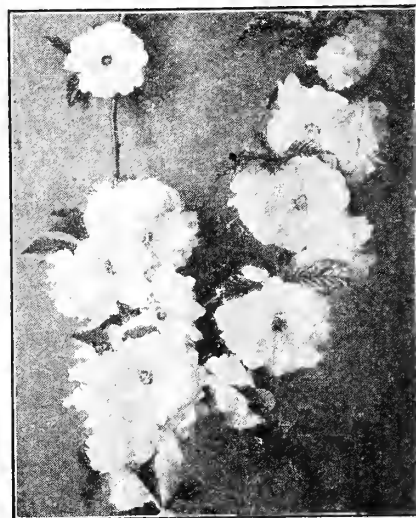

\$1.50 each; 3 for \$4.25

RED BUD (Judas Tree)

A very ornamental tree of medium size, with perfect heart-shaped leaves. Blooms early in spring, before the leaves appear, covering the branches with small rosy-purple, pea-shaped flowers. 4 to 5 feet, \$1.00 each; 3 for \$2.50. Parcel post, 25c each extra.

TULIP TREE

60 feet. A rapid-growing tree of unusual beauty. Flowers appear in June and resemble large yellow tulips. Beautiful, glossy leaves which, in fall, turn to brightest yellow. Makes a wonderful specimen tree for any lawn. 4 to 6 feet, \$1.50 each; 3 for \$4.00. Parcel post, 25c each extra.

Rose Tree of China (\$1.00 Each)

Rose Tree of China

Double Rose-Like Pink Flowers in Early Spring

(Prunus Triloba). One of the most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the spring, being literally covered with very double rose-like pink flowers. This symmetrically formed, graceful little tree grows usually to a height of but 8 feet, and is attractive as a specimen or when planted in groups or shrub border. It is hardy and easily grown, and no lawn is so small that room cannot be found for at least one of these wonderful trees. Many who have seen it declare it to be the most beautiful tree they have ever seen. The rose-like blossoms make fine cut flowers. 2 to 3 feet, \$1.00 each; 3 for \$2.50. Parcel post, 10c each extra.

Notice

The trees offered on this page are sent by express, not prepaid. We recommend express shipments, but if you prefer that we send trees by parcel post, we will select a grade that will be admitted to the mails or prune and pack to meet parcel post size limits. Always send the extra parcel post charges if trees are wanted by parcel post.

Tree and Shrub Seeds

We have received so many requests for seeds of hardy Trees, Shrubs, Vines and Evergreens that we are offering a list of varieties that are easily grown from seed. Complete instructions will be sent with each order.

Ailanthus
Althea, mixed colors
Amorpha (False Indigo)
Arbor Vitae, American
Boston Ivy
Catalpa Speciosa
Fir, Douglas
Mulberry, Russian
Pine, Austrian

Pine, Mugho
Pine, Scotch
Pine, White
Purple Fringe
Red Bud
Russian Olive
Silver Linden
Spruce, Colorado Blue
Spruce, Norway

Select the varieties you want at 20c per pkt., 3 pkts. for 40c; 8 pkts. for \$1.00, postpaid.

For small one-year-old trees, shrubs, vines, see Bargain Prices on page 66.

Kills Ants in the Nest

Antrol is easy to use, economical, safe around children and pets. Consists of small glass containers from which worker ants carry special Antrol Syrup to their nests for food. The whole ant family is quickly killed at the source—the only way to get permanent relief. Controls both sweet and grease-eating ants. Guaranteed.

Antrol Ready-Filled Set, containing 4 filled feeders, by express, not prepaid, 40c; by parcel post, postpaid, 58c.

Antrol Regular Set, 4 containers and 4-oz. bottle syrup—enough for two fillings—by express, not prepaid, 60c; by parcel post, postpaid, 78c.

Antrol Syrup for Refilling. By express, not prepaid, 20c for 4-oz. bottle; 50c per pint. By parcel post, postpaid, 30c for 4-oz. bottle; 75c per pint.

Antrol Ant Trap. Small ready-filled metal "feeder." Can be used inside or outside the house. By parcel post, postpaid, 15c each; 4 for 50c.

Yew, Japanese	10-12 inch	.50	1.20	3.50

THE ABOVE EVERGREENS ARE ALL WELL DEVELOPED, 10 TO 12 INCH TREES, AND ARE DELIVERED PREPAID AT THESE PRICES.

Hardy Arbor Vitae

AMERICAN (White Cedar) 30 feet. Erect, broadly pyramidal habit; flat, beautifully carved, bright green foliage, dense from ground up; grows rapidly and soon forms a most beautiful tree for any purpose. Usually seen as a tree 5 to 10 feet high and half as wide, but will grow to be a large tree. Used extensively as single specimens, for foundation planting, screens and windbreaks, and heads the list for Evergreen hedge planting.

GLOBE (Woodward's). 6 feet. A compact, round ball; bright green foliage. The neat globular outline adapts this Arbor Vitae for formal plantings, tub and window box use, as well as in the foreground of Evergreen groups.

PYRAMIDAL. 20 feet. A densely columnar type, similar in shape to Irish Juniper, averaging only 24 to 30 inches in diameter when 12 feet high. Foliage deep green, retaining its color throughout the season.

Dwarf Mugho Pine

Never grows over 4 to 5 feet tall, but spreads out 6 or 8 feet in diameter when fully grown. By annual shearing it can be kept as small as desired. The color is deep green in summer and winter. Popular in the foreground of foundation plantings.

Scotch Pine

A big, broad-shouldered tree highly resistant to wind, drought and cold; growing to 50 feet. Thrives well on the poorest soil, grows rapidly when young, and is one of the best Evergreens to withstand extreme exposure and unfavorable conditions. It is an attractive tree, with slender, dark green needles; makes a quick and attractive windbreak. It is a handsome tree in its prime, and is used considerably by landscape men in ornamental plantings.

Balsam Fir

80 ft. The fragrant Balsam of the Northern woods. Very popular for Christmas trees.

Douglas Fir

60 ft. A fast growing evergreen of symmetrical growth and dark green foliage. Has proven a money maker for the commercial grower of Christmas trees.

Colorado Blue Spruce

A wonderful ornamental tree of glistening silvery blue, growing to 30 feet. Perfect in form and symmetry, and exceedingly hardy. Selected Blue Trees.

Morheim Blue Spruce

The best Blue Spruce yet introduced. Better color than either Colorado or Koster's, and makes a more symmetrical tree.

Irish Juniper
(3 for \$1.20)

Red Cedar (3 for \$1.00)

Colorado Blue Spruce

Drought Resisting Junipers

During seasons of extreme heat and drought Evergreens frequently have their foliage severely damaged. It has been found that when all other varieties have been killed or damaged the Junipers have come through unharmed. Junipers are unexcelled as a class for ornamental planting, and are the easiest of Evergreens to transplant. We offer here an assortment of various types and recommend all of them.

IRISH. Foliage bluish-green. Very dense and upright habit to 8 feet. Fine for columnar effect in landscape work.

MEYER'S BLUE. 5 feet. The foliage is shiny, bright blue, and appears of different colors when viewed from various angles. There are distinct tones of green, white and pinkish-red, making it the most striking in color of all evergreens. It has a spreading habit, and makes an ideal planting for the rockery or around a pool. It is hardy and does well in all parts of the country. Never fails to attract attention.

PFITZERIANA. Vase-shaped, spreading growth to 8 feet across. Light bluish-green foliage producing a beautiful, soft effect. Extremely hardy, tolerant to city conditions and succeeds in semi-shade or full exposure of the sun. Excellent for foundation plantings.

PLUMY JUNIPER (*communis depressa plumosa*). A comparatively new variety of unusual merit. Having originated in Maine, it is perfectly hardy throughout the North. It grows to a height of about 15 to 18 inches, but sometimes not over 6 or 8 inches. The branches stay very close to the ground making it ideal for planting in the foreground of taller varieties. The plumy, feathery foliage is grayish-green, turning purple in winter.

RED CEDAR (Virginiana). Tapering, pyramidal form to 25 feet. Foliage varies from light green to dark green, grayish green and bluish green; color good at all times, but its bronzy appearance in fall and early winter is very attractive. Thrives well on poor soil.

Japanese Yew (*Taxus Cuspidata*)

The Yews are the only evergreens that will thrive in dense shade. The foliage is deep green and the branches are covered with bright red berries in the fall. The slow growth of the Yews makes them ideal for foundation plantings as they do not soon outgrow their quarters.

BARGAINS In Evergreen Seedlings

For a small investment you can, in a few years, develop a paying crop of Christmas Trees. You can also greatly increase the appearance and value of your property by planting hedges and windbreaks of Evergreens. Plant a few of them in the garden and grow them a few years before setting in a foundation planting. Planting instructions with each order.

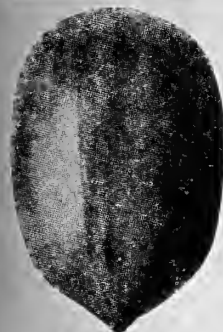

IMPORTANT—READ BEFORE ORDERING

Because of our low prices on Evergreen Seedlings we cannot accept orders for quantities other than listed. If you want 25 of one variety and 25 of another, order each variety at the 25 rate. No less than 10 of a variety sold. These Seedling Evergreens cannot be shipped as early in the spring as our other Evergreens. Seedlings will be shipped during April and May, and delivered prepaid at the following prices:

Variety	Size	Per 10	Per 25	Per 50	Per 100	Per 500	Per 1000
Arbor Vitae, American	2 yr. 4-6 inch	\$0.80	\$1.20	\$1.80	\$3.00	\$10.00	\$18.00

These Evergreen Seedlings Delivered Prepaid at Above Prices

Nut Trees for Profit and Shade

Hardy Pecan

Hardy Northern Pecans

Northern grown Pecans are just as hardy as the hickories and should not be confused with Southern grown stock. Our trees are Michigan grown and have withstood a temperature of 17 to 20 degrees below zero without injury. They are ideal for shade trees as they are practically immune to insects and do not shed their leaves until late in the fall. 4 to 6 ft. high, \$1.65 each; 3 for \$4.50. Parcel post, 25c each extra.

Black Walnuts

Walnuts are becoming more popular each year with bakers, candy makers and ice cream manufacturers. They will grow in nearly all sections of the United States. They will thrive with little or no attention and if planted along fence rows, take up very little of your tillable land. While the Native Black Walnut produces satisfactory results, we recommend planting grafted named varieties where early bearing and quality are desired. Of all the grafted varieties now on the market, we are offering only the Thomas, it being far superior to any other.

THOMAS. The nut is very large, thin shell, has a very fine flavor and cracks out almost 90% whole halves and quarters. Grows much faster than the seedling trees and usually begins to bear a few nuts the second year after transplanting. 3 to 4-ft. trees, \$1.75 each; 3 for \$4.50. Parcel post, 25c each extra.

NATIVE BLACK WALNUT. A tree of large size and majestic form. The most valuable of all trees for its timber, bringing the very highest price in market. The tree is a fairly rapid grower, makes a good shade tree, and the large, oily nuts are of fine flavor and marketable at a fair price. 3 to 4 feet, 80c each; 3 for \$2.00. Parcel post, 25c each extra.

Nut trees will provide an abundance of shade and produce large crops of nuts. There is room on nearly every city lot for one or more nut trees, and almost every farm contains land which should be planted to nuts. Nuts in many cases pay better than farm crops or fruit.

Chinese Sweet Chestnut

The Chinese Sweet Chestnut (*Castanea Molissima*) is one of the finest trees you can plant, both for nuts and as an ornamental lawn specimen. They are blight resistant and produce enormous crops. The nuts are larger than those of the American Chestnut and are equally sweet and good. Often bear when trees are only 3 to 4 feet tall. They are not particular as to soil requirements, but respond freely if fed and well cared for. Plant two trees for pollination. 1½ to 2 feet, 80c each; 3 for \$2.10. Parcel post, 20c each extra.

Hazel Nuts for the North

The Rush Hazel is the best variety we have found for the North. The nuts are of fair size, excellent quality, very productive and free from insect pests. Instead of growing in bush form, as most Hazels, this variety develops into a very ornamental tree, about 18 feet high, with drooping habits. Makes a fine ornamental specimen for the lawn. 18 to 24-inch, \$1.10 each; 3 for \$3.00. Parcel post, 10c each extra.

Hardy English Walnut

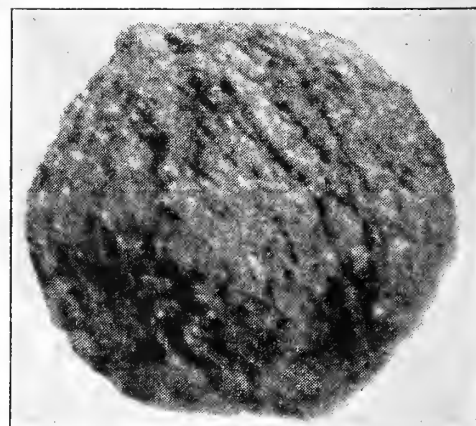

Our English Walnut trees are hardy, will stand more cold than peaches, and will produce good crops of nuts which are equal to the California product. There is very little labor connected with the harvesting of English Walnuts—simply gather the nuts from the ground when they fall. No shucking—simply pick them up and put them in sacks and they are ready for use. No other work connected with harvesting. These trees have been thoroughly tested. We can recommend them for planting in Michigan, New York and other Northern and Eastern States as well as in the South and West. The English Walnut equals the maple as a shade tree. 2 to 3 feet, \$1.00 each; 3 for \$2.50. Parcel post, 20c each extra.

English Walnut Seed

Here is an inexpensive opportunity to start an English Walnut grove. Walnuts will grow readily from seed, but to be certain of having hardy trees be sure to plant only Northern grown seed. We offer stratified, Northern grown English Walnuts at 6 for 35c; 20 for \$1.00, postpaid.

Japanese Walnut

Of the finer imported Walnuts the Japanese is the species best adapted by its hardy, vigorous habit for general culture in our country. It grows with great vigor, assuming a handsome shape without pruning, and has withstood a temperature of 21 degrees below zero without injury. Its nuts are considerably larger than the common hickory-nut, and are borne in clusters of fifteen to twenty. The shell is a little thicker than that of the English Walnut, which it resembles in a general way. The kernels are meaty and of rich, delicate flavor. It is a handsome shade tree. 3 to 4 feet, 80c each; 3 for \$2.00. Parcel post, 25c each extra.

Thomas Walnut

Hardy English Walnut

BUTTERNUT

(White Walnut)

The nuts are large, long, oily and nutritious. A lofty, spreading tree, valued as a shade tree and for its beautiful wood as well as for its nuts. 3 to 4 feet, 80c each; 3 for \$2.00. Parcel post, 20c each extra.

NOTICE

Owing to quarantines, the different varieties of Walnuts cannot be shipped to California or Arizona; Pecans cannot be sent to California, Arizona or Utah; Chestnuts to California, Idaho, Oregon or Washington; and Hazel Nuts to California, Oregon or Washington.

GRAPE VINES

25c Each
3 for 60c

CATAWBA. Purplish red, bunch large, berries of medium size; rich vinous flavor, of best quality for table and wine. Late, ripens here the last of September. The best keeper, lasting until March or later.

CHAMPAGNE. Large bunches of wine-red grapes, very sweet, juicy and palatable. An excellent grower, productive, and ripens with Concord.

DELAWARE is a small red Grape. No American Grape has more delicate flavor or more pleasing aroma. Ripens with Concord. Brings from 50 to 100 per cent more on the market than other varieties. Hardy; vigorous; succeeds both North and South.

FREDONIA. The best extra early black grape, ripening two weeks ahead of Worden. Vigorous, productive and extra hardy. Large bunch and berry. Fruit firm; long lasting qualities.

MOORE'S EARLY. Similar but larger than Concord and ripens 2 or 3 weeks earlier, the last fruits of it being sent to market before those of the Concord are picked. Vine hardy, vigorous and moderately productive.

NIAGARA. The leading white Grape throughout the country. Ranks with Concord in vigor and productiveness and ripens at the same time. Bunch and berry large and handsome. Tender, sweet, juicy and excellent flavor.

PORTLAND. The earliest grape we have ever found. Large white grapes, very sweet and juicy. A strong grower and very hardy.

WORDEN. Larger berries and bunches than Concord, sweeter, better quality and ripens a week earlier. Fine for the local market and the home garden, but not a good shipper on account of its thin skin.

PRICES. Grapes listed above, 25c each; 3 for 60c; 12 for \$1.75; 25 for \$3.00; 100 for \$10.00. Parcel post, 5c each extra.

12 Concord Grapes \$1.00

Being the standard commercial blue Grape of the Northern States, Concord requires no description. The fruit is large, blue-black and of very fine quality. Ripens the middle of September in Michigan. Healthy, vigorous and very productive. A good table Grape, but grown primarily for juice and jellies.

Prices of Concord: Strong, one-year-old vines, 20c each; 3 for 40c; 12 for \$1.00; 25 for \$1.75; 100 for \$6.00. Parcel post, 5c each extra.

SEEDLESS CONCORD

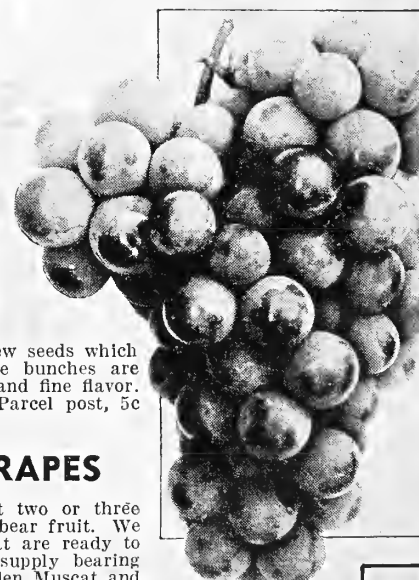

After years of experimentation and cross-breeding a perfectly hardy seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large seeded varieties for table use. It is of the Concord type, but slightly smaller, blue black in color, and possesses the same fine flavor found in the Concord Grape. This grape was first introduced by us in 1939. This year we are able to offer these plants at only 85c each; 3 for \$2.40; 12 for \$9.00. Parcel post, 5c each extra.

GOLDEN MUSCAT

After years of plant breeding, scientists have succeeded in crossing the white California Muscat Grape with our hardy northern varieties and have given us Golden Muscat. The berries are golden yellow in color, large and meaty, with very few seeds which separate easily from the pulp. The bunches are large and heavy. Excellent quality and fine flavor. \$1.00 each; 3 for \$2.50, postpaid. Parcel post, 5c each extra.

BEARING AGE GRAPES

It is no longer necessary to wait two or three years for newly set Grape Vines to bear fruit. We can now offer bearing age vines that are ready to produce a crop of fruit. We can supply bearing age vines of all varieties except Golden Muscat and Seedless Concord, at 60c each; 3 for \$1.50; 12 for \$4.50; 25 for \$8.00; 100 for \$30.00. Parcel post, 10 each extra.

Golden Muscat

NOTICE

PICK GRAPES SAME YEAR
VINES ARE PLANTED

Northern Grown Apple Trees

SUMMER APPLES

EARLY HARVEST. Fruit of medium size; bright straw color when fully ripe. Flesh of excellent quality; tender, crisp and juicy. July and August.

RED DUCHESS. Good size, bright red, streaked yellow; juicy, sour; highly esteemed for home use or market. Good crop when trees are 4 or 5 years old. August and September.

RED ASTRACHAN. Most attractive early red apple. Flesh white, crisp and juicy, with a pleasant acid flavor. One of the best early eating apples. Ripens in July and keeps until September.

SWEET BOUGH. A large, pale, greenish-yellow, sweet apple of excellent quality. Should be in every home orchard. July and August.

YELLOW TRANSPARENT. The earliest apple; good crop when trees are four to five years of age. Skin pale yellow. Flesh white, crisp, juicy, mildly sub-acid. Excellent eating and cooking apple. Ripens in July and continues in season until September.

FALL APPLES

RAMBO. Medium size; yellow, streaked red. Fine apple that does well nearly everywhere. October and November.

SNOW APPLE (Fameuse). Red skin, white flesh; juicy, mild, spicy and very tender. October to December.

TWENTY OUNCE PIPPIN. One of the largest Apples. Yellow, striped red; tender and juicy. October and November.

WEALTHY. Rich dark red. Medium to large. Flesh white, sometimes stained with red. Fine grained, tender, juicy and of excellent quality. Trees mature early; bear when 4 years old and large crops every year. September to November.

WINTER APPLES

BALDWIN. Large, bright red, crisp, juicy, rich; a splendid keeper, good cooker, and one of the most popular varieties. November to April.

CORTLAND. A variety that is gaining favor rapidly. Claimed to be an improved McIntosh. The fruits are larger than those of McIntosh, round, of a beautiful rich red color; juicy and sprightly in flavor. Better than McIntosh, because the fruits hang tenaciously to the tree and are two to three weeks later. Cortland apple trees are very thrifty and fast growers; bear the third and fourth year after planting—a money crop the sixth year. November to February.

JONATHAN. A beautiful bright red apple; medium size. Is much in demand as a fancy apple. Tender, crisp, very juicy, with a fine flavor. Comes into bearing rather young. November to February.

MCINTOSH. Medium size, deep crimson, highest quality, juicy, sub-acid in flavor, with a characteristic aroma. Due to its high quality and attractive appearance, it commands a ready sale at fancy prices. Comes into bearing about the fourth year and is a reliable cropper. October to January.

RED NORTHERN SPY. Large, red striped, juicy, mild sub-acid, with a rich, delicious flavor. Extra long keeper. None better for cooking or eating out of hand. November to May.

RED DELICIOUS. Large; covered with brilliant dark red. Flesh fine grained, tender, crisp and juicy. Mild in flavor, but not a sweet apple. Has a decided aroma which is very pleasing. A splendid keeper, and an ideal apple for the fancy or box trade. The tree is hardy, vigorous and productive. Bears about the fourth year. November to May.

ROX RUSSET. The most popular russet apple; russet-brown skin; a remarkable keeper. December to June.

STAYMAN'S WINESAP. Large; deep red skin; juicy, sour, pleasing flavor. Comes into bearing about the fourth year and is a reliable annual cropper. In season from December to May.

TOLMAN SWEET. The most popular winter sweet apple. Yellow, medium to large. Comes into bearing moderately young. October to January.

WINTER BANANA. Large; clear pale yellow with beautiful pinkish red blush. Good dessert quality. November to April.

WOLF RIVER. Fruits of enormous size; yellow, blushed with red. It has a mild sub-acid, with a spicy, slight quince-like flavor; juicy and pleasant to taste; flesh white and tender. In demand for large baking apple. October to January.

YELLOW DELICIOUS. Best yellow apple. Golden yellow in color, fine quality and flavor. Bears young. Very hardy. Good keeper. November to May.

CRAB APPLES

WHITNEY. Brilliant dark red overspread with thick blue bloom. The largest and best crab apple. Very productive.

Prices of Standard Apples

Your choice of the above varieties at the following prices:

	Per Each	Per 10	Per 100
1 year old (1½ to 3 feet)....	35c	\$2.50	\$20.00
2 year old, ⅞ inch caliper...	42c	3.20	28.00
2 year old, ⅞ inch caliper...	50c	4.00	35.00
2 year old, 1½ inch (4 to 6 feet)	60c	5.00	45.00
25 or more trees at the 100 rate.			

All fruit tree prices are for shipment by express or freight, not prepaid. If you prefer parcel post shipment, add 5c per tree for the 1-year-old trees; 10c each for the 2-yr. ⅞; 15c each for the 2-yr. ⅞; and 20c each for the 2-yr. 1½ size.

Sweet Delicious At Last the Perfect Sweet Apple

Large, bright red fruits, with the aromatic flavor of the Delicious but sweeter. Ideal for eating out of hand and for baking, and without question the best sweet apple ever offered. Keeps all winter. 2-year-old trees, 80c each; 3 for \$2.00; 10 for \$6.00.

DWARF APPLES

Dwarf Apple Trees have always been in great demand because of their adaptability to crowded quarters. The understocks were imported from France until a United States embargo a few years ago prevented it. We are now able to offer them again in limited quantities. Dwarf Apples are used in the same manner as Dwarf Pears, described on the next page. We suggest that you order early and make a second choice, so you will not be disappointed should we be sold out of the variety ordered. 2-year-old, 3 to 4 foot trees in McIntosh, Red Delicious, Wealthy and Yellow Transparent only, at \$1.25 each; 3 for \$3.00. Postage, 10c per tree extra.

"Much Surprised—Such Fine Trees"

"I was very much surprised when I opened the package to find such fine trees—far superior to any I received from any other company."—Henry John Kroth, Waverly, Ohio.

NOTICE Our Northern grown fruit trees are grown in Central New York State, where the soil and weather conditions are ideal for producing well developed, sturdy stock. Apple, Cherry, Peach, Pear, Plum, Apricot, Quince and Nectarine trees will be shipped direct from our New York growing station.

Apple, Pear, Cherry and Quince trees can now be shipped to any State in the Union.

Tame the Wild Apples

Top-Graft Wild or Inferior Apple Trees Over to Valuable Fruit

Red Delicious
Yellow Delicious
Baldwin
McIntosh
Northern Spy

There are thousands of seedling Apple Trees growing wild along fences and vacant fields. There are thousands more of old trees producing small quantities of undesirable fruit. These trees can be easily top-grafted in the spring to one or more desirable varieties. You can graft several varieties on one tree if you wish.

We can furnish dormant grafting cions of the following varieties.

Sweet Delicious
Stayman's Winesap
Yellow Transparent
Snow
Wealthy

Not less than 5 cions of any one variety at 10 for 50c; 25 for \$1.00; 100 for \$3.00, postpaid. Complete instructions for grafting sent with each order.

GRAFTING WAX. $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 35c; 1 lb., 60c, postpaid.

HOME GRAFTING ASSORTMENT. Consisting of 10 Apple cions, one of each variety listed above, one-quarter pound of Grafting Wax, and complete instructions for grafting, all for 75c, postpaid.

ORANGE QUINCE

Fruit large, bright yellow, of excellent flavor; the best Quince for all sections of the country. Unsurpassed for preserves and jellies. Both fruit and flowers are quite fragrant, and the trees and bloom highly ornamental.

Large, 2-year-old plants, 80c each; 3 for \$2.25; 5 for \$3.50; 10 or more at 65c each; 25 or more at 55c each; 100 or more at 50c each.

1-year-old, 2 to 3 feet, 55c each; 3 for \$1.50; 5 or more at 45c each; 10 or more at 40c each; 25 or more at 35c each; 100 or more at 30c each.

For parcel post shipment, add 5c per tree for the one-year-old trees and 10c each for the two-year-old size.

Standard Pear Tree Prices

Select the varieties you want at the following prices:	Per Each	Per 10	Per 100
1 year old, (2 to 3 feet).....	45c	\$3.50	\$30.00
2 year old, $\frac{1}{16}$ inch caliper..	52c	4.20	38.00
2 year old, $\frac{1}{8}$ inch caliper..	60c	5.00	45.00
2 year old, $\frac{1}{4}$ inch (4 to 6 feet)	70c	6.00	55.00

25 or more trees at the 100 rate.
The above prices are f.o.b. our New York State growing station. If you prefer parcel post shipment, add 5c per tree for the 1-year-old trees; 10c each for the 2-yr. $\frac{1}{16}$; 15c for the 2-yr. $\frac{1}{8}$; and 20c each for the 2-yr. $\frac{1}{4}$ size.

NOTICE

Apple, Pear, Cherry and Quince trees can now be shipped to any State in the Union.

DWARF PEAR TREES

Come Into Bearing the Second Year

Dwarf fruit trees solve the problem of fruit growing in small areas. They are very ornamental for the lawn and garden, come into bearing much earlier than the standard trees and are very productive. The trees never get over 8 or 10 feet high. Their low, broad heads are within reach, so that the fruit can be easily picked. These trees are set 6 to 8 feet apart and take up so little room that they can be planted in places where it would be impossible to grow a larger tree. With care, they usually commence to bear the second year after planting, and will bear good crops within three or four years. The fruit is of the same size and flavor as that borne on the standard trees.

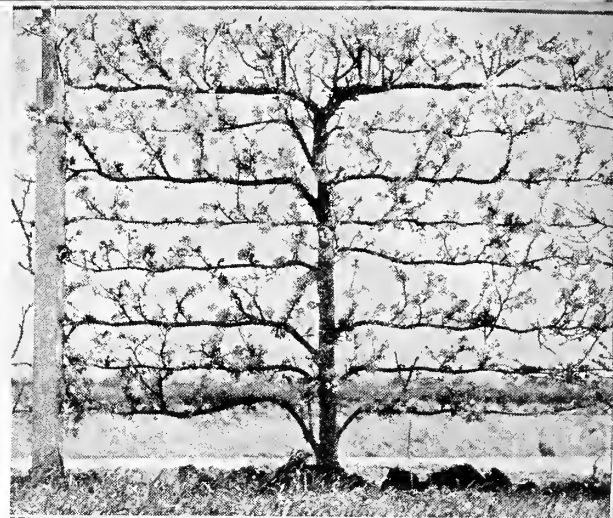

By pruning, Dwarf Pear Trees can easily be trained to grow into interesting shapes, such as pyramidal, round or flat, against buildings, fences or walls, for hedges, or on lattice like the illustration shown on this page. An abundance of best quality fruit can be secured in very little space, and the small trees be made to serve both as producers of choice fruit and attractive ornaments for the lawn. Nearly everyone can find room to grow a few dwarf trees in the shape of trellised foundation plantings along the side or rear of the house, and in other ways that their flexible manner of growth might suggest. A wonderful picture is one where the walls are embellished with these interesting trees which in the spring produce their beautiful blooms followed by their foliage and highly colored fruit.

We can furnish Dwarf Pear trees in all of the standard varieties offered on this page at the following prices.

TWO-YEAR-OLD DWARF PEARS. Will come into bearing the second year. 90c each; 10 or more at 85c each; 25 or more at 80c each.

ONE-YEAR-OLD DWARF PEARS. 2 to 3 feet. 65c each; 10 or more at 60c each; 25 or more at 55c each.

If wanted by PARCEL POST, add 5c per tree for the one-year-old trees and 10c per tree for the two-year-old size.

8 for \$1.00

These apples are known to the nursery trade as apple grafts. From selected apple trees healthy branches are cut into lengths about 6 inches long and carefully grafted to one-year-old apple tree roots. They should make a growth of from 2 to 4 feet the first season, and it will take just one year longer to produce an apple orchard of bearing age from our apple grafts than it will from our standard one-year-old trees. We recommend the larger trees to our customers who can afford to pay the difference in price, but if you can't afford to buy the older trees, then, by all means, add a dollar to your order for this collection and get an apple orchard started this year.

They will be delivered to you at the proper planting time, all ready to set out, with complete cultural directions. These small apple trees (grafts) are sold only in collections consisting of one each of the above 8 varieties for only \$1.00, postpaid.

STANDARD PEAR TREES

ANJOU. Fruit large, yellow, often flushed red. An excellent market variety because of long keeping qualities. Rich in flavor, bears early and disease resistant.

BARTLETT. The most popular pear for both home use and market. Large, golden yellow with reddish blush on the sunny side. Flesh tender, melting and juicy, with a delicious flavor. Tree vigorous; bears abundantly. Ripens in September.

BUERRE BOSCH. The highest quality and best flavored pear. Fruits large, with long, thin, tapering neck. Golden russet color. Flesh fine-grained, juicy and melting, very delicious and highly flavored. Ripens late September and early October.

CLAPP'S FAVORITE. Resembles Bartlett in size, shape and color. Flesh fine grained and very juicy. Ripens in August, about ten days ahead of Bartlett.

FLEMISH BEAUTY. Tree vigorous and productive; fruit large, yellow, covered with dull russet red; flesh juicy, melting, aromatic, rich and sweet. Ripens a few days later than Bartlett.

KIEFFER. Very productive; excellent keeper. While only fair in quality, it is an excellent canner and is in great demand for this purpose. Large, handsome fruits. The most free from insects and disease of any variety. October to December.

SEKEL. Small size and rich flavor make this pear a desirable variety for pickling and preserving. Sweetest of all pears, juicy, delicious flavor, and greatly prized for eating out of hand. Very attractive in appearance, being of a russet-yellow color, with a bright red cheek. Very prolific. September and October.

SHELDON. A pear of unusually good quality. Large, round, greenish-yellow in color, covered with a light russet. Very juicy and highly flavored. A good bearer. Highly recommended for the home orchard. October and November.

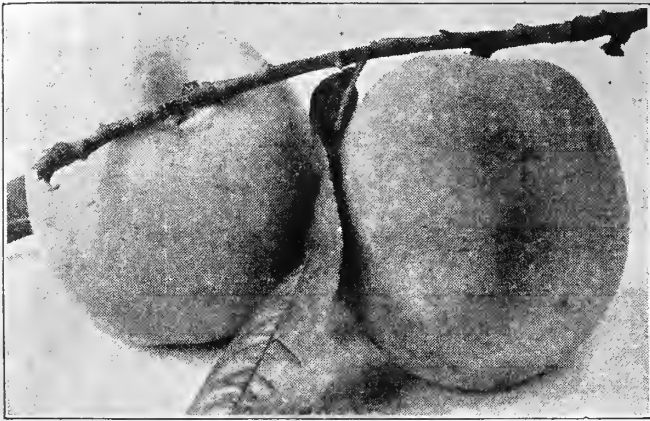

NECTARINE

A Sure Crop and One of the Most Delicious of All Fruits

The Nectarine is a cross between a peach and plum. It has smooth skin like a plum, pit like a peach, and the size is that of a small peach or large plum. It has the flavor of both plum and peach; rich, delicious, juicy. It is as hardy as the peach and requires the same culture.

BOSTON. This is the finest of all hardy Nectarines. Bright yellow with red cheek; flesh yellow and of excellent quality. Tree vigorous and an early bearer.

Large, 2-year-old trees, 75c each; 3 for \$2.10; 5 for \$3.25; or 10 or more at 55c each. One-year-old, 2 to 3 feet, 55c each; 3 for \$1.50; 5 for \$2.25; 10 or more at 40c each. If wanted by PARCEL POST, add 5c per tree for the 1-year-old trees and 10c per tree for the 2-year-old trees. Nectarine trees cannot be shipped into Arizona, California, Idaho, Nevada, Oregon, Utah or Washington.

Elberta Peach

PEACHES

BELLE OF GEORGIA. Very large, white fleshed with red cheek; firm, juicy and excellent flavor. Very hardy and grows with equal success in both North and South. Productive; early; stone semi-free to free. The most beautiful white peach grown.

CRAWFORD EARLY. A magnificent, large, yellow, early, freestone peach of unsurpassed quality. Fruit very large, golden-yellow, blushed with dark red.

CRAWFORD LATE. A grand, large, yellow freestone. One of the best late varieties.

ELBERTA. The most popular peach grown. Large, yellow with red cheek; flesh yellow, firm, juicy, highly flavored, rich and sweet; exceedingly prolific, sure bearer and hardy. An ideal mid-season variety. Free stone.

GOLDEN JUBILEE. An early, yellow, freestone Peach of the very best quality. Similar to Elberta, but ripens about one month earlier, giving the Northern grower a decided market advantage.

HALE. Beautiful golden yellow overlaid with bright carmine; larger than Elberta and ripens a week earlier. Good shipper and keeper, and on the market it commands the highest price. Freestone.

HALE-HAVEN. A cross between South Haven and Hale. Introduced by the Michigan State Experiment Station. Freestone, strong grower, very hardy and a heavy bearer. Ripens ten days earlier than Elberta and we consider it the best Peach we have ever offered.

KALAMAZOO. A beautiful peach that will bear good crops of fruit when all other varieties fail. The surest cropper of them all, and very hardy. Large, golden yellow with crimson cheek; yellow flesh, superb quality, small pit. Mid-season. Freestone.

LEMON FREE. Lemon-shaped and colored, large size, freestone, immensely productive, excellent quality. One of the best commercial peaches and the most popular for canning. Late.

ROCHESTER. In a class by itself because it is the only good sized yellow freestone peach of fine quality ready for market from the 10th to the middle of August in the Northern States. Large, yellow with a most attractive red blush; juicy, delicious and keeps well. Strong grower, good bearer and very hardy.

SOUTH HAVEN. Better than average size; prolific, dependable, and unusually hardy; ripens early; juicy, yellow flesh and free stone.

HARDEE PEACH

Stands More Cold Than Other Varieties

Hardee is the most important Peach discovered in the past 25 years. The large fruit is slightly elongated, of the Elberta type, and ripens with Elberta. It is yellow, freestone, highly colored and of fine flavor and quality. The thick skin makes it an excellent keeper and shipper.

In addition to its other superior qualities, it claims one distinct characteristic which is outstanding above all other varieties, namely, hardness.

United States Department of Agriculture reports show that when 70 per cent of all Peach trees of bearing age were killed or injured by excessive cold, Hardee Peach came through unharmed and produced a bumper crop. For the home orchardist and the commercial planter alike, Hardee Peach is the answer to crop uncertainty. It produces Peaches, and plenty of them, when other varieties fail.

Prices of Hardee Peach, $\frac{7}{8}$ " caliper, 60c each; 10 for \$4.00; 100 for \$35.00. Postage, 10c per tree extra. 18 to 24-inch stock, 50c each; 10 for \$3.00; 100 for \$24.00. Postage, 5c per tree extra.

Prices of Peach Trees

All varieties of Peach trees listed on this page, with the exception of New Hardee, are sold at the following prices:

	Per Each	Per 10	Per 100
2 to 3 feet.....	30c	\$2.50	\$20.00
$\frac{7}{8}$ inch caliper (3 to 4 feet).....	40c	3.00	25.00
$\frac{1}{2}$ inch caliper (4 to 5 feet).....	50c	4.00	32.00

25 or more trees at the 100 rate.

These prices are f.o.b. our New York State growing station. If you prefer parcel post shipment, add 5c per tree for the 2 to 3 ft. size; 10c each for the 3 to 4 ft. size; or 15c each for the 4 to 5 ft. size.

BEARING AGE PEACH TREES

We have a limited quantity of extra large 3 year old Peach trees, 7 to 8 feet high, that are ready to bear. We can furnish all varieties on this page, except Hardee, in this heavy stock, at \$1.00 each; 3 for \$2.50. Too large for parcel post shipment.

Lombard Plums

PLUMS

ABUNDANCE (Japan). Large, red, sweet, very juicy, tender and melting. Hardy and productive. Ripens in August.

BRADSHAW. Fruits large, dark reddish purple. Flesh yellow, juicy and sweet. Trees vigorous and productive. Ripens in August.

BURBANK (Japan). Skin dark red over a yellow ground; juicy, sweet. Good shipper; ripens in late August, a week later than Abundance. Large.

GERMAN PRUNE. Purplish-black, medium juicy, large. Good market variety; popular for canning, because of its sweetness. September.

IMPERIAL GAGE. Large, pale green, juicy, sweet, rich and excellent. Very popular. August.

LOMBARD. Medium size, red, juicy and sweet. Hardy and very productive; a leading market variety. Will grow anywhere. August.

STANLEY PRUNE. Large, dark blue, freestone and juicy. The flesh is firm, fine grained, sweet and of exceptionally fine quality and flavor. We consider Stanley to be the best prune ever introduced for the North.

YELLOW EGG. Extremely large yellow fruit, with firm, sweet, rather juicy flesh. Fine quality. Ripens in late August.

CHERRIES SWEET

BING. Few sweet cherries equal Bing in size, attractiveness and quality. Almost black; early; bears abundantly. Recommend planting with another sweet variety for a pollinizer.

BLACK GIANT. Attractive in size and color; the crop is late, coming in season just before Lambert which the black fruits resemble in size and color. The quality is splendid and the cherries are less subject to cracking than the Bing. Very productive.

BLACK TARTARIAN. Purplish-black; flesh tender, juicy and rich. Produces immense crops. Ripens earlier than Bing.

GOVERNOR WOOD. Light yellow, marbled with red; very large; juicy, rich and delicious. Extra early.

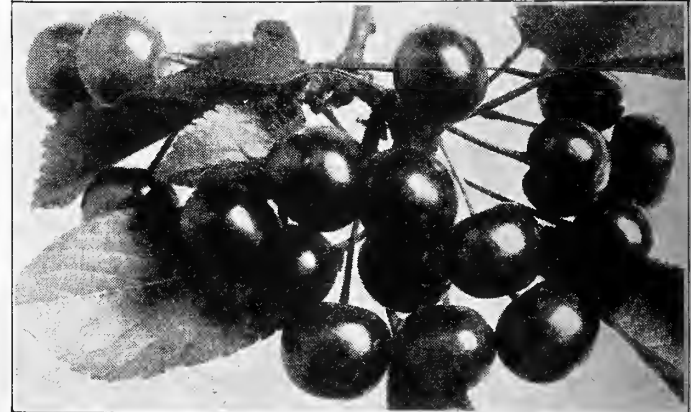

LAMBERT. A very sweet variety and one of the largest. Dark purplish red, turning almost jet black when ripe. Later than Bing.

NAPOLEON. Yellow with bright red cheek; very large, meaty and sweet. Very productive; bears young. Mid-season.

SCHMIDT'S BIGARREAU. One of the best mid-season to late sorts; color reddish-black, very large and sweet.

WINDSOR. Hardy, prolific, late variety; fruit one inch in diameter; nearly black when fully ripe; flesh firm and of very high quality.

YELLOW SPANISH. Fruit large, yellowish-white, shaded crimson. Juicy and sweet. Very early.

Montmorency Cherries

2 New Sweet Cherries

EMPEROR FRANCIS. A large sweet cherry of high quality. In color it resembles Napoleon or Queen Ann, except that it is somewhat redder and darker. It ripens a few days earlier than Napoleon and is less subject to cracking. It promises to be one of the best main crop varieties. 2-year-old trees, 75c each; 3 for \$1.95. Postage, 10c per tree extra.

GEANT D'HEDELINGEN. A very large, firm fleshed, black sweet cherry. Ripens late and is more resistant to cracking than most cherries. A beautiful variety of high quality. 2-year-old trees, 75c each; 3 for \$1.95. Postage, 10c per tree extra.

NOTICE Peach, Plum and Apricot trees cannot be shipped to Arizona, California, Idaho, Nevada, Oregon, Utah or Washington.

SOUR CHERRIES

EARLY RICHMOND. Dark red. Best early sour cherry.

LARGE MONTMORENCY. Large red cherry; larger than Early Richmond and fully ten days later. The leading commercial variety.

ENGLISH MORELLO. The standard late sour cherry. Very dark red, almost black; excellent quality. A month later than Montmorency.

PRICES of Cherries and Plums

All Plums, all Sour Cherries and all Sweet Cherries except Emperor Francis and Geant D'Heidelberg can be supplied at the following prices:

	Per Each	Per 10	Per 100
1 year old (2 to 3 feet).....	45c	\$3.50	\$30.00
2 year old $\frac{7}{8}$ inch caliper.....	52c	4.20	38.00
2 year old $\frac{3}{4}$ inch caliper.....	60c	5.00	45.00
2 year old $\frac{1}{2}$ inch (4 to 6 feet).....	70c	6.00	55.00

25 or More Trees at the 100 Rate

For Parcel Post shipment, add 5c per tree for the one-year-old trees; 10c each for the 2-yr. $\frac{7}{8}$ " size; 15c each for the 2-yr. $\frac{3}{4}$ " size, and 20c each for the 2-yr. $\frac{1}{2}$ " size.

HUNGARIAN APRICOT

You have never tasted more delicious fruits than those picked from an Apricot tree growing in Northern Ohio. This rare tree was imported in 1914 from Europe, from that territory along the banks of the Danube River. The tree is perfectly hardy. Having attained a height of 30 feet with a spread of 35 feet, with a stout, rugged trunk, 18 inches in diameter, it bespeaks itself of having withstood the trying elements of nature. It is unbelievably productive, having produced 15 bushels of luscious, pink checked Apricots in 1939. No fruit is finer for eating fresh or for canning and preserving.

The trees we offer have all been produced from this one original, and each possesses all of the same fine qualities. You can plant them with confidence that the fruit will be enjoyed for many years to come. You will also find it a very desirable lawn tree. Choice trees, 75c each; 3 for \$1.95.

Hardy Apricots

In shape and color the Apricot resembles the Peach, but in texture and smoothness of its skin, it is more like the plum. It has a most delicious flavor and is much prized for eating fresh, canning and drying.

Our Northern grown Apricots are budded on plum and are much harder than Southern stock and longer lived than those budded on peach. Two trees are recommended for better pollination.

MOORPARK. Large orange-yellow fruit with red cheek. Fine quality, juicy, rich and sweet. Freestone. Ripens in August. Hardy but not recommended in the far North because of frost damage to the early flowers.

SUPERB. A very hardy variety. Hardier than the Peach and the fruit ripens a month earlier. It being a late bloomer, it is recommended for localities where late frosts may damage earlier blooming varieties. Fruit medium size and of a golden-salmon color. Good quality, fine flavor and freestone. Ripens in July.

PRICES: Select, 2-year-old trees, by express, not prepaid, 55c each; 5 for \$2.50; 10 for \$4.50; or 25 or more at 40c each.

1-year-old, 2 to 3 ft., by express or freight, not prepaid, 45c each; 5 for \$2.00; 10 for \$3.50; or 25 or more at 30c each.

On parcel post shipments add 5c per tree for the 1-year-old and 10c per tree for the 2-year-old.

NOTICE Owing to quarantines, Apricots cannot be shipped into Arizona, California, Idaho, Nevada, Oregon, Utah or Washington.

Superb Apricot

Michigan Banana or Custard Apple

The Michigan Banana or Paw Paw is a small handsome tree about 20 feet in height, with large purple flowers, which are very beautiful and fragrant, and large dark green foliage which makes it a handsome tree for the park or lawn. Produces large yellow fruits which have the flavor of the banana and are very delicious. These fruits also resemble the banana, being somewhat shorter and thicker. The trees are very hardy and can be grown in all sections of the United States. Should be planted in every lawn and garden. 2 to 3-foot trees, 60c each; 3 for \$1.50; or 10 or more at 40c each. Add 10c per tree for parcel post shipment.

HARDY PERSIMMON

Bright, golden orange fruits of rich, spicy and delicious flavor. At their best after light frosts. The only variety found hardy in the Northern States. 4 to 6 ft., \$1.25 each; 3 for \$3.00. Add 25c each for parcel post shipment.

Michigan Banana or Paw Paw Fruits

GROW FIGS in the North

Our Dwarf Fig is particularly adapted to growing in the North, as it does well in either tubs or in the open ground. The root is perfectly hardy. In localities where the tops freeze, it can be cut to the ground, and when it begins growing again it will produce fruit on the new wood. We recommend open-ground planting wherever the growing season is long enough to grow a new top and mature a crop of fruit. Where the season is too short for this we recommend planting in tubs, so plants can be taken inside following the first few fall frosts and stored for the winter. Plants will winter safely in an ordinary cellar. Our Dwarf Fig will develop a crop of fruit farther north than any other variety. We recommend tub culture north of Philadelphia. Plants bear the first year they are set out, and abundantly each year thereafter. The fruit is very sweet and delicious, of good size, with flesh that is firm and meaty, and of very fine quality for making preserves, jams, canning, drying, or to eat in the fresh state. Northern field-grown stock, 50c each; 3 for \$1.25. Add 10c each for parcel post shipment.

Dwarf Fig Fruits, Reduced in Size

Hardy Chinese Date

The Chinese Date (Jujube or Zizyphus) is a fruit from the high interior of China, which, we are sure, will prove to be one of the most valuable for our country. It is adapted to a wide range of territory and all kinds of soil. It is quite hardy, the United States Department of Agriculture bulletins reporting that it has withstood temperatures of 22 degrees below zero without injury.

The tree is a heavy and constant bearer and commences to bear at an early age, four-year-old trees having produced 150 pounds of fruit. It blooms very late in the spring, avoiding all danger from spring frosts. The fruit is one to two inches long, and chocolate colored. It is delicious when eaten fresh or cured like dates, and is excellent for preserves and jam. Cooked in a sugar syrup and allowed to dry it becomes a most tasty and palatable confection which we believe will eventually rival the date as a commercial product. Because of its productiveness and its highly nutritious and delicious fruit, capable of being used in many ways, it is sure to be a valuable addition to the orchards and gardens. 2 to 3 feet, \$1.15 each; 3 for \$3.00. Add 10c each for parcel post shipment.

Bush Cherry

The Improved Bush Cherry is the result of over thirty years of hybridizing and plant selection. It fills the need of the small home grounds where space is limited. It not only produces fine quality fruit, but makes a desirable ornamental shrub with masses of white flowers in early spring, and silvery-green foliage turning to red and gold in the fall. The cherries are of fine flavor when eaten in their fresh state and also make excellent jams and preserves.

The fruit resembles a plum, but the plant grows in the form of a bush, 4 feet tall at maturity, and produces fruit on all of its branches from the ground up. Bears early and abundantly each year. Frequently produces fruit the same year as planted. Very easy to grow and does not require spraying like Plums and Cherries.

Owing to quarantines, Bush Cherry plants cannot be shipped into Arizona, California, Idaho, Nevada, Oregon, Utah or Washington.

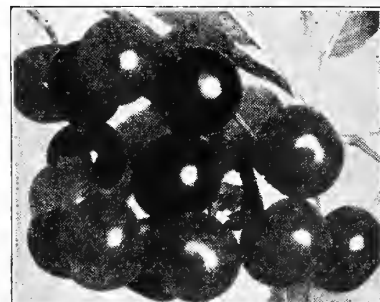

PRICES: 2-year-old plants, 30c each; 3 for 75c; 12 for \$2.60. Add 5c per plant for parcel post shipment.

Improved Dwarf Juneberry

A good substitute for the large or swamp Huckleberry or Blueberry which it resembles in appearance and quality. The fruits are larger than the Blueberry and ripen earlier in the season. Fruits are borne in clusters; are reddish purple in color, changing to bluish black when ripe. In flavor it is rich, mild and subacid, and the plants are wonderfully productive. It is perfectly hardy in all climates, and has an advantage over the Blueberry in that it does well on all kinds of soil. In addition to its value as a fruit, it is a highly ornamental bush for the yard, especially in early spring, at which time it is a mass of pretty white blossoms. Plants, 25c each; 3 for 50c; 12 for \$1.75; 25 for \$3.25; 100 for \$12.00. Add 5c per plant for parcel post shipment.

Chinese Date

Improved Dwarf Juneberry

Burgess Seed & Plant Co.
Galesburg, Michigan

Eldorado Blackberry

Lucretia Dewberry

Cumberland Black Raspberry

Bearing Age Raspberry Plants

A Cash Crop this Summer

We are able to offer our customers, at very little additional cost, 2-year-old plants of some varieties, which will bear a good crop of fruit the same season they are set out. They have been transplanted and grown in the nursery one year longer than our regular number one grade plants. Notice the prices at the bottom of this page.

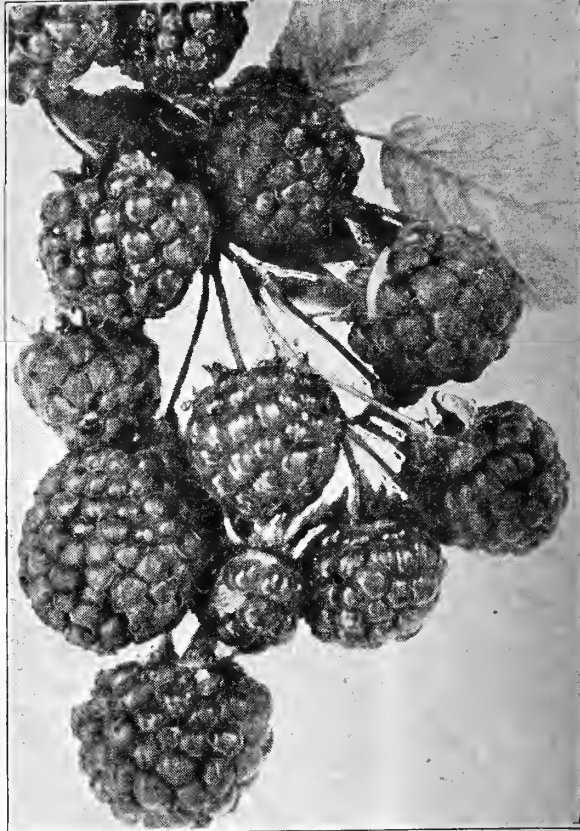

BLACKBERRY

ELDORADO. We recommend this variety ahead of all others. Berries large in size, very sweet, and of delicious flavor and quality. One of the hardiest blackberries in cultivation; has never been known to winterkill. Very productive and never fails to ripen a crop.

DEWBERRY

Lucretia Dewberries are bringing big money. They ripen a week or ten days ahead of common blackberries, the bulk of the crop being harvested before other blackberries start to ripen.

The Dewberry belongs to the blackberry family, and the Lucretia is the best of them all. The large berries are incomparably better than any blackberry grown; of unequalled excellence; sweet and luscious throughout, and of bright glossy black color. They are very productive, and the most profitable of all fruit crops to grow. The Lucretia has received the highest endorsement and highest praise from the best horticulturists in the country. Its trailing habit renders it less liable to winterkill. Lucretia may be propagated from the tips, like black raspberries. It does not spread or sucker.

Sodus Purple Raspberry

RASPBERRIES

CUMBERLAND (Black). The largest and most productive black raspberry. Ripens medium-early and continues throughout the raspberry season. Very hardy, and the most profitable market sort.

GOLDEN QUEEN (Yellow). A beautiful, large, golden yellow raspberry. Many prefer this variety to any of the red or black sorts, owing to its sugary sweetness and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, of strongest growth and very productive.

LATHAM (Red). Conceded to be the best main-crop red raspberry. It has more points of merit and has come into general planting more rapidly than any other raspberry ever introduced. It is vigorous in growth; withstands the winters in Canada without covering; and exceptionally free from mosaic and other diseases. The large berries, some running over an inch in diameter, and the deep red color make it most attractive, and it is the most productive variety grown. Growers are beginning to realize that no other red raspberry will make them so much money so surely and quickly as the Latham. The leading commercial variety throughout the country.

INDIAN SUMMER (Everbearing Red). Decidedly superior to any other everbearing Red Raspberry. The berries are exceptionally large, dark red and of unsurpassed quality. Plants produce a heavy summer crop that ripens with the standard varieties of Red Raspberries. The autumn crop starts in early September and continues until severe frost. Plants very hardy, vigorous, of medium height and bear heavy crops. An exceptionally fine berry and a money-maker.

SODUS (Purple). This is one of the finest berries ever offered. It is a cross between a black raspberry and red raspberry, and possesses all the qualities of each. The berries are of large size; purple in color; seeds small and deeply imbedded in a rich, juicy pulp. They do not crumble when picked, are good shippers and good keepers, and are better for canning than either red or black raspberries. The habit of growth is like that of the black raspberry, so does not sucker or spread from the root. The canes are model growers; vigorous and healthy. Enormously productive, and is unexcelled in flavor either fresh, canned, or in pies.

Set Blackberries 6 to 8 ft. apart; Black Raspberries, 5 to 6 ft.; Red Raspberries, 4 to 5 ft., Dewberries, Boysenberries and Youngberries, 4 to 6 ft.

Prices of One Year Old Berry Plants

	Per 6	Per 12	Per 25	Per 100	Per 500	Per 1,000
Blackberry, Eldorado	\$0.45	\$0.75	\$1.00	\$3.00	\$10.50	\$20.00

GINSENG

Orders for Ginseng seed will be filled in the fall unless other instructions are given, as spring planting is not recommended. Pkt., 25c; 5 pkts., \$1.00. Seed in bulk, \$3.00 per 1,000; \$12.50 per 5,000; \$22.50 per 10,000; \$50.00 per 25,000, postpaid. 2-year-old plants, 25c each; 12 for \$1.00; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 1,000 for \$30.00, prepaid.

GOLDEN SEAL

Golden Seal seed can be supplied in the fall only. Place orders early to be sure of getting delivery. Pkt., 25c; 5 pkts., \$1.00. Seed in bulk, \$3.00 per 1,000; \$12.50 per 5,000; \$22.50 per 10,000; \$50.00 per 25,000, postpaid. 2-year-old plants, 25c each; 12 for \$1.00; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 1,000 for \$30.00, prepaid.

Giant Cultivated Blueberries

Delicious—Ornamental—Profitable

Blueberries are easily grown, ornamental in the lawn or shrubby border, and extremely useful from the standpoint of the fruit produced. They come into bearing the third year and reach full production in about the sixth. **Ten pint boxes of fruit from each plant or 6,000 pints per acre,** retailing at 25c to 40c per box. The fruit is several times as large as the wild type, frequently $\frac{1}{2}$ inch in diameter.

The cultivated forms of Blueberries are easy to grow and practically free from disease and insect pests. To insure proper growth the soil should be acid. This soil condition can easily be produced by the application of peat or the use of Sodus Acid Humus. See pages 37 and 79 for prices of Peat and Sodus Acid Humus.

As two plants are required for pollination we recommend that you buy at least 2 plants, each

a different variety. With each order we furnish complete cultural directions.

CABOT. Early. Bears a heavy crop of large sweet berries. Grows 4 to 5 feet high.

RANCOCAS. Mid-season. Very large berries and one of the sweetest. 4 to 5 feet high.

RUBEL. A few days later than the above. Vigorous grower and very productive, bearing large quantities of slightly tart berries. Grows 6 to 8 feet. The standard main crop variety for commercial planting.

PRICES: 1-year-old plants, your choice of the above varieties, at 40c each; 3 for \$1.00; 12 for \$3.00, postpaid.

2-year No. 1. 75c each; 3 for \$1.80; 12 for \$6.00. Add 10c per plant for parcel post shipment.

2-year Fancy Grade. Frequently bear fruit the first year. 90c each; 3 for \$2.40; 12 for \$8.00. Add 15c per plant for parcel post shipment.

Rubel Blueberries

BOYSENBERRY 2 to 2½ Inches in Length

**Greatest Money Maker of All
Out-Yields All Other Cane Fruits**

The Boysenberry is the most remarkable berry introduced in many years. It is the one berry that is proving its worth in all parts of the United States for both the home garden and the commercial planter. They command high prices on the fresh fruit markets, and are equally as popular in the fancy food class of canned fruits and preserves.

The Boysenberry is just as easily grown as Blackberries or Dewberries, and is much more productive. The fruit is larger and of better quality. Many of the rich, luscious wine-colored berries measure 2 to 2½ inches in length. Reports have been received of yields of nearly double that of Blackberries on the same farm.

Boysenberry is no longer an experiment. It is a proven money-maker. Last year we were unable to fill all of our orders because of plant shortage. Order early and get a planting started. If you have only a home garden, don't miss this delicious new berry. If you grow berries for profit, Boysenberry will outyield and out-sell anything you have ever planted.

Boysenberry

Prices of Boysenberry Plants: 3 for 50c; 12 for \$1.10; 25 for \$2.00; 100 for \$5.50; 500 for \$21.00; 1,000 for \$40.00. Add one cent per plant for parcel post shipment.

THORNLESS BOYSENBERRY

For years growers of cane fruits have dreamed of picking berries without scratches and torn clothing. Thornless Boysenberry is the answer to that hope and dream.

Thornless Boysenberry is equal to the thorny type in every respect, and has two distinct advantages.

THORNLESS. Exactly that. The branches are smooth and entirely without the disagreeable thorns or briars.

EARLY. Ripens a week ahead of the thorny type thus placing the first pickings on the market at a time when the fruit commands the highest price.

Prices of Thornless Boysenberry Plants: 40c each; 3 for \$1.00; 12 for \$3.50. Add one cent per plant for parcel post charges.

EVERBEARING RUNNERLESS Strawberries from Seed

Baron Solemacher. This wonderful novelty does not have runners, flowers within eight weeks after sowing, and produces great quantities of fruit throughout the season. Superior quality, pleasing aroma, and rich, wild-Strawberry flavor. Plant seed this spring, and harvest a crop this coming summer and fall. Hardy everywhere. Pkt., 25c.

STRAWBERRIES

All varieties of Strawberries listed in this catalog are perfect flowering and do not require other varieties for cross-pollination.

Ambrosia One of the largest berries ever produced. Sparkling, bright red and deliciously sweet. Ripens after other varieties are gone, making an ideal late market variety. The fruit is borne on long stems held well off the ground. An exceptionally fine berry and highly recommended.

Fairfax Experienced Strawberry growers who have tested Fairfax have placed it at the very top of the list for quality. It is extra early, having the same bearing season as Premier, but is a much heavier bearer. The early blooms do not show serious frost damage, and the fruiting season extends over a long period. Flavor rich and sweet, bright red in color. Holds up well as a market variety and stands long-distance shipping.

Premier A valuable extra early Strawberry. A large berry of uniform shape and size, excellent quality, rich color and highly resistant to frost. These qualities make Premier a profitable market variety.

Senator Dunlap The old standby. A mid-season variety that grows on all types of soil and in all climates. A good producer and a fine berry.

Mastodon Everbearing

**Set Strawberries 18
Inches Apart in Rows 3 Ft.
Apart; 9,700 Per Acre.**

WAYZATA EVERBEARING The Home Garden Berry

If you have room for only one variety in your garden, be sure to plant Wayzata. The plants seldom make runners so the entire strength goes to produce large crops of very sweet and delicious cardinal-red berries. An easy variety to grow and ideal for the home garden as they need be set only one foot apart. A sure bearer, even during hottest weather. If planted in April, you can start to pick berries in July and almost continuously from then until October or November.

Mastodon Everbearing Strawberry

18 Berries Fill a Quart Box

Mastodon is a great money maker, as it will produce an enormous crop of big berries during the summer and fall months with just ordinary care. It succeeds under practically all climatic and soil conditions, even producing paying crops in dry climates. Our thrifty plants set in the spring will produce a crop of berries in 90 days and continue through summer and fall until stopped by freezing weather.

Eighteen or twenty berries will often fill a quart box. They are rich glossy red, of firm and solid texture, and delicious in flavor. A small planting will keep the home table supplied with berries throughout the summer and fall. A large planting will reap hundreds of dollars for the farmer.

GEM, THE MONEY-MAKER Leading Market Everbearer

The Gem is a most popular Everbearer, its many fine qualities making it one of the leading market varieties. It is unexcelled for both quality and flavor. The fruit is well shaped and uniformly large. It is sparkling red in color, rich, and exceedingly sweet. Unsurpassed for keeping qualities and the firmness of the fruit permits its being handled for long-distance shipping, even during hot weather. Fruit buyers take Gem ahead of any other Everbearer. The plants are so sturdy that it is not necessary to remove the first blooms. Plant this spring and have ripe berries in just a few weeks.

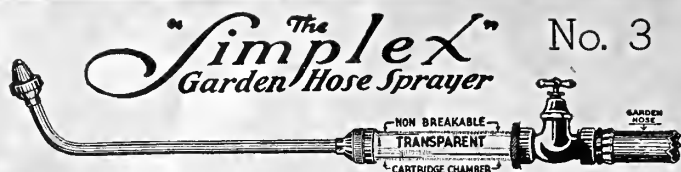

PRICES of Strawberry Plants

	Per 25	Per 100	Per 500	Per 1,000
Ambrosia	\$0.50	\$1.00	\$3.50	\$6.50
Fairfax50	1.00	3.50	6.50
Gem Everbearing60	1.40	4.75	9.00
Mastodon Everbearing ..	.65	1.65	5.50	10.00
Premier45	.95	3.10	5.75
Senator Dunlap40	.80	2.50	4.50
Wayzata Everbearing....	1.35	4.50	15.00	29.50

The above prices are for shipment by express, not prepaid. If you want them sent by parcel post, add 10c for each 25 plants, to cover postage and special packing. Strawberries cannot be shipped with other stock, so we recommend parcel post shipments in lots of less than 100. Strawberry plants cannot be shipped into California.

Prevent Damping-Off

Scab, Mold, Black Leg, etc.

Stop Damping-Off. Unprotected tender seedlings are helpless before this deadly fungus disease. Every planter of vegetable and flower seeds should use FORMACIDE to prevent seeds decaying in the ground and to prevent seedling plants from dying when small. By applying FORMACIDE to the soil and using Burgess' Disease Treated Seeds, your seedlings and plants are, at a very small expense, doubly protected against the most serious plant disease problem confronting horticulturists. FORMACIDE also disinfects the soil sufficiently to kill other fungus diseases which may cause scab, mold, black leg, etc. It also stimulates plant growth, gives stronger plants, and increases productivity. Soil treated with FORMACIDE can be planted immediately. FORMACIDE can even be mixed with fertilizer and drilled directly with the seed at the rate of 1 lb. to a 450-foot row.

PRICES: ½ lb., 45c; 1 lb., 75c; 5 lbs., \$2.00, postpaid.

Will not deteriorate from rain or sprinkling. 1½-lb. package, 53c; 4-lb. package, \$1.25, postpaid. By express, not prepaid: 1½-lb. package, 35c; 4-lb. package, 85c; 15-lb. bag, \$3.00.

NASH MOLE TRAP

The Only Trap That Always Catches the Mole in All Kinds of Ground

There are three types of mole traps, the choker or loop trap, the harpoon type and the scissor-jaw trap. The Nash Mole Trap is of the choker or loop-type.

Recommended by the Iowa Agricultural Experiment Station

The Iowa Agricultural Experiment Station recommends the Nash choker or loop type as being by far the most effective. On the campus at Iowa State College, where moles were doing considerable damage, the three different types of traps were tested. Seventy-five moles were trapped, seventy of which were caught in four of the [Nash] Choker or loop traps, and five in two of the harpoon type traps. No moles were caught in the two scissor-jaw traps. This test certainly proves the superiority of the Nash trap over all other types of mole traps.

This trap catches the mole when it comes from either direction. The trigger pan is located between the two choker loops, which are sufficiently far apart so the mole in passing will always spring the trap and can not fail being caught by one of the loops. \$1.50 each; 3 for \$4.20; 12 for \$15.00, postpaid.

RED ARROW Garden Spray is absolutely non-poisonous to children, poultry, pets and everything but insects. Death is absolutely sure to both chewing and sucking insects. When properly used it will not burn, blight or stain the tenderest leaf, flower, petal or fruit. May be sprayed on fruit or vegetables before they are eaten, and no harmful effect can ensue on health or digestion.

NON-POISONOUS
RED ARROW
GARDEN SPRAY
PYRETHRUM-ROTENONE

RED ARROW is recommended for Rose Bugs, Aphids, Red Spiders, Leaf Hoppers, Mealy Bugs, Cut Worms, Caterpillars, Cabbage Worms, Tomato Worms, Wire Worms, Army Worms, Box Mites, Currant Worms, Fern Scale, Thrips, Squash Bugs, Aster Beetles, Japanese Beetles and many other beetles and bugs.

RED ARROW will kill fleas on cats and dogs.

RED ARROW is effective, economical and nearer a 100% killer of a larger number of kinds of insects than any other insecticide known.

1 oz. bottle makes 4 to 8 gals. spray, 35c, postpaid.

4 oz. bottle makes 15 to 30 gals. spray, \$1.00, postpaid.

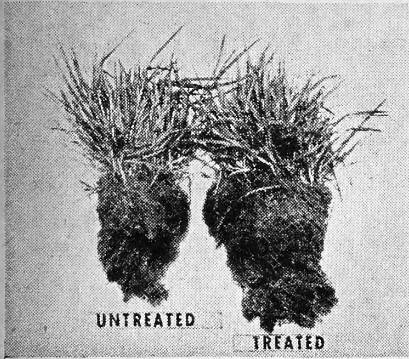

1 pint bottle makes 70 to 140 gals. spray, \$2.85, postpaid.

1 quart bottle makes 140 to 280 gals. spray, \$4.00 express, not prepaid; \$4.30, postpaid.

1 gal. bottle makes 560 to 1,100 gals. spray, \$10.70 express, not prepaid; \$11.60, postpaid.

Hormone-Treated Lawn Grass Seed

Produces a More Beautiful Lawn
Germinates Quicker—Withstands Drought

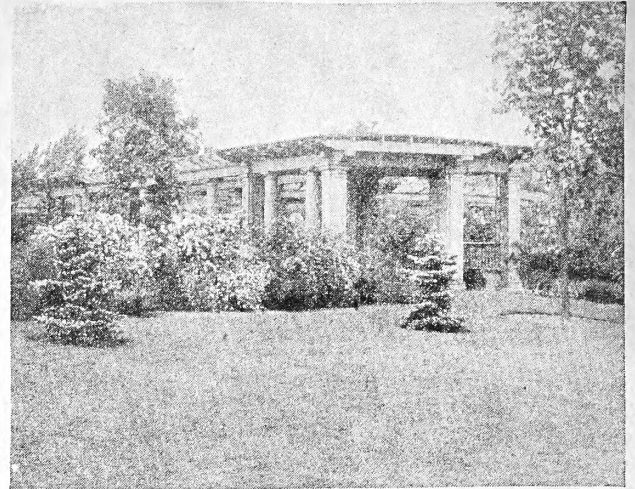

Treated plant has close to three times the root strength of untreated one.

Science has proven that Hormone-treated Grass Seed germinates quicker and produces a soft, luxuriant turf that is deeper rooted and better able to withstand drought. It is the modern, scientific way of securing a finer, more velvety, better colored, stronger growing, thicker turf, and a deeper root system which taps lower ground levels and brings more food and moisture to the plants.

Those who want the finest lawn must sow the finest seed. Those who sow Burgess' Lawn Grass, sow the best obtainable, and when such high quality seed is Hormone-treated, the results are simply amazing.

We use no timothy or clover in our mixtures. Avoid lawn mixtures which contain timothy. Timothy is a hay seed and produces coarse stems which ruin the lawn. It is used in cheap mixtures on account of its low price. We supply Hormone-treated White Clover seed at the below quoted prices to those who want to sow it either separately or with grass seed.

Burgess' Evergreen Lawn Mixture

"Soil-Vitamines" Makes Grass Grow Discourages Weeds

"Soil-Vitamines" is a highly concentrated ammonium sulphate fertilizer (not a Vitamin B₁ product) that increases the growth of grass and brings about a soil condition unfavorable to weeds. Used with remarkable results by the leading Golf Associations for producing velvety, weedless putting greens and fairways. It is also excellent for vegetable and flower gardens, shrubs and house plants. A 10-lb. bag contains as much nitrogen as 500 lbs. of stable manure. 10 lbs. will cover 2,500 square feet of lawn or garden. Complete directions in each bag. Easy to apply, clean, no odor, non-poisonous, non-inflammable. 10-lb. bag, 65c; 25-lb. bag, \$1.25; 50 lbs., \$2.25; 100 lbs., \$3.90, f.o.b. Galesburg.

Burgess' Evergreen Lawn Mixture

Composed of the finest lawn grasses. The best mixture obtainable, and in the end the most economical. High germination and free from chaff. One pound will sow 200 square feet. ½ lb., 35c; 1 lb., 60c; 3 lbs., \$1.60; 5 lbs., \$2.50; 10 lbs., \$4.50, postpaid. By express, not prepaid, 5 lbs., \$2.00; 10 lbs., \$3.50; 25 lbs., \$8.00; 100 lbs., \$30.00.

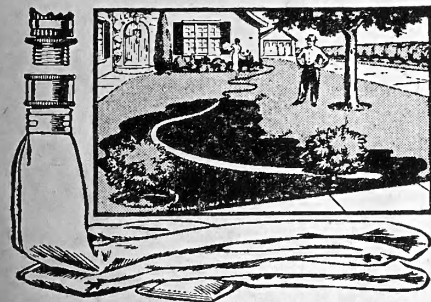

Colonial Bent Grass

This is the most popular grass for golf courses and it is gaining in favor as a lawn grass. It makes a soft, beautiful, permanent lawn, and a sod that is wonderful for terraces. Rain cannot wash tiny ditches in your terrace; neither will your sidewalks or driveways be covered with dirt if you use Bent Grass on your lawn and terraces. Our Colonial Bent is the best Bent Grass obtainable, and we consider that we are fortunate in being able to supply our customers with a superior quality of this splendid grass. Seed at the rate of 1 lb. for each 400 square feet. ½ lb., 70c; 1 lb., \$1.25; 3 lbs., \$3.30; 5 lbs., \$5.30; 10 lbs., \$10.00, postpaid. By express, not prepaid, 5 lbs., \$4.80; 10 lbs., \$9.00; 25 lbs., \$22.00; 100 lbs., \$87.00.

Burgess' Shady Nook Lawn Mixture

On nearly every lawn are unsightly spots under trees, where grass does not do well. Our Shady Nook Mixture contains grasses which naturally grow in shady places. ½ lb., 40c; 1 lb., 70c; 3 lbs., \$1.95; 5 lbs., \$3.00; 10 lbs., \$5.50, postpaid. By express, not prepaid, 5 lbs., \$2.50; 10 lbs., \$4.50; 25 lbs., \$10.50; 100 lbs., \$40.00.

SOIL—SOAKER

Like All Night Rain Really Soaks the Soil

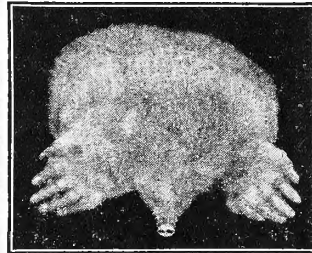

Water seeps through entire length gently—no spray—puts water where you want it—all soaks to the roots. Made of scientifically treated, mildew resistant canvas, one end screws to water hose, other end closed. Water seeps through every pore, soaks directly into the soil over an area of several feet on all sides. No spray—no waste on walks, driveways, in street—no excessive evaporation. Ideal for lawns, terraces, flower and vegetable gardens, hedges, shrubs, trees, etc. Savings on water bills, as much as 25%.

Sizes—12-foot, \$1.25; 18-ft., \$1.75; 30-ft., \$2.75; 50-ft., \$4.50, postpaid.

Hormone-Treated White Clover for Lawns

We have an Extra Fancy Dwarf White Clover that is especially fine for sowing with lawn grass mixtures. For this purpose we recommend one ounce to each pound of grass seed. Hormone-treated seed produces more than twice the usual root system in 9 weeks after planting. Pkt. (about one ounce), 10c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.20; 3 lbs., \$3.30; 5 lbs., \$5.30; 10 lbs., \$10.40, postpaid. By express, not prepaid, 5 lbs., \$4.80; 10 lbs., \$9.40; 25 lbs., \$23.00; 100 lbs., \$90.00.

“Among the things I ordered from you was an Oriental Rose Vine. I wish to commend you on the way you wrapped and mailed it. It came this long distance in perfect condition.” — Mrs. M. Schmitz, Cambridge, Idaho.

KILL MOLES The Easy Way

MOLOGEN eliminates moles in two or three days. It is easy to use and there is no messy disposal job. It is non-poisonous to birds and pets. Emits no gas and is odorless.

To use **MOLOGEN** make small holes in the ridges made by the moles—insert about one teaspoonful in the hole. The moles in the underground passages are killed by this scientific mole eliminator.

MOLOGEN is prepared in powder form and will not injure

the grass or soil.

½ lb., 60c; 1½ lbs., \$1.40; 5 lbs., \$4.35, postpaid. By express, not prepaid, ½ lb., 50c; 1½ lbs., \$1.25; 5 lbs., \$4.00.

SOILMASTER PLANT FOOD

Soilmaster is a decomposed, concentrated leaf-mold and decayed vegetation properly mixed with marl and scientifically blended to give the best results. It should not be confused with plain peat-moss or muck. No filler is used in its composition. By adding water it gradually breaks down so the plant receives food throughout the growing season. This is the humus to use on lawns around shrubs and in your garden. Holds seven times its weight in moisture and is a good fertilizer. Rejuvenates gardens, lawns, shrubbery and trees; is a natural plant food, a natural soil builder; far superior to stable manure, has the same fertilizing value, is clean, odorless and does not burn; and can be applied any time and anywhere. Is ideal for potted plants, bulbs and flower gardens. Requires less water after application than other fertilizer as it holds moisture for an indefinite period. Makes the soil mellow and prevents baking. Soilmaster goes farther, lasts longer and is more economical; two bushel bag, which is approximately 100 lbs. is enough for 100 sq. ft. of lawn surface or 8 good sized shrubs or ornamentals. You are assured of a three years' growth in two years' time by using Soilmaster. 2-bushel bag, by freight, not prepaid, \$1.00; 10 or more bags, 90c per bag.

ADCO ARTIFICIAL MANURE

Turn your lawn cuttings and garden rubbish into manure with Adco. Adco is a powder which, when mixed with vegetable waste and kept moist, converts the whole mass into a clean, odorless manure in 3 or 4 months. Equal to the barnyard product as a fertilizer and free from foul odor, flies, weed seeds, etc. You can easily convert your straw, corn stalks, weeds, leaves, lawn cuttings, etc., into manure at very little expense.

It has long been a mystery why the artificial manure made with Adco gives such superior, long-lasting fertility to the soil. At last the mystery has been solved. Scientific research has demonstrated that Adco manure supplies not only the ordinary plant foods, plus available humus, but is a source of those strange bodies, the vitamins, without which neither plants nor animals can thrive. Adco manure contains not only the now-famous Vitamin B₁, but other vitamins scarcely less essential to plant health.

One pound of Adco is enough for four cubic feet of refuse and makes 40 lbs. of organic plant food; 50 lbs. make a ton.

By express, not prepaid, 25 lb. sack, \$2.00; 7½ lb. size, \$1.00. 7½ lb. size, by parcel post, postpaid, for \$1.60. By freight, not prepaid, 100 lbs., \$7.50; 150 lbs., \$10.50.

Sodus Acid Humus

Sodus Acid Humus will hold moisture and has the same fertilizing value as Soilmaster, the only difference between the two is that Sodus Acid Humus is sour and Soilmaster sweet. We recommend Sodus Acid Humus for Evergreens, Rhododendrons and Blueberries, or any shrub or ornamental that requires an acid soil. It is also ideal for bent-grass lawns where an acid condition is necessary. 2-bushel bag, by freight, not prepaid, \$1.00; 10 or more bags, 90c per bag.

Explanation of Table Below: Page numbers prefixed with S, Seeds; B, Bulbs or Tubers; P, Plants, Roots, Shrubs or Trees

W. F. HALL PRINTING CO.

New Flame Dahlia

**BURCH
FORAKER**

\$1.50

The new Flame Dahlia (Burch Foraker) is one of the most outstanding and highest rating Dahlias introduced in many years. The sensation of every garden and flower show. The flowers of brightest flame-red are 12 inches and more across, produced on long straight stems. The plants grow 9 feet tall with 6 to 8 flowering stalks. We cannot recommend this variety too highly. Sold last year at four to six dollars each. Our special low price, **\$1.50** each; 3 for **\$4.00**, postpaid.

Lythrum Pink Profusion

A mass of flowers from early summer until fall—always in bloom. Spikes after spike, loaded with deep pink flowers, grows out of the crown of the plant, literally flowering its way upward to a height of about 30 inches. After the spikes have flowered themselves to maturity they should be cut. In an incredibly short time more flowering branches will make their appearance—a real "cut-and-come-again" that needs no pampering. A satisfying plant that is neat of habit and easy to grow, and will provide a summer of complete enjoyment. Blooming size plants **40c** each; 3 for **\$1.00**; 12 for **\$3.25**, Postpaid.

Begonia Westport Beauty

See color photo at right

Such beauty and charm in a plant so compact seems unbelievable. The Westport Beauty Begonia starts blooming when only a few inches high and continues to bloom prolifically as long as it grows. Not just ordinary flowers either. These flowers are a rich, deep salmon-pink, glistening in the light, and so double they seem to fairly burst out from the center. It will prove a most satisfactory house plant, not only because of its lasting qualities and neatness of habit but also because of its ease of growth. **40c** each; 3 for **\$1.00**; 12 for **\$3.25**, Postpaid.

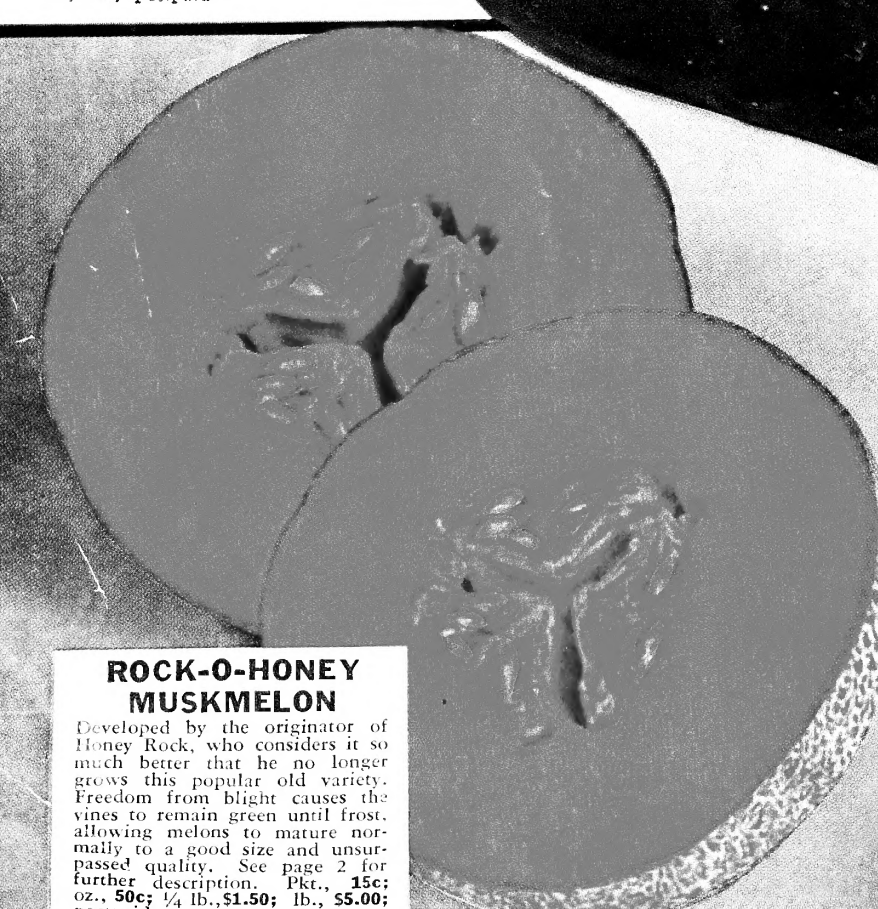

Tomato Pride of the Market

Big money maker for the early market. Only a day or two later than Earliana, but a tomato of good size and superb quality. See page 5 for further description and quantity prices. Pkt., 10c; 1/2 oz., 30c; oz., 50c.

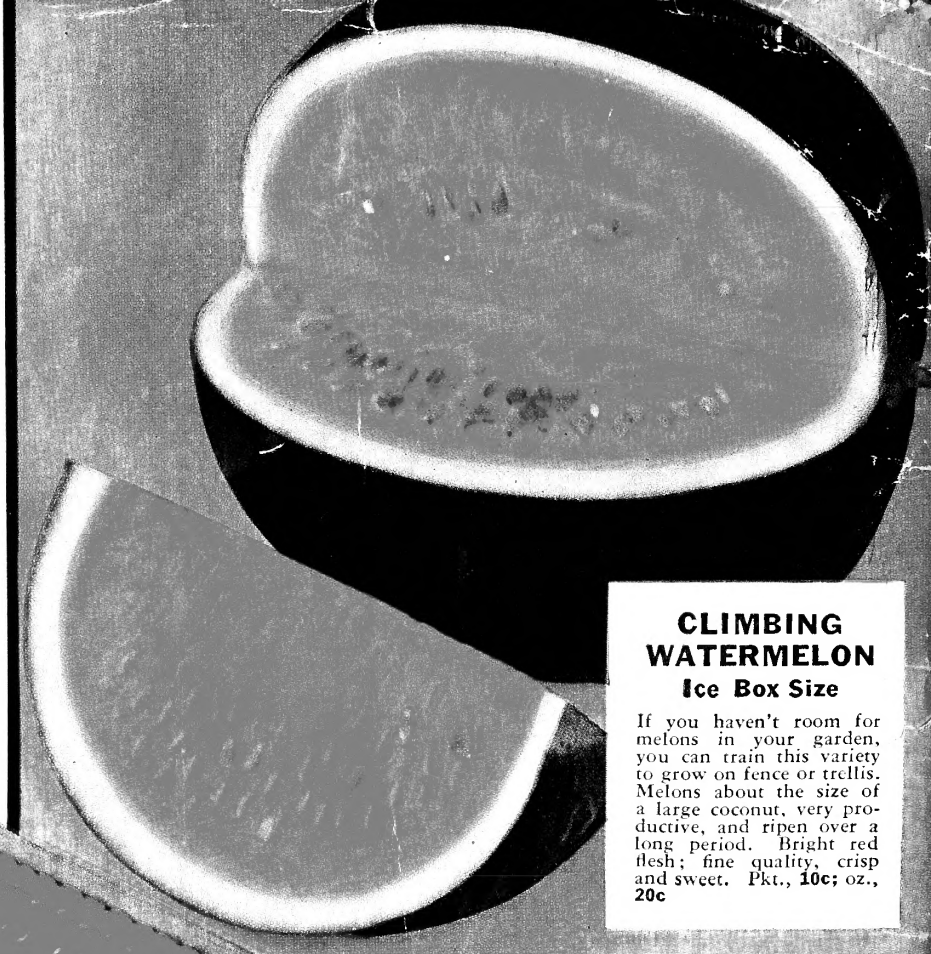

English Hybrid White Spine CUCUMBER

This is the aristocrat of the Cucurbit family. An attractive variety of best quality. A real money maker for the grower who caters to the best class of trade. Also recommended for those who want something extra fancy for the home garden. See page 12 for description and quantity prices. Pkt., 10c; oz. 20c; 1/4 lb., 50c, postpaid.

ROCK-O-HONEY MUSKMELON

Developed by the originator of Honey Rock, who considers it so much better that he no longer grows this popular old variety. Freedom from blight causes the vines to remain green until frost, allowing melons to mature normally to a good size and unsurpassed quality. See page 2 for further description. Pkt., 15c; oz., 50c; 1/4 lb., \$1.50; lb., \$5.00; postpaid.

CLIMBING WATERMELON

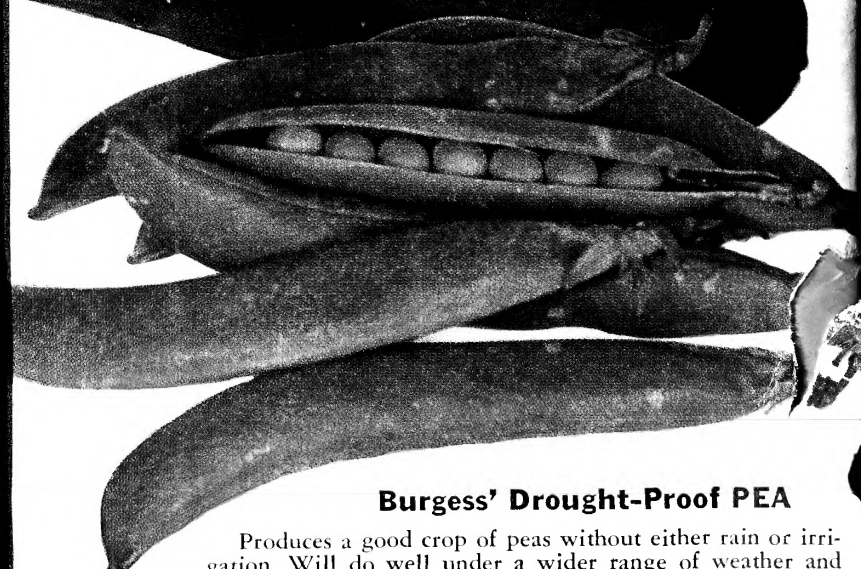

Ice Box Size

If you haven't room for melons in your garden, you can train this variety to grow on fence or trellis. Melons about the size of a large coconut, very productive, and ripen over a long period. Bright red flesh; fine quality, crisp and sweet. Pkt., 10c; oz., 20c

Burgess' Drought-Tolerant HYBRID SWEET CORN

This new hybrid is a leader from the standpoint of yield, drought-resisting and eating qualities. Ears 12 to 14 rowed, small cobbed, 7 to 8 inches long, and mature in 86 days. Pkt., 15c; 1/2 pt., 25c; pt., 45c; qt., 80c; 2 qts., \$1.50 postpaid. See page 9 for quantity prices.

Burgess' Drought-Proof PEA

Produces a good crop of peas without either rain or irrigation. Will do well under a wider range of weather and soil conditions than any other variety. See page 21 for quantity prices. 1/2 pt., 22c; pt., 40c; qt., 70c; 2 qts., \$1.25, postpaid.
